What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Belfund SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may decide to close this product under certain circumstances.

OBJECTIVES

Objectives and investment policy

The objective of the Sub-Fund is to increase the value of its investments by offering an exposure mainly to blue chip equities and equity related securities which are growing faster than the market but trading at a discount to it.

"Blue Chip" companies are considered as those with leading market position and strong financial fundamentals, generally with a minimum market capitalisation level of EUR 10 billion following Investment Manager's view.

The Sub-Fund will mainly offer an exposure to equities and equity related securities (including but not limited to ADR (American Depositary Receipt), GDR (Global Depositary Receipt)). The Sub-Fund will mainly invest:

- directly in the securities mentioned in the previous paragraph; and/or
- in undertakings for collective investment (UCIs) having as main objective to invest or grant an exposure to the above-mentioned securities.

The choice of investments will neither be limited by geographical area (including emerging markets), economic sector, nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.

On an ancillary basis, the Sub-Fund may invest in any other type of eligible assets, such as debt securities including money market instruments, UCIs other than those above-mentioned, cash.

If the investment manager considers this to be in the best interest of the shareholders, on a temporary basis and for defensive purposes, the Sub-Fund may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market funds and money market instruments.

Derivatives For hedging and for any other purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over the counter. However, in normal market conditions, the Investment Manager intends to use forward exchange contracts on currencies.

Benchmark The Sub-Fund is actively managed. The index MSCI World Net Total Return is only used for the calculation of the performance fee (payable to the investment manager). The Sub-Fund does not intend to use the index for performance comparison nor to track it. The Sub-Fund can deviate significantly or entirely from the index.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

OTHER INFORMATION

Depositary Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The NAV for the Class is calculated on each bank business day in Luxembourg, on the basis of the pricing of the preceding business day ("the Valuation Day"). The cut-off time to submit subscription or redemption orders is 3 p.m. Luxembourg time, 2 bank business days preceding the relevant Valuation Day.

Switching Investors may switch between share classes of the Fund. For more details about how to switch between classes, please refer to the prospectus.

This key information document describes the Class of the Sub-Fund of the Fund. Other classes are available for the Sub-Fund. For more information about other classes, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment	3 years EUR 10,000		
	If you exit after 1 year	If you exit after 3 years	

Scenarios

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	EUR 4,880	EUR 4,220	
	Average return each year	-51.2%	-25.0%	
Unfavourable scenario	What you might get back after costs	EUR 7,000	EUR 6,970	This type of scenario occurred for an investment in the product between March 2017 and March 2020.
	Average return each year	-30.0%	-11.3%	
Moderate scenario	What you might get back after costs	EUR 10,540	EUR 12,130	This type of scenario occurred for an investment in the product between November 2016 and November 2019.
	Average return each year	5.4%	6.7%	
Favourable scenario	What you might get back after costs	EUR 18,460	EUR 18,100	This type of scenario occurred for an investment in the product between March 2020 and March 2023.
	Average return each year	84.6%	21.9%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 218	EUR 758
Annual cost impact (*)	2.2%	2.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.9% before costs and 6.7% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class. The person selling you this product may charge up to 3.00%.	Up to EUR 300
Exit costs	We do not charge an exit fee for this Class.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.49% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 149
Transaction costs	0.24% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 24
Incidental costs taken under specific conditions		
Performance fees	Paid yearly to the investment manager, accrued on each valuation date and equivalent to 10.00% of the increase of the NAV per share multiplied by the number of shares outstanding, in respect of each year subject to the high water mark defined in the prospectus. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 45

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 3 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The NAV for the Class is calculated on each bank business day in Luxembourg, on the basis of the pricing of the preceding business day ("the Valuation Day"). The cut-off time to submit subscription or redemption orders is 3 p.m. Luxembourg time, 2 bank business days preceding the relevant Valuation Day.
