## WHAT IS THIS PRODUCT?

### Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a fund of funds, established in the form of a sub-fund of BNP PARIBAS B STRATEGY, a SICAV (société d'investissement à capital variable open-ended investment company), subject to the conditions set out in the Belgian UCITS Act of 3 August 2012 and the provisions of the UCITS Directive 2009/65/EC as amended.

### Term

This Product has no maturity date.

BNPP AM is not entitled to terminate the Product unilaterally. The general meeting of shareholders for the SICAV has the authority to decide on the merger, split and liquidation of the Product.

### Objectives

This Sub-fund is a fund of funds. It seeks to ensure the maximum possible growth and a broad diversification of risks by investing mainly in undertakings for collective investment from around the world, which in turn invest in all types of asset class (equities, bonds, alternative investments [see definition in the section regarding the Sub-fund's investment policy in the full prospectus]).

The Sub-fund is actively managed and as such may invest in securities that are not included in the index, which is 23% STOXX Europe 600 (EUR) NR + 10% Cash Index €STR (RI) -- (EUR) + 12.5% Bloomberg Euro Aggregate Treasury (EUR) RI + 29% S&P 500 (EUR) NR + 3% Topix 100 (EUR) RI + 12.5% Bloomberg Euro Aggregate Corporate (EUR) RI + 10% MSCI Emerging Markets (Free) (EUR) NR. This index is used for performance comparison purposes. It is not adapted to environmental and social characteristics. This Sub-fund promotes environmental and social characteristics by focusing closely on social, environmental and governance issues. As part of its investment decisions, the Sub-fund invests at least 90% of its assets in underlying UCIs that must have obtained the Towards Sustainability label for sustainable financial products, or undertake to obtain it within six months of the date of purchase. This label defines a set of minimum requirements, namely the application of the following three strategies: (1) integration of ESG criteria, (2) use of normative screening (based on an international standard) and (3) exclusion lists, as well as at least a fourth sustainable strategy (such as an ESG score above the benchmark). For more information on the Towards Sustainability label, see <https://towardsustainability.be/the-label/quality-standard>. The remaining underlying UCIs (maximum 10% of the Sub-fund's assets) are either funds promoting, among other characteristics, environmental and/or social characteristics and investing in companies following good governance practices (i.e. SFDR Article 8), or funds aimed at sustainable investment (i.e. SFDR Article 9). The sub-fund promotes environmental or social characteristics and invests at least 40% of its assets in sustainable investments as defined by the SFDR. Several criteria are factored into the definition of sustainable investments used in the internal methodology. In practice, this means a company must fulfil at least one of the criteria before it is deemed to be contributing to an environmental or social objective. More information on this can be found in the Prospectus. The internal methodology described in the Prospectus applies only to internal funds for which BNPP AM is the management company. For external funds, Delegated Solutions, a BNPP AM team specialising in the selection of external funds, assesses the methods used by external asset managers. As part of active portfolio management, and depending on the market conditions and their own forecasts, the manager may deviate from the following neutral weightings: 65% equities, 25% bonds, 10% alternative investments, 0% cash and money market instruments, subject to the following limits: equities 40%-90%, bonds 0%-40%, alternative investments 0%-40%, cash and money market instruments 0%-50%. The Sub-fund may use derivatives on an optional and marginal basis, both for hedging purposes and to achieve its investment objectives. These instruments serve to replicate or offset the risks inherent in investments in the underlying assets in a more precise and flexible manner and their use does not in itself increase the risks.

Income is systematically reinvested. A dividend may be distributed.

You can request redemption of your units on a daily basis (full bank business day in Belgium) as set out in the prospectus.

### Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of and/or income from capital. Potential investors should have an investment horizon of at least 5 years.

### Practical Information

- Custodian: BNP PARIBAS SA, Belgian Branch
- This key information document is prepared for the aforementioned share class and describes a sub-fund of BNP PARIBAS B STRATEGY. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. There is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.
- Investors may switch between sub-funds of the SICAV. Please see the prospectus or contact your financial adviser for details.
- The prospectus, the key information document(s) for the other share classes of this Product and the latest annual and periodical documents (written in French and Dutch) are available on the website: [www.bnpparibas-am.com](http://www.bnpparibas-am.com). You can consult the most recent net asset value via the BEAMA website <http://www.beama.be/vni>.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### Risk Indicator

The risk indicator assumes you keep the Product for 5 years.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. The risk category is justified by investment in various classes of assets, generally with a large proportion of risky assets and a smaller proportion of less risky assets.

Other risks materially relevant to the Product not included in the summary risk indicator:

- **Credit risk:** the risk that the creditworthiness of an issuer may deteriorate or that it may default, potentially causing the value of the associated instruments to fall.
- **Liquidity risk:** this risk arises from the difficulty of selling a security at its fair value and within a reasonable period of time due to a lack of buyers.

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

### Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

**Recommended holding period: 5 years**

**Example Investment: EUR 10,000**

**If you exit after 1 year**

**If you exit after 5 years**

#### Scenarios

		If you exit after 1 year	If you exit after 5 years
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	7,135.86 EUR	2,293.4 EUR
	Average return each year	-28.62%	-25.49%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	8,302.8 EUR	8,767.38 EUR

The moderate scenario occurred for an investment between 2014 and 2019.

The unfavorable scenario occurred for an investment between 2015 and 2020.

## WHAT HAPPENS IF BNPP AM IS UNABLE TO PAY OUT?

The Product is a fund of jointly owned financial instruments and deposits separate from BNPP AM.

In the event that BNPP AM defaults, the assets of the Product held by the depositary will not be affected.

However, in the event that the depositary defaults, the Product's risk of financial loss is mitigated by the legal segregation of the depositary's assets from those of the Product.

## WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If this Product is used as an underlying of an insurance policy or a capitalization policy, the costs presented do not include any costs related to such policies.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total Cost</b>	449.37 EUR	1,460 EUR
<b>Annual Cost Impact (*)</b>	4.54%	2.63% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.21% before costs and 2.58% after costs.

## Composition of costs

One-off entry or exit costs	If you exit after 1 year

Performance fees	There is no performance fee for this Product.	0 EUR
In case of conversion, the investors may be charged a maximum fee of 1.25%.		

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

## Recommended holding period ("RHP"): 5 years.

The RHP has been defined and based on the risk and reward profile of the Product.

Investors are able to redeem on a daily basis (on bank business days) as described in the prospectus.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.

## HOW CAN I COMPLAIN?

For any complaints, investors are invited to contact their usual advisor at the establishment that advised them on the Product. They can also contact BNPP AM via its website <https://www.bnpparibas-am.com/fr-be/investisseur-prive/informations-reglementaires/reclamations/> or send a letter to: BNP PARIBAS ASSET MANAGEMENT Europe, Belgian branch - Montagne du Parc, 3 - 1000 Bruxelles - BELGIUM, or send an email to [AMBE.Complaints@bnpparibas.com](mailto:AMBE.Complaints@bnpparibas.com).
