What is this product?

Type

The product is a share of the sub-fund Franklin Global Target Euro Income 2025 Fund (the "Fund") which is part of Franklin Templeton Opportunities Funds, an open-ended investment company with variable capital (SICAV), qualifying as a UCITS.

Term

July 24, 2025 ("Maturity"). Before the Fund's Maturity, a communication will be sent to all registered Shareholders of the Fund to set out the options available to them and the date at which the Fund will be liquidated. The effective liquidation of the Fund will not occur before at least 30 business days from the Maturity of the Fund. The Fund could be closed under the conditions laid down in the current prospectus of the Fund.

Objectives

Investment Objective

The Fund aims to offer regular income (of up to 2.5% per annum) while seeking preservation of shareholders' capital over an investment period of 5 years, by investing in Euro-denominated high yield debt securities. After the Asset Gathering Period ending on January 27, 2021, the Fund will be closed to further subscriptions until maturity (July 24, 2025). The value of your holding at maturity may be less than the value initially invested due to the Fund's distribution policy, costs, adverse market conditions or issuer defaults of portfolio securities. There is no guarantee that the Fund will achieve any of its objectives.

Investment Policy

The Fund is designed to be held to maturity and you should be prepared to remain invested until maturity.

During the Principal Investment Period:

The Fund pursues an actively managed investment strategy and invests mainly in:

- debt securities of any quality (including lower quality debt such as non-investment grade, low rated and/or unrated) issued by corporations of any size or industry sector and located in any country, including emerging markets (investments in high yield may represent 100% of the Fund's assets)

The Fund can invest to a lesser extent in:

- other types of securities, including debt securities issued by governments and government-related entities

- units of other mutual funds and exchange-traded funds, including Real Estate Investment Trusts (limited to 10% of assets)

While the Fund will not invest directly in distressed securities (i.e. securities of companies that are, or are about to be, involved in reorganisations, financial restructurings or bankruptcy, which include securities in default), it may hold distressed securities (limited to 10% of the Fund's net assets) as a result of a downgrading of any debt security held due for example to a prolonged general decline or other adverse market conditions. All investments are denominated in Euro. While the Fund has an investment period of 5 years, some or all of debt securities held may mature before or after the Fund's maturity.

At maturity: The Fund shall hold up to 100% of its net assets in deposits and cash equivalent investments (including money market instruments). Proceeds of liquidation will be automatically distributed among existing investors unless otherwise opted (available options will be proposed in a communication to be sent before maturity of the Fund).

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is not managed in reference to a benchmark.

Share Class Policy

The income received from the Fund's investments is accumulated with the result of increasing the value of the shares.

Processing of subscription and redemption orders

You may request the sale of your shares on any Dealing Day.

Intended retail investor

The Fund may appeal to investors looking to income yield by obtaining exposure to euro-denominated debt securities issued by corporations worldwide (which may include predominantly, or even exclusively high yield debt securities) and willing to hold their investment over a 5 year period. The Fund is suitable for investors who have a basic knowledge and/or experience of financial markets with the understanding that they may not get back the full amount invested in the Fund.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 2 out of 7, which is a low risk class. Due to the nature of the Fund's investments, the Fund's performance can fluctuate to a small degree over time.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the PRIIP not included in the summary risk indicator:

- Credit risk

For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Considerations" section of the current prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:

3 years

Example Investment:

10,000 EUR

If you exit after 1 year

If you exit after 3 years

What happens if Franklin Templeton International Services S.à r.l. is unable to pay out?

Franklin Templeton International Services S.à r.l. ("FTIS") is the management company of the Fund. The assets of the Fund are held separately by the Fund's appointed depository, i.e. J.P. Morgan SE, Luxembourg branch. The depository is liable to the Fund or its shareholders for losses caused by its negligent or intentional failure to fulfill its safekeeping or record-keeping obligations. (Cash could however be lost in case of default of the depository or its delegates).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	138 EUR	237 EUR
Annual cost impact (*)	1.4%	0.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.0% before costs and 4.3% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Please note that the figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 EUR
Exit costs	1.00% of your investment before it is paid out to you.	101 EUR
