What is this product?

Type

Columbia Threadneedle Investment Funds (UK) ICVC is a UK UCITS in accordance with sections 236A and 237 of the Financial Services and Markets Act 2000. It is established as an open-ended investment company with variable capital incorporated with limited liability in England and Wales.

Depository: Citibank UK Limited

You can obtain further information about the Fund, the Company, its prospectus (in English only), latest annual reports and any subsequent half-yearly reports (in English) free of charge from the ACD. You can obtain other practical information, including current share prices, at www.columbiathreadneedle.com

Term

There is no fixed maturity date. An investor can hold their investment for any time period but 5 year(s) is recommended. The ACD can close the Fund with notice.

Objectives

The Fund aims to provide income with the prospect of some investment growth over the long term (5 years or more). The Fund is actively managed, and invests at least two-thirds of its assets in bonds issued by the US government and companies worldwide, denominated in US dollars (or hedged back to USD, if a different currency). The Fund may also invest in other bonds, including US denominated bonds issued by governments outside the US (or government agencies), as well as international organisations. The Fund usually selects bonds that are investment grade, but may include some bonds with a lower credit rating in the portfolio if this is considered appropriate to achieve its investment objective. The Fund may also invest in other assets such as cash and deposits, and hold other funds (including funds managed by Columbia Threadneedle companies) when deemed appropriate. The Fund is not permitted to invest in derivatives for investment purposes, but derivatives may be used with the aim of reducing risk or managing the Fund more efficiently. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.

Any income the Fund generates will be paid to you, unless you have chosen to have it reinvested.

You can buy and sell shares in the Fund on any day that is a business day in London. You can find more detail on the investment objective and policy of the Fund in the prospectus. For more information on investment terms used in this document, please see the Glossary available at www.columbiathreadneedle.com.

Intended retail investor

This fund is aimed at Retail and Professional customers and Eligible Counterparties who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for income and the possibility of some capital growth who can invest their money for at least 5 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests in fixed income securities which tend to have a higher risk profile than money market securities due to higher company specific credit and interest rate risk but a lower risk profile than equity markets.

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a low-medium risk class.

This rates the potential losses from future performance at a low-medium level, and poor market conditions are unlikely to impact our capacity to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 06/2020 to 12/2023

Moderate scenario: This type of scenario occurred for an investment between 09/2017 to 09/2022

Favourable scenario: This type of scenario occurred for an investment between 06/2015 to 06/2020

Investment GBP 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (Recommended Holding Period)

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

Investment GBP 10,000	if you exit in after 1 year	if you exit in after 5 years (Recommended Holding Period)
Total costs	625.00 GBP	1,360.00 GBP
Annual Cost impact*	6.25%	2.36%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 2.47% before costs and 0.12% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs
