BL Bond Emerging Markets Dollar, class A (LU1305479310)

a sub-fund of BL

Management Company: BLI - Banque de Luxembourg Investments

Objectives and investment policy

Objectives

Seeking a reward and a capital gain, with moderate volatility.

Investment policy

The sub-fund will mainly be invested in fixed or variable-rate bonds issued by both industrialised and developing countries.

The sub-fund will be invested to a lesser extent in the fixed or variable-rate bonds of private issuers from industrialised and developing countries.

A maximum of 10% of the net assets may be invested in open-ended investment funds.

Up to 25% of the sub-fund's assets may also be invested in structured products (instruments whose value depends on different investments). Investments in structured products are described as transferable securities and the underlying funds may comprise, inter alia, individual debt securities, baskets of debt securities, stock market bond products or exchange rate indices.

The sub-fund may also use derivatives in order to hedge or optimise the portfolio's exposure.

The investment manager implements sustainable investments in the portfolio through two investment vehicles:

1. Investment in impact bonds;

2. For investments other than those made in impact bonds, the manager allocates an ESG rating of the various issuers based on qualitative and quantitative criteria with the aim of obtaining an ESG rating above that of its investment universe.

The portfolio is actively managed on a discretionary basis without using a reference benchmark.

The currency of the share class is expressed in USD.

The investor has the right to redeem his shares on demand. The dealing in shares is carried out on each complete bank business day in Luxembourg. The attention of the investor is drawn to the fact that in exceptional circumstances, the possibility for the investor to request the redemption of his shares may be limited or suspended.

These shares are distribution shares that may distribute dividends.

Recommendation

This fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and reward profile

What does this synthetic indicator mean?

- The shares of class A are classified in category 4 because the value of the share may be subject to medium variations and consequently the risk of loss and the opportunity of gain may be moderate.
- The risk category has been determined on the basis of historical data and may not be a reliable indication of the future risk profile. The risk and reward category shown does not necessarily remain unchanged and the categorisation of the fund may shift over time.
- The lowest category does not mean a risk-free investment.
- Repayment of the initial investment is not guaranteed.

Which materially relevant risks are not adequately captured by the synthetic indicator?

- The investment in emerging markets exposes the sub-fund to risks related to political, regulatory, financial or fiscal instabilities or un-

certainties that may negatively affect the value of the investments or even question the ownership title of the sub-fund.

- The investment in debt instruments bears a credit risk insofar as the issuer may refuse or be in a position where it is not able to reimburse all or part of the interests or even of the principal due on the debt instruments. This may result in significant or even total losses of the value of the investments in these debt instruments. This risk is higher in case of investment in high yield debt instruments.
- Derivative financial instruments on interest rates will be used to reduce the risks posed by interest rates, without being able to completely eliminate them.
- Other risk factors, that an investor shall take into account with regards to his own situation and specific current and future circumstances, may exist.

How can I get more information about the risks of the sub-fund?

Additional information concerning the risks of investment in the sub-fund are indicated in the corresponding section of the prospectus of the fund which is available at the Management Company and on the websites www.blfunds.com and www.bli.lu.
