Notes to the Financial Statements as at 30 June 2023 (continued)

Note 3. Significant accounting principles

The Fund's financial statements are prepared in accordance with the regulations in force in Luxembourg regarding Undertakings for collective investment.

a) Combined statements for the Fund

AZ Fund 1 (combined) financial statements are expressed in EUR and correspond to the total of the financial statements of the Sub-Funds that if denominated in currencies other than EUR, have been converted in EUR at the exchange rate as at 30 June 2023.

b) Currency translation

At the closing date, securities valuation (determined as described below), receivables, bank deposits and debts denominated in a currency other than the Sub-Fund's currency are converted into the Sub-Fund currency at the exchange rate prevailing on that date. Exchange differences arising from the translation of receivables, bank deposits and debts shall be included in the net foreign exchange result of the financial period recorded in the Statement of Operations and Changes in Net Assets under the item Net realised gain / (loss) on foreign currencies transactions.

c) Valuation of assets

The valuation of assets and commitments of each Sub-Fund shall be carried out as follows:

1) the value of liquidity held in cash or in deposits, directly payable securities and payables, advance payments, dividends, profits and/or interest due but not yet received, shall be composed of the par value of the entries, unless it is unlikely that they will be actually received. In this case, the value shall be established by subtracting the amount deemed appropriate to reflect the real value of the assets;

2) the valuation of securities and money market instruments listed or traded on a regulated market, which operates regularly, is recognised and open to the public, is based on the last-known price of the last business day. If a transferable security or money market instrument is traded on more than one market, the valuation is based on the last known price of the main market for that security or instrument. If the last known price is not representative, the valuation shall be based on the likely net breakup value, estimated prudentially in good faith by the Company;

3) transferable securities and money market instruments not listed or traded on a regulated market which operates regularly, is recognised and open to the public, will be valued based on the likely net breakup value, prudentially estimated in good faith by the Company;

4) units of undertakings for collective investment are valued based on the last Net Asset Value available;

5) assets expressed in a currency other than the base currency of the Sub-Fund in question shall be converted at the last available exchange rate;

6) all other assets shall be valued based on the likely net breakup value, which must be estimated with due care and in good faith by the Company.

d) Forward foreign exchange contracts

The forward foreign exchange contracts represent obligations of purchase or the sale of foreign currency on the basis of future exchange rates determined at a fixed price at the time of conclusion of the contracts. The unexpired forward foreign exchange contracts are valued at the last "forward" rate available on the valuation dates or at the balance sheet date and unrealised gains or losses are recorded. Realised gains / (losses) and the resulting changes in unrealised gains or (losses) are included in the Statement of Operations and Changes in Net Assets.

e) Options

A purchaser of a put option has the right, but not the obligation, to sell the underlying instrument at an agreed upon strike price to the option seller. A purchaser of a call option has the right, but not the obligation, to purchase the underlying instrument at the strike price from the option seller.

Premiums paid by the Sub-Fund for purchased options are included in the statement of net assets as an investment. The option is adjusted daily to reflect the current market value of the option and the change is recorded as unrealised appreciation or depreciation.

Options traded on a regulated market are valued with their last available closing price. Options which are not listed on an official stock exchange (OTC options) are valued at their estimated fair value as determined by the Company in accordance with the Law and the Company's pricing policy.

f) Futures contracts

Futures contracts provide for delayed delivery of the underlying instrument at a fixed price or for a cash amount based on the change in the value of the underlying instrument at a specific date in the future. Upon entering into a futures contract, the Sub-Fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by the Sub-Fund periodically and are based on changes in the market value of open futures contracts.

Futures contracts are valued based on the last available market price. Realised and unrealised gains and losses are included in the Statement of Operations and Changes in Net Assets. For the calculation of net investments in financial instruments by currency, investments are converted at the exchange rate prevailing at the end of the period. Realised gains / (losses) and the resulting changes in unrealised gains or (losses) are included in the Statement of Operations and Changes in Net Assets.

Notes to the Financial Statements as at 30 June 2023 (continued)

Note 3. Significant accounting principles (continued)

g) Contracts for Difference (CFD)

A CFD is essentially a contract between the investor and the investment bank or a company carrying out spread-betting. At the end of the contract, the parties exchange the difference between the opening and closing rates of a determined financial instrument, including the shares or the merchandise. The disclosed positions in the CFD portfolios are the net amounts between long and short positions.

The valuation of a CFD shall reflect at all times the difference between the latest known price of the underlying security and the valuation that was taken into account when determining the transactions. Realised gains / (losses) and the resulting changes in unrealised gains or (losses) are included in the Statement of Operations and Changes in Net Assets.

The caption "Receivable on Contract for Difference" includes the income on CFD positions and the receivable amounts on transactions on CFD. The caption "Payable on Contract for Difference" includes payable fees on CFD positions and payable amounts on transactions on CFD.

h) Variance swap

A variance swap is a bilateral agreement in which each counterparty agrees to exchange cash flows based on the measured variance (or volatility for volatility swaps) of a specified underlying asset. One party agrees to exchange a "fixed rate" or strike price payment for the "floating rate" or realised price variance on the underlying asset with respect to the notional amount. At the maturity date, a net cash flow is exchanged, where the payoff amount is equivalent to the difference between the realised price variance of the underlying asset and the strike price multiplied by the notional amount.

Variance swaps are valued at their fair value based on the last known closing price of the underlying security. Realised gains / (losses) and the resulting changes in unrealised gains or (losses) are included in the Statement of Operations and Changes in Net Assets.

There were no Variance Swap open as at 30 June 2023.

i) Interest Rate Swap contracts (IRS) and Inflation Linked Swap (ILS)

An Interest Rate Swap is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series of interest payments on the basis of a notional amount serving as the basis of calculation that is generally not exchanged.

An Inflation Linked Swap is a bilateral agreement in which each party agrees to swap floating rate linked to an inflation index (realized inflation) to fixed rate coupon in the same currency.

Realised gains / (losses) and the resulting changes in unrealised gains or (losses) are included in the Statement of Operations and Changes in Net Assets under item Options and swaps.

j) Credit Default Swap (CDS)

A Credit Default Swap is a credit derivative transaction in which two parties conclude an agreement by which one party makes a periodic fixed-coupon payment to the other party for a specified term in exchange for a payment subordinate to a credit event associated with the underlying reference obligation.

Credit Default Swap contracts are valued at their last known closing price of the underlying security. Realised gains / (losses) and the resulting changes in unrealised gains or (losses) are included in the Statement of Operations and Changes in Net Assets under item Options and swaps.

k) Total Return Swap (TRS)

A Total Return Swap contract is a bilateral agreement in which each party agrees to exchange payments based on the performance of an underlying instrument (security, commodity, index,..) thereof for a fixed or variable rate. The total performance will include gains and losses on the underlying, as well as any interest or dividend during the contract period according to the type of underlying. The risk with this type of contract lies in the fact that the profits of each counterpart depend on the performance of the underlying asset, which is unknown when the contract is signed.

Total Return Swap contracts are valued at their last-known market price. Realised gains / (losses) and the resulting changes in unrealised gains or (losses) are included in the Statement of Operations and Changes in Net Assets under item Options and swaps.

l) Reverse Repurchase Agreements

Reverse repurchase agreements are classed as lending transactions secured by underlying securities. These are transactions in which the seller transfers ownership of securities to another person (the buyer), and in which the seller and the buyer respectively and irrevocably undertake to repurchase and return the securities at a specified price and date. The Fund acts as the assignee in these transactions.

Reverse repurchase transaction ("Repo") is a security sale transaction for securities with the commitment by the seller to repurchase the same security as that sold at a specified price at a future date. A reverse security sale transaction ("Reverse Repo") is the same transaction from the purchaser's standpoint. By approval, whether the transaction is called purchase of title to repurchase or sale if title to repurchase is determined by considering the transaction from the standpoint of the reseller.

There were no open reverse repurchase agreements as at 30 June 2023.

Notes to the Financial Statements as at 30 June 2023 (continued)

Note 3. Significant accounting principles (continued)

m) Income

Bank and bond interests are recorded pro rata temporis. Dividends are recorded on the execution date net of withholding taxes. Other income mainly includes repayment fees and exceptional financial profit.

n) Investment in other Sub-Funds of the same Fund (Cross-investments)

A Sub-Fund can subscribe, acquire and/or hold securities to be issued or issued by one or more other Sub-Funds of the Fund. These activities are performed under the law of 17 December 2010, as amended, concerning Undertakings for Collective Investment, which provides for the following requirements:

- 1) the target Sub-Fund does not invest in turn in the Sub-Fund that has invested in this target Sub-Fund; and
- 2) the part of assets that the target Sub-Funds being acquired may invest overall in units of other target Sub-Funds of the Fund does not exceed 10%, according to its investment strategy as defined in the prospectus.

o) Investment in other Sub-Funds in other funds of the same management company

A Sub-Fund of the Fund may invest in units of other UCITS and/or other UCIs managed by the same management company or by any other company to which the Management Company is tied within the frame of either a shared control or management, or direct or indirect significant equity investment. The management company or any other company cannot bill any subscription rights or redemption fees for the investment of UCITS in units of other UCITS and/or other UCIs.

p) Securities lending

The Sub-Funds may lend securities included in their portfolio to a borrower. To guarantee this transaction, the Sub-Fund receives collateral. Securities on loan are delivered to a third party broker, the assets lent continue to be valued as part of the portfolio of the Sub-Fund. Upon termination of a loan, the Sub-Fund is required to return to the borrower the posted collateral. Loans are subject to termination by the Sub-Fund or the borrower at any time.

Securities lending generates additional income for the Sub-Funds. This remuneration is accounted for in the Statement of Operations and Changes in Net Assets under items Securities lending income or Securities lending expense.

Note 4. Investment in other Sub-Funds of the same Fund (Cross-investments)

As at 30 June 2023, the total amount of cross-investments was EUR 436,307,350.75. Eliminating the effect of the cross-investments, the combined net assets of the Fund would be equal to EUR 23,065,939,852.30.

For the Sub-Fund AZ Fund 1 - AZ Alternative - Capital Enhanced, a service fee amounting to a maximum of 0.12% of the Sub-Fund's net assets is payable to the Management Company on an annual basis.

Service fees are included in the Statement of Operations and Changes in Net Assets under the item Administration fees.

Notes to the Financial Statements as at 30 June 2023 (continued)

Note 6. Variable management fees

A variable management fee is applied to symmetrically (linearly) increase or decrease the management fee. The increase or decrease is capped at 20% of the management fee amount and is based on how well the Unit Class performs ("Performance of the Unit Class") against the Reference Index ("Performance of the Reference Index") over the same Performance Period (this is known as a "fulcrum" fee).

If the Unit Class outperforms its Reference Index ("Outperformance") over the same Performance Period, the management fee increases on a linear basis within a pre-specified Range (defined below), up to a maximum of 20%. If the Unit Class underperforms its Reference Index ("Underperformance") over the same Performance Period, the management fee decreases on a linear basis within a pre-specified Range (defined below) up to a maximum of 20%.

When the Performance of the Unit Class is equivalent to that of the Reference Index over the same Performance Period, the management fee is not adjusted.

The Company defines an Outperformance and Underperformance Range for each Sub-Fund (the "Range"). The management fee goes up or down on a linear basis, by up to 20%. The Range for each Sub-Fund depends on its expected volatility: the higher the volatility, the higher the potential Outperformance or Underperformance. The Ranges may vary from "-1% to 1%" to "-5% to 5%". For example, for a Range of "-5% to 5%", the maximum (minimum) management fee is payable if the performance of the Unit Class exceeds (falls short of) the performance of the Reference Index by five percentage points over the Performance Period. For a Range of "-1% to 1%", the maximum (minimum) management fee is payable if the performance of the Unit Class exceeds (falls short of) the performance of the Reference Index by one percentage point over the Performance Period. For Hedged Units, the Hedging Costs are added to the Reference Index.

Details regarding the Reference Index and the Range applicable to each Sub-Fund are disclosed in the relevant Prospectus of the Fund.

The Performance Period is a rolling 3-month period. The variable management fee and resulting change in the management fee are calculated on each Valuation Day and accrue with the Net Asset Value of the Unit Class in question. The variable management fee crystallises at the end of each calendar month. When Outperformance is recorded, the management fee payable by a Sub-Fund increases by the amount of the applicable variable management fee. In the event of Underperformance, the management fee payable by a Sub-Fund decreases by the amount of the applicable variable management fee. During the first two calendar months following the launch of a Unit Class, the management fee is accrued in the Net Asset Value of the Unit Class and paid on a monthly basis, without being adjusted by a variable management fee. The management fee is adjusted by the variable management fee (if any) from the third calendar month following the launch date of a Unit Class.

The performance of Unit Classes is calculated as the difference between the Net Asset Value net of expenses (excluding the accrued variable management fee and any income distribution (dividends) that may have been made) of the Unit Class at the end of the Performance Period and the Net Asset Value net of expenses (excluding the accrued variable management fee and any income distribution (dividends) that may have been made) of the Unit Class at the beginning of the Performance Period. The Performance of the Reference Index is calculated as the difference between the value of the Benchmark at the end of the Performance Period and at the beginning.

A variable management fee may be applied for Outperformance, even when the Sub-Fund performance is negative. Further details on the additional variable management fee can be found in Note 4 of the Additional Information.

Note 7. Distribution fees and Promotion fees

In accordance with the prospectus of the Fund, unit classes may be charged a distribution fee up to a monthly maximum of 0.053% of the net assets.

Since 1 April 2022, the Management Company receives also a promotion fee, of no more than the equivalent of 60% of its management fee to remunerate the distributors and other intermediaries involved in distribution activities. Promotion fees are included in the Statement of Operations and Changes in Net Assets.

Note 8. Depositary fees

The depositary bank receives an annual fee of 0.065% of the Fund's net assets. This fee may differ from that effectively applied to each individual Sub-Fund according to its net assets. The depositary bank also receives a fee per transaction ranging from EUR 5 to EUR 140 depending on the type of transaction with a minimum of EUR 500 per month and per Sub-Fund. Depositary fees are included in the Statement of Operations and Changes in Net Assets.

Note 9. Administration fees

Until 14 January 2023: The Management Company receives a maximum annual fee of 0.33% of the net assets of the Fund for the administrative and organisational services it and BNP Paribas, Luxembourg Branch*, renders to the Fund.

As of 15 January 2023: The Management Company receives a maximum annual fee of 0.35% of the net assets of the Fund for the administrative and organisational services it and BNP Paribas, Luxembourg Branch*, renders to the Fund.

In addition, administration fees include the investment consultancy expenses, bank expenses (securities administration fees, unitholder Management fees), and all other general administration expenses. The annual rate of general administration fees is 0.01% with a minimum of EUR 1,250 per month and per Sub-Fund. For the preparation of the annual and semi-annual reports in the language of the prospectus, a fee of EUR 5,700 per annum is charged for the first five Sub-Funds. For any new additional Sub-Fund, a fee of EUR 350 per year is charged.

Notes to the Financial Statements as at 30 June 2023 (continued)

Note 10. Taxe d'abonnement

The Fund is subject to the "taxe d'abonnement" (subscription tax), which is calculated and paid quarterly, on the basis of the Net Asset Value at the end of the quarter. The tax rate amounts to 0.01% p.a. for Unit classes open exclusively to institutional investors and 0.05% p.a. for other Units.

This tax is reduced to 0% on the value of assets represented by Units held in other Luxembourg UCI that have already been subject to the subscription tax.

Note 11. Transaction costs

As at 30 June 2023, transaction costs posted in the Statement of Operations and Changes in Net Assets include costs for purchase and sale of shares, options, futures, swaps, forward foreign exchange contracts, CFD and UCI. For bonds, transaction expenses are included in the transaction cost.

Note 13. Master-Feeder Structure

In accordance with the conditions defined by Luxembourg law and regulations, the Fund's Sub-Funds may qualify as feeder UCITS ("the Feeder") or as a master UCITS (the "Master"). A Feeder shall invest at least 85% of its net assets in securities of the same Master UCITS or Sub-Fund of an UCITS. An existing Master or Feeder can be converted into a standard Sub-Fund which is neither a Feeder UCITS nor a Master UCITS. A feeder can replace the Master UCITS with another Master UCITS. If it qualifies as Feeder, this shall be specified in the Sub-Fund description included in the relevant prospectus.

The Feeder and the Master sub-funds are managed by the same Management Company. In this respect, the Management Company has also implemented specific internal policies relating to the Feeder and the Master, in accordance with the provisions of the 2010 Law.

These policies describe in particular i) the bases for the redemption, subscription and repayment of Units as well as their suspension, and (ii) the coordination procedures for the calculation timetable and publication of the net asset value.

Notes to the Financial Statements as at 30 June 2023 (continued)

Note 13. Master-Feeder Structure (continued)

As at 30 June 2023, the following Sub-Funds are part of a "Master-Feeder Structure" as defined in article 77-86 of the Law of 17 December 2010, as amended.

Feeder Fund	Master Fund
AZ Fund 1 - AZ Bond - Frontier Markets Debt	AZ Fund 3 - AZ Bond - Frontier Markets Debt
AZ Fund 1 - AZ Equity - Al Mal MENA	AZ Fund 3 - Al Mal MENA Equity
AZ Fund 1 - AZ Islamic - Global Sukuk	AZ Multi Asset - AZ Islamic - MAMG Global Sukuk

Feeder – Sub-Fund	Feeder - Market value in USD	Master - Net asset in USD	Percentage of holding of Feeder Fund in the Master Fund
AZ Fund 1 - AZ Bond - Frontier Markets Debt	15,725,086.44	80,707,425.74	19.48%
AZ Fund 1 - AZ Equity - Al Mal MENA	2,969,422.79	70,204,239.55	4.23%
AZ Fund 1 - AZ Islamic - Global Sukuk	119,007,778.05	808,125,277.82	14.73%

The MASTER (USD) unit class of the Master in which the Feeder invests does not bear any subscription or redemption fees, Management fees or additional Variable management fees. The MASTER (USD) unit class of the Master in which the Feeder invests bears all ongoing charges charged to the Master on a pro-rata basis. These are namely custodian bank fees, fees related to central administration and the fees charged by the Master's independent auditor. Total fees borne by the MASTER (USD) unit class of the Master are expected to amount to 0.42% of average net assets. Total fees combined of the Feeder and of the Master, excluding the variable management fee, shall not exceed 5% of the Sub-Fund's average net assets.

Feeder – Sub-Fund	Feeder - Total expenses in USD	Feeder - % Charges	Master - Total expenses in USD	Master - % Charges

AZ Fund 1 - AZ Islamic - Global Sukuk	1,539,067.38	1.29%	5,075,726.96	0.63%

Investors may obtain free copies of the prospectus, the policies governing the relationship between the Feeder and the Master, and annual report of the Master at the registered office of the Management Company (Azimut Investments S.A., 2A, rue Eugène Ruppert, L-2453 Luxembourg).

The Feeder may invest up to 15% of its assets in one or more of the following items:

- ancillary liquid assets (to a limited extent), pursuant to the second sub-paragraph of article 41 paragraph 2 of the 2010 Law, and
- financial instruments which may be used only for hedging purposes in accordance with the relevant provisions of article 41(1)(g) and article 42 (2) and (3) of the 2010 Law.

Note 14. Management fee rates

Management fees are also applicable to investments held by the Sub-Funds in underlying investment funds. These Management fees are charged at different rates, but do not exceed 2% of the average daily net assets for an individual underlying investment fund.

Note 15. Distributions

In terms of the Sub-Funds income distribution, the Management Company decides on the use of Fund returns based on the accounts relevant to every reference period. It may decide to either capitalise the income or distribute all or part of the income.

The Management Company reserves the right to keep funds available to compensate for any capital loss. The Board of Directors of the Management Company may distribute an interim dividend, within the limits provided by law. Therefore, the Management Company shall either distribute investment returns, or decide to distribute the capital, within the limits provided by law. Dividends and interim dividends shall be paid at a time and place established by the Board of Directors of the Management Company, net of any tax, if due.

Dividends and interim dividends distributed but not collected by the investor within five years of payment date are no longer payable to investor and shall be paid to the corresponding Sub-Fund.

No interest will be paid on the announced dividends and held by the Depository bank for the investors of the Sub-Fund concerned.

Note 20. Placement fees

For D-AZ Fund (DIS) Units of the AZ Fund 1 - AZ Allocation - Target 2023 Equity Options Sub-Fund, a one-off investment fee is applied and charged at once at the closing date of the Investment Period (as will be defined by the Management Company) at a rate of 3.50% on globally collected capital. It is then amortised in a straight line over 4 years by means of a payable amount on net total value for the concerning units at each net asset value calculation date.

Placement fees are included in the Statement of Operations and Changes in Net Assets under the item Amortisation of formation expenses. There were no placement fees as at 30 June 2023.

Notes to the Financial Statements as at 30 June 2023 (continued)

Note 21. Money Market Funds Regulation

As at the date of this report, none of the Sub-Funds of the Fund is a "Money Markets Fund" in the sense of Regulation (EUR) 2017/1131 of the European Parliament and the Council on money market funds, nor is it currently planned to obtain this status for any of the Sub-Funds in the future.
