What is this product?

Type

CT (Lux) Credit Opportunities (the "Fund") is a sub-fund of Columbia Threadneedle (Lux) I (the "SICAV"), an open-ended investment fund with variable capital. The SICAV is authorised under Luxembourg law and qualifies as an UCITS.

Term

The Fund does not have a maturity date. The Directors of the SICAV may decide to unilaterally liquidate the Fund with notice to the investors. Please refer to the Prospectus for more information.

Objectives

The Fund aims to make a positive return for you over the medium term, notwithstanding changing market conditions. Positive returns are not guaranteed and no form of capital protection applies. The Fund is actively managed, and invests at least two-thirds of its assets in long and short positions in investment grade or below investment grade bonds (which are similar to a loan and pay a fixed or variable interest rate) issued by companies and governments worldwide. Bonds rated as below investment grade have received lower ratings from international agencies that provide such ratings and are considered riskier than higher rated bonds but typically pay a higher income. The Fund invests directly in these assets or by using derivatives (complex instruments). Derivatives will be used to obtain, increase or reduce exposure to underlying assets and may create leverage. Where leverage is created, the net asset value of the Fund may experience more fluctuation than if there were no leverage. The Fund will also use derivatives for short selling (which is designed to make a profit from falling prices), hedging purposes or to manage the Fund more efficiently. The Fund may also invest in asset classes and instruments different from those stated above. The Fund is not managed in reference to a benchmark.

Income from investments in the Fund will be added to the value of your shares.

You can find more details on the Investment Objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see Prospectus and Glossary available at www.columbiathreadneedle.com.

Intended retail investor

This Fund is intended for investors who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for an absolute return from income and capital growth who can invest their money for at least 3 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests directly and through derivatives in fixed income securities which tend to have a higher risk profile than money market securities due to higher company specific credit and interest rate risk. The fund also uses derivatives for short selling (designed to make a profit from falling asset prices).

Additional Information

Depositary: Citibank Europe plc, Luxembourg branch.

Fund currency is EUR. Share class currency is EUR.

Shares in the Fund can be bought and sold on any Luxembourg Business Day. Such days are published on www.columbiathreadneedle.com. You have the right to exchange into shares of another sub-fund or into shares of another share class of the Fund (eligibility requirements apply). Subject to conditions noted in the Prospectus, the Directors of the SICAV may decide to suspend the issue, redemption and exchange of shares.

The assets of the Fund are segregated by law and cannot be used to pay the liabilities of other sub-funds of the SICAV. Further information about the Fund, the Share-Class and the SICAV can be obtained from the Prospectus, the annual and semi-annual financial reports. The above documents and the latest price per share are available free of charge at www.columbiathreadneedle.com in English, French, German, Portuguese (Prospectus only), Italian (Prospectus only), Spanish and Dutch (no Dutch Prospectus). This document is prepared for a specific share-class of the Fund. The Prospectus and the annual and semi-annual financial reports cover the entire SICAV.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 3 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the value of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 03/2017 to 03/2020

Moderate scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 01/2017 to 01/2020

Favourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 02/2016 to 02/2019

Recommended holding period: 3 years
Example Investment: EUR 10,000

		If you exit after 1 year	If you exit after 3 years

What happens if Threadneedle Management Luxembourg S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. The assets of the Fund are held in safekeeping by the Depositary. In case of default of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. There is a potential default risk if the assets of the Fund held by the Depositary are lost. However, such default risk is limited as the assets and liabilities of the Depositary are segregated from those of the Fund, and the Fund would not be liable if the Depositary or any delegated service provider were to fail or default.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	75 EUR	231 EUR
Annual Cost Impact*	0.75%	0.76%

(*)This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 0.47% before costs and 0.76% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs

How long should I hold it and can I take money out early?

Recommended holding period 3 year(s)

It is recommended that you stay invested in the Fund for at least 3 year(s). This period has been selected for illustrative purposes only and reflects this medium-term nature of the Fund's investment objective. There is no minimum or maximum holding period and you can redeem your shares without penalty on any Luxembourg Business Day. Your return may be negatively impacted if you redeem your shares prior to the recommended holding period.
