This Key Information Document is dated 19 February 2024.

What is this product?

Type: The Fund is a mutual investment fund qualifying as an undertaking for collective investment in transferable securities (UCITS) established under Luxembourg law.

Term: This product has no specific maturity date.

Azimut Investments S.A. is entitled to terminate the contract unilaterally.

Azimut Investments S.A. may terminate the contract unilaterally inter alia in case of liquidation or merger of the Sub-fund. Please refer to the prospectus for additional information on early termination circumstances.

Objectives

The Sub-fund's investment objective is to achieve medium/long-term capital growth.

The Sub-fund is a fund of funds and aims to achieve its investment objective by investing between 50% and 100% of its net assets in units of UCITS and/or other UCIs. The Sub-fund actively manages the allocation between asset types using a top-down approach.

The Sub-fund invests between 30% and 60% of its net assets, directly or indirectly, by investing in Units of UCITS and/or other UCIs, in equity and equity-related securities issued by companies worldwide. Direct investments in equity and equity-related securities will not exceed 10% of the Sub-fund's net assets.

For the portion of the portfolio invested in debt securities, the Sub-fund may invest up to 70% of its net assets in debt securities and money market instruments issued by governments of developed countries, including direct investments up to 50% of the Sub-fund's net assets. The Sub-fund may also invest up to 70% of its net assets in Units of UCITS and/or other UCIs investing in debt securities issued by companies that have their head office in developed countries, up to 50% of its net assets in Units of UCITS and/or other UCIs investing in debt securities and money market instruments issued by emerging countries, and up to 70% of its net assets in Units of UCITS and/or other UCIs investing in debt securities rated sub-investment grade.

The Sub-fund may also invest up to 30% of its net assets in Units of UCITS and/or other UCIs that actively manage the allocation of their assets like, inter-alia, "mixed assets", "allocation", "balanced" or "flexible" funds, and up to 10% of its net assets in Units of UCITS and/or other UCIs with an investment strategy known as "alternative" and/or "uncorrelated" to the main asset classes; for example, but not exclusively, "Long/Short" (on shares and debt securities), "Arbitrage", "Event Driven", "Global Tactical Asset Allocation" (GTAA) "Global Macro" strategies and commodities.

The Sub-fund uses the main derivative financial instruments for investment purposes and/or for hedging purposes. The Sub-fund aims at maintaining a leverage effect lower than 400%, calculated on the total of all derivative financial instruments' notional amounts.

The Sub-fund is actively managed.

The Sub-fund qualifies as Article 6 of SFDR Regulation.

You may request the redemption of your units on a daily basis.

Dividends are not intended to be distributed. Any income derived from the product is reinvested.

Intended retail investor: The Sub-fund is intended to be marketed to professional investors who are able and willing to invest in a Sub-fund actively managing the allocation between equities and bonds, with a medium risk grading and to get a return over 5 years.

This Key Information Document describes a sub-fund of a Fund. The prospectus and the periodic reports are prepared for the entire Fund named at the beginning of the Key Information Document.

The assets and liabilities of the compartment are segregated by law from the assets and liabilities of the other compartments. The Depositary, BNP Paribas, Luxembourg Branch, is in charge to ensure that each compartment is segregated and independent from any other compartment.

Exchange of units: You have the right to exchange your units in this sub-fund into units of another sub-fund of the Fund. For further information about how to exercise that right, you can refer to the prospectus of the Fund.

What are the risks and what could I get in return?

Risk indicator

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This classification rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. The currency of this product may be different from that of your country. As you may receive payments in the currency of this product and not that of your country, the final return you will get will depend on the exchange rate between these two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the product not included in the summary risk indicator: credit risk, emerging market risk, risks associated with leverage, risks associated with equities.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years		If you exit after 1 year	If you exit after 5 years
Example investment: USD 10,000

What happens if Azimut Investments S.A. is unable to pay out?

The assets of the product are held in safekeeping by BNP Paribas, Luxembourg Branch (the "Depositary"). In the event of the insolvency of Azimut Investments S.A. (the "Management Company"), the product's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the product may suffer a financial loss. This risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the product. The Depositary will also be liable to the product and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

There is no investor compensation or guarantee scheme in the case of default of the Management Company or the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	357 USD	1,049 USD
Annual cost impact (*)	3.6%	2.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 5.5% before costs and 3.5% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (0.0% of amount invested / 0 USD).

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.0 % of the amount you pay in when entering this investment.	Up to 200 USD
Exit costs	We do not charge an exit fee for this product.	None
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.5 % of the value of your investment per year. This figure is based on expenses for the year ending December 2023. This figure may vary from year to year.	146 USD
Transaction costs	0.1 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	11 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	None

For conversions from this Sub-fund to any other Sub-fund of the Fund, no fee shall be applied.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period has been defined by taking into account the expected composition of the Sub-fund's portfolio, as well as long-term averages of return and risk for relevant asset classes and markets.

You may request the redemption of your units on a daily basis. You may receive less than expected if you cash in earlier than the recommended holding period. The recommended holding period is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.

Holders of units may request redemption at any time. Redemption will be performed by the Custodian within five bank business days following calculation of the applicable net asset value.
