## What is this product?

### Type

This product is a Class of Unit of the sub-fund Active Allocation (the "Fund") which is part of Eurizon Fund, an open-ended common fund in transferable securities ("FCP") qualifying as a UCITS.

### Term

There is no maturity date for this product. The product could be unilaterally closed or merged following notice to investors in the conditions led down in the Prospectus.

### Objectives

**Investment objective** To increase the value of your investment over time.

**Benchmark(s)** None

**Investment policies** The fund mainly invests, either directly or through derivatives, in equities and corporate and government bonds denominated in any currency, and in currencies themselves. These investments may be from anywhere in the world, including emerging markets, and some of them may be below investment grade.

Specifically, the fund normally invests in equities and equity-related instruments, debt and debt-related instruments, including convertible bonds, and money market instruments. The fund may invest directly, or indirectly through the Bond Connect programme, in the China Interbank Bond Market (CIBM) and may invest through the Hong Kong Stock Connect programme.

The fund may invest in the following asset classes up to the percentages of total net assets indicated:

- below investment grade debt instruments with a minimum rating of B-/B3: 30%
- contingent convertible bonds (coco bonds): 10%

The fund does not invest in asset-backed securities, but may be indirectly exposed to them (maximum 10% of total net assets).

**Derivatives and techniques** The fund may use derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure.

**Strategy** In actively managing the fund, the investment manager combines macroeconomic, market and fundamental company analysis with high conviction ideas to dynamically adjust the portfolio's asset mix (top-down approach). The fund is designed without reference to a benchmark.

**Distribution Policy** This Unit Class intends to distribute a dividend on a quarterly basis corresponding to all or part of the income and net realised gains from investments during the previous quarter. The Management Company reserves the right, taking into account the interests of the investors, not to distribute any dividend.

**Other information** The fund has (E) environmental and (S) social characteristics and promotes investment into assets which follow good governance (G) practices in accordance with article 8 of the Sustainable Finance Disclosure Regulation ("SFDR"). For more information, see "Sustainable Investing Policy and ESG Integration" in the Prospectus available on our internet website at <https://www.eurizoncapital.com/pages/sustainability.aspx> or at distributors' premises.

### Intended retail investor

The fund is available to investors with basic knowledge, with or without advice.

The fund is intended to investors who understand the risks of the fund and plan to invest over the long term.

The fund may appeal to investors who are looking for a growth-oriented investment, while favouring sustainable investing and are interested in exposure to a diversified asset mix globally, either for a core investment or for diversification purposes.

### Practical information

**Depositary** The fund depositary is State Street Bank International GmbH, Luxembourg Branch.

## What are the risks and what could I get in return?

### Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of Eurizon Capital S. A. to pay you.

This fund does not offer any form of capital protection against future negative market conditions and, as a consequence, you may lose part of or the entire amount originally invested.

If the fund is not able to pay you out what is due, you may lose your entire investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/ a suitable benchmark over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between December 2021 and November 2023.

**Moderate:** this type of scenario occurred for an investment between December 2013 and December 2018.

**Favourable:** this type of scenario occurred for an investment between October 2016 and October 2021.

### What happens if Eurizon Capital S.A. is unable to pay out?

If the fund is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality. The fund is treated as a separate entity having its own assets which are distinct in all aspects from the assets of the Management company and the assets of each of the other investors in the fund, as well as from the assets of any other products managed by the Management Company. For obligations contracted on behalf of a specific product, the Management Company shall be liable exclusively for the assets of the concerned product. On the fund's assets, no actions of creditors of the Management Company or creditors acting on its interest, nor actions of creditors of the depositary or sub-depositary or creditors acting in the depositary or sub-depositary's interest, should be allowed. Actions of creditors of an investor in the fund are limited to the positions held in the fund by the concerned investor. The Management Company cannot, in any circumstances, use the assets of the fund for its own interests or those of third parties.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
<b>Total Costs</b>	<b>507 EUR</b>	<b>1,626 EUR</b>
<b>Annual cost impact*</b>	<b>5.2%</b>	<b>3.2% each year</b>

(\* ) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.10% before costs and 2.95% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

## Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
<b>Entry costs</b>	<b>2.50%</b> of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	<b>Up to 250 EUR</b>
<b>Exit costs</b>	<b>0.00%</b> , we do not charge an exit fee for this product.	<b>0 EUR</b>
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
<b>Management fees and other administrative or operating costs</b>	<b>2.05%</b> of the value of your investment per year. This is an estimate based on actual costs over the last year.	<b>200 EUR</b>
<b>Transaction costs</b>	<b>0.08%</b> of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	<b>7 EUR</b>
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
<b>Performance fees</b>	<b>0.51%</b> The performance fee calculation is based on a comparison of the net asset value per unit against the High Water Mark where the High Water Mark is defined as the highest net asset value per unit recorded at the end of the five previous financial years, increased by the year-to-date return of the fund's hurdle rate. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	<b>50 EUR</b>

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

You may request to sell fund units at any time without any prior notice. Requests to sell fund units that are received and accepted by the transfer agent by 4:00 PM CET on any day that is a business day in Luxembourg and that is also a trading day on the fund's main markets are ordinarily processed the following business day.

If you sell your units before the end of the Recommended Holding Period, this could impact your investment's risk profile and/or performance.
