What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of COBAS LUX SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may decide to close this product under certain circumstances.

OBJECTIVES

Objectives and investment policy

The Sub-Fund seeks to provide principal preservation and long term capital appreciation.

The Sub-Fund will invest at least 80% of its net assets in equities or equity-related securities (such as depositary receipts, real estate investment trusts (REITs), subscription rights) of companies of any market capitalization.

The choice of investments will neither be limited by geographical area (including emerging markets), economic sector, market capitalization nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries, as OECD countries) and/or in a single currency and/or in a single economic sector.

Up to 20% of its net assets, the Sub-Fund may invest in any other type of eligible assets such as debt securities, money market instruments, cash, undertakings for collective investment (UCIs).

However, the Sub-Fund will be subject to the following restrictions:

- the Sub-Fund's investments in units or shares of UCIs shall not exceed 10% of its net assets;
- the Sub-Fund's investments in REITs shall not exceed 20% of its net assets;
- when investing in debt securities of any type (including money market instruments) from corporate and/or public issuer, the investment manager may not invest in debt securities classified as "high yield";
- the Sub-Fund will not invest in contingent convertible bonds.

If the investment manager considers this to be in the best interest of the shareholders, on a temporary basis and for defensive purposes, the Sub-Fund may also, hold, up to 100% of its net assets, liquidities as among others cash deposits, money market UCIs (within the above-mentioned 10% limit) and money market instruments.

Derivatives The Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over the counter, for hedging, for investment and efficient portfolio management purposes. Nevertheless, in normal market conditions, the investment manager intends to use futures and options on offering an exposure to equities and currency forwards.

Benchmark The Sub-Fund is actively managed. The benchmark index MSCI Europe Total Net Return is used for comparison purposes only. The Sub-Fund can deviate significantly from the benchmark index.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the 'NAV') calculated by the Central Administration. This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is reserved for eligible investors, as per the prospectus. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

OTHER INFORMATION

Depositary Pictet & Cie (Europe) S.A. (the "Depositary").

Asset segregation The assets and liabilities of each Sub-Fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The net asset value for the Class is calculated on each bank business day in Luxembourg (the "Calculation Day") based on the prices of the preceding bank business day (the "Valuation Day"). The cut-off time to submit subscription and/or redemption orders is 4 p.m. on the business day preceding the applicable Valuation Day.

Switching Shareholders may apply for any shares of any class of any sub-Funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target class are fulfilled with respect to this sub-fund, on the basis of their respective net asset value calculated on the valuation day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus, section which details the switch between sub-funds, which is available at www.fundsquare.net.

Additional Information More detailed information on this Sub-Fund, such as the prospectus, other classes, the key information, the latest net asset value, the articles of incorporation as well as the latest annual and semi annual report, can be obtained free of charge, in English, from the central administrator, the distributors, the Management Company or online at www.fundsquare.net. This key information document describes the Class of one Sub-Fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		5 years EUR 10,000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	EUR 4,440	EUR 980	
	Average return each year	-55.6%	-37.1%	
Unfavourable scenario	What you might get back after costs	EUR 5,370	EUR 4,300	This type of scenario occurred for an investment in the proxy then the product between March 2015 and March 2020.
	Average return each year	-46.3%	-15.5%	
Moderate scenario	What you might get back after costs	EUR 10,230	EUR 8,430	This type of scenario occurred for an investment in the proxy then the product between August 2016 and August 2021.
	Average return each year	2.3%	-3.4%	
Favourable scenario	What you might get back after costs	EUR 17,410	EUR 14,380	This type of scenario occurred for an investment in the proxy then the product between December 2012 and December 2017.
	Average return each year	74.1%	7.5%

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 639	EUR 1,408
Annual cost impact (*)	6.4%	3.0%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.4% before costs and -3.4% after costs.
