This product is authorised in Luxembourg.

Eurizon Capital S.A. is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Date of production of this key information document: 6 March 2023

What is this product?

Type

This product is a Class of Unit of the sub-fund Green Euro Credit (the "Fund") which is part of Eurizon Fund, an open-ended common fund in transferable securities ("FCP") qualifying as a UCITS.

Term

There is no maturity date for this product. The product could be unilaterally closed or merged following notice to investors in the conditions led down in the Prospectus.

Objectives

Investment objective To increase the value of your investment over time and to outperform euro corporate green bond markets (as measured by the benchmark), while seeking to achieve a positive environmental impact.

Benchmark(s) Bloomberg MSCI Euro Corporate Green Bond 5% Capped Index® (total return). For designing the portfolio, measuring performance and calculating performance fee.

Investment policies The fund mainly invests in investment grade corporate bonds denominated in euro that are issued to finance climate and environment-friendly projects such as renewable energy, energy efficiency, pollution prevention, clean transportation, water management, circular economy, biodiversity conservation and green construction (green bonds). These investments may be from anywhere in the world, including China, Russia and other emerging markets, and some of them may be below investment grade. The fund generally favours direct investment but may at times invest through derivatives.

Specifically, the fund normally invests at least 75% of total net assets in investment grade debt and debt-related instruments, including money market instruments, issued to finance social-, climate- and environment-friendly projects.

The fund may invest in the following asset classes up to the percentages of total net assets indicated:

- debt instruments of issuers in countries other than Europe: 50%
- below investment grade debt instruments with a minimum rating of B-/B3: 30%
- contingent convertible bonds (coco bonds): 10%

The fund does not invest in asset-backed securities, but may be indirectly exposed to them (maximum 10% of total net assets).

The fund's net exposure to non-euro currencies may be up to 30% of total net assets.

Derivatives and techniques The fund may use derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure.

Strategy In actively managing the fund, the investment manager uses macroeconomic and market analysis to determine portfolio strategies and market segments (top-down approach). It then screens the green and social-labeled bond universe and combines security and issuer analysis with

an in-depth analysis of projects financed by bonds proceeds to identify securities that have the highest environmental or social impact (bottom-up approach). The fund's exposure to securities, and thus its performance, are likely to differ slightly from those of the benchmark.

In addition to ESG integration, the security selection process uses a due diligence programme that aligns with Green Bond Principles (GBP) and Social Bond Principles (SBP) as defined by the International Capital Market Association (ICMA) and the developing EU Green Bond Standard framework (GBS). The non-financial analysis coverage rate within the portfolio is at least 90% of the fund's total net assets or issuers in the portfolio (excluding any government debt securities and ancillary cash).

Distribution Policy This Unit Class is not distributing dividends. Income from investments is reinvested.

Other information The fund has sustainable investments as its objective as per Article 9 of the SFDR and also promotes other (E) environmental and/or (S) social characteristics. For more information, see "Sustainable Investing Policy and ESG Integration" in the Prospectus available on our internet website at <https://www.eurizoncapital.com/pages/sustainability.aspx> or at distributors' premises.

Intended retail investor

The fund is not available to retail investors.

The fund is intended to investors who understand the risks of the fund and plan to invest over the medium term.

The fund may appeal to investors who:

- are looking for an investment combining income and growth, while favouring sustainable investing
- are interested in exposure to bond markets globally, either for a core investment or for diversification purposes

Practical information

Depositary The fund depositary is State Street Bank International GmbH, Luxembourg Branch.

Further information For further information about this Class of Unit, other Class of Unit of this fund or other funds of the FCP, you may refer to the Prospectus (in the same language as the KID), to the Management Regulations or to the last available annual or semi-annual financial report (in English). Price Publication The net asset value of this Class of Unit is published daily on the Management Company's website at www.eurizoncapital.com.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/ a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between July 2021 and December 2022.

Moderate: this type of scenario occurred for an investment between February 2017 and February 2021.

Favourable: this type of scenario occurred for an investment between August 2013 and August 2017.

Recommended holding period		4 years	
Example Investment		10,000 EUR	
Scenarios		if you exit after 1 year	if you exit after 4 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	7,760 EUR -22.36%	7,730 EUR -6.22%
Unfavourable	What you might get back after costs Average return each year	8,210 EUR -17.87%	8,180 EUR -4.91%
Moderate	What you might get back after costs Average return each year	10,160 EUR 1.61%	10,660 EUR 1.62%
Favourable	What you might get back after costs Average return each year	10,820 EUR 8.19%	11,480 EUR 3.51%

What happens if Eurizon Capital S.A. is unable to pay out?

If the fund is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality. The fund is treated as a separate entity having its own assets which are distinct in all aspects from the assets of the Management company and the assets of each of the other investors in the fund, as well as from the assets of any other products managed by the Management Company. For obligations contracted on behalf of a specific product, the Management Company shall be liable exclusively for the assets of the concerned product. On the fund's assets, no actions of creditors of the Management Company or creditors acting on its interest, nor actions of creditors of the depositary or sub-depositary or creditors acting in the depositary or sub-depositary's interest, should be allowed. Actions of creditors of an investor in the fund are limited to the positions held in the fund by the concerned investor. The Management Company cannot, in any circumstances, use the assets of the fund for its own interests or those of third parties.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 4 years (recommended holding period)
Total Costs	73 EUR	301 EUR
Annual cost impact*	0.7%	0.7%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.30% before costs and 1.62% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00% , we do not charge an entry fee.	0 EUR
Exit costs	0.00% , we do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	0.47% of the value of your investment per year. This is an estimate based on actual costs over the last year.	47 EUR
Transaction costs	0.18% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	18 EUR
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	0.08% The performance fee calculation is based on a comparison of the net asset value per unit against the High Water Mark where the High Water Mark is defined as the highest net asset value per unit recorded at the end of the five previous financial years, increased by the year-to-date return of the fund's benchmark. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	8 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 4 years

You may request to sell fund units at any time without any prior notice. Requests to sell fund units that are received and accepted by the transfer agent by 4:00 PM CET on any day that is a business day in Luxembourg and that is also a trading day on the fund's main markets are ordinarily processed the following business day.

How can I complain?

Complaints must be either submitted in written form to Eurizon Capital S.A., 28, boulevard de Kockelscheuer, L-1821 Luxembourg, to the attention of the Compliance & AML Function, or sent by fax to the number +352 494 930 349, or through the "Contacts" section of the Eurizon Capital S.A.'s website (www.eurizoncapital.com). Complaints may also be received by the Management Company through its authorized distributors. The Management Company must handle all complaints with the utmost diligence, transparency and objectivity and must communicate in writing to the investor, in a plain and easily comprehensible language and by mean of registered communication method with return receipt, its decision within 30 days from receipt of the complaint. For additional information, please refer to the "Investor's Rights" section of the Eurizon Capital S.A.'s website (www.eurizoncapital.com).
