What is this product?

Type

Columbia Threadneedle (Lux) I is a UCITS under European Directive 2009/65/EC. It is established as an investment company with variable capital ("société d'investissement à capital variable" or "SICAV") under the laws of Luxembourg.

Depository: Citibank Europe plc, Luxembourg branch. You can obtain further information about the Fund and the SICAV, its prospectus, latest annual reports and any subsequent half-yearly reports free of charge from the Manufacturer. These documents are available in English, French, German, Portuguese, Italian and Spanish. You can obtain other practical information, including current share prices, at www.columbiathreadneedle.com

Term

There is no fixed maturity date. An investor can hold their investment for any time period but minimum 3 year(s) is recommended. The Manufacturer can close the fund with notice.

Objectives

The Fund aims to make a positive return for you over the medium term, notwithstanding changing market conditions. Positive returns are not guaranteed and no form of capital protection applies. The Fund is actively managed, and invests at least two-thirds of its assets in long and short positions in investment grade or below investment grade bonds (which are similar to a loan and pay a fixed or variable interest rate) issued by companies and governments worldwide. Bonds rated as below investment grade have received lower ratings from international agencies that provide such ratings and are considered riskier than higher rated bonds but typically pay a higher income. The Fund invests directly in these assets or by using derivatives (complex instruments). Derivatives will be used to obtain, increase or reduce exposure to underlying assets and may create leverage. Where leverage is created, the net asset value of the Fund may experience more fluctuation than if there were no leverage. The Fund will also use derivatives for short selling (which is designed to make a profit from falling prices), hedging purposes or to manage the Fund more efficiently. The Fund may also invest in asset classes and instruments different from those stated above. The Fund is not managed in reference to a benchmark.

Income from investments in the Fund will be added to the value of your shares.

You can buy or sell shares in the Fund on any day which is a business day in Luxembourg unless the directors have decided that insufficient markets are open. You can find more detail on the investment objective and policy of the Fund in the prospectus. For more information on investment terms used in this document, please see the Glossary available at www.columbiathreadneedle.com.

Intended retail investor

This fund is aimed at Retail and Professional customers and Eligible Counterparties who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for potential returns in excess of cash and who can invest their money for at least 3 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests directly and through derivatives in fixed income securities which tend to have a higher risk profile than money market securities due to higher company specific credit and interest rate risk. The fund also uses derivatives for short selling (designed to make a profit from falling asset prices).

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk

Higher risk

1 2 3 4 5 6 7

The risk indicator assumes you keep the product for 3 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 03/2017 to 03/2020

Moderate scenario: This type of scenario occurred for an investment between 10/2018 to 10/2021

Favourable scenario: This type of scenario occurred for an investment between 09/2013 to 09/2016

Investment EUR 10,000			
Scenarios		If you exit after 1 year	If you exit after 3 years (Recommended Holding Period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	6,970.00 EUR	7,830.00 EUR
	Average return each year	-30.29%	-7.84%
Unfavourable scenario	What you might get back after costs	9,390.00 EUR	9,410.00 EUR

What happens if Threadneedle Management Luxembourg S.A. is unable to pay out?

In case of default of the Manufacturer, the investor may face a financial loss. That loss would not be covered by an investor compensation scheme.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

Investment EUR 10,000	if you exit in after 1 year	if you exit in after 3 years (Recommended Holding Period)
Total costs	80.00 EUR	247.00 EUR
Annual Cost impact*	0.80%	0.80%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 0.88% before costs and 0.07% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.
