Investment Manager's Reports

Emerging Markets Large Cap Core Equity Fund

The Emerging Markets Large Cap Core Equity Fund (the "Fund") invests in large cap companies with increased exposure to companies with smaller relative market capitalisations, lower relative prices, and higher profitability across emerging markets. As of 31 May 2024, the Fund had holdings in approximately 1,340 companies. This reflects our approach of seeking to deliver highly diversified exposure to emerging markets large cap companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 10.05%. This compares to a total return of 7.45% for the MSCI Emerging Markets Index (the "Index"). The Fund's emphasis on high profitability stocks, particularly within value stocks, contributed positively to performance relative to the Index, as low profitability growth stocks underperformed. The Index has been included for market context purposes only.

Emerging Markets Sustainability Core Equity Fund

The Emerging Markets Sustainability Core Equity Fund (the "Fund") invests in companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability across emerging markets, while also adjusting the composition of the Fund based on environmental and sustainability impact considerations. As of 31 May 2024, the Fund had holdings in approximately 4,010 companies. This reflects our approach of seeking to deliver highly diversified exposure to emerging markets companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 7.34%. This compares to a total return of 7.45% for the MSCI Emerging Markets Index (the "Index"). The Fund's sustainability considerations detracted from performance relative to the Index. For example, the Fund's underweight to energy stocks, due to sustainability considerations, detracted from relative performance. The Index has been included for market context purposes only.

Emerging Markets Value Fund

The Emerging Markets Value Fund (the "Fund") invests in low relative price (value) companies across emerging markets. As of 31 May 2024, the Fund had holdings in approximately 3,450 companies. This reflects our approach of seeking to deliver highly diversified exposure to emerging markets value companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 11.47%. This compares to a total return of 8.57% for the MSCI Emerging Markets Value Index (the "Index"). With low relative price (value) stocks outperforming high relative price (growth) stocks, the Fund's greater emphasis on value stocks contributed positively to performance relative to the Index. The Index has been included for market context purposes only.

Euro Inflation Linked Intermediate Duration Fixed Income Fund

The Euro Inflation Linked Intermediate Duration Fixed Income Fund (the "Fund") invests in EUR inflation linked issues of Eurozone governments with maturities between three and 20 years. As of 31 May 2024, the Fund's (EUR) average real yield to maturity was 0.83%.

Over the six-month period ending 31 May 2024, the total return of the Fund in euro (the base currency of the Fund) was 0.15%. This compares to a return of -0.43% for the blended Index composed of 50% Bloomberg France Government EMU HICP Linked 5-15 Year Bond Index and 50% Bloomberg Germany Government Inflation Linked 5-15 Year Index (the "Index").

Realised real term premiums were broadly negative for both German and French inflation-linked bonds as longer-term inflation-linked bonds underperformed their shorter-term counterparts. French inflation-linked bonds generally outperformed their duration-matched German counterparts. As a result, the Fund's underweight to German inflation-linked bonds and overweight to French inflation-linked bonds contributed positively to relative performance. The Fund's allocation to inflation-linked bonds with maturities less than five-years also contributed positively to relative performance. The Index has been included for market context purposes only.

European Small Companies Fund

The European Small Companies Fund (the "Fund") invests in small cap companies across Europe. As of 31 May 2024, the Fund had holdings in approximately 1,380 companies. This reflects our approach of seeking to deliver highly diversified exposure to European small cap companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in euro (the base currency of the Fund) was 16.56%. This compares to a return of 16.22% for the MSCI Europe Small Cap Index (the "Index"). The Fund's focus on small cap stocks detracted from performance relative to the index, as large cap stocks held by the index outperformed. Despite this, valuation timing differences contributed positively to performance relative to the Index. The Index has been included for market context purposes only.

European Value Fund

The European Value Fund (the "Fund") invests in large cap low relative price (value) companies across Europe. As of 31 May 2024, the Fund had holdings in approximately 190 companies. This reflects our approach of seeking to deliver highly diversified exposure to European large cap value companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in euro (the base currency of the Fund) was 17.98%. This compares to a return of 13.24% for the MSCI Europe Value Index (the "Index"). With low relative price (value) stocks outperforming high relative price (growth) stocks, the Fund's greater emphasis on value stocks contributed positively to performance relative to the Index. Additionally, the Fund's exclusion of highly regulated utilities (HRUs) contributed positively to performance relative to the Index, as HRUs underperformed. The Index has been included for market context purposes only.

Global Core Equity Fund

The Global Core Equity Fund (the "Fund") invests in companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability across developed markets. As of 31 May 2024, the Fund had holdings in approximately 8,110 companies. This reflects our approach of seeking to deliver highly diversified exposure to developed markets companies.

Investment Manager's Reports (continued)

Global Core Equity Fund (continued)

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 14.92%. This compares to a total return of 14.89% for the MSCI World Index (the "Index"). The Fund's emphasis on high profitability stocks, particularly within growth stocks, contributed positively to relative performance, as low profitability growth stocks underperformed. The Index has been included for market context purposes only.

Global Core Fixed Income Fund

The Global Core Fixed Income Fund (the "Fund") invests in fixed income instruments within the investment grade spectrum and may also invest in fixed income instruments rated BB+ through BB-. As of 31 May 2024, the Fund was diversified across issuers from 21 countries, as well as supranational organisations, and invested in 9 currencies. The weighted average duration of the Fund was 6.76 years, and the Fund had an (GBP) average yield to maturity of 5.45%.

Over the six-month period ending 31 May 2024, the total return of the Fund in British pounds (the base currency of the Fund) was 2.99%. This compares to a return of 2.27% for the Bloomberg Global Aggregate Bond Index (hedged to GBP) (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted in the short to intermediate-term maturity segment and upwardly sloped in the 10- to 20-year maturity segment. As such, the Fund invested in bonds with maturities less than one-year and bonds in the 10- to 20-year maturity segment as these bonds generally exhibited higher expected returns. Realised term premiums were negative across global developed markets for the period as shorter-term bonds generally outperformed longer-term bonds. As a result, the Fund's allocation to bonds with maturities shorter than one-year contributed positively to relative performance.

Credit spreads were relatively narrow during the period, indicating smaller expected credit premiums. As such, the Fund's allocation to corporate bonds rated single-A and BBB was decreased but the Fund was still overweight these securities relative to the Index. Realised credit premiums were positive across global developed markets for the period, as corporate bonds generally outperformed their government counterparts. As a result, the Fund's overweight to corporate bonds rated single-A and BBB, and underweight to government bonds, contributed positively to relative performance.

The Fund's underweight to Japanese yen-denominated bonds also contributed positively to relative performance as these bonds generally underperformed other global developed bonds during the period.

The Index has been included for market context purposes only.

Global Short Fixed Income Fund

The Global Short Fixed Income Fund (the "Fund") invests in high-quality fixed income instruments with maturities at or below five years. As of 31 May 2024, the Fund was diversified across issuers from 14 countries, as well as supranational organisations, and invested in 9 currencies. The Fund's (EUR) average yield to maturity was 3.92%.

Over the six-month period ending 31 May 2024, the total return of the Fund in euro (the base currency of the Fund) was 2.02%. This compares to a return of 1.12% for the FTSE World Government Bond Index 1-5 Years (hedged to EUR) (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund's weighted average duration was shortened from 0.40 year at the beginning of the period to 0.16 year at the end of the period. As of the end of May, the Index's weighted average duration was 2.67 years. Realised term premiums were negative across global developed markets for the period as shorter-term bonds generally outperformed longer-term bonds. As a result, the Fund's allocation to bonds with maturities shorter than one-year contributed positively to relative performance. The Index has been included for market context purposes only.

Global Short-Term Investment Grade Fixed Income Fund

The Global Short-Term Investment Grade Fixed Income Fund (the "Fund") invests in fixed income instruments within the investment grade spectrum with maturities at or below five years. As of 31 May 2024, the Fund was diversified across issuers from 20 countries, as well as supranational organisations, and invested in 10 currencies. The Fund's (USD) average yield to maturity was 5.44%.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) 2.90%. This compares to a return of 2.84% for the Bloomberg Global Aggregate Credit 1-5 Years (hedged to USD) (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund's weighted average duration was shortened from 1.24 years at the beginning of the period to 0.67 year at the end of the period. As of the end of May, the Index's weighted average duration was 2.65 years. Realised term premiums were negative across global developed markets for the period as shorter-term bonds generally outperformed longer-term bonds. As a result, the Fund's allocation to bonds with maturities shorter than one-year contributed positively to relative performance.

Credit spreads were relatively narrow during the period, indicating smaller expected credit premiums. As such, the Fund's allocation to corporate bonds rated single-A and BBB was decreased. Realised credit premiums were positive across global developed markets for the period as corporate bonds generally outperformed their government counterparts. As a result, the Fund's overweight to corporate bonds denominated in the Australian dollar and British pound contributed positively to relative performance. The Index has been included for market context purposes only.

Global Small Companies Fund

The Global Small Companies Fund (the "Fund") invests in small cap companies across developed markets. As of 31 May 2024, the Fund had holdings in approximately 6,620 companies. This reflects our approach of seeking to deliver highly diversified exposure to small cap companies in developed markets.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 13.44%. This compares to a return of 13.46% for the MSCI World Small Cap Index

Investment Manager's Reports (continued)

Global Small Companies Fund (continued)

(the "Index"). The Fund's exclusion of stocks with the lowest profitability and highest relative price contributed positively to performance relative to the index, as those stocks underperformed. Conversely, the Fund's focus on small cap stocks detracted from performance relative to the Index. The Index has been included for market context purposes only.

Global Sustainability Core Equity Fund

The Global Sustainability Core Equity Fund (the "Fund") invests in companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability across developed markets, while also adjusting the composition of the Fund based on environmental and sustainability impact considerations. As of 31 May 2024, the Fund had holdings in approximately 6,020 companies. This reflects our approach of seeking to deliver highly diversified exposure to developed markets companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 15.14%. This compares to a total return of 14.89% for the MSCI World Index (the "Index"). The Fund's emphasis on high profitability stocks, particularly within growth stocks, contributed positively to relative performance, as low profitability growth stocks underperformed. Conversely, the Fund's sustainability considerations detracted from performance relative to the Index. The Index has been included for market context purposes only.

Global Sustainability Fixed Income Fund

The Global Sustainability Fixed Income Fund (the "Fund") invests in fixed income instruments within the investment grade spectrum with maturities at or below 20 years. As of 31 May 2024, the Fund was diversified across issuers from 21 countries, as well as supranational organisations, and invested in 8 currencies. The weighted average duration of the Fund was 6.69 years, and the Fund had an (GBP) average yield to maturity of 5.68%.

Over the six-month period ending 31 May 2024, the total return of the Fund in British pounds (the base currency of the Fund) was 2.83%. This compares to a return of 2.27% for the Bloomberg Global Aggregate Bond Index (hedged to GBP) (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted in the short- to intermediate-term maturity segment and upwardly sloped in the 10- to 20-year maturity segment. As such, the Fund invested in bonds with maturities less than one-year and bonds in the 10- to 20-year maturity segment as these bonds generally exhibited higher expected returns. Realised term premiums were negative across global developed markets for the period as shorter-term bonds generally outperformed longer-term bonds. As a result, the Fund's allocation to bonds with maturities shorter than one-year contributed positively to relative performance.

Credit spreads were relatively narrow during the period, indicating smaller expected credit premiums. As such, the Fund's allocation to corporate bonds rated single-A and BBB was decreased but the Fund was still overweight these securities relative to the Index. Realised credit premiums were positive across global developed markets for the period as corporate bonds generally outperformed their government

counterparts. As a result, the Fund's overweight to corporate bonds rated single-A and BBB, and underweight to government bonds, contributed positively to relative performance.

The Fund's underweight to Japanese yen-denominated bonds also contributed positively to relative performance as these bonds generally underperformed other global developed bonds during the period.

The Index has been included for market context purposes only.

Global Sustainability Short Fixed Income Fund

The Global Sustainability Short Fixed Income Fund (the "Fund") invests in high-quality fixed income instruments with maturities at or below five years. As of 31 May 2024, the Fund was diversified across issuers from 22 countries, as well as supranational organisations, and invested in 11 currencies. The Fund's (GBP) average yield to maturity was 5.20%.

Over the six-month period ending 31 May 2024, the total return of the Fund in British pounds (the base currency of the Fund) was 2.56%. This compares to a return of 2.25% for the Bloomberg Global Aggregate Bond Index 1-5 Years (hedged to GBP) (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund's weighted average duration was maintained shorter than the allowable limit at 2.10 years at the end of the period. As of the end of May, the Index's weighted average duration was 2.70 years. Realised term premiums were negative across global developed markets for the period as shorter-term bonds generally outperformed longer-term bonds. As a result, the Fund's allocation to bonds with maturities shorter than one-year contributed positively to relative performance.

Credit spreads were relatively narrow during the period, indicating smaller expected credit premiums. As such, the Fund's allocation to corporate bonds rated single-A and BBB was decreased but the Fund was still overweight these securities relative to the Index. Realised credit premiums were positive across global developed markets for the period as corporate bonds generally outperformed their government counterparts. As a result, the Fund's overweight to corporate bonds and underweight to government bonds contributed positively to relative performance.

Global Sustainability Targeted Value Fund

The Global Sustainability Targeted Value Fund (the "Fund") invests in small and mid cap low relative price (value) companies across developed markets, while also adjusting the composition of the Fund based on environmental and sustainability impact considerations. As of 31 May 2024, the Fund had holdings in approximately 1,810 companies. This reflects our approach of seeking to deliver highly diversified exposure to small and mid cap developed markets value companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 14.00%. This compares to a total return of 13.14% for the MSCI World SMID Value Index (the "Index"). The Fund's exclusion of real estate investment trusts (REITs) contributed positively to relative performance, as REITs underperformed.

Investment Manager's Reports (continued)

Global Targeted Value Fund

The Global Targeted Value Fund (the "Fund") invests in small and mid cap low relative price (value) companies across developed markets. As of 31 May 2024, the Fund had holdings in approximately 4,270 companies. This reflects our approach of seeking to deliver highly diversified exposure to small and mid cap developed markets value companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 14.70%. This compares to a total return of 13.14% for the MSCI World SMID Value Index (the "Index"). The Fund's greater emphasis on value stocks, particularly within small and mid cap stocks, contributed positively to relative performance, as these stocks outperformed. The Fund's exclusion of real estate investment trusts (REITs) also contributed positively to relative performance, as REITs underperformed. The Index has been included for market context purposes only.

Global Ultra Short Fixed Income Fund

The Global Ultra Short Fixed Income Fund (the "Fund") invests in fixed income instruments within the investment grade spectrum with maturities up to two years. As of 31 May 2024, the Fund was diversified across issuers from 20 countries, as well as supranational organisations, and invested in 9 currencies. The Fund's (GBP) average yield to maturity was 5.46%.

Over the six-month period ending 31 May 2024, the total return of the Fund in British pounds (the base currency of the Fund) was 2.72%. This compares to a return of 2.67% for the ICE BofA British Pound 1-Month Deposit Offered Rate Constant Maturity Index (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund's weighted average duration was shortened from 0.42 year at the beginning of the period to 0.22 year at the end of the period. As of the end of May, the Index's weighted average duration was 0.08 year.

Realised term premiums were negative across global developed markets for the period as shorter-term bonds generally outperformed longer-term bonds. This had a negligible impact on relative performance.

Realised credit premiums were positive across global developed markets as corporate securities generally outperformed their government counterparts. As a result, the Fund's inclusion of corporate securities was the primary contributor to positive relative performance. The Index has been included for market context purposes only.

Global Value Fund

The Global Value Fund (the "Fund") invests in large cap low relative price (value) companies across developed markets. As of 31 May 2024, the Fund had holdings in approximately 750 companies. This reflects our approach of seeking to deliver highly diversified exposure to large cap value companies in developed markets.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 15.86%. This compares to a return of 12.90% for the MSCI World Value Index (the "Index"). The Fund's greater emphasis on value stocks contributed

positively to relative performance. The Fund's exclusion of real estate investment trusts (REITs) also contributed positively to relative performance, as REITs underperformed. The Index has been included for market context purposes only.

Pacific Basin Small Companies Fund

The Pacific Basin Small Companies Fund (the "Fund") invests in small cap companies across Pacific Basin markets. As of 31 May 2024, the Fund had holdings in approximately 3,290 companies. This reflects our approach of seeking to deliver highly diversified exposure to Pacific Basin small cap companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 7.69%. This compares to a total return of 6.72% for the MSCI Pacific Small Cap Index (the "Index"). The Fund's inclusion of Taiwan contributed positively to performance relative to the Index, as this market outperformed. The Fund's exclusion of stocks with the lowest profitability and highest relative price also contributed positively to performance relative to the Index, as those stocks underperformed. Additionally, the Fund's exclusion of real estate investment trusts (REITs) contributed positively to relative performance, as REITs underperformed. The Index has been included for market context purposes only.

Sterling Inflation Linked Intermediate Duration Fixed Income Fund

The Sterling Inflation Linked Intermediate Fund (the "Fund") invests in sterling inflation linked issues of the U.K. government with maturities between three and 20 years. As of 31 May 2024, the Fund's (GBP) average real yield to maturity was 0.72%.

Over the six-month period ending 31 May 2024, the total return of the Fund in British pounds (the base currency of the Fund) was 2.66%. This compares to the return of 2.58% for the Bloomberg UK Government Inflation Linked 5-15 Year Bond Index (the "Index").

Realised real term premiums were broadly positive for British pound inflation-linked bonds as longer-term inflation-linked bonds generally outperformed their shorter-term counterparts. As a result, the Fund's inclusion of inflation-linked bonds with maturities longer than 15-years contributed positively to performance relative to the 5- to 15-year Index. The Index has been included for market context purposes only.

U.S. Core Equity Fund

The U.S. Core Equity Fund (the "Fund") invests in U.S. companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability. As of 31 May 2024, the Fund had holdings in approximately 2,380 companies. This reflects our approach of seeking to deliver highly diversified exposure to U.S. companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 16.24%. This compares to a total return of 15.75% for the Russell 3000 Index (the "Index"). The Fund's emphasis on high profitability stocks, particularly within growth stocks, contributed positively to relative performance, as low profitability growth stocks underperformed. Additionally, the Fund's exclusion of real estate investment trusts (REITs) contributed positively to relative performance, as REITs underperformed. The Index has been included for market context purposes only.

Investment Manager's Reports (continued)

U.S. Small Companies Fund

The U.S. Small Companies Fund (the "Fund") invests in U.S. small companies. As of 31 May 2024, the Fund had holdings in approximately 1,920 companies. This reflects our approach of seeking to deliver highly diversified exposure to U.S. small companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 14.29%. This compares to a total return of 15.00% for the Russell 2000 Index (the "Index"). The Fund's focus on small cap stocks detracted from relative performance, as large cap stocks held by the index outperformed. Conversely, the Fund's exclusion of real estate investment trusts (REITs) contributed positively to relative performance, as REITs underperformed. The Index has been included for market context purposes only.

World Allocation 20/80 Fund

The World Allocation 20/80 Fund (the "Fund") invests in equity securities of companies across developed and emerging markets and fixed income securities of issuers in developed markets. The equity component of the Fund will generally have increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability. The fixed income component generally invests in high quality fixed income issues with maturities at or below five years. The aggregate exposure to equity and fixed income securities is approximately 20% and 80%, respectively.

As of 31 May 2024, the equity component of the Fund had holdings in approximately 14,080 companies. This reflects our approach of seeking to deliver highly diversified holdings in developed and emerging markets companies.

Over the six-month period ending 31 May 2024, the total return of the World Allocation 20/80 Fund in British pounds (the base currency of the Fund) was 4.57%. This compares to a return of 4.05% for the 20% MSCI All Country World Index / 80% FTSE World Government Bond Index 1-5 Years (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. The Index has been included for market context purposes only.

As of 31 May 2024, the fixed income component of the World Allocation 20/80 Fund was diversified across approximately 856 bonds from 21 different countries as well as supranational organisations.

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund invested in shorter-term bonds, resulting in a decrease in the Fund's weighted average duration from 0.62 year at the beginning of the period to 0.32 year at the end of the period. As of the end of May, the Index's weighted average duration was 2.67 years. Realised term premiums were negative across global developed markets for the period as shorter-term bonds generally outperformed long-term bonds. As a result, the Fund's allocation to bonds with maturities shorter than one-year contributed positively to relative performance.

Realised credit premiums were positive across global developed markets for the period as corporate bonds generally outperformed their government counterparts. As a result, the Fund's inclusion of corporate bonds also contributed positively to relative performance. The Index has been included for market context purposes only.

World Allocation 40/60 Fund

The World Allocation 40/60 Fund (the "Fund") invests in equity securities of companies across developed and emerging markets and fixed income securities of issuers in developed markets. The equity component of the Fund will generally have increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability. The fixed income component generally invests in fixed income instruments with maturities at or below twenty years within the investment grade spectrum and may also invest in securities rated BB+ through BB-. The aggregate exposure to equity and fixed income securities is approximately 40% and 60%, respectively.

As of 31 May 2024, the equity component of the World Allocation 40/60 Fund had holdings in approximately 15,910 companies. This reflects our approach of seeking to deliver highly diversified exposure to developed and emerging markets companies.

Over the six-month period ending 31 May 2024, the total return of the Fund in British pounds (the base currency of the Fund) was 6.67%. This compares to a return of 6.36% for the 40% MSCI All Country World Index / 60% FTSE World Government Bond Index 1-5 Years (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. The Index has been included for market context purposes only.

As of 31 May 2024, the fixed income component of the World Allocation 40/60 Fund was diversified across approximately 1,257 bonds from 23 different countries as well as supranational organisations.

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund invested in shorter-term bonds, resulting in a decrease in the Fund's weighted average duration from 0.80 year at the beginning of the period to 0.51 year at the end of the period. As of the end of May, the Index's weighted average duration was 2.67 years. Realised term premiums were negative across global developed markets for the period as shorter-term bonds generally outperformed longer-term bonds. As a result, the Fund's allocation to bonds with maturities shorter than one-year contributed positively to relative performance.

Realised credit premiums were positive across global developed markets for the period as corporate bonds generally outperformed their government counterparts. As a result, the Fund's inclusion of corporate bonds also contributed positively to relative performance. The Index has been included for market context purposes only.

World Allocation 60/40 Fund

The World Allocation 60/40 Fund (the "Fund") invests in equity securities of companies across developed and emerging markets and fixed income securities of issuers in developed markets. The equity component of the Fund will generally have increased exposure to companies with smaller market capitalisations, lower relative prices,

Investment Manager's Reports (continued)

World Allocation 60/40 Fund (continued)

and higher profitability. The fixed income component generally invests in fixed income instruments with maturities at or below twenty years within the investment grade spectrum and may also invest in securities rated BB+ through BB-. The aggregate exposure to equity and fixed income securities is approximately 60% and 40%, respectively.

As of 31 May 2024, the equity component of the Fund had holdings in approximately 11,250 companies. This reflects our approach of seeking to deliver a highly diversified exposure to developed and emerging markets companies.

Over the six-month period ending 31 May 2024, the total return of the World Allocation 60/40 Fund in British pounds (the base currency of the Fund) was 8.67%. This compares to a return of 8.69% for the 60% MSCI All Country World Index / 40% FTSE World Government Bond Index 1-5 Years (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. The Index has been included for market context purposes only.

As of 31 May 2024, the fixed income component of the World Allocation 60/40 Fund was diversified across approximately 1,130 bonds from 22 different countries as well as supranational organisations.

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund invested in shorter-term bonds, resulting in a decrease in the Fund's weighted average duration from 1.50 years at the beginning of the period to 1.14 years at the end of the period. As of the end of May, the Index's weighted average duration was 2.67 years. Realised term premiums were negative across global developed markets for the period as shorter-term bonds generally outperformed longer-term bonds. As a result, the Fund's allocation to bonds with maturities shorter than one-year contributed positively to relative performance.

Realised credit premiums were positive across global developed markets for the period, as corporate bonds generally outperformed their government counterparts. As a result, the Fund's inclusion of corporate bonds also contributed positively to relative performance. The Index has been included for market context purposes only.

World Allocation 80/20 Fund

The World Allocation 80/20 Fund (the "Fund") invests in equity securities of companies across developed and emerging markets and fixed income securities of issuers in developed markets. The equity component of the Fund will generally have increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability. The fixed income component generally invests in fixed income instruments with maturities at or below twenty years within the investment grade spectrum and may also invest in securities rated BB+ through BB-. The aggregate exposure to equity and fixed income securities is approximately 80% and 20%, respectively.

As of 31 May 2024, the equity component of the Fund had holdings in approximately 16,060 companies. This reflects our approach of seeking to deliver highly diversified exposure to developed and emerging markets companies.

Over the six-month period ending 31 May 2024, the total return of the World Allocation 80/20 Fund in British pounds (the base currency of the Fund) was 10.71%. This compares to a return of 11.06% for the 80% MSCI All Country World Index / 20% FTSE World Government Bond Index 1-5 Years (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. The Index has been included for market context purposes only.

As of 31 May 2024, the fixed income component of the World Allocation 80/20 Fund was diversified across approximately 92 bonds from 22 different countries as well as supranational organisations.

During the period, eligible global developed yield curves were generally flat to inverted in the short- to intermediate-term maturity range, but upwardly sloped in the 10- to 20-year maturity range. As such, the Fund invested in bonds in the zero to one-year maturity range and the 10- to 20-year maturity range. The weighted average duration of the Fund decreased from 4.05 years at the beginning of the period to 3.74 years at the end of the period but remained longer than that of the Index. As of the end of May, the Index's weighted average duration was 2.67 years. Realised term premiums were negative across global developed markets for the period as shorter-term bonds generally outperformed longer-term bonds. As a result, the Fund's allocation to bonds with maturities shorter than one-year contributed positively to relative performance.

Realised credit premiums were positive across global developed markets for the period as corporate bonds generally outperformed their government counterparts. As a result, the Fund's inclusion of corporate bonds also contributed positively to relative performance. The Index has been included for market context purposes only.

World Equity Fund

The World Equity Fund (the "Fund") invests in companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability across developed and emerging markets.

As of 31 May 2024, the Fund had holdings in approximately 13,460 companies. This reflects our approach of delivering highly diversified exposure to developed and emerging markets companies.

Over the six-month period ending 31 May 2024, the return of the Fund in British pounds (the base currency of the Fund) was 12.78%. This compares to a return of 13.46% for the MSCI All Country World Index (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. The Index has been included for market context purposes only.

World Sustainability Equity Fund

The World Sustainability Equity Fund (the "Fund") invests in companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability across developed and emerging markets, while also adjusting the composition of the Fund based on environmental and sustainability impact considerations.

Investment Manager's Reports (continued)

World Sustainability Equity Fund (continued)

As of 31 May 2024, the Fund had holdings in approximately 4,270 companies. This reflects our approach of delivering highly diversified exposure to developed and emerging markets companies.

Over the six-month period ending 31 May 2024, the return of the Fund in British pounds (the base currency of the Fund) was 12.44%. This compares to a return of 13.46% for the MSCI All Country World Index (the "Index"). The Fund's emphasis on small cap stocks detracted from

performance relative to the Index, as small cap stocks underperformed large cap stocks. The Index has been included for market context purposes only.

Dimensional Ireland Limited
18 July 2024

The Emerging Markets Large Cap Core Equity III Fund, Global Core Equity III Fund, Global Core Fixed Income III Fund and Global Sustainability High Profitability Fund were not launched during the reporting period and so, no performance commentary is included in the Investment Manager's Report.

Notes to the Financial Statements

for the financial period ended 31 May 2024

1. Organisation

Dimensional Funds plc (the "Company") was incorporated on 14 January 2002. The Company is established as an umbrella investment company with segregated liability between funds (each a "Fund", together the "Funds") and variable capital incorporated in Ireland as a public limited company pursuant to the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended), and under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") (together the "UCITS Regulations").

2. Basis of Preparation and Presentation

These condensed unaudited Financial Statements are prepared in accordance with the Financial Reporting Standard 104 'Interim Financial Reporting' ("FRS 104"), and comply with financial reporting standards of the Financial Reporting Council and the UCITS Regulations. The Company has continued to avail of the exemption available to open-ended investment funds under Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102") and is not presenting a cash flow statement.

The condensed unaudited Financial Statements should be read in conjunction with the Company's annual audited Financial Statements for the financial year ended 30 November 2023 which were prepared in accordance with FRS 102 and the applicable regulations as issued by the Central Bank of Ireland (the "Central Bank").

The condensed Financial Statements are unaudited. We note that the statutory auditor's report in the Company's annual audited Financial Statements for the financial year ended 30 November 2023 was unqualified.

The Financial Statements have been prepared on a going concern basis.

3. Significant Accounting Policies

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities. Estimates and judgements are continually evaluated and are based on historical experience and other factors. Estimates and assumptions used may include the use of valuation techniques for the purposes of determining the fair value of financial instruments that are not quoted in active markets, such as unlisted equities and investment in other investment funds.

4. Lending of Securities

Each security loan is collateralised with collateral assets in an amount greater than the current market value of the loaned securities. There is a risk of delay in receiving collateral or in recovering the securities loaned or even loss of rights in collateral should the borrower fail financially.

However, in the event of default or bankruptcy by the other party to the agreement, realisation and/or retention of the collateral may be subject to legal proceedings. In the event that the borrower fails to return

loaned securities, and collateral being maintained by the Fund in question is insufficient to cover the value of loaned securities and provided such collateral insufficiency is not the result of investment losses, the securities lending agent has agreed to pay the amount of the shortfall to the respective Fund or, at the option of the securities lending agent, to replace the securities.

Subject to each Fund's investment policy, any cash collateral received by a Fund from securities on loan may be invested in securities of the U.S. government or its agencies, repurchase agreements collateralised by securities of the U.S. government or its agencies, time deposits and registered and unregistered money market funds. Agencies include both agency debentures and agency mortgage backed securities.

As at 31 May 2024, EUR244,223,000 (30 November 2023: EUR194,867,249) of the total cash collateral received by the Funds (as disclosed on the Statement of Financial Position and in the tables below) was re-invested in repurchase agreements with approved counterparties: Citigroup, JP Morgan and Merrill Lynch (30 November 2023: Citigroup, JP Morgan, Merrill Lynch and Societe Generale). The fair value of these repurchase agreements as at 31 May 2024 was EUR244,223,000 (30 November 2023: EUR194,867,249). These agreements were entered into on 31 May 2024 and matured on 3 June 2024 (30 November 2023: entered into on 30 November 2023 and matured on 1 December 2023).

In addition, each Fund will be able to terminate the loan at any time and will receive reasonable interest on the loan, as well as amounts equal to any dividends, interest or other distributions on the loaned securities.

As at 31 May 2024 and 30 November 2023, each of the Funds disclosed in the following tables had outstanding loans of securities to certain brokers, dealers or other financial institutions for which each Fund has a security interest and lien upon segregated cash and/or securities equivalent to at least 100% of the current market value of the loaned securities with respect to any type of securities loaned through the securities lending agent.

As at 31 May 2024 and 30 November 2023, the collateral received for securities lending purposes comprised cash and government bonds as disclosed in the Market Value of U.S. Loaned Securities and Market Value of non-U.S. Loaned Securities on the following tables overleaf.

Notes to the Financial Statements

for the financial period ended 31 May 2024 (continued)

World Equity Fund	GBP	66	75
World Sustainability Equity Fund*	GBP	2	-

* The securities lending agent's fees incurred amount to a nil value when rounded to the nearest thousand, and are therefore not included in the above table.

None of the above securities and cash collateral received from a single issuer has exceeded 20% of the Fund's NAV at the financial period end date (31 May 2023: none).

5. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or chargeable gains. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year anniversary beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act 1997, as amended, are held by the Company at that time or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- certain exempted Irish tax resident shareholders who have provided the Company with the appropriate signed declarations in the prescribed Revenue format.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

For the financial period ended 31 May 2024 the Company incurred capital gains taxes of EUR9,188,830 (31 May 2023: incurred capital gains taxes EUR660,984).

6. Cash and Cash Equivalents

The cash balances as disclosed in the Statement of Financial Position were held at State Street Custodial Services (Ireland) Limited as at 31 May 2024 and 30 November 2023.

In March 2015, the Central Bank introduced Investor Money Regulations ("IMR"). These regulations, which were effective from 1 July 2016, detail material changes to the current rules in relation to investor money, and were designed to increase transparency and enhance investor protection.

In response to these regulations, cash accounts held with a third party banking entity for collection of subscriptions and payment of redemptions are now deemed to be assets of the Company.

Cash may be deposited or owed by or on behalf of the Funds for initial margin purposes with brokers for options and futures contracts. These amounts are recognised as Margin Cash on the Statement of Financial Position.

Cash collateral received relates to collateral received for securities on loan and is held by the securities lending agent as at 31 May 2024 and 30 November 2023.

See Note 4 for reference to cash collateral received by the Funds that was re-invested in repurchase agreements.

7. Share Capital

The authorised share capital of the Company is 500,000,030,000 Shares of no par value divided into 30,000 Subscriber Shares of no par value issued at €1 each and 500,000,000,000 (five hundred billion) Shares of no par value, initially designated as unclassified shares. The Subscriber Shares entitle the holders to attend and vote at general meetings of the Company but do not entitle the holders to participate in the profits or assets of the Company except for a return of capital on a winding-up. The Subscriber Shares are not included in the calculation of the NAV per redeemable share.

As at 31 May 2024, Peter Blessing, Victoria Parry, Nathan Lacaze and John Romiza held subscriber shares (fully paid-up) in the Company (30 November 2023: Peter Blessing, Victoria Parry, Nathan Lacaze and John Romiza).

Notes to the Financial Statements

for the financial period ended 31 May 2024 (continued)

7. Share Capital (continued)

Shares entitle the holders to attend and vote at general meetings of the Company and to participate equally (subject to any differences between fees, charges and expenses applicable to different classes) in the profits and assets of the Company on the terms and conditions set

out in the Prospectus. The Funds have the ability to issue multiple classes of redeemable shares. Each redeemable share within a class represents an identical legal interest in the Funds and has identical rights.

8. Related Party Transactions

The related parties to the Fund are the Directors, the Management Company, the Investment Managers and the shareholders with significant holdings of at least 20% of the Fund.

As 31 May 2024 and 30 November 2023, Dimensional Fund Advisors Ltd., held shares in the following Funds:

Fund	31 May 2024	30 November 2023
Global Core Fixed Income Fund	67 SGD Distributing Class	67 SGD Distributing Class

As at 31 May 2024 and 30 November 2023, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund and World Allocation 80/20 Fund invested in other Funds of the Company and also other related funds which have appointed the same Investment Manager or other related party entities to provide investment management services to the Company, as disclosed in the Portfolio of Investments. The management fees in relation to the underlying Funds have been waived by the Management Company, and these waivers are disclosed in the Statement of Comprehensive Income.

Peter Blessing, Nathan Lacaze, Catherine L. Newell, Gerard O'Reilly and John Romiza are also directors of the Management Company, Dimensional Ireland Limited.

The Investment Manager, Dimensional Fund Advisors Ltd., of which Victoria Parry, John Romiza and Nathan Lacaze are also directors, acts as the authorised corporate director to another fund range in which certain Funds have made investments.

As at 31 May 2024, Peter Blessing, Victoria Parry, Nathan Lacaze and John Romiza held subscriber shares (fully paid-up) in the Company.

In the opinion of the Directors, the Management Company and the Investment Managers are related parties under FRS 102. Fees earned by these parties and the amounts due at 31 May 2024 and 30 November 2023 are disclosed in the Statement of Comprehensive Income and Statement of Financial Position, respectively. The Management Company shall pay the fees of any Investment Manager out of the Management fees.

Management fees waived and reimbursed during the financial period are disclosed in the Statement of Comprehensive Income.

Notes to the Financial Statements

for the financial period ended 31 May 2024 (continued)

8. Related Party Transactions (continued)

The following tables detail the number of shareholders with significant holdings of at least 20% of the relevant Fund and the aggregate value and percentage of that holding as at 31 May 2024 and 30 November 2023. One or more of the shareholders may be omnibus accounts, which typically hold shares for the benefit of several other underlying investors.

31 May 2024

9. Fair Value Estimation

The fair value of the financial instruments traded in active markets such as publicly traded derivatives and trading securities is based on quoted market prices at the Statement of Financial Position date. The quoted market price at the valuation point used for bonds traded on a regulated market held by the Company can be last traded price or quoted mid price depending on the bond type. Securities other than bonds which are traded on a regulated market will be issued at the last traded prices at the relevant valuation point. When a "readily available market quotation" for a security is not available, the Company employs "fair value" methodologies to price securities. As a general principle, fair value is the price that the Fund might reasonably expect to receive upon a current sale. The fair valuation process requires the Investment Manager to make a determination in good faith as to the value of a particular security or group of securities depending on the particular facts and circumstances involved. Circumstances in which a market quotation is not readily available may include, trading suspensions prior to the close of the relevant market; events that unexpectedly close entire markets such as natural disasters, power blackouts, or similar major events; market holidays; or volume of trading in a security.

When a market quotation for a security is not available and a fair valuation is being determined, the Investment Manager may consider all relevant methods, including but not limited to any one or all of the following pricing methods:

1. A multiple of earnings;
2. A discount from market of a similar freely traded security;
3. A discounted cash-flow analysis;
4. The book value or a multiple thereof;
5. A risk premium/yield analysis;
6. Yield to maturity; or
7. Fundamental investment analysis.

No material investments were valued using these techniques as at 31 May 2024 and 30 November 2023.

Investments measured and reported at fair value are classified and disclosed in one of the following fair value hierarchy levels based on the significance of the inputs used in measuring its fair value. These levels are the fair value hierarchy levels per FRS 102.

Notes to the Financial Statements

for the financial period ended 31 May 2024 (continued)

9. Fair Value Estimation (continued)

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the valuation date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are inputs other than quoted prices in active markets included within Level 1 that are observable for the asset or liability, either directly or indirectly. Fair value is determined through the use of models or other valuation methodologies.

Level 2 inputs include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are not active, that is, markets in which there are few transactions for the asset or liability, the prices are not current, or price quotations vary substantially either over time or among market makers, or in which little information is released publicly;
- Inputs other than quoted prices that are observable for the asset or liability (e.g. interest rate and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit

risks and default rates); and

d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs reflect the Company's own assumptions about how market participants would be expected to value the asset or liability. Unobservable inputs are developed based on the best information available in the circumstances, other than market data obtained from sources independent of the Company and might include the Company's own data.

An investment is always categorised as Level 1, 2 or 3 in its entirety. In certain cases, the fair value measurement for an investment may use a number of different inputs that fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment and is specific to the investment.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities.

The following tables analyse under the fair value hierarchy the Funds' financial assets and financial liabilities measured at fair value at 31 May 2024 and 30 November 2023. All amounts represent the valuation of securities as presented in the Portfolio of Investments.

There were no Level 3 securities held during the financial period ended 31 May 2024 and the financial year ended 30 November 2023.

Securities of the aggregated market value of EUR2,414,563 were transferred from Level 1 to Level 2 during the financial period ended 31 May 2024 (30 November 2023: EUR1,495,708). During the same time securities of the aggregated market value of EUR796,170 were transferred from Level 2 to Level 1 (30 November 2023: EUR406,981).

Notes to the Financial Statements

for the financial period ended 31 May 2024 (continued)

9. Fair Value Estimation (continued)

Management continue to monitor the ongoing conflict in Ukraine and its impact on the securities held by the sub-funds. Reliable price quotations for Russian securities, including Russian depositary receipts trading outside of Russia that are held by the sub-funds, continue to be difficult to obtain, requiring the Investment Manager to estimate prices for such depositary receipts using other market information, which in turn may also be more difficult to obtain and validate.

As of 31 May 2024, the Emerging Markets Large Cap Core Equity Fund, Emerging Markets Sustainability Core Equity Fund, Emerging Markets Value Fund and World Equity Fund exposure to Russian securities through investment in depositary receipts have been fair valued by the Investment Manager with a market value of Nil.

10. Foreign Exchange Rates

The following exchange rates were used to convert the investments and other assets and liabilities denominated in currencies other than the respective Fund's base currency at 31 May 2024 and 30 November 2023:

Exchange Rates against Euro	31 May 2024	30 November 2023

Notes to the Financial Statements

for the financial period ended 31 May 2024 (continued)

10. Foreign Exchange Rates (continued)

Exchange Rates against U.S. Dollar (continued)	31 May 2024	30 November 2023
United Arab Emirates Dirham	3.6731	3.6726

At 31 May 2024, an exchange rate of 1.0836 (31 May 2023: 1.0730) was used to translate the Statement of Comprehensive Income of Emerging Markets Large Cap Core Equity Fund, Emerging Markets Sustainability Core Equity Fund, Emerging Markets Value Fund, Global Core Equity Fund, Global Short-Term Investment Grade Fixed Income Fund, Global Small Companies Fund, Global Sustainability Core Equity Fund, Global Sustainability Targeted Value Fund, Global Targeted Value Fund, Global Value Fund, Pacific Basin Small Companies Fund, U.S. Core Equity Fund and U.S. Small Companies Fund from USD to EUR.

At 31 May 2024, an exchange rate of 0.8568 (31 May 2023: 0.8750) was used to translate the Statement of Comprehensive Income of Global Core Fixed Income Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Ultra Short Fixed Income Fund, Sterling Inflation Linked Intermediate Duration Fixed Income Fund, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund, World Allocation 80/20 Fund, World Equity Fund and World Sustainability Equity Fund from GBP to EUR.

11. Derivative Financial Instruments

A Fund may employ investment techniques and instruments for efficient portfolio management of its assets including hedging against market movements, currency exchange or interest rate risks, under the conditions and within the limits stipulated by the Central Bank under the UCITS Regulations. A Fund may use such investment techniques and instruments only where their use is, in the opinion of the Investment Manager, consistent with the investment policies of that Fund. In particular, a Fund may lend its securities, enter repurchase and reverse repurchase agreements, call options, spot and forward contracts and financial futures. The total exposure of a Fund including but not limited to its exposure from the use of any derivative instruments, may not exceed the total net assets of the Fund.

As at 31 May 2024, Emerging Markets Sustainability Core Equity Fund, Global Core Fixed Income Fund, Global Short Fixed Income Fund, Global Short-Term Investment Grade Fixed Income Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Sustainability Targeted Value Fund, Global Ultra Short Fixed Income Fund, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund, World Allocation 80/20 Fund and World Equity Fund had investments in forward currency contracts which were utilised for efficient portfolio management purposes (30 November 2023: Global Core Fixed Income Fund, Global Short Fixed Income Fund, Global Short-Term Investment Grade Fixed Income Fund, Global Small Companies Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Ultra Short Fixed Income Fund, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund, World Allocation 80/20 Fund and World Equity Fund had

investments in forward currency contracts which were utilised for efficient portfolio management purposes). Any gains or losses from these forward currency contracts are assigned solely to the relevant non-base currency class.

As at 31 May 2024, Global Sustainability Targeted Value Fund and U.S. Core Equity Fund had investment in futures contracts (30 November 2023: none of the Funds invested in futures contracts).

The direct and indirect operational costs arising from these forward currency contracts cannot practically be split from the total return of the instrument. The realised and unrealised gains and losses on forward currency contracts and futures contract are included within net gain/(loss) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income. Details of the exposure obtained and counterparties to the settlement of these forward currency contracts and futures contract are disclosed in the Portfolio of Investments.

As at 31 May 2024, a number of Funds have also entered into securities lending agreements for the purposes of efficient portfolio management. Please refer to Note 4 for further details.

12. Distributions

The Directors may declare dividends in respect of any shares out of net income (including dividend and interest income) and the excess of realised and unrealised capital gains over realised and unrealised losses in respect of investments of the Company. Paid and proposed distributions to redeemable participating shares are classified as finance costs in the Statement of Comprehensive Income.

The Directors anticipate that there will be no dividend distributions in respect of the accumulation classes of the Funds. Accordingly, income and capital gains arising in respect of the accumulation classes of the Funds will be re-invested in the relevant Fund and reflected in the NAV per share of the relevant Fund.

The Directors anticipate making dividend distributions in respect of the distributing classes of the Funds. Accordingly, any income arising in respect of the distributing classes of the Funds will be distributed to investors in the relevant Fund in accordance with their respective shareholdings.

Dividends of the GBP distributing classes, if any are declared by the Directors, will normally be paid for the financial periods ending 31 May and 30 November. Dividends of the JPY distributing classes and SGD distributing classes, if any are declared by the Directors, will normally be paid for the financial periods ending 28 February, 31 May, 31 August and 30 November. Dividends of the other distributing classes will normally be declared by the Directors for the period ending 30 November.

The Directors do not expect to declare a dividend in respect of any class where it would be uneconomical to pay such dividend to shareholders.

14. Use of Soft Commission and Brokerage Services

The Company pays no brokerage services and soft commission through commission sharing arrangements.

15. Commitments and Contingent Liabilities

As at 31 May 2024 and 30 November 2023, the Company did not have commitments or contingent liabilities to be presented in the Statement of Financial Position.

16. Connected party transactions

Central Bank UCITS Regulations 'Restrictions on transactions with connected persons' states that 'A responsible person shall ensure that any transaction between a UCITS and a connected person is a) conducted at arm's length; and b) in the best interest of the unitholders of the UCITS'.

As required under Central Bank UCITS Regulations, the Directors, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected party; and all transactions with connected parties that were entered into during the financial period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

17. Significant Events during the Financial Period

Management continue to monitor the ongoing conflict in Ukraine and its impact on the securities held by the sub-funds. Reliable price quotations for Russian securities, including Russian depositary receipts trading outside of Russia that are held by the sub-funds, continue to be difficult to obtain, requiring the Investment Manager to estimate prices for such depositary receipts using other market information, which in turn may also be more difficult to obtain and validate. As of 31 May 2024, the Emerging Markets Large Cap Core

Equity Fund, Emerging Markets Sustainability Core Equity Fund, Emerging Markets Value Fund and World Equity Fund had an immaterial exposure to Russian securities through investment in depositary receipts.

An updated Prospectus for the Company was issued on 20 February 2024, which included the following changes:

- updating the definition of "Permitted U.S. Person" and associated disclosures in order to clarify that the sub-funds no longer rely on Regulation D but can rely on Regulation S of the US Securities Act of 1933;
- removing reference to a repealed section of UK legislation, section 264 of the Financial Services and Markets Act 2000;
- updating the minimum market capitalisation amounts for a company, as at 30 September 2023, as provided in the investment policies of several sub-funds;
- updating the list of funds being issued at initial offer price or net asset value, where a class has launched;
- removing references to the following unlaunched sub-funds, which received confirmation of withdrawal of Central Bank approval, the Global Short Fixed Income II Fund, the Global Core Equity II Fund, the U.S. Small Companies II Fund, and the Emerging Markets Value II Fund;
- updating the description of Dimensional Ireland Limited (the "Management Company") to reflect the registered office, secretary details and description of its issued share capital;
- updating the list of delegates of the Depositary of the Company;

Notes to the Financial Statements

for the financial period ended 31 May 2024 (continued)

17. Significant Events during the Financial Period (continued)

- updating the investment policy section of the Article 8 sub-funds to note that the Investment Manager will exclude issuers with annual revenues of more than 10% from palm oil and issuers with annual revenues of more than 10% from factory farming, and updates to align the pre-contractual disclosure templates required under Commission Delegated Regulation (EU) 2022/1288 (SFDR Level 2);
- updating the 'Directory' to remove reference to the listing agent; and
- removing duplicative disclosure language and other immaterial updates to improve style and readability.

The First Addendum to the Prospectus dated 20 February 2024 was issued on 8 March 2024 to add a new JPY accumulation class to the World Equity Fund.

The Second Addendum to the Prospectus of the Company dated 20 February 2024 was issued on 7 May 2024, which included the following changes:

- clarifying that collateral will be valued at the same time as the assets of the relevant sub-fund;
- updating the investment policy of the World Allocation 60/40 Fund to provide that more than 50% of the value of the sub-fund will be invested in equity participations within the meaning of Section 2 (8) of the German Investment Tax Act (Investmentsteuergesetz); and
- updating the list of Global Developed Equity Funds and the countries that they may invest in.

On 29 May 2024, the Central Bank approved the withdrawal of the European Core Equity Fund, Japan Core Equity Fund and U.S. Value Fund.

There were no other significant events during the financial period end which required adjustment to, or disclosure in, these financial statements.

18. Significant Events after the Financial Period End

The Third Addendum to the Prospectus dated 20 February 2024 was issued on 14 June 2024 to establish a new sub-fund of the Company, the Global Sustainability High Profitability Fund.

The Global Core Equity III Fund, Global Core Fixed Income III Fund and Emerging Markets Large Cap Core Equity III Fund launched on 10 July 2024.

There are no other significant events after the financial period end which require adjustment to, or disclosure in, these financial statements.

19. Seasonal or Cyclical Activities

The Company is not subject to seasonal or cyclical activities.

20. Approval of Financial Statements

The financial statements were approved by the Directors on 18 July 2024.

Statement of Portfolio Changes

for the financial period ended 31 May 2024

In accordance with the Central Bank (Supervision and Enforcement) Act, 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019, a statement of the largest changes in the composition of the Portfolio of Investments during the financial period is provided to ensure that shareholders can identify changes in the investments held by the Fund. These statements present the aggregate purchases and sales of an investment exceeding 1.00% of the total value of purchases and sales for the financial period or at least the top 20 purchases and sales. Should there have been less than that amount of transactions, all such transactions have been disclosed.
