What is this product?

Type

This product is a Class of Unit of the sub-fund Sustainable Japan Equity (the "Fund") which is part of Eurizon Fund, an open-ended common fund in transferable securities ("FCP") qualifying as a UCITS.

Term

There is no maturity date for this product. The product could be unilaterally closed or merged following notice to investors in the conditions led down in the Prospectus.

Objectives

Investment objective To increase the value of your investment over time and to outperform Japanese equity markets (as measured by the benchmark), while focusing on environmental, social and governance (ESG) factors.

Benchmark(s) Topix Net Total Return Index® (not yet ESMA registered). For designing the portfolio, measuring performance and calculating performance fee.

Investment policies The fund mainly invests in Japanese equities. The fund generally favours direct investment but may at times invest through derivatives.

Specifically, the fund normally invests at least 70% of total net assets in equities and equity-related instruments, including convertible bonds, that are traded or issued by companies that are located, or do most of their business, in Japan.

Derivatives and techniques The fund may use derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure.

Strategy In actively managing the fund, the investment manager uses macroeconomic analysis along with fundamental analysis and environmental, social or corporate governance (ESG) criteria to identify opportunities and to select securities that appear to offer the greatest potential for appreciation (quantitative and bottom-up approach). The fund restricts companies with direct involvement in the production, sale or storage of controversial weapons and those with a low ESG scores. The fund's exposure to securities, and thus its performance, are likely to differ largely from those of the benchmark.

Distribution Policy This Unit Class is not distributing dividends. Income from investments is reinvested.

Other information The fund has (E) environmental and (S) social characteristics and promotes investment into assets which follow good governance (G) practices in accordance with article 8 of the Sustainable Finance Disclosure Regulation ("SFDR"). For more information, see "Sustainable Investing Policy and ESG Integration" in the Prospectus available on our internet website at <https://www.eurizoncapital.com/pages/sustainability.aspx> or at distributors' premises.

Intended retail investor

The fund is available to investors with basic knowledge, with or without advice.

The fund is intended to investors who understand the risks of the fund and plan to invest over the long term.

The fund may appeal to investors who:

- are looking for a growth-oriented investment, while favouring sustainable investing
- are interested in exposure to regional equity markets, either for a core investment or for diversification purposes

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of Eurizon Capital S. A. to pay you.

This fund does not offer any form of capital protection against future negative market conditions and, as a consequence, you may lose part of or the entire amount originally invested.

If the fund is not able to pay you out what is due, you may lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/a suitable benchmark over the last 11 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between October 2021 and December 2022.

Moderate: this type of scenario occurred for an investment between June 2014 and June 2020.

Favourable: this type of scenario occurred for an investment between May 2012 and May 2018.

What happens if Eurizon Capital S.A. is unable to pay out?

If the fund is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality. The fund is treated as a separate entity having its own assets which are distinct in all aspects from the assets of the Management company and the assets of each of the other investors in the fund, as well as from the assets of any other products managed by the Management Company. For obligations contracted on behalf of a specific product, the Management Company shall be liable exclusively for the assets of the concerned product. On the fund's assets, no actions of creditors of the Management Company or creditors acting on its interest, nor actions of creditors of the depositary or sub-depositary or creditors acting in the depositary or sub-depositary's interest, should be allowed. Actions of creditors of an investor in the fund are limited to the positions held in the fund by the concerned investor. The Management Company cannot, in any circumstances, use the assets of the fund for its own interests or those of third parties.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 6 years (recommended holding period)
Total Costs	503 EUR	1,685 EUR
Annual cost impact*	5.2%	2.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.40% before costs and 4.82% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	3.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	300 EUR
Exit costs	0.00% , we do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	1.95% of the value of your investment per year. This is an estimate based on actual costs over the last year.	189 EUR
Transaction costs	0.07% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	7 EUR
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	0.07% The performance fee calculation is based on a comparison of the net asset value per unit against the High Water Mark where the High Water Mark is defined as the highest net asset value per unit recorded at the end of the five previous financial years, increased by the year-to-date return of the fund's benchmark. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	7 EUR

How long should I hold it and can I take money out early?
