

## Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and/or, in case of insufficient track record, a comparable share class or benchmark, over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions.

Recommended holding period: 5 Example Investment: 10,000 GBP		If you exit after 1 year	If you exit after 5 years (RHP)
Scenarios			
<b>Minimum</b>	You could lose some or all of your investment		
<b>Stress scenario</b>	<b>What you might get back after costs</b>	3,540 GBP	2,890 GBP
	Average return each year	-64.6%	-22.0%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	8,140 GBP	10,770 GBP
	Average return each year	-18.6%	1.5%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	11,310 GBP	18,450 GBP
	Average return each year	13.1%	13.0%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	13,830 GBP	22,640 GBP
	Average return each year	38.3%	17.7%

**Stress scenario:** The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable scenario:** This type of scenario occurred between December 2021 and February 2024 for an investment in the product itself or simulated by reference to a benchmark or proxy in case of insufficient historical data.

**Moderate scenario:** This type of scenario occurred between August 2014 and August 2019 for an investment in the product itself or simulated by reference to a benchmark or proxy in case of insufficient historical data.

**Favourable scenario:** This type of scenario occurred between November 2016 and November 2021 for an investment in the product itself or simulated by reference to a benchmark or proxy in case of insufficient historical data.

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What happens if Comgest Growth Plc is unable to pay out ?

The investor may face a financial loss (equal to some or all of the investor's investments) due to the default of the fund. Such a potential loss is not covered by any investor compensation or guarantee scheme.

## What are the costs ?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 GBP is invested.

Investment of 10,000 GBP	If you cash in after 1 year	If you cash in after 5 years (RHP)
Total costs	96 GBP	907 GBP
Cost impact*	1.0%	1.1%

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.1% before costs and 13.0% after costs.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	Up to 0 GBP
Exit costs	We do not charge an exit fee for this product.	0 GBP
Ongoing costs taken each year
