

Key Investor Information

This document provides key information for investors in this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so that you can make an informed decision about whether to invest.

Share class "EUR C/D" of the BNP PARIBAS EASY STOXX EUROPE 600 UCITS ETF sub-fund of the SICAV - BNP PARIBAS EASY FR (FR0011550672)

BNP PARIBAS ASSET MANAGEMENT France, a management company belonging to the BNP Paribas Group.

Objectives and Investment Policy

Management objective:

The objective of the Sub-fund is to replicate the performance of the STOXX® Europe 600 Net Return index (Bloomberg code: SXXR Index), whether it rises or falls. As the Sub-fund is indexed, it seeks to maintain the tracking error in absolute terms between the growth of the Sub-fund's net asset value and that of the index at a level below 1%. If this tracking error exceeds 1%, it must not, in any event, exceed 5% of the index's volatility. The tracking error is calculated on the basis of the weekly performance observed over the previous 52 weeks.

Key characteristics of the Sub-fund:

- The Sub-fund's assets will be made up of financial instruments (shares of French companies from all sectors and/or European companies and bond and/or money market instruments). When they are purchased, these bond and/or money market instruments have a minimum rating of A-3 (Standard & Poor's) or P-3 (Moody's) or, failing this, a long-term investment-grade rating or an internal rating by the management company that meets equivalent criteria.

The Sub-fund is exposed to the performance of the Index via a financial contract (synthetic replication method).

Other information:

- Details of assets traded: financial contracts (swaps). Using financial contracts, the Sub-fund will be synthetically exposed to changes on the European equity market through the index.

- Recommended investment horizon of five years.

- Classification: "International equities" UCITS

- Allocation of distributable income: Accumulation and/or Distribution

- Frequency of net asset value calculation: calculated daily, provided that the market underlying the Index and the market on which the Sub-fund is listed are open.

- Investors may request the redemption of their shares on the primary market before 4.30 p.m. every day on which the net asset value is determined and sell them on the secondary market when stock exchanges are open.

Risk and Reward Profile

Lower risk Higher risk

← →

Typically lower reward Typically higher reward

1	2	3	4	5	6	7
---	---	---	---	---	---	---

• Past performance such as the information used to calculate the synthetic indicator may not be a reliable indication of the sub-fund's future risk profile.

• The risk category associated with this sub-fund is not guaranteed and may change over time.

• The lowest category does not mean "risk free".

Investment in equity-type instruments justifies the risk category. These are subject to significant price fluctuations, which are often amplified in the short term.

Significant risk(s) not taken into account in the indicator which could lead to a drop in the net asset value:

• **Liquidity risk:** This risk arises from the difficulty of selling a security at its fair value and within a reasonable period of time due to a lack of buyers.

Charges

The charges and fees paid are used to cover the costs of running the sub-fund, including the costs of marketing and distributing shares; these charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	3.00%
This is the maximum that might be taken out of your capital before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the UCITS over a year	
Ongoing charges	0.20% ^(*)
Charges taken from the UCITS under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

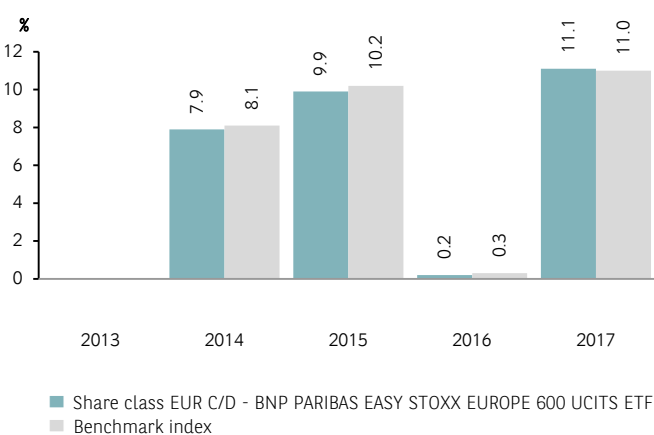

^(*) The percentage of ongoing charges is based on an estimate of the maximum charges that will be taken out of your money.

This figure may vary from year to year. It excludes:

- intermediary charges, except in the case of entry and/or exit charges paid by the sub-fund when buying or selling units in another collective investment scheme.
- outperformance fees

For more information about charges, please see the "Charges and fees" section of the sub-fund's prospectus, which is available online at www.bnpparibas-am.com.

Past Performance

- Past performance is not indicative of future performance;
- Performance is calculated net of management fees;
- The share class was launched on 16 September 2013;
- Past performance has been calculated in EUR.
- The SICAV was created on 27 December 2013;
