General

Cape Capital SICAV-UCITS (hereinafter, the "Company") is an undertaking collective investment in transferable securities organized as a public limited company (société anonyme) in the legal form of an investment company with variable capital (société d'investissement à capital variable, SICAV) subject to Part I of the amended Luxembourg law of December 2010 on undertakings for collective investment (the "Law of 17.12.2010").

The Company was initially created as a specialised investment fund in accordance with the law of 13.02.2007 relating to specialised investment funds and was converted into a company subject to Part I of the Law of 17.12.2010 on July 2017. The Company has an umbrella structure and as such may operate separate Subfunds.

As of 30.06.2024 the Company had 3 Subfunds.

Summary of significant accounting policies

a) Presentation of financial statements

The financial statements are presented in accordance with the requirements of the Luxembourg regulation.

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds under the going concern of accounting.

b) Computation of the net asset value of each Subfund

The Net Asset Value per Share is determined as of each Business Day (a "Valuation Day") on which banks are open for business in Luxembourg, Switzerland and the Canton of Zurich.

For the Subfund Cape Capital SICAV-UCITS - Cape Fixed Income Fund the investment manager needs to undertake transactions in order to maintain the desired asset allocation as a result of subscriptions or redemptions, which may generate additional costs for the Company and its shareholders. As a consequence, in order to protect the existing investors' interest, from these capital movements, when net capital movements exceed a threshold pre-defined by the Board of Directors, an adjustment of the NAV per share used is applied. This adjustment reflects the estimated tax and dealing costs that may be incurred by the Company as a result of these transactions, and the estimated bid-offer spread of the assets in which the Company invests. A periodical review is undertaken in order to verify the appropriateness of the swing factor being applied.

The Net Asset Value calculated will be increased by up to a maximum of 0.25% per share in the event of a net surplus of subscription applications exceeding 3.0% of the Net Asset Value on the respective Valuation Day.

In the case of net redemptions exceeding more than 2.0% of the Net Asset Value on a Business Day, the Net Asset Value will be decreased by 0.30% in order to achieve a fair sharing of transactions costs between redeeming and remaining investors.

In case net redemptions exceed 5% of the Net Asset Value, the Company may, in the interest of shareholders, decide to increase the maximum swing factor up to 2%.

As per 30.06.2024, no swing pricing was applied.

c) Valuation of investment securities of each Subfund

Securities which are listed on a stock exchange shall be valued at the closing mid-price (the mean of the closing bid and ask prices). If such a price is not available for a particular trading day, the last available traded price or alternatively, the closing bid price, may be taken as a basis for the valuation. If a security is traded on several stock exchanges, the valuation shall be made by reference to the exchange on which it is primarily traded.

In the case of securities for which trading on a stock exchange is not significant although a secondary market with regulated trading among securities dealers does exist, the valuation may be based on this secondary market.

Securities traded on a regulated market shall be valued in the same way as securities listed on a stock exchange.

Securities that are not listed on a stock exchange and are not traded on a regulated market shall be valued at their last available market price. If no such price is available, the Board of Directors shall value these securities in accordance with other criteria to be established by the Board of Directors and on the basis of the probable sales price, the value of which shall be estimated with due care and in good faith.

Shares and units in UCIs shall be valued on the basis of their most recently calculated net asset value, taking due account of applicable redemption fees. Where no net asset value and only buy and sell prices are available, the shares or units in such UCIs may be valued at the mean of such buy and sell prices. Derivatives shall be treated in accordance with the above.

Fixed-term deposits and similar assets shall be valued at their respective nominal value plus accrued interest.

The valuation price of a money-market investment, based on the net acquisition price, shall be progressively adjusted to the redemption price whilst keeping the resulting investment return constant. In the event of a significant change in market conditions, the basis for the valuation of different investments shall be brought in line with the new market yields.

d) Net realised gain/loss on sales of investments of each Subfund

The realised gains or losses on the sales of securities are calculated on the basis of the average acquisition cost.

e) Foreign exchange conversion

The financial statements are kept in the reference currency of each Subfund and the combined financial statements are kept in EUR.

Cash at banks, other net assets and the value of portfolio securities in currencies other than the reference currency of each Subfund are converted into the reference currency at the foreign exchange rate prevailing on the date of valuation.

Income and expenses in currencies other than the reference currency of each Subfund are converted into the reference currency at the foreign exchange rate applicable at the date they accrue to the Subfund.

Realised gains or losses on foreign currencies are accounted for in the statement of operations / changes in net assets.

The acquisition cost of securities in currencies other than the reference currency of each Subfund is converted into the reference currency at the foreign exchange rate valid at the date of acquisition.

f) Formation expenses of each Subfund

Formation expenses are amortised over a period of five years.

g) Transactions on investments in securities of each Subfund

The transactions on investments in securities are booked on a trade date basis.

h) Valuation of financial futures contracts of each Subfund

Unmatured financial future contracts are valued at valuation date at market prices prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and are shown under "Net unrealised gain/loss on financial futures contracts" in the statement of net assets. Realised gains or losses are also posted to the statement of operations / changes in net assets under "Net realised gain (loss) on financial futures contracts".

i) Valuation of forward foreign exchange contracts of each Subfund

Unmatured forward foreign exchange contracts are valued at valuation date at forward exchange rates prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and are shown under "Net unrealised gain/loss on forward foreign exchange contracts" in the statement of net assets. Realised gains or losses are also posted to the statement of operations / changes in net assets under "Net realised gain (loss) on forward foreign exchange contracts".

j) Valuation of options of each Subfund

Unmatured options are valued at valuation date at market rates prevailing at this date and resulting changes in unrealised gains or losses are posted to the statement of operations. Realised and unrealised gains or losses are recorded in the statement of operations / changes in net assets.

k) Valuation of swaps

On each valuation day, swap agreements are valued at the net present value of the future cash flows, using the relevant interest rate yield curve on valuation day. Asset swaps and the securities linked to the asset swaps are not revaluated as the security and the asset swap are considered for the purpose of the valuation as a single instrument.

The resulting unrealised gains or losses are shown under "Net unrealised gain/loss on swap contracts" in the statement of net assets. Realised gains or losses are also posted to the statement of operations / changes in net assets under "Net realised gain (loss) on swap contracts".

l) Allocation of accrued expenses

Accrued expenses which can be allocated directly to a Subfund are charged to this Subfund. Accrued expenses which cannot be allocated directly are divided among the Subfunds in proportion to the net assets of each Subfund.

m) Income recognition

Dividends are recorded on ex-dividend date, net of withholding tax. Interests are accrued on a daily basis.

The rate is however of 0.01% per annum for:

- individual Subfunds the exclusive object of which is the collective investment in money market instruments and the placing of deposits with credit institutions;
- individual Subfunds the exclusive object of which is the collective investment in deposits with credit institutions; and,
- individual Subfunds as well as for individual Classes, provided that the Shares of such Subfund or Class are reserved to one or more institutional investors.

Changes in the composition of the security portfolio

Changes in the composition of the security portfolio during the reporting year are available to Shareholders free of charge at the registered office of the Company or the local representatives in the countries where the Company is registered.

Total Expense Ratio (TER)

(see detail at Subfund level)

The TER expresses the sum of all costs and commissions charged on an ongoing basis to the Subfund's assets, taken retrospectively as a percentage of these assets.

The Total Expense Ratio (TER) was calculated based on the version currently applicable of the "Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes" of the "Asset Management Association Switzerland" (AMAS).

The TER is calculated for the last 12 months.

Fund performance

(see detail at Subfund level)

The performance is based on the net asset values as calculated on the last business day of the year. Those net asset values reflect the market prices of the investments as of the last business day of the year.

The YTD (Year-To-Date) Performance includes the period from 01.01.2024 until 30.06.2024.

Historical performance is no indicator of current or future performance.

The performance data given does not take into account commissions and costs incurred in the purchase or redemption of Subfund shares.

For shares launched more than 3 years ago no performance since inception is disclosed.

Performance of distributing shares includes reinvestments of dividends.

Transaction costs

Transactions costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the year. Transaction costs are included in the cost of securities purchased and sold.

For the period ended on 30.06.2024, the Company incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, (including derivatives instruments or other eligible assets) as follows:

Subfund	CCY	Transaction cost
Cape Capital SICAV-UCITS - Cape Equity Fund	EUR	380,883.14
Cape Capital SICAV-UCITS - Cape Fixed Income Fund	EUR	0.00
Cape Capital SICAV-UCITS - Cape Select Bond Fund	EUR	0.00

Not all transaction costs are separately identifiable. For fixed income investments, forward foreign exchange contracts and for some other derivative contracts, transaction costs will be included in the purchase and sales price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Subfund.

War in Ukraine

During late February 2022, the eastern part of Europe has entered into a phase of instability following the military action taken by Russia against Ukraine (the "Situation"). As a result, a list of global leading countries, not limited to Canada, the European Union, Japan, New Zealand, Taiwan, the United Kingdom, and the United States unveiled a series of sanctions against Russia to cripple the economy targeting banks, oil refineries, and military exports, etc. On the other aspect and amid the worsening situations in Ukraine due to the prevalent military situation, the economy deterioration and volatility in Ukraine seems imperative. In addition to the direct impact on the concerned economies and parties, Ukraine and Russia, the impact on other economies is inevitable. More specifically, the link between the economies of Europe and Russia is considerable enough for its effects to an extent that may hit the western economy even harder, also with effects on the US economy.

The Board of Directors is closely monitoring the effects of the Situation on the investors, investments and other stakeholders and have assessed that the Situation does not impact the financial statements as at 30 June 2024 and the ability of the Company and its sub-funds to continue as going concern.

Significant events

On 12 June 2023, Credit Suisse Group AG was merged into UBS Group AG and the combined entity now operates as a consolidated banking group (the "Merger"). The Fund receives various services and has banking relationships with consolidated subsidiaries of Credit Suisse Group AG, and as such these relationships and service providers may change in the future as a result of the Merger.

Subsequent events

No significant event occurred after the period end.

Unaudited information

Risk management

The global exposure of the Subfunds is calculated and monitored under the absolute VaR approach, except for the Subfund Cape Capital SICAV-UCITS – Cape Equity Fund which is calculated and monitored under the commitment approach.

VaR information

The Subfunds listed in the table below follow the Absolute VaR approach for calculation of global exposure. The VaR levels reached during the period and VaR limits are shown in the below table:

Fund Name	Lowest VaR	Average VaR	Highest VaR	Market Risk Internal limit	Regulatory limit
Cape Capital SICAV-UCITS – Cape Fixed Income Fund	1.43%	1.80%	2.00%	6.50%	20%
Cape Capital SICAV-UCITS – Cape Select Bond Fund	0.16%	0.26%	0.42%	5.00%	20%

Applied calculation standards

The following calculation standards are used in daily calculation of the VaR:

- Confidence interval: 99.00%
- Holding period: 20 Days
- Effective observation period: 250 days
- Calculation frequency: daily
- Model: Monte Historical Simulation

The average level of leverage reached during the period is 0.7349 for Cape Capital SICAV-UCITS - Cape Fixed Income Fund and 0.3385 for Cape Capital SICAV-UCITS - Cape Select Bond Fund.

Remuneration

Information on remuneration will be disclosed as set out in articles 111bis and 111ter of the law of 17 December 2010 on undertakings for collective investment, as amended, once an entire financial year is completed.

Securities Financing Transaction Regulation

Securities Financing Transaction Regulation ("SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps.

A Security Financing Transaction ("SFT") is defined as per Article 3 (11) of the SFTR as:

- a repurchase/reverse repurchase agreement,
- securities or commodities lending and securities or commodities borrowing,
- a buy-sell back transaction or sell-buy back transaction, or
- a margin lending transaction.

The Company did not hold any total return swaps or enter in security financing transactions during the period ended 30.06.2024.
