Notes to the semi-annual financial statements 2024

Explanations on business activities

EMF Microfinance Fund Public limited company with variable capital is a self-managed investment company under the Liechtenstein Law on Managers of Alternative Investment Funds (AIFMG) of December 19, 2012. EMF Microfinance Fund AGmvK is registered in the Commercial Register under the registration number FL-0002.301.629-2.

The assets managed by EMF Microfinance Fund AGmvK are additionally disclosed in a separate report.

Valuation and Accounting Principles

Accounting Rules

The financial statements have been prepared in accordance with the law on persons and companies. The financial statements give a true and fair view of the financial position, the results of operations and the cash flows of EMF Microfinance Fund AGmvK.

Valuation principles and accounting policies

The unit of account of the operating company is CHF, that of the fund USD 1 = CHF 0.899953.

Recording of transactions

All completed business transactions are recorded in the balance sheet and income statement in accordance with established valuation principles. They are recorded and booked on the trade date.

Financial assets

The assets managed by the investment company are reported under financial assets. The valuation is made at fair value (net fund assets of the fund on the reporting date). At the same time, the net fund assets of the fund are listed in the same amount in the liabilities of the investment company. The assets under management are segregated in favour of the holders of the investor units and do not fall into the bankruptcy estate of the investment company in the event of its bankruptcy.

Share capital and investor shares

Based on its Articles of Association, the Investment Company has issued 65 bearer founder shares with a nominal value of CHF 1,000 each and bearer investor shares without nominal value. By virtue of these investor units, investors participate in the assets and income of the assets managed by the Investment Company in accordance with the Prospectus. However, the investor units do not confer any voting or other membership rights in the Investment Company. Likewise, there is no entitlement to a share in the profits of the Investment Company. Reporting on the assets under management begins on page 11.

Foreign currencies

Receivables and liabilities in foreign currencies are valued at the mean exchange rate on the balance sheet date. The exchange rate gains and losses resulting from the valuation are recognized in the income statement.

Value adjustments and provisions

For all risks identifiable at the balance sheet date, individual value adjustments and provisions are made in accordance with the principle of prudence.

Guarantees, contingent liabilities

There are no sureties, guarantee obligations, pledges and other contingent liabilities within the meaning of PGR 1091 paragraph 2, item 6.

Employees

The investment company did not have any employees in the reporting period.

Income Statement

The income statement of the Investment Company contains the income and expenses attributable to the share capital (founding capital). For the income statement of assets under management, please refer to page 11 ff.

Semi-annual report 30 June 2024

Fund assets

Publications / Information for investors

The organ of publication of the AIF is the website of the LAFV Liechtenstein Investment Fund Association (Liechtensteinische Anlagefondsverband) www.lafv.li.

All communications to investors, including those relating to amendments of the Trust Agreement and of Appendix B shall be published in the organ of publication of the AIF.

The NAV as well as the issue and redemption price of the units of the AIF or of the unit class shall be published on each valuation date in the organ of publication of the AIF.

In the absence of distribution to private Investors, the AIF waives the preparation of key investor information.

The annual report audited by an auditor shall be made available to Investors at the registered domicile of the AIFM and of the Custodian.

Information for qualified investors in Switzerland

Price publications: electronic platform www.fundinfo.com

The relevant documents such as the Prospectus, the key investor information document (KIID / PRIIP KID), the Articles or the Fund Agreement as well as the annual report are available free of charge from the Representative in Switzerland.

Valuation principles

The AIF assets shall be valued in accordance with the following principles:

1. Claims and debt instruments, in particular MF and FT investment instruments that are not listed on a stock exchange or regularly traded on another regulated market shall be valued at their nominal value or capital sum plus accrued interest. In the case of claims with one-off interest payments and debt instruments with fixed interest rates, interest shall be calculated on a linear basis over the maturity. In the case of claims with one-off interest payments and debt instruments with variable interest rates, the respective applicable interest rate shall be determined on each valuation date, and this interest rate shall be used to determine the sum of the interest accrued up until the valuation date.

A payment default is deemed to have occurred if a claim of the fund arising out of an investment is not settled within two weeks from the date of the agreed payment deadline. In this event the Asset Manager shall be obliged without delay to propose to the Management Company measures to safeguard the interests of investors, and moreover to execute these at the request of the Management Company. The Asset Manager is responsible for the corresponding monitoring.

In the event of a payment default or a situation that could lead to a payment default, or in the event of the elimination or improvement in a situation of this nature, the AIFM shall decide on the basis of a well-founded application submitted by the Asset Manager whether and to what extent the adjustment of the valuation of claims or debt instruments is to be performed.

In general terms, in the event of a payment default on an MF or FT investment instrument (irrespective of whether this affects interest or capital), the entire capital of a transaction of this nature shall be valued at 2/3 of the book value on the first of the monthly NAV valuation dates after the payment default. If a payment default extends past the next NAV calculation date, then the book value of the transaction shall be reduced by a further 1/3 of the nominal value, and after 3 months shall be reported at 0. In justified exceptional cases the AIFM may deviate from this practice together with the Asset Manager. Following repayment of the outstanding debt, the transaction shall once again be valued at 100 % of the book value on the following monthly NAV valuation date.

The AIFM shall continuously verify the above valuation methodology and make adjustments where necessary to ensure that receivables and debt instruments are valued at fair value (market value) as determined in good faith by the AIFM.

2. Book-entry securities that are listed or regularly traded on a stock exchange or are regularly traded on another regulated market shall be valued at the closing price on the relevant issue and redemption date. If an investment is traded on several stock exchanges or markets, then the relevant price is that of the main market for this investment. Section 3 below remains reserved;

3. In the case of investments in book-entry securities or money market instruments with a residual maturity of less than 12 months, the difference between the cost price (purchase price) and the redemption price (price at bullet maturity) may be depreciated or attributed in a linear manner, and a valuation at the current market price need not be performed if the repayment price is already known and fixed. Any possible credit rating changes shall also be taken into account.

4. Investments whose price is not market compliant and those assets that are not covered by point 2 and point 3 above shall be valued at the price that they would probably achieve if sold in good faith at the time of the valuation, which shall be determined in good faith by the management of the management company or under its direction or supervision by authorised representatives;

5. Liquid assets shall essentially be valued on the basis of the nominal value, plus accrued interest;

6. The value of the individual target funds corresponds to the net asset value reported by the management company on the valuation date. If, exceptionally, no value can be obtained, then the management company shall estimate the market value using normal business prudence on the basis of the price that would probably be obtained in a prudent sale conducted at the time of the valuation; and

7. Investments that are not denominated in the unit of account shall be converted into the unit of account at the mean rate of exchange between the purchase and sales price of the market in Liechtenstein, or if not available, of the market that is most representative for this currency.

The AIFM shall be entitled, on a temporary basis, to apply other appropriate valuation principles to the assets of the AIF if the aforementioned valuation criteria are deemed impossible or unreasonable as the result of extraordinary events. In the event of massive redemption applications, the AIFM may value the Units of the corresponding AIF assets on the basis of the prices at which the necessary sales of securities would probably be performed. In this case, the same calculation method shall be applied for subscription and redemption applications that are submitted simultaneously.

Matters of particular business or legal significance

LLB Fund Services AG, Vaduz, as AIFM and Liechtensteinische Landesbank AG, Vaduz, as depositary of the listed AIF have decided to make the following amendments to the Articles of Association:

- Change of asset manager
- Two new asset classes (bi-weekly NAV)
- Formulations regarding third-party pledging and collateralization as well as look-through (look-through principle to the MFI) for indirect investments
- Reformulation of the valuation guidelines, in particular for the credit portfolio
- Editorial adjustments ESG and in general
- English constituent documents (articles of association with the investment conditions and fund-specific annexes as well as the investor information) as authoritative

PART III: Terms and Conditions of Investment for the AIF under third-party management

§ 6 Assignment of tasks

Subject to adherence to the provisions of the AIFMG and the AIFMV, the AIFM may assign a part of its responsibilities to third parties for the purpose of efficient management. The precise execution of the commission shall in each case be set out in an agreement concluded between the AIFM and the commissioned agent.

a) Portfolio Manager

The following company acts as Portfolio Manager for the AIF:

Enabling Qapital AG

Mühlebachstrasse 164

CH-8008 Zurich

The purpose of the Enabling Qapital is to manage collective assets according to Art. 24 FinIA as well as to provide advisory and consulting services of all kinds (incl. investment advisory) in the context of impact investments and the distribution of financial instruments. Enabling Qapital is prudentially supervised by the Swiss Financial Market Supervisory Authority FINMA.

The Portfolio Manager is responsible in particular for independently implementing the investment policy on a daily basis and for exercising the day-to-day business of the AIF as well as for other associated services subject to the supervision, control and responsibility of the AIFM. These duties are fulfilled in accordance with the principles of the investment policy and investment restrictions of the AIF, as described in the Terms and Conditions of Investment including fund-specific appendices.

The precise execution of the commission is governed by a Delegation of Duties Agreement (portfolio management) concluded between the AIFM and the Enabling Qapital AG.

§ 7 Investment advisor

The AIF has not appointed an investment advisor.

§ 36 Borrowing limit

The assets of the fund may not be pledged or otherwise encumbered, transferred for security or assigned for security, unless this constitutes borrowing or the assumption of obligations from indirect investments by means of special purpose entities within the meaning of the following paragraph or the provision of security within the framework of the settlement of transactions in financial instruments.

§ 47 Privacy policy

Potential investors are advised that by submitting the subscription application, they are providing the AIF or its representatives and authorised persons (in particular the AIFM, the Custodian, the administrator, the Portfolio Manager and, if applicable, the distributors) with information that may constitute personal data within the meaning of the data protection rules introduced in the EU by the General Data Protection Regulation (Regulation (EU) 2016/679). This data will be used for client identification and for the subscription process, administration, compliance with anti-money laundering and anti-terrorism legislation and

compliance with any other applicable legal or regulatory requirements and will be disclosed to the AIF, its representatives and authorised persons.

Personal data will be collected, managed, used, disclosed and processed for any or all of the purposes set out in the Data Protection Notice and on the basis of the statutory grounds described therein.

Investors have the right to receive a copy of their personal data that has been stored by the AIFM as well as the right to correct any inaccuracies in the data held by the AIFM. Investors also have the right to be forgotten and a right to restriction of processing or to object to processing in certain circumstances. In certain limited circumstances, there may also be a right to data portability. Where investors consent to the processing of personal data, this consent may be withdrawn at any time.

The amendments were published in full in the notice to investors dated July 19, 2024 in the investment fund's medium of publication.

Investment policy / investment objective and strategy

The centrepiece of the fund concept is a risk-optimised investment strategy that in particular takes account of the maturity and heterogeneity of the MF market, using multi-stage diversification as well as by limiting MF investment instruments.

A definition of micro, medium and small enterprise financing, jointly MSME financing, is being applied to the AIF, where the value chain is as follows: AIF – Financial Intermediary – Microentrepreneurs/SMEs. The focus of the fund is on the MSME value chain, but in order to more holistically address the needs of micro, small and medium enterprises, also some direct transactions with emerging market businesses are allowed.

The investment objective of the AIF is to contribute, directly or indirectly, to the financing of Investees/Issuers of various types involved in impact investment activities, across emerging and frontier markets globally. The financial intermediaries and/or businesses may be involved in activities such as MSME lending directly or through downscaling programs targeting the productive sector, affordable housing, affordable education, health, agriculture, clean energy, climate mitigation / adaptation and humanitarian relief activities.

In short, the following aspects may be highlighted:

- The fund pursues a risk-optimised investment strategy

The AIF aims to generate a sustained, long-term real rise in the value of its assets, while at the same time and to an equal degree helping to create prosperity amongst local underprivileged population groups by providing direct finance for entrepreneurial activities in developing and emerging countries.

For this purpose the fund invests its assets in such a manner that local, successful or promising financial service providers – so-called microfinance institutions (MFI) – are able to offer specific long-term financial services for such population groups, enabling them to grow appropriately in accordance with demand.

The fund pursues its purpose by investing its assets in successful, promising and socially-responsible MFI-oriented producers and traders. It also extends its investment portfolio to include insurance products in the microfinance space. The fund facilitates the generation of income for working but impoverished population groups by providing them, through its investments, with important access to financial services related to these investments and the security of insurance coverage. This comprehensive approach aims to foster financial stability and growth, ultimately contributing to the alleviation of poverty.

The fund aims to pursue a structured investment process in which investments are made primarily in profitable and consequentially sustainable financial institutions. The fund invests in fixed-interest or variable interest securities. The credit risk associated with MF investments is minimised primarily by the targeted selection of the investment candidates. In addition, risks are also reduced by a broad geographic diversification amongst various countries, as well as by the use of a variety of investment instruments. The fund typically invests in investment instruments with short (six to eighteen months) to medium-term (three to five years) maturities. As a rule, however, the average duration is two to three years. The investments are made mainly in USD.

The fund assets are subdivided into two types of investment instruments, namely into MF investment instruments as well as traditional investment instruments. The MF investment instruments are managed in a structured investment process described in Fig. 7.4 in the prospectus.

The fund aims to achieve an investment ratio of approx. 95 %.

The AIF is a product under Article 9 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on Sustainable Finance Disclosure Regulation (the "SFDR"), also referred to as "dark green" products. So-called ESG criteria are non-financial considerations that are incorporated into the fund's investment process on an ongoing basis, with a particular focus on social aspects. Information on the sustainable investments of this product is available in the annex.

Fees and expenses

Asset management and distribution commission

1.85 % for Classes Distributed (F/A CHF), Distributed (F/A USD) and Reinvested (F/T USD)
1.45 % for Classes Distributed (FO/A CHF), Distributed (FO/A USD), Reinvested (FO/T CHF), Reinvested (FO/T EUR) and Reinvested (FO/T USD)
1.20 % for Classes Distributed (I/A CHF), Distributed (I/A USD), Reinvested (I/T CHF), Reinvested (I/T EUR) and Reinvested (I/T USD)

Administration and custodian fee

max. 0.4 % plus up to a maximum of CHF 75,000.--

Contract costs (upfront fee) per microcredit agreement

max. 1.00 %

Service Fee

max. CHF 2,500.-- p. a.

Total Expense Ratio (TER)

2.14 % p. a.	Class Distributed (F/A CHF)
2.14 % p. a.	Class Distributed (F/A USD)
1.74 % p. a.	Class Distributed (FO/A CHF)
1.74 % p. a.	Class Distributed (FO/A USD)
1.49 % p. a.	Class Distributed (I/A CHF)
1.49 % p. a.	Class Distributed (I/A USD)
2.14 % p. a.	Class Reinvested (F/T USD)
1.74 % p. a.	Class Reinvested (FO/T CHF)
1.74 % p. a.	Class Reinvested (FO/T EUR)
1.74 % p. a.	Class Reinvested (FO/T USD)
1.49 % p. a.	Class Reinvested (I/T CHF)
1.49 % p. a.	Class Reinvested (I/T EUR)
1.49 % p. a.	Class Reinvested (I/T USD)

A portfolio maintenance commission may be paid out of the administrative commission.

The total expense ratio ("TER") is calculated using the "ongoing charges" calculation method, taking account of the TER of investments in target funds if the present fund is also substantially invested in target funds. Insofar as performance-related remuneration ("performance fee") was applicable to the period under report, this shall also be reported separately as a percentage of the average net assets. In this case, TER2 shall be reported in addition to TER1, corresponding to the sum of TER1 as well as the percentage share of the performance fee.

Transaction fee

The fund bears all the incidental costs arising out of the administration of the fund assets in association with the purchase and sale of the investments. The transaction costs encompass brokerage, commission, stamp duties, taxes and third-party fees incurred during the period under report. These costs shall be offset directly against the cost and sales value of the investments concerned.

During the period under report transaction costs totalling USD 33,939.75 were incurred.

Supplementary information pursuant to Art. 106 AIFMG

Risk profile

The performance of the units is dependent upon the investment policy as well as the market performance of the individual investments and cannot be determined in advance. There is no guarantee that the investment objective will actually be achieved or that there will be an increase in the value of the investments. Upon the redemption of units, the investor may not be able to recover the amount originally invested in the AIF.

Due to its investment policy, the risks of the AIF are not comparable to those of certain undertakings for collective investment in transferable securities within the meaning of the Act concerning Certain Undertakings for Collective Investment in Transferable Securities (Gesetz über bestimmte Organismen für gemeinsame Anlagen in Wertpapieren – "UCITSG").

Due to the fact that the AIF may invest directly or indirectly in investment securities and investment book-entry securities, this investment type has a heightened market and issuer risk that may have a negative impact on the net assets.

List of further risks

Derivative financial instruments

The use of derivative financial instruments for purposes other than hedging can also lead to heightened risks.

Leverage finance (leverage)

The AIFM is expecting that the leverage of the AIF, under the gross method, will essentially be below 300%.

Borrowing

The AIF may pledge its assets and provide or assign collateral in order to take out loans or assume obligations. This can also lead to heightened risks.

Risk management procedures

The AIFM uses the commitment approach as its risk management process as a recognised calculation method.

In respect of the present AIF the AIFM has identified the following significant risks pursuant to the statutory criteria:

- Market risk
- Price risk
- Economic risk
- Concentration risk
- Interest rate change risk
- Sustainability risks
- Currency risk
- Monetary value risk
- Psychological market risk
- Risk arising out of derivative financial instruments
- Risk associated with collateral management
- Liquidity risk
- Counterparty risk
- Issuer's risk (creditworthiness risk)
- Country or transfer risk
- Operational risk
- Settlement risk
- Key persons risk
- Legal and tax risk
- Custody risk
- Risk arising out of the change of investment policy and fees
- Risk arising out of the change of the Articles and of the Terms and Conditions of Investment
- Redemption suspension risk
- Hedging risk
- Risks associated with the use of benchmarks

Share of non-liquid assets with special precautions as % of the NAV 0 %

Changes in the rules pertaining to the control of liquidity None

Deployed risk management procedure Commitment approach

Maximum leverage according to the constituent documents (fund prospectus) 10 %

Indebtedness on the reporting date 0 %

Change in the maximum indebtedness during the period under report	None
Leverage finance pursuant to the gross method as at the reporting date as % of the NAV	212.86 %
Leverage finance pursuant to the commitment method as at the reporting date as % of the NAV	114.07 %
Rights to reuse the securities provided as collateral for leverage finance	No reuse of the securities provided as collateral for leverage finance
