WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is established as a sub-fund of BNP PARIBAS COMFORT, a FCP (fonds commun de placement- mutual investment fund), governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by Directive 2009/65.

Term

This Product has no maturity date.

BNPP AM Luxembourg is entitled to dissolve the Product unilaterally. Dissolution may also take place in the event of a merger, total redemption of the units or when the net assets of the Product are less than the minimum regulatory amount.

Objectives

The Fund belongs to the category of fund of funds. It seeks to increase the value of its assets over the medium term by investing primarily in capitalization shares of other funds that primarily invest in shares issued by European companies or companies operating in Europe, which distribute dividends higher than the average in such markets. The selection of each fund goes through a rigorous process including quantitative and qualitative research to identify the ones that best meet pre-defined selection criteria, including historical performance, investment style, risk profile and consistency of the investment philosophy. The end result is a diversified portfolio of approximately 20 funds offering a broad distribution of risks across countries, sectors, investment styles and market capitalizations. The Fund is actively managed, and as such aims at outperforming the index MSCI Europe (NR) (the "benchmark"). Although neither the Fund nor its underlying's funds intend to track the benchmark, investors should be aware that, due to the diversified exposure obtained through the fund-of-funds approach, the Fund's volatility is automatically reduced and therefore may, from time to time, be comparable to the volatility profile of the benchmark.

A dividend may be distributed.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The FCP is an undivided collection of transferable securities and / or other liquid financial assets distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/FCP, held by a depository, would not be affected by this default.

In case of default of the depository, the risk of financial loss of the Product/FCP is mitigated by the legal segregation of the assets of the depository from those of the Product/FCP.
