### CPR Invest - Blue Economy - M2 EUR - Acc A Compartment of CPR Invest (SICAV)

ISIN code : (A) LU2462250015

This Compartment is managed by CPR Asset Management, a company of the group Amundi

#### Objectives and Investment Policy

The Compartment's objective is to outperform global equity markets over a long-term period (minimum of five years) by investing in international equities involved in the Blue Economy defined as the sustainable use of marine resources and the protection of marine ecosystems.

The investment process integrates a sustainable approach through Environmental, Social and Governance (ESG) criteria.

The Compartment's sustainable investment policy aims to obtain a lower carbon intensity compared to its reference index or investment universe by selecting securities (or companies) as described below.

The investment strategy of the Compartment aims to select securities of companies active in economic sectors that have a direct or indirect link with the sea, including aquaculture, fisheries, fish processing industry, sustainable ports, marine renewables, ocean energy, desalination, coastal protection, biotechnologies, cosmetology, wellness, marine transportation and trade, telecoms, blue tech, security, waste treatment etc. It especially consists of companies that are primarily active in business areas suited to restoring, protecting or maintaining diverse, productive and resilient marine ecosystems but also companies with linked targets to ocean and water risk management or a clear intention to reduce risk to ocean environments or to enhance business segments towards solutions-oriented.

The Compartment is actively managed. The Compartment may use a Benchmark a posteriori as an indicator for assessing the Compartment's performance and, as regards the performance fee benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction.

The sustainable construction of the investment universe is further improved by excluding companies based on the Management Company's ESG approach (using environmental, social and governance criteria) :

- worst overall ESG scores ;
- worst scores for specific E, S and G criteria considered relevant to the blue economy ;
- high ESG controversies.

At least 90% of portfolio stocks have an ESG score.

The Management Company undertakes to ensure that the Compartment's ESG score is higher than the investment universe's ESG score after excluding at least 20% of stocks with the worst scores according to the ESG approach.

The Compartment is invested for at least 75% of its assets in equity and equity equivalent securities of any country without constraints of capitalisation. Among this proportion of 75% of its assets, the Compartment may invest in China A shares via Stock Connect within a maximum of 25% of its assets.

Derivatives instruments may be used by the Compartment for hedging, arbitrage, exposure purposes and/or efficient portfolio management.

The Compartment pursues Article 9 of the Disclosure Regulation regarding sustainable investments.

#### Risk and Reward Profile

This Compartment's risk level reflects its international equities investment theme

- The historical data used to calculate the numeric risk indicator could not be a reliable indicator of the future risk profile of the Compartment.
- The risk category associated with this Compartment is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.
- The capital is not guaranteed.

Major risks for the Compartment not included in the indicator are :

- Credit risk: this is the risk of sudden downgrading in the creditworthiness of an issuer or that of its default.
- Liquidity risk: it presents the risks that a financial market, when volumes traded are low or if there are tensions on such market, might not be able to absorb the sell (or buy) volumes without causing the price of the assets to significantly drop (or rise).
- Counterparty risk: this is the risk of default of a market participant preventing it from honoring its commitments in respect of your portfolio.
- The use of financial derivatives instruments might increase or decrease the capacity of your portfolio to amplify market's movements.

The occurrence of any of these risks may lower the net asset value of your Compartment. To learn more about the risks, please refer to the Risk Profile section of the Compartment in the prospectus.
