What is this product?

Type

Shares of a sub-fund of Fidelity Active SStrategy SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

Term

This fund is open-ended.

Objectives

Objective: The fund aims to achieve capital growth over the long term.

Investment Policy: The fund invests at least 70% of its assets, in equities of, and related instruments providing exposure to, companies that are listed, headquartered or do most of their business in Europe. The fund may also invest up to 20% of its assets in money market instruments on an ancillary basis.

Investment Process: In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other measures, as well as company management, industry economic conditions, and other factors. The Investment Manager takes into account Sustainability Risks in its investment process. For more information, see "Sustainable Investing and ESG Integration".

Derivatives and Techniques: The fund may use derivatives for hedging, efficient portfolio management and investment purposes. The fund uses derivatives, including complex derivative instruments or strategies, to meet the investment objectives of the fund which may result in leverage. The fund may maintain long and short exposure to securities through derivatives. In addition to core derivatives (see "How the Funds Use Instruments and Techniques"), the fund intends to use TRS.

Benchmark: MSCI Europe Index. Used for: risk monitoring, performance comparison, and performance fee calculation. The

fund invests in securities of the benchmark, however, management of the fund is discretionary, therefore the fund may invest in securities not included in the benchmark, and its performance over any period may or may not deviate significantly from that of the benchmark

Base Currency: EUR.

Risk Management Method: Relative VaR (limited to 200% of the VaR of the benchmark). Expected leverage: 200% (may be higher or lower but not expected to exceed 250%).

Additional information: You may sell (redeem) some or all of your Shares on any Valuation Day.

As this is a non-distributing share class, dividends are re-invested. This key information document describes a sub-fund of Fidelity Active SStrategy. A separate pool of assets is invested and maintained for each sub-fund of Fidelity Active SStrategy. The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds. For more information, please consult the Prospectus and latest Reports and Accounts which can be obtained free of charge in Irish and other main languages from FIL Investment Management (Luxembourg) S.A. These documents and details of the Remuneration Policy are available via www.fidelity.lu. The Net Asset Value of the funds is available at the registered office of FIL Investment Management (Luxembourg) S.A., and at www.fidelity.lu.

Depository: Brown Brothers Harriman (Luxembourg) S.C.A.

Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds, who plan to hold their investment for a recommended holding period of at least 4 years, who seek capital growth over the recommended holding period and income; and who understand the risk of losing some or all the capital invested.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 4 years.
The actual risk can vary significantly if you cash in at the early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Additional risks: leverage, emerging markets.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If FIL Investment Management (Luxembourg) S.A. is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 4 years Example investment : EUR 10,000		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	3,090 EUR	3,070 EUR
	Average return each year	-69.1%	-25.5%
Unfavourable	What you might get back after costs	8,130 EUR	10,290 EUR
	Average return each year	-18.7%	0.7%
Moderate	What you might get back after costs	10,890 EUR	14,200 EUR
	Average return each year	8.9%	9.2%
Favourable	What you might get back after costs	14,430 EUR	18,280 EUR
	Average return each year	44.3%	16.3%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 12/2021 and 05/2024.

The moderate scenario occurred for an investment between 10/2018 and 10/2022.

The favourable scenario occurred for an investment between 08/2017 and 08/2021.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	251 EUR	868 EUR
Annual cost impact (*)	2.5%	1.9% each year

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.1% before costs and 9.2% after costs.

Composition of Costs
