This Product is authorised in Luxembourg and in accordance with the UCITS Directive.

Date of Production of the KID: 20/10/2023

You are about to purchase a Product that is not simple and may be difficult to understand

What is this product?

Type

The Product is a share class of the Sub-Fund "AXA World Funds - Euro Credit Total Return" (the Sub-Fund) which is part of the SICAV "AXA World Funds" (the "Company").

Term

This product has no maturity date, although it has been created for 99 years and could be liquidated under the conditions laid down in the articles of incorporation of the company.

Objectives

Investment Objective

The Sub-Fund's investment objective is to maximize total return from a combination of income and capital growth by investing in fixed income securities mainly denominated in Euro over a long term period.

Investment Policy

The Sub-Fund is actively managed without reference to any benchmark in order to capture opportunities in the Euro fixed income market and aims at not exceeding a 10% annual volatility.

The following investment decisions are undertaken after comprehensive macroeconomic and microeconomic analysis of the market:

- sector allocation
- geographical allocation
- duration positioning (duration measures, in number of years, the portfolio's sensitivity to interest rate variations)
- credit curve positioning (the yield curve illustrates the relationship between investment term and credit yield)
- issuer selection
- instrument selection

The Sub-Fund is exposed (via direct investments or through credit derivatives) mainly to corporate and sovereign bonds rated investment grade issued in OECD countries. The remaining part of the assets of the Sub-Fund may also be exposed to such bonds rated sub-investment grade.

The total assets of the Sub-Fund may be invested in or exposed to callable bonds. The Sub-Fund may invest up to 60% of net assets in subordinated debts (including perpetual bonds up to 50%) issued by banks, insurance companies and non-financial corporates.

The Sub-Fund may, up to 10%, hold distressed and defaulted Securities as a result of their rating downgrade, if they are considered to be consistent with the Sub-Fund's objective. These securities are expected to be sold within 6 months unless specific events prevent the Investment Manager from sourcing their liquidity.

The Sub-Fund may invest up to 20% of its net assets in contingent convertible bonds (CoCos) and up to 15% in bonds of emerging markets issuers.

Investment grade securities will be rated at least BBB- by Standard & Poor's or equivalent rating by Moody's or Fitch or if unrated then deemed to be so by the Investment Manager. Sub-investment grade securities will be rated between BB+ and B- by Standard & Poor's or equivalent rating by Moody's or Fitch or if unrated then deemed to be so by the Investment Manager. In case of downgrade below B- by Standard & Poor's or equivalent rating by Moody's or Fitch or if unrated then deemed to be so by the Investment Manager, securities will be sold within 6 months.

If two different ratings of rating agencies exist, the lower rating will be considered, if more than two different ratings of rating agencies exist, the second highest rating will be considered.

The selection of credit instruments is not exclusively and mechanically based on their publicly available credit ratings but also on an internal credit or market risk analysis. The decision to buy or sell assets is also based on other analysis criteria of the Investment Manager.

The Sub-Fund may also invest in Money Market Instruments.

The Investment Manager anticipates that the average duration of the Sub-Fund's investments will be in a range between -2 and 6 years.

The Investment Manager monitors the market risk below a VaR limit of 7% of the Sub-Fund's NAV, under normal market conditions. The VaR used by the investment manager will have a 5 Business Days horizon and 95% confidence level parameters. This means that there is a probability of 5% that the Sub-Fund's NAV may lose more than 7% of its value within a 5 Business Days horizon. Such VaR corresponds to a 1% probability, under normal market conditions, that the Sub-Fund's NAV may lose more than 20% of its value within a 20 Business Days. The Investment Manager expects that the level of leverage of the Sub-Fund based on the sum of the notional approach will be between 0 and 3. However, the attention of any investor in the Sub-Fund is drawn to the fact that the effective level of leverage of the Sub-Fund may be higher than the expected level of leverage set forth above from time to time due to market conditions.

Within a limit of 200% of the Sub-Fund's net assets, the investment strategy may be achieved by direct investments and/or through derivatives especially by entering into Credit Default Swap. Derivatives may also be used for hedging purposes.

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

Income

For Capitalisation share classes (Cap), the dividend is reinvested.

Investment Horizon

The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to such Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

Minimum initial investment: 5,000,000 euros or the equivalent in the relevant currency of the relevant Share class.

Minimum subsequent investment: 1,000,000 euros or the equivalent in the relevant currency of the relevant Share class.

Intended retail investor

The sub-fund is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the sub-fund but nevertheless may bear total capital loss. It is suitable for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

Depositary

State Street Bank International GmbH (Luxembourg Branch)

Further Information

Please refer to the 'Other relevant information' section below.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		€10 000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment		
Stress	What you might get back after costs	€7 320	€7 300
	Average return each year	-26.80%	-6.10%
Unfavourable	What you might get back after costs	€8 790	€10 250
	Average return each year	-12.10%	0.50%
Moderate	What you might get back after costs	€10 470	€11 990
	Average return each year	4.70%	3.70%
Favourable	What you might get back after costs	€11 820	€13 310
	Average return each year	18.20%	5.89%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable Scenario: This type of scenario occurred for an investment between 09 2021 and 08 2023.

Moderate Scenario: This type of scenario occurred for an investment between 11 2014 and 11 2019.

We have classified this product as 3 out of 7 which is the a medium-low risk class. This rates the potential losses from future performance at a medium-low level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not included in the Summary risk indicator can be materially relevant, such as counterparty risk, derivatives risk. For further information, please refer to the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Favourable Scenario: This type of scenario occurred for an investment between 02 2016 and 02 2021.

An appropriate benchmark of the Product was used to calculate the performance.

What happens if AXA INVESTMENT MANAGERS PARIS S.A. is unable to pay out?

The product is constituted as a separate entity from AXA Investment Managers Paris S.A. In case of default of AXA Investment Managers Paris S.A., the assets of the product kept by the custodian will not be affected. In case of default of the custodian, the risk of financial loss of the product is mitigated because of the legal segregation of the assets of the custodian from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	€70	€423
Annual cost impact (*)	0.7%	0.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.42 % before costs and 3.70 % after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	€0
Exit costs	We do not charge an exit fee for this Product.	€0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.59% of the value of your investment per year. This percentage is based on actual costs over the last year.	€59
Transaction costs	0.11 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€11
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this Product.	€0

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This Product has no minimum required holding period, the 5 years has been calculated to be in line with the time frame which the Product may need in order to achieve its investment objectives.

You may sell your investment before the end of the recommended holding period without penalty. The performance or risk of your investment may be negatively impacted. The section "What are the costs?" provides information on the impact of costs over time.

Please refer to the "What is this product" section for the redemption procedure.

How can I complain?

Complaints shall be addressed to the Complaint Handling Officer with the complainant' details (name, role, contact details, involved account numbers and any other relevant document) to the following address AXA World Funds 49, avenue J.F. Kennedy L-1855 Luxembourg Grand Duchy of Luxembourg or to compliancelux2@axa-im.com.
