

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Core Equity Fund Share Class: GBP Distributing Shares (ISIN: IE00B2PC0377)

a sub fund of Dimensional Funds plc.

Objectives & Investment Policy

The aim is to increase the value of your investment over the long term and to earn income within the fund.

The fund is managed on a discretionary basis and primarily invests in shares of companies listed on the principal stock exchanges in developed countries around the world. The fund has a general exposure to the market with a tilt towards shares of smaller sized companies and value companies. Value companies are defined as companies where, at the time of purchase, the share's price is low compared to the accounting value of the company. No more than 20% of the fund's net assets will be invested in countries that are considered to be emerging markets.

To a lesser degree the fund may seek to achieve its objective by investing in other investment funds which seek returns consistent with the investment objective of the fund. No more than 20% of the fund's net assets will be invested in investment funds.

The fund may use financial contracts or instruments (derivatives) to manage risk, reduce costs or improve returns.

Income is distributed twice yearly.

You may sell your investment in the fund on demand on a daily basis.

Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 6 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The fund may hold assets, either directly or through its holdings in other investment funds, which may be denominated in or have

exposure to a currency other than the currency of the shares in the fund or of the country in which you live. Currency fluctuations may strongly affect the value of your investment.

Investments in shares are subject to market risks that may cause their prices to fluctuate over time. This can affect the value of your investment.

The fund may invest in smaller companies. This carries a higher risk, as the share prices of smaller companies may fluctuate more than those of larger companies.

The fund may seek to identify and invest in value shares, which are shares, the prices of which are low compared to the accounting values of the companies issuing them. The financial prospects of the companies in question are uncertain and investing in these shares is more risky than investing in shares in general.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor.
Entry charge	None	
Exit charge	None	
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).		The ongoing charges figure shown here is an annualised estimate of the charges as there has been a reasonably significant difference to the last reported ongoing charges figure. The Fund's annual report for each financial year will include detail on the exact charges made. It excludes portfolio transaction costs and performance fees, if any.
Charges taken from the Fund over a year		
Ongoing charges	0.41%	
Charges taken from the Fund under certain specific conditions		More detailed charges information may be found in the "Fees and Expenses" section of the prospectus. No conversion fee will be charged by the fund or the investment manager.
Performance fee	None	

Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

The Fund was launched in 2008 and the share class was launched in 2008.

Past performance has been calculated in GBP.
