What is this product?

Type

This product is an open-ended investment company with variable capital (UCITS).

Term

There is no maturity date for this product.

Objectives

Investment objective The objective of this Sub-Fund is to grow the invested capital over time. It offers you the possibility of participating in growth of the Eurozone equities markets represented by the benchmark. Benchmark DJ Euro Stoxx 50 Index. For designing portfolio and measuring performance.

Investment policies This Sub-Fund's net assets are primarily invested in equities issued by companies located in European Union member countries or traded on the regulated markets of one of these countries.

To a lesser extent, the Sub-Fund's net assets are invested in all kinds of other money market instruments and bonds with a high to medium credit rating ("investment grade") and in liquid assets, including term deposits with credit institutions.

The Sub-Fund may also hold investment funds (up to 10%).

The investments are primarily denominated in euros.

The Sub-Fund is furthermore authorised to use financial derivatives for hedging purposes, to ensure effective portfolio management, and/or investment purposes in accordance with the investment policy. The use of financial derivatives for investment purposes may magnify the upward or downward changes of the Sub-Fund's net asset value.

Strategy In actively managing the fund, the investment manager uses strategic and fundamental company analysis to select

securities that appear to offer above average growth and income potential. The majority of the fund's securities will be components of and may have similar weightings to the benchmark depending on the investment manager's strategic or tactical views. Quantitative deviation limitations underlying the investment approach will restrict the extent to which the performance of the fund may deviate from the benchmark. The fund's exposure to securities, and thus its performance, are likely to largely differ from those of the benchmark.

Distribution Policy This Share Class is not distributing dividends. Income from investments is reinvested.

Intended retail investor

The fund is not available to retail investors.

Practical information

Depository The fund depository is State Street Bank International GmbH, Luxembourg Branch.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of Eurizon Capital S.A. to pay you.

This fund does not offer any form of capital protection against future negative market conditions and, as a consequence, you may lose part of or the entire amount originally invested.

If the fund is not able to pay you out what is due, you may lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/a suitable benchmark over the last 11 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 2014 and 2020.

Moderate: this type of scenario occurred for an investment between 2015 and 2021.

Favourable: this type of scenario occurred for an investment between 2012 and 2018.

What happens if Eurizon Capital S.A. is unable to pay out?

If the fund is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality. The fund is treated as a separate entity having its own assets which are distinct in all aspects from the assets of the Management company and the assets of each of the other investors in the fund, as well as from the assets of any other products managed by the Management Company. For obligations contracted on behalf of a specific product, the Management Company shall be liable exclusively for the assets of the concerned product. On the fund's assets, no actions of creditors of the Management Company or creditors acting on its interest, nor actions of creditors of the depositary or sub-depositary or creditors acting in the depositary or sub-depositary's interest, should be allowed. Actions of creditors of an investor in the fund are limited to the positions held in the fund by the concerned investor. The Management Company cannot, in any circumstances, use the assets of the fund for its own interests or those of third parties.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

- 10,000 EUR per year is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 6 years (recommended holding period)
Total Costs	38 EUR	264 EUR
Annual cost impact*	0.4%	0.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.50% before costs and 6.10% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
