## What is this product?

**Type:** Shares of a Sub-Fund of CPR Invest, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** The investment objective is to outperform global equity markets over a long-term period (minimum of five years) by investing in shares of companies which either establish or benefit - fully or partly - from disruptive business models.

The best-in-class approach does not exclude any sector of activity in principle. All economic sectors are therefore represented in this approach and the Compartment may therefore be exposed to some controversial sectors.

To achieve this, the Compartment is invested for at least 75% of its assets in equity and equity equivalent securities of any country, without constraints of capitalization. Among this proportion of 75% of its assets, the Compartment may invest in China A shares via Stock Connect within a maximum of 25% of its assets.

The Compartment's equity exposure will be between 75% and 120% of its assets.

Derivative instruments may be used by the Compartment for hedging, arbitrage, exposure purposes and/or efficient portfolio management.

The Compartment is actively managed. The Compartment may use a Benchmark a posteriori as an indicator for assessing the Compartment's performance and, as regards the performance fee benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction.

The Compartment is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

**Intended Retail Investor:** This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

**Redemption and Dealing:** Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the CPR Invest prospectus.

**Distribution Policy:** As this is a non-distributing share class, investment income is reinvested.
