Objectives and Investment Policy

The investment objective is to outperform global equity markets over a long-term period (minimum of five years) by investing in shares of companies which either establish or benefit - fully or partly - from disruptive business models.

To achieve this, the Compartment is invested for at least 75% of its assets in equity and equity equivalent securities of any country, without constraints of capitalization. Among this proportion of 75% of its assets, the Compartment may invest in China A shares via Stock Connect within a maximum of 25% of its assets.

The Compartment's equity exposure will be between 75% and 120% of its assets.

For information purposes, the MSCI World Net Total Return Index (net dividends reinvested) serves a posteriori as an indicator for assessing the Compartment's performance.

Derivative instruments may be used by the Compartment for hedging, arbitrage, exposure purposes and/or efficient portfolio management.

CPR Invest - Global Disruptive Opportunities - I - Acc has a recommended investment horizon of supérieur à 5 years.

CPR Invest - Global Disruptive Opportunities - I - Acc accumulates its net profit and net realized capital gains.

You may redeem your shares at each net asset value, calculated on a daily basis in accordance with the terms specified in the prospectus.

Risk and Reward Profile

This Compartment's risk level reflects its international equities investment theme.

- The historical data used to calculate the numeric risk indicator could not be a reliable indicator of the future risk profile of the Compartment.
- The risk category associated with this Compartment is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.
- The capital is not guaranteed.

Major risks for the Compartment not included in the indicator are :

- Credit risk: this is the risk of sudden downgrading in the creditworthiness of an issuer or that of its default.
- Liquidity risk: it presents the risks that a financial market, when volumes traded are low or if there are tensions on such market, might not be able to absorb the sell (or buy) volumes without causing the price of the assets to significantly drop (or rise).
- Counterparty risk: this is the risk of default of a market participant preventing it from honoring its commitments in respect of your portfolio.
- The use of financial derivatives instruments might increase or decrease the capacity of your portfolio to amplify market's movements.

The occurrence of any of these risks may lower the net asset value of your Compartment. To learn more about the risks, please refer to the Risk Profile section of the Compartment in the prospectus.

Charges

The charges you pay are used to pay the costs of running the Compartment, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
