What is this product?

Type

The product is an alternative investment fund (AIF, fund) in accordance with the Investment Fund Act 2011 (InvFG) in conjunction with the Alternative Investment Fund Managers Act (AIFMG). The Fund is a portfolio of assets with no legal personality that is divided into equal units represented by securities and that is collectively owned by all unit-holders.

Term

The Fund was established for an indefinite period of time.

The Management Company may terminate the management of the Fund or merge the Fund with another fund, both in compliance with the applicable legal regulations (see the Information for Investors in accordance with § 21 AIFMG, section II, item 7). If the unit-holders redeem all units in the Fund, the Fund will also be terminated.

Objectives

DELPHIN TREND GLOBAL is a mixed fund. The Fund aims to achieve capital growth and/or continuous returns.

The Fund can invest in units in investment funds that, according to their terms and conditions, purchase equities or comparable assets or that are categorised as an equity fund or as comparable to an equity fund, or that purchase bonds or comparable assets or that are categorised as a bond fund or as comparable to a bond fund. The Fund may purchase shares in companies with small or mid-sized market capitalisations as well as shares in large, strong companies that are internationally known (blue chips), as well as in government bonds, bank bonds, and other (corporate) bonds, which can be denominated in euros or in other currencies. There are no restrictions with regard to the locations of the registered offices of the issuers of the securities in the Fund or regarding the economic sectors in which these issuers are active. Securities (including securities with embedded derivatives) and money market instruments may each comprise up to 100% of the fund assets.

Units in investment funds (UCITS, UCI) may comprise up to 50% of the fund assets per individual issue and may comprise up to 100% in aggregate total. Units in investment funds in the form of "other assets" may comprise up to 10% of the fund assets per individual issue and may comprise up to 100% in aggregate total. If these "other assets" may according to their fund rules invest no more than 10% of their assets in total in units in undertakings for collective investments, units in these "other assets" may comprise up to 50% of the fund assets per individual issue and up to 100% in aggregate total.

Alternative investments pursuant to § 166 (1) 3 InvFG may comprise up to 10% per individual issue and up to 10% of the fund assets in aggregate total.

Derivative financial instruments can be used as part of the investment strategy and for hedging purposes, and may comprise up to 100% of the fund assets.

The Fund employs an active investment policy and is not oriented towards a benchmark. The assets are selected on a discretionary basis, and the Management Company's degree of freedom is not limited.

Detailed information on the eligible investments can be found in Article 3 of the Fund Rules or Section II, item 12 of the Information for Investors pursuant to § 21 AIFMG.

Intended retail investor

This product is intended for investors with basic knowledge and with no or only limited experience with investing in funds, who wish to increase the value of their investment over the recommended holding period and/or who are seeking regular returns, and who are also willing to accept a potential financial loss in terms of their originally invested capital.

Additional information

You can demand the redemption of your fund units on any Austrian exchange trading day with the exception of bank holidays.

The Management Company can suspend redemption if this is deemed prudent based on exceptional circumstances.

The income of the Fund can be distributed at the discretion of the Management Company for the unit class (A), and is retained in the Fund for the unit class (T) and increases the value of the units. The taxation of income or capital gains from the Fund depends on your personal tax circumstances. If you have any questions, you should seek professional advice.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you will keep the product for at least 6 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level. Poor market conditions are unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Please note potential currency risk. If you receive payments in a different currency, the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

You do not have to make any further payments to cover losses.

In addition, there are material risks that are not taken into account in the summary risk indicator: credit, liquidity, operational, transfer, and custody risk as well as risk from the use of derivatives.

Comprehensive information on the risks of the Fund can be found in the Information in accordance with § 21 AIFMG, section II, item 12.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund or a suitable benchmark, if applicable, over the last 11 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 6 years

Example investment: 10000 EUR

If you exit after 1 year

If you exit after 6 years

| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
|--|---|------------|------------|
| Stress scenario | What you might get back after costs | 5,610 EUR | 4,640 EUR |
| | Average return each year | -43.88 % | -12.00 % |
| Unfavourable scenario | What you might get back after costs | 7,820 EUR | 9,450 EUR |
| <i>This type of scenario occurred for an investment between 12/2021 and 08/2024.</i> | Average return each year | -21.82 % | -0.95 % |
| Moderate scenario | What you might get back after costs | 9,720 EUR | 11,530 EUR |
| <i>This type of scenario occurred for an investment between 01/2017 and 01/2023.</i> | Average return each year | -2.82 % | 2.41 % |
| Favourable scenario | What you might get back after costs | 12,550 EUR | 13,230 EUR |
| <i>This type of scenario occurred for an investment between 12/2015 and 12/2021.</i> | Average return each year | 25.46 % | 4.77 % |

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Erste Asset Management GmbH is unable to pay out?

The Fund is a portfolio of assets that is segregated from the assets of the Management Company. There is thus no risk of default in terms of the Management Company (for example in the event that it becomes insolvent). The unit-holders are joint owners of the assets of the Fund. The Fund is not subject to any legal or other deposit guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- 10000 EUR is invested

| Example investment: 10000 EUR | If you exit after 1 year | If you exit after 6 years |
|-------------------------------|--------------------------|---------------------------|
| Total costs | 689 EUR | 2,155 EUR |
| Annual cost impact* | 6.9 % | 3.0 % per year |

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.37 % before costs and 2.41 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. These figures include the maximum distribution fee that the person selling you the product may charge (5.00 % of amount invested, 476 EUR). This person will inform you of the actual distribution fee.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|--|--|--------------------------|
| Entry costs | 5.00 % of the amount you pay in when entering this investment. This is the most you will be charged. The Management Company does not charge an entry fee. | 476 EUR |
| Exit costs | The Management Company does not charge an exit fee. | 0 EUR |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 2.10 % of the value of your investment per year. This is an estimate based on actual costs over the last year. | 200 EUR |
| Transaction costs | 0.03 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 3 EUR |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | 0 EUR |

How long should I hold it and can I take money out early?

Recommended holding period: 6 years

You should be willing to hold your investment for at least 6 year/years. This recommended holding period is based on our assessment of the risk and reward characteristics and costs of the Fund. However, losses cannot be ruled out.

You can demand the redemption of your fund units on any Austrian exchange trading day with the exception of bank holidays. For further information, see the Information in accordance with § 21 AIFMG, section II, item 10.

The repurchase price is the unit value rounded down to the next cent. The unit value is calculated in EUR. The Management Company charges no redemption fee. The Management Company can suspend redemption if this is deemed prudent based on exceptional circumstances.
