## WHAT IS THIS PRODUCT?

### Type

The Units are a class of units in Eneas Fund (the "Sub-Fund"), a sub-fund of BPI Global Investment Fund (the "Fund"). The Fund is formed as a fonds commun de placement. The Fund qualifies as an undertaking for collective investment in transferable securities ("UCITS") within the meaning of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment. CaixaBank Asset Management Luxembourg S.A. is acting as management company of the Fund (the "Management Company"). The Sub-Fund is a sub-fund of an investment fund, whose performance will depend on the performance of its portfolio as further described in the section "Objectives" of this KID.

### Term

The Fund, the Sub-Fund and the Units were created for an unlimited duration. The Fund can be dissolved by a decision of the Management Company as further outlined in the prospectus of the Fund. The PRIIP Manufacturer in its capacity as management company can terminate the Fund, Sub-Fund or the Units unilaterally.

### Objectives

The investment objective of the Sub-Fund is to provide investors with medium to long-term capital appreciation by investing in a dynamic and diversified portfolio of assets. The Sub-Fund aims to produce returns by investing in various asset classes such as fixed income securities and equities and, in normal market conditions, will have a higher exposure to equities than to fixed income securities. The Sub-Fund invests in the various asset classes either directly or indirectly, by investing in UCITS, including eligible Exchange-Traded Funds ("ETFs"), having a similar investment objective, or through the use of derivatives. The Sub-Fund will invest at least 60% of its net assets in UCITS including eligible ETFs. As such, the Sub-Fund will qualify as a fund of funds. The Sub-Fund's exposure to equities, either directly or indirectly via other UCITS, is minimum 20% of the net assets and can go up to 100% of the net assets. In normal market conditions, CaixaBank Asset Management S.G.I.I.C., S.A.U. (the "Portfolio Manager") expects that a majority of the Sub-Fund's portfolio will be exposed to equities. Investments in fixed income securities include government bonds, credit bonds, emerging market bonds, convertibles bonds and covered bonds. The Sub-Fund may invest in or be exposed to sub-investment grade fixed income securities (with a rating below BBB- or equivalent by any major rating agency or deemed by the Investment Manager to be of equal quality). Investment in these securities will not exceed 20% of the Sub-Fund's net assets. In the context of a rating downgrade, a corporate action or other conversions (including corporate restructuring events), this limit may be exceeded on a temporary basis. In this case, the Investment Manager will seek to reduce its exposure to those instruments as soon as practicable whilst having regard to the best interest of the investor. The Sub-Fund may be exposed up to 35% in aggregate of its net assets to emerging markets bonds and equities and up to 70% of its net assets to assets denominated in any currency other than the Euro. The

indirect exposure to commodities and real estate may be up to 20% respectively. The Sub-Fund would not actively seek exposure to fixed income securities including government bonds, credit bonds, emerging market bonds, convertible bonds and covered bonds, however it may have a direct and indirect exposure to fixed income securities of up to 80% of its net assets. This Sub-Fund will not invest in distressed securities. The Sub-Fund may use derivatives for the purpose of efficient portfolio management, hedging and to implement investment strategies which aim to achieve the Sub-Fund's investment objective. The Sub-Fund will in principle not make an extensive use of derivatives. The Sub-Fund may invest in derivatives in the form of futures and options traded in official markets including, but not limited to, EUREX, CMT, CBOT and MEFF. The Sub-Fund will not enter into Securities Financing Transactions ("SFTs"). The Sub-Fund will not enter into total return swaps. To achieve its investment goals, for treasury purposes and/or in case of unfavorable market conditions, the Sub-Fund may also invest in money market instruments and transferable securities on an ancillary basis. The Sub-Fund may also hold ancillary liquid assets, such as cash in bank deposits at sight held in current accounts with a bank accessible at any time, for up to 20% of its net assets which may only go beyond the 20% limit in case of exceptionally unfavorable market conditions as further described in the prospectus. The Units are capitalization units which means units that do not pay dividends. The Units may be subscribed and redeemed upon demand on each Luxembourg banking day. Taking into account the long-term holding period and the characteristics of the investments, the performance of the Sub-Fund depends on the performance of the investments over time. A positive performance of the investments will lead to the Sub-Fund's positive performance just as a negative performance of the investments will cause a negative performance. The Sub-Fund pursues an actively-managed

other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depository).

Losses are not covered by an investor's compensation or guarantee scheme.

## WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- € 10,000 is invested.

	If you exit after 1 year	If you exit after 7 years
<b>Total costs</b>	<b>€ 385</b>	<b>€ 1,002</b>
<b>Annual cost impact (*)</b>	<b>4.0%</b>	<b>1.3% each year</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.5% before costs and 5.2% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (3% of amount invested). This person will inform you of the actual distribution fee.

### Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	3% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you on the actual charge.	€ 300
<b>Exit costs</b>	0% of your investment before it is paid out to you.	€ 0
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	0.68% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 66
<b>Transaction costs</b>	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 19
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this product.	€ 0

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

### Recommended holding period: 7 years

The Sub-Fund is aimed at investors with a high risk tolerance who assume a perspective of capital appreciation in the medium/long term and, as such, are willing to tie up their savings for a recommended holding period of 7 years.

You can redeem your investment at any time during this period, or hold the investment longer. Investors may redeem their units of the Sub-Fund on any business day in Luxembourg. Cashing in before the recommended holding period may increase the risk of lower investment returns.
