CT (Lux) Global Convertible Bond A Inc EUR Hedged

(ISIN LU0293751276), a Fund of Columbia Threadneedle (Lux) III.

The independent Management Company for the Fund is Carne Global Fund Managers (Luxembourg) S.A.

Objectives and investment policy

The objective is to achieve high returns in the value of your investment.

The Fund seeks to achieve this by investing in convertible bonds (bonds that can be converted into a predetermined amount of the company's equity at certain times during its life, usually at the discretion of the bondholder). At least two thirds of the Fund's total assets will be invested in convertible bonds issued by corporations located in Europe, the United States, Japan and Asia.

The Fund will normally hold at least 51% of its assets in convertibles that the Manager considers investment grade quality, subject to the convertible bond market providing sufficient 'balanced' investment grade investment opportunities to run a well diversified portfolio. A balanced convertible is one that is not trading too far above its bond redemption value and/or that is not trading at too high a conversion premium).

The Fund may enter into financial futures contracts (including equity index, interest rate and currency contracts), to protect the Fund from adverse movements in equity markets, interest rates or currency exchange rates.

The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the Refinitiv Global Focus Basket Index, given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition.

Income generated by the Fund will be paid to you annually.

There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 3 years.

You may withdraw your investment on demand during any working day in Luxembourg. Your withdrawal instruction must be received before 06.00 central European time in order for your investment to be withdrawn the same day. Proceeds will normally be paid to you three business days later.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

Historical data may not be a reliable indicator of the Fund's future risk profile thus the risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'.

The given rank reflects the effect of the Fund investing mainly in Convertible bonds. Bonds generally provide lower rewards and lower risk.

The indicator does not take into account the following risks:

Counterparty Risk: to gain greater income the Fund may deposit cash with various approved Counterparties. Return of the cash is dependent upon the continued solvency of the Counterparty.

Credit Risk: receiving income due from debt instruments is dependent upon the provider's ability to pay.

Currency Risk: your investment may be adversely affected by changes in currency exchange rates.

Interest Rate Risk: your investment may be adversely affected by changes in interest rates.

Market Risk: the value of assets held by the Fund may go down as well as up. There can be no assurances that the investment objectives of the Fund will be achieved.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.
