GENERAL INFORMATION

Franklin Templeton ICAV (the “Fund” or the “ICAV”) is an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between Sub-Funds with registration number C167746. The ICAV was registered on 11 July 2017. The ICAV has been authorised by the Central Bank of Ireland (the “Central Bank”) as an Undertaking for Collective Investment in Transferable Securities (“UCITS”) pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended) (together the “UCITS Regulations”). All capitalised terms used but not defined herein shall have the meaning ascribed thereto in the ICAV’s Prospectus dated 1 December 2022 (the “Prospectus”).

The ICAV has been registered in accordance with the ICAV Act for the purpose of investing in transferable securities in accordance with the UCITS Regulations.

The ICAV has been structured as an umbrella fund consisting of different Sub-Funds (please see Sub-Funds and share classes below), each comprising of one class of shares. The Directors may from time to time, with the prior approval of the Central Bank, create different series of shares representing separate portfolios of assets, each such series comprising a Sub-Fund. Each Sub-Fund will bear its own liabilities and, under Irish law, none of the ICAV, the service providers appointed to the ICAV, the Directors, any receiver, examiner nor liquidator, nor any other person will have access to the assets of a Sub-Fund in satisfaction of a liability of any other Sub-Fund.

The ICAV has appointed Franklin Templeton International Services S.a.r.l. as Management Company (the “Management Company”).

The Management Company of the ICAV has appointed Franklin Advisory Services LLC and Franklin Templeton Investment Management Limited as Investment Manager for all Index Tracking Sub-Funds (as defined below).

The Management Company of the ICAV has appointed Franklin Templeton Investment Management Limited as Investment Manager in relation to Franklin Euro Green Bond UCITS ETF.

The Management Company of the ICAV has appointed Franklin Advisers Inc and Franklin Templeton Investment Management Limited as Investment Manager in relation to Franklin Euro Short Maturity UCITS ETF.

The Management Company of the ICAV has delegated investment management to Franklin Advisers Inc which in turn has delegated to Franklin Templeton Institutional LLC to act as Sub-Investment Manager in relation to Franklin USD Investment Grade Corporate Bond UCITS ETF.

The Management Company has also appointed State Street Fund Services (Ireland) Limited as Administrator to the Fund.

The portfolio of assets maintained for each series of shares and comprising a Sub-Fund will be invested in accordance with the investment objectives and policies applicable to such Sub-Fund as specified in the relevant Supplement. Shares may be divided into different classes to accommodate, amongst other things, different dividend policies, charges, fee arrangements (including different total expense ratios), currencies, or to provide for foreign exchange hedging in accordance with the policies and requirements of the Central Bank from time to time.

Generally, only an Authorised Participant may engage in creation or redemption transactions directly with the Sub-Fund in the primary market (to be distinguished from the secondary market that Shares may trade in). The ETF Shares are listed for secondary trading on each Listing Stock Exchange and individual ETF Shares may be purchased and sold by investors on Listing Stock Exchanges through a broker-dealer. The Sub-Fund issues or redeems Creation Units to Authorised Participants. Shares in the Sub-Funds may be created or redeemed on any Dealing Day at the Net Asset Value per Share as of the relevant Dealing Day, subject to an appropriate provision for duties and charges. The Sub-Fund will generally issue or redeem Creation Units in return for a basket of securities (and/or an amount of cash) that the Sub-Fund specifies each day. All other investors may purchase ETF Shares through the secondary market which includes the Authorised Participants, through a stock exchange listing or over the counter. An investor buying or selling ETF Shares in the secondary market will pay the secondary market price for ETF Shares (broker costs and spreads may also apply) which may deviate, to varying degrees, from the Net Asset Value per Share. Further information on purchases and sales on the primary and secondary market is included in the Prospectus.

GENERAL INFORMATION (continued)

Sub-Funds and Share Classes

There are sixteen Sub-Funds in operation as at 30 June 2023. Thirteen of these Sub-Funds seek to track an index (the “Index Tracking Sub-Funds”) and three of the Sub-Funds are actively managed by the Investment Manager to seek to achieve a specific investment objective (the “Actively Managed Sub-Funds”).

The following table details the Sub-Funds of the ICAV that are Index Tracking Sub-Funds.

Sub-Fund	Launch date	Functional Currency	Share Class	Strategy
Franklin FTSE Brazil UCITS ETF	04 Jun 2019	USD	USD Accumulating Shares	Replicating
Franklin FTSE China UCITS ETF	04 Jun 2019	USD	USD Accumulating Shares	Optimised
Franklin FTSE India UCITS ETF	25 Jun 2019	USD	USD Accumulating Shares	Replicating
Franklin FTSE Korea UCITS ETF	04 Jun 2019	USD	USD Accumulating Shares	Replicating
Franklin AC Asia ex Japan UCITS ETF	27 Sep 2018	USD	USD Accumulating Shares	Replicating
Franklin Emerging Markets UCITS ETF	17 Oct 2017	USD	USD Accumulating Shares	Replicating
Franklin European Dividend UCITS ETF	06 Sep 2017	EUR	EUR Distributing Shares	Replicating
Franklin European Equity UCITS ETF	12 Sep 2018	EUR	EUR Accumulating Shares	Replicating
Franklin Global Dividend UCITS ETF	06 Sep 2017	USD	USD Distributing Shares	Replicating
Franklin Global Equity SRI UCITS ETF	06 Sep 2017	USD	USD Accumulating Shares	Replicating
Franklin U.S. Equity UCITS ETF	06 Sep 2017	USD	USD Accumulating Shares	Replicating
Franklin S&P 500 Paris Aligned Climate UCITS ETF	29 Jul 2020	USD	USD Accumulating Shares	Replicating
Franklin STOXX Europe 600 Paris Aligned Climate UCITS ETF	29 Jul 2020	EUR	EUR Accumulating Shares	Replicating

The following table details the Sub-Funds of the ICAV that are Actively Managed Sub-Funds.

Sub-Fund	Launch date	Functional Currency	Share Class	Strategy
Franklin Euro Green Bond UCITS ETF	29 Apr 2019	EUR	EUR Accumulating Shares	Actively Managed
Franklin Euro Short Maturity UCITS ETF	19 Jun 2018	EUR	EUR Distributing Shares	Actively Managed
Franklin Euro Short Maturity UCITS ETF	24 Apr 2023	EUR	EUR Accumulating Shares**	Actively Managed
Franklin USD Investment Grade Corporate Bond UCITS ETF	19 Jun 2018	USD	USD Distributing Shares	Actively Managed

**Share Class was launched during the financial year.

All shares of the Sub-Funds, except for Franklin AC Asia ex Japan UCITS ETF, were launched at a price of EUR 25 or USD 25 respectively, in line with the functional currency of the Sub-Fund. Franklin AC Asia ex Japan UCITS ETF was launched at a price of USD 20.

GENERAL INFORMATION (continued)

Stock Exchange Listings

The Sub-Funds of the ICAV are listed on the following exchanges as at 30 June 2023:

Sub-Fund	Base Currency	London Stock Exchange*	Deutsche Boerse	Borsa Italiana	SIX Swiss Exchange	Euronext Amsterdam Stock Exchange

* Admitted to trading.

** Sub-Fund launched EUR Accumulating Shares on 24 April 2023 and the Shares were listed on the Deutsche Boerse on 25 April 2023 and the Borsa Italiana on 27 April 2023. There are no other stock exchange listings at 30 June 2023 for the Accumulating Shares.

Each of the Index Tracking Sub-Funds is intended to track or replicate the benchmark indices listed hereunder.

Sub-Fund	Benchmark Index ("Index")
Franklin FTSE Brazil UCITS ETF	FTSE Brazil 30/18 Capped Index
Franklin FTSE China UCITS ETF	FTSE China 30/18 Capped Index
Franklin FTSE India UCITS ETF	FTSE India 30/18 Capped Index
Franklin FTSE Korea UCITS ETF	FTSE Korea 30/18 Capped Index
Franklin AC Asia ex Japan UCITS ETF	AC Asia ex Japan Index
Franklin Emerging Markets UCITS ETF	Emerging Markets Index
Franklin European Dividend UCITS ETF	European Dividend Index
Franklin European Equity UCITS ETF	Europe Equity Index
Franklin Global Dividend UCITS ETF	Global Dividend Index
Franklin Global Equity SRI UCITS ETF	Global Equity SRI Index
Franklin U.S. Equity UCITS ETF	U.S. Large Cap Equity Index
Franklin S&P 500 Paris Aligned Climate UCITS ETF	S&P 500 Net Zero 2050 Paris-Aligned ESG Index

GENERAL INFORMATION (continued)

Stock Exchange Listings (continued)

Sub-Fund	Benchmark Index ("Index")
Franklin STOXX Europe 600 Paris Aligned Climate UCITS ETF	STOXX Europe 600 Paris-Aligned Benchmark Index

Where full replication of the Index is not reasonably possible the Sub-Fund will use an optimisation methodology to build a representative portfolio that provides a return that is comparable to that of the Index.

The specific investment objectives, strategies and policies for each Sub-Fund are set out in each Investment Manager's report.

The investment policy of the **Index Tracking Sub-Funds** is to track the performance of the relevant Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index. In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index.

The **Actively Managed Sub-Funds' investments** will be managed actively by the Investment Manager or its delegates to seek to achieve its investment objective, for example, to seek to outperform an Index, rather than just to track it. Where a Sub-Fund is actively managed, the Investment Manager will have greater discretion in relation to the composition of the Sub-Fund's portfolio, subject to the investment objectives and policies stated in the Relevant Supplement. An Actively Managed Sub-Fund will not seek to track the performance of any Index.

Commissions:

Franklin Templeton International Services S.à r.l. ("FTIS") does not grant any commissions from the commissions to which it is entitled for the distribution of the investment fund (inventory management commissions) to distributors and asset managers. Likewise, institutional investors who hold Sub-Fund shares economically for third parties will not receive any refunds.

Total expense ratio / note Total expense ratio:

The Total Expense Ratio (TER), expressed as a percentage, reflects the total costs relative to the average net assets of the Sub-Fund during the reporting period. The total costs include the administration fee, the administration and paying agent fee, the custodian bank fee and other costs (see also Note 5 on page 76).

Financial reports:

The financial reports will be available on the following website: www.franklintempleton.ch

They will only be sent to shareholders in the countries where the local regulation requires it. The audited annual report is available free of charge on request from the registered office of the Fund and from Franklin Templeton Switzerland Ltd.

In addition to the issue and redemption prices, the prospectus, the key information for investors and the financial reports (annual and semi-annual reports), copies of the Fund's articles of association are also available free of charge from Franklin Templeton Switzerland Ltd.

List of changes in the investment portfolio:

Upon request, you will receive a free report at the registered office of the Fund and Franklin Templeton Switzerland Ltd., in which all purchase and sales transactions for each Sub-Fund are listed during the reporting year.

DIRECTORS' REPORT FOR THE YEAR ENDED 30 JUNE 2023

The Directors of the ICAV present herewith their report together with the audited financial statements for the year ended 30 June 2023. The financial statements of the ICAV have been prepared in accordance with Financial Reporting Standard 102 ("FRS 102"), Irish statute comprising the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") and the UCITS Regulations.

Review of Business

The ICAV was established on 11 July 2017. The launch dates of the individual Sub-Funds in the ICAV are disclosed on page 5.

The results for the financial year are set out on pages 44 to 46. A detailed review of the performance of the ICAV is included in the Investment Manager's Report on pages 12 to 31. The ICAV will continue to act as an investment vehicle as set out in the Prospectus.

The Investment Manager continues to monitor the effect of Russia/Ukraine crisis on the ICAV. Details on Russia/Ukraine crisis is included in the significant events during the financial year as disclosed in Note 15 to the financial statements.

The financial statements have been prepared on a going concern basis as nothing has come to the attention of the Directors that indicate that the Sub-Funds cannot continue in operational existence for a period of at least 12 months from the date of approval of these financial statements ("the period of assessment"). The financial statements for Franklin European Equity UCITS ETF have been prepared on a basis other than going concern as this Sub-Fund will cease trading on 16 November 2023.

Corporate Governance

Statement of Compliance on Corporate Governance

The ICAV has adopted and applied the provisions of the Irish Funds Industry Association Corporate Governance Code for Collective Investment Management Schemes and Management Companies ("the Code"), the text of which is available from the Irish Funds website: www.irishfunds.ie. The ICAV has been fully compliant with the Code for the year ended 30 June 2023.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the annual report and the financial statements of the Sub-Funds of the ICAV, in accordance with applicable law and regulations.

The ICAV Act requires the Directors to prepare financial statements for each financial period. Under that law they have elected to prepare the financial statements in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland.

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of the Sub-Funds of the ICAV at the end of the financial year and of the profit or loss of the Sub-Funds of the ICAV for the financial year. Under Irish law, the Directors shall not approve the Financial Statements unless they are satisfied that they give a true and fair view of the company's assets, liabilities and financial position as at the end of the financial year and profit or loss of the company for the financial year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Sub-Funds will continue in business.

DIRECTORS' REPORT FOR THE YEAR ENDED 30 JUNE 2023 (continued)

Statement of Directors' Responsibilities (continued)

The Directors are responsible for keeping adequate accounting records which are sufficient to:

- correctly record and explain the transactions of the Company;
- disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the Sub-Funds of the ICAV; and
- enable them to ensure that the financial statements comply with the ICAV Act and the UCITS Regulation and enable those Financial Statements to be audited.

To achieve this, the Directors have appointed Franklin Templeton International Services S.à r.l., (the "Management Company") who have delegated responsibility to the Administrator, State Street Fund Services (Ireland) Limited (the "Administrator"), to maintain the accounting records of the Sub-Funds and perform additional administrative duties. The accounting records are kept by State Street Fund Services (Ireland) Limited, at 78 Sir John Rogerson's Quay, Dublin, Ireland. The Directors have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Sub-Funds of the ICAV. In this regard they have entrusted the assets of the Sub-Funds to the Depository for safe-keeping. The Directors have general responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the ICAV Act.

The financial statements are published on the www.franklintempleton.com website. The Directors, together with the Manager are responsible for the maintenance and integrity of the financial information included in this website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other countries.

Distributions

Distributions declared for the year ended 30 June 2023 and 30 June 2022 are disclosed under Note 12 to the financial statements.

Financial instruments

Details of the ICAV's use of financial instruments including transferable securities and financial derivative instruments are disclosed in Notes 1, 6 and 11 to the financial statements. A full list of transferable securities and derivative financial instruments held by the Sub-Funds at the year end date can be found in the respective Sub-Fund's Schedule of Investments.

Risk Management Objectives and Policies

Details of the ICAV's risk management objectives, policies and the Sub-Funds' exposure to market risk, credit and counterparty risk and liquidity risk at the year end are included in Note 6 to the financial statements.

Further details of the ICAV's risks, including non-financial risks, are detailed in the Prospectus.

Details of the impact of the Russia/Ukraine crisis are noted in the Business Review section of this Directors Report on page 8.

Key Performance Indicators

The Directors consider that the change in net asset value ("NAV") per share is a key indicator of the performance of the ICAV. Key performance indicators monitored by the Directors for each Sub-Fund include the month to month movement in the NAV per share, the tracking of each Sub-Fund's performance to the performance of the relevant Index and the share capital movements.

Transactions with Connected Persons

Regulation 41(1) of the Central Bank UCITS Regulations states that "a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the shareholders of the UCITS".

DIRECTORS' REPORT FOR THE YEAR ENDED 30 JUNE 2023 (continued)

Transactions with Connected Persons (continued)

As required under Regulation 81 (4) of the Central Bank UCITS Regulations, the Directors are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 41(1) are applied to all transactions with connected persons; and all transactions with connected persons that were entered into during the year to which the report relates complied with the obligations that are prescribed by Regulation 41(1).

The Directors are satisfied that (i) there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed 43(1) of the Central Bank UCITS Regulations are applied to all transactions with a connected party (as defined in Regulation 42 of the Central Bank UCITS Regulations) and (ii) all transactions with connected parties entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1) of the Central Bank UCITS Regulation.

Related Party Transactions

All transactions involving related parties during the year are disclosed in Note 10 to the financial statements.

Segregated Liability

The ICAV is an umbrella fund with segregated liability between the Sub-Funds and as such, as a matter of Irish law, the assets of a Sub-Fund will not be exposed to the liabilities of the ICAV's other Sub-Funds.

Segregated liability ensures that the liabilities incurred on behalf of a Sub-Fund will be discharged solely out of the assets of that Sub-Fund and there can generally be no recourse to the other Sub-Funds to satisfy those liabilities.

Each Sub-Fund will be responsible for paying its fees and expenses regardless of the level of profitability. Notwithstanding the foregoing there can be no guarantee or assurance that, should an action be brought against the ICAV in a court of another jurisdiction, that the segregated nature of the Sub-Funds would necessarily be upheld.

Employees

The ICAV had no employees during the year ended 30 June 2023 and the year ended 30 June 2022.

Diversity

Appointments to the Board are made on merit with due regards to the requirements of the Central Bank of Ireland and the Irish Funds Industry Association Code in relation to, inter alia, the composition, independence, expertise, experience, fitness and probity of the Board. In respect of future appointments, it will also be the strategy of the Board to take into consideration the benefits of diversity (including age, gender, education and professional backgrounds) during the selection and appointment process. However, the Board remains committed to appointing candidates with the most suitable range of skills and experience, taking into consideration but without prioritizing diversity. As such, no formal diversity objectives or targets have been set against which to report.

Significant Events During the Year

See Note 15 to the financial statements for details of significant events affecting the ICAV during the year.

Significant Events Since the Year End

See Note 16 to the financial statements for details of significant events affecting the ICAV since the year end.

Directors

The name and nationality of persons who were Directors at any time during the year ended 30 June 2023 are set out below:

DIRECTORS' REPORT FOR THE YEAR ENDED 30 JUNE 2023 (continued)

Directors (continued)

Joseph Carrier (American) (appointed 23 February 2023)
Fionnuala Doris (Irish) (appointed 23 February 2023)*

* Independent Directors.

Secretary

Matsack Trust held the office of Secretary throughout the financial year.

Directors and ICAV's Secretary's Interest in Shares and Contracts

During the year or at the year end, neither the Directors nor Company Secretary had any material interest, beneficial or non-beneficial, in the share capital of the ICAV or any agreement or arrangement with the ICAV.

Directors' Fees

Directors' fees earned during the financial year and payable at the year end are disclosed in Note 5 to the financial statements.

Political Donations

The ICAV did not make any political donations during the current financial year or during the prior financial year.

Relevant audit information

The Directors believe that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the Company's statutory auditors are aware of that information. In so far as they are aware, there is no relevant audit information of which the Company's statutory auditors are unaware.

Independent Auditors

PricewaterhouseCoopers, Chartered Accountants, were appointed as independent auditors of the ICAV on 13 June 2017 and have indicated their willingness to continue in office in accordance with Section 125 of the ICAV Act 2015.

On behalf of the Board of Directors

Joseph Keane
Director

INVESTMENT MANAGER'S REPORT

Economic and Market Overview for Investment Manager's Report

Twelve-Month Reporting Period ended 30 June 2023

Global equities overall rose significantly during the 12-month reporting period ended 30 June 2023. After reaching a 2022 low in mid-October, global stocks rallied as many investors hoped the US Federal Reserve (Fed) would soon slow the pace of its policy tightening, but this optimism faded and equities worldwide collectively ended 2022 with their worst annual loss since the 2008 global financial crisis (GFC). Global stocks started 2023 with a strong rally in January, but financial markets experienced heightened volatility in March due to banking turmoil in the United States and Switzerland. However, fairly quick action by authorities in both countries to stem potential contagion calmed investors. During 2023's second quarter, global equities benefitted from easing concerns about the banking industry, passage of legislation that suspended the US debt ceiling, first-quarter corporate earnings reports that generally exceeded consensus estimates, and several central banks' slower pace or pausing of interest-rate hikes. As measured by MSCI indices in US-dollar (USD) terms, developed market equities outperformed a global index for the 12-month period, while emerging and frontier market equities significantly underperformed it, with the latter posting a loss.

In credit markets, patterns in sovereign bond yields over the 12-month period largely reflected developments in central bank policies, so that bond yields in developed markets generally rose over this timeframe but those in many emerging markets declined. The yield on the 10-year US Treasury note rose 82 basis points (bps) over the year to end June 2023 at 3.84%, while the yield on the 10-year German Bund rose 106 bps to 2.39%. Bond yields rose sharply in the United Kingdom (up 216 bps to 4.38%), with this period encompassing some political and fiscal turmoil late in 2022, as well as stubbornly high inflation. Bond yields generally rose 60 bps–100 bps elsewhere in the eurozone, other developed Europe and New Zealand, with smaller increases seen in Australia and Canada. Ten-year Japanese government bond yields rose by 17 bps over the period to 0.39%, following the Bank of Japan's (BoJ's) target range being extended to 50 bps from 25 bps during the period. Amongst emerging markets, bond yields generally declined across central Europe, Latin America and Asia ex Japan.

US equities outperformed stocks in most developed and emerging market countries (all in USD terms) during the 12-month period. Better-than-expected corporate earnings reports, the suspension of the debt ceiling, subsiding concerns about US regional banks, resilient economic growth, enthusiasm for artificial intelligence, and hopes for an end to the Fed's campaign of interest-rate hikes bolstered US stocks. Gross domestic product (GDP) expanded in the first three months of 2023 for the third consecutive quarter. The year-over-year change in the core personal consumption expenditures price index—which excludes volatile food and energy prices and is the Fed's preferred inflation gauge—moderated somewhat by May 2023 but remained well above the central bank's 2.0% long-run inflation target. After raising the federal funds target rate seven times during the period for a total of 350 bps to the highest level since 2007, the Fed left it unchanged in June, noting it “would be prepared to adjust the stance of monetary policy as appropriate if risks emerge.”

Stocks in Europe outperformed those in most major regions (all in USD terms) for the 12-month period as the euro strengthened after its significant decline against the USD in 2022's third quarter, the banking industry stabilised following the turmoil in early 2023, and energy prices declined. With the eurozone entering a recession in the first quarter and inflation cooling, many investors hoped for a slower pace of rate hikes or a pause from the European Central Bank (ECB). In its effort to tame inflation, the ECB increased its key rate eight times during the 12-month period by a total of 400 bps, lifting it to the highest level since the GFC. The United Kingdom's GDP contracted quarter-over-quarter in 2022's third quarter and grew modestly in the two subsequent quarters. The Bank of England raised its key rate eight times during the 12 months under review by a total of 375 bps to the highest level since the GFC.

Japanese equities lagged US stocks during the 12-month period but outperformed stocks in most other developed and emerging market countries, all in USD terms. Stocks in the country were pressured by economic weakness in 2022's third quarter but benefitted from resilient growth in subsequent quarters, the BoJ's generally accommodative policy and a weak yen. Japan's GDP contracted quarter-over-quarter in the three months to September-end but expanded in the subsequent two quarters. At its December 2022 meeting, the BoJ left its benchmark interest rate unchanged but widened the band around its target for the 10-year government bond yield, allowing long-term rates to rise, and then left both unchanged at its four subsequent meetings.

Emerging market equities overall rose modestly, significantly underperforming developed market stocks but faring better than frontier market stocks, all in USD terms. Investor concerns about a global recession, uncertainty about China's economic recovery following the end of the country's zero-COVID policy in December 2022, and geopolitical tensions between China and the West pressured Chinese and other emerging market stocks. In an effort to boost economic growth, the People's Bank of China cut the one-year loan prime rate (used for corporate and household loans) and the five-year loan prime rate (used as

INVESTMENT MANAGER'S REPORT (continued)

a mortgage reference) twice during the period. Other emerging market central banks, such as the Reserve Bank of India, the Bank of Korea and the Bank of Mexico, raised their benchmark interest rates during most of the 12-month period but paused in the latter part of it.

Performance Review

The below table details the performance details of the Index Tracking Sub-Funds.

Sub-Fund	Base currency of Sub-Fund	Sub-Fund return based on Net Asset Value for the year ended	
		30 June 2023 - 1 Year Return	Benchmark return for the year 30 June 2023 - 1 Year Return
Franklin FTSE Brazil UCITS ETF*	USD	29.24%	29.42%
Franklin FTSE China UCITS ETF*	USD	-17.24%	-17.18%
Franklin FTSE India UCITS ETF*	USD	13.19%	15.28%

* Sub-Fund launched EUR Accumulating Shares on 24 April 2023.

Past performance is no guarantee of future results. Currency fluctuations can affect the value of the investments. The performance data also disregard the commissions and costs charged for the issue and redemption of shares.

Tracking Error

The Sub-Funds of the Franklin Templeton ICAV that are passively managed intend to track as closely as possible the performance of their respective systematic rules-based proprietary index as described in the prospectus. The tool commonly used to measure achievement of this objective is the realised tracking error.

Realised tracking error is the standard deviation of the delivered excess returns over an annual period. It is a measurement of the consistency of the returns relative to the benchmark index over a defined period.

Realised tracking error can be affected by several factors, including but not limited to, the Total Expense Ratio (TER) of the Sub-Fund, the timing of trades when index is rebalanced, efficient portfolio management techniques employed in attempting to replicate benchmark returns, and the tax rate applied to dividends or interests received by the Sub-Fund as opposed to the tax rate assumed in the total return calculation of the benchmark.

INVESTMENT MANAGER'S REPORT (continued)

The table below compares the anticipated tracking error of the Sub-Funds (as disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Sub-Funds as of 30 June 2023:

Sub-Fund	Anticipated tracking error	Annualised realised tracking error
Franklin FTSE Brazil UCITS ETF	2.00%	1.49%
Franklin FTSE China UCITS ETF	0.80%	0.13%
Franklin FTSE India UCITS ETF	1.00%	1.85%
Franklin FTSE Korea UCITS ETF	0.50%	0.09%
Franklin AC Asia ex Japan UCITS ETF	0.80%	0.50%
Franklin Emerging Markets UCITS ETF	0.80%	0.39%
Franklin European Dividend UCITS ETF	0.80%	0.21%
Franklin European Equity UCITS ETF	0.50%	0.40%
Franklin Global Dividend UCITS ETF	0.50%	0.09%
Franklin Global Equity SRI UCITS ETF	0.50%	0.10%
Franklin U.S. Equity UCITS ETF	0.50%	0.27%
Franklin S&P 500 Paris Aligned Climate UCITS ETF	0.50%	0.15%
Franklin STOXX Europe 600 Paris Aligned Climate UCITS ETF	0.20%	0.05%

Over the period under review the Sub-Funds and their respective benchmarks achieved the performances disclosed in the Investment Manager's report. The over / (under) performance of a Sub-Fund to its respective benchmark is principally attributable to the differences in timing of trades when index is rebalanced; to the Total Expense Ratio (TER) borne by the Sub-Fund, and the tax rate applied to dividends or interests received by the Sub-Fund as opposed to the tax rate assumed in the total return calculation of the benchmark. The wider tracking error and under performance to the index of the Franklin FTSE India UCITS ETF are explained by the impact of taxation of capital gains in this market.

INVESTMENT MANAGER'S REPORT - INDEX TRACKING SUB-FUNDS

Franklin FTSE Brazil UCITS ETF

For the fiscal year ended June 30, 2023, the sectors that contributed most to the Sub-Fund's absolute performance were energy, consumer staples and industrials. Individual holdings that lifted the Sub-Fund's absolute return included Petrobras, Atacadao and Itau Unibanco.

For the same period, the sectors that detracted most from the Sub-Fund's absolute performance were consumer discretionary, health care and communication services. Individual holdings that hindered the Sub-Fund's absolute return included B3, Lojas Renner and Vibra Energia.

Summary of Investment Objective/Policy

The Sub-Fund invests in large and mid-capitalisation stocks in Brazil. The Sub-Fund seeks to track the performance of the FTSE Brazil 30/18 Capped Index (the "Underlying Index") as closely as possible, regardless of whether the Underlying Index level rises or falls. The Sub-Fund will select the securities that constitute the Underlying Index in order to build a representative portfolio that provides a return that is comparable to that of the Underlying Index but which may not track the Underlying Index with the same degree of accuracy as an investment vehicle replicating the entire Underlying Index. No holdings shall comprise more than 30% of the Underlying index which are selected from the FTSE Emerging Index (Investment Universe) to ensure diversification and minimise security level concentrations, and that the next largest company has a maximum weighting of no more than 18%.

INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS

Franklin Euro Green Bond UCITS ETF

For the fiscal year ended June 30, 2023, the Sub-Fund's duration and yield-curve positioning in eurozone bonds contributed to relative performance. The Sub-Fund's sector allocation further enhanced relative returns, particularly overweight exposures to eurozone corporate industrial bonds (both investment-grade and high-yield).

In contrast, the Sub-Fund's exposure to interest rate derivatives subtracted relative value. The Sub-Fund's security selection, most of all in eurozone government bonds, also weighed on relative performance. The Sub-Fund's local market allocation further weighed on relative results, notably exposure to the UK market.

Summary of Investment Objective/Policy

The Sub-Fund aims to provide exposure to the European green bond market whilst maximising total returns.

The Sub-Fund invests mainly in:

- bonds that are labelled green and denominated in European currencies

The Sub-Fund can invest to a lesser extent in:

- bonds that are climate aligned
- derivatives for hedging, efficient portfolio management and/or investment purposes

The Sub-Fund pursues an actively managed investment strategy. Therefore, the Sub-Fund will hold a portfolio of actively selected and managed investments rather than seek to track the performance of a benchmark. Any benchmark referred to is as a point of reference against which the performance of the Sub-Fund may be measured. The securities in which the Fund invests will be primarily listed or traded on recognised markets globally in accordance with the limits set out in the UCITS Regulations.

INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS (continued)

Franklin Euro Short Maturity UCITS ETF

For the fiscal year ended June 30, 2023, the Sub-Fund's duration and yield-curve positioning in eurozone bonds added to relative results. The Sub-Fund's sector allocation further contributed to relative returns, particularly overweight exposures to eurozone corporate financial bonds (both high-yield and investment-grade). The Sub-Fund's currency positioning also added relative value, notably exposure to the euro.

In contrast, the Sub-Fund's exposure to interest rate derivatives subtracted relative value. The Sub-Fund's security selection, most of all in eurozone corporate investment-grade financial issues, also weighed on relative performance.

Summary of Investment Objective/Policy

The Sub-Fund aims to provide current income whilst maximising total returns in the Euro-denominated short term fixed income market.

The Sub-Fund invests mainly in:

- short-term fixed and floating rate investment grade debt securities denominated in Euro issued by sovereign and corporate issuers including non-European issuers

The Sub-Fund can invest to a lesser extent in:

- lower quality debt securities such as non-investment grade securities or securities in default (limited to 20% of the Fund's assets)
- derivatives for hedging, efficient portfolio management and/or investment purposes

The Sub-Fund pursues an actively managed investment strategy. Therefore, the Sub-Fund will hold a portfolio of actively selected and managed investments rather than seek to track the performance of a benchmark. Any benchmark referred to is as a point of reference against which the performance of the Sub-Fund may be measured. The securities in which the fund invests will be primarily listed or traded on recognised markets globally in accordance with the limits set out in the UCITS Regulations.

INVESTMENT MANAGER'S REPORT - ACTIVELY MANAGED SUB-FUNDS (continued)

Franklin USD Investment Grade Corporate Bond UCITS ETF

For the fiscal year ended 30 June 2023, security selection detracted from relative returns, primarily due to holdings in the banking sector that experienced significant volatility during the year, including Silicon Valley Bank and Credit Suisse. In contrast, our selection in the insurance, consumer cyclical and communications sectors lifted performance. Our industry allocation also curbed performance, particularly an overweight to USTs, which underperformed as spreads rallied. This was partially offset by overweight exposure to the insurance and communication sectors as well as an underweight to consumer cyclical. The Fund's yield curve and duration positioning positively impacted performance during the year.

Summary of Investment Objective/Policy

The Sub-Fund aims to provide current income from the USD fixed income market while seeking to preserve capital.

The Sub-Fund invests mainly in:

- U.S. dollar denominated fixed and floating rate investment grade corporate debt securities and investments issued by U.S. companies

The Sub-Fund can invest to a lesser extent in:

- non-U.S. securities including those issued by issuers in emerging markets
- derivatives for hedging, efficient portfolio management and/or investment purposes

The Sub-Fund pursues an actively managed investment strategy. Therefore, the Sub-Fund will hold a portfolio of actively selected and managed investments rather than seek to track the performance of a benchmark. Any benchmark referred to is as a point of reference against which the performance of the Sub-Fund may be measured. The securities in which the fund invests will be primarily listed or traded on recognised markets globally in accordance with the limits set out in the UCITS Regulations.

INVESTMENT MANAGER'S REPORT - INDEX TRACKING SUB-FUNDS (continued)

Franklin AC Asia ex Japan UCITS ETF

For the fiscal year ended June 30, 2023, the sectors that contributed most to the Sub-Fund's absolute performance were information technology, energy and financials. Individual holdings that lifted the Sub-Fund's absolute return included Posco, ITC and PetroChina.

For the same period, the sectors that detracted most from the Sub-Fund's absolute performance were industrials, utilities and consumer staples. Individual holdings that hindered the Sub-Fund's absolute return included Kweichow Moutai, Adani Total Gas and Anhui Conch Cement.

Summary of Investment Objective/Policy

The Sub-Fund invests in large and mid-capitalisation stocks in Asia, excluding Japan. The Sub-Fund seeks to track the performance of the AC Asia ex Japan Equity Index (the "Underlying Index") as closely as possible, regardless of whether the Underlying Index level rises or falls. The Sub-Fund will select the securities that constitute the Underlying Index in order to build a representative portfolio that provides a return that is comparable to that of the Underlying Index but which may not track the Underlying Index with the same degree of accuracy as an investment vehicle replicating the entire Underlying Index. The holdings of the Underlying Index typically comprise of about 150 stocks of large and mid-sized companies in developing and emerging markets in Asia selected from the MSCI AC Asia ex Japan Index (the "Investment Universe"), using a multi-factor selection process that applies four investment style factors (quality, value, momentum and low volatility).

REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS

We have enquired into the conduct of Franklin Templeton ICAV (the “ICAV”) for the year ended 30 June 2023, in our capacity as Depositary to the ICAV. This report including the opinion has been prepared for and solely for the shareholders in the Sub-Funds of the ICAV. This report has been prepared in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended (the “UCITS Regulations”), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the ICAV in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the ICAV has been managed in that period in accordance with the provisions of the ICAV’s Instrument of Incorporation and the UCITS Regulations. It is the overall responsibility of the ICAV to comply with these provisions. If the ICAV has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the ICAV has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the constitutional documentation and the appropriate regulations; and
- (ii) otherwise in accordance with the ICAV’s constitutional documentation (the “Instrument of Incorporation”) and the appropriate regulations.

Opinion

In our opinion, the ICAV has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the Instrument of Incorporation, the UCITS Regulations and the Central Bank’s UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the Instrument of Incorporation, the UCITS Regulations and the Central Bank UCITS Regulations.

State Street Custodial Services (Ireland) Limited
78 Sir John Rogerson’s Quay
Dublin 2
Ireland

Date: 17 October 2023

Independent auditors' report to the shareholders of the Sub-Funds of Franklin Templeton ICAV

Report on the audit of the financial statements

Opinion

In our opinion, Franklin Templeton ICAV's financial statements:

- give a true and fair view of the Sub-Funds' assets, liabilities and financial position as at 30 June 2023 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report, which comprise:

- the Statement of Financial Position as at 30 June 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Schedule of Investments for each of the Sub-Funds as at 30 June 2023; and
- the notes to the financial statements for each of the Sub-Funds, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Board of Directors.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by IAASA's Ethical Standard were not provided to the ICAV.

We have provided no non-audit services to the ICAV in the period from 1 July 2022 to 30 June 2023.

Emphasis of matter - financial statements prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to note 1(a) to the financial statements which describes the reasons why the financial statements of Franklin European Equity UCITS ETF have been prepared on a basis other than going concern.

Our audit approach

Overview

Materiality

- Overall materiality: 50 basis points (2022: 50 basis points) of Net Assets Value ("NAV") at 30 June 2023 (2022: 30 June 2022) for each of the ICAV's Sub-Funds.
- Performance materiality: 75% of overall materiality.

Audit scope

- The ICAV is an open-ended investment ICAV with variable capital and engages Franklin Templeton International Services S.á r.l (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the ICAV. We tailored the scope of our audit taking into account the types of investments within the Sub-Funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the ICAV operates. We look at each of the Sub-Funds at an individual level.

Key audit matters

- Valuation of financial assets at fair value through profit or loss.
 - Existence of financial assets at fair value through profit or loss
-

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
<i>Valuation of financial assets at fair value through profit or loss.</i> See accounting policy 1(c) of the financial statements for further details. The financial assets at fair value through profit or loss included in the Statement of Financial Position for each of the Sub-Funds as at 30 June 2023 are measured at fair value in accordance with Financial Reporting Standard 102. This is considered a key audit matter as it represents the principal element of the financial statements	We tested each Sub-Fund's investment portfolio by independently verifying the valuation of the investments to third party vendor sources. No material matters were noted as a result of performing these procedures.
<i>Existence of financial assets at fair value through profit or loss.</i> See accounting policy 1(c) of the financial statements of the ICAV for further details. The	We obtained independent confirmation from the Depositary and counterparties of the investment portfolio of each Sub-Fund as at 30 June 2023 and reconciled the Depositary and counterparty confirmations to the accounting records. No

Key audit matter	How our audit addressed the key audit matter
financial assets at fair value through profit or loss included in the Statement of Financial Position for each of the Sub-Funds are held in the Sub-Fund's name as at 30 June 2023. This is considered a key audit matter as it represents the principal element of the financial statements	material matters were noted as a result of performing these procedures.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the ICAV, the accounting processes and controls, and the industry in which it operates.

The directors control the affairs of the ICAV and are responsible for the overall investment policy which is determined by them. The ICAV engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the ICAV. The Manager has delegated certain responsibilities to Franklin Advisers, Inc, Franklin Templeton Institutional, LLC, Franklin Templeton Investment Management Limited and Franklin Advisory Services LLC (the 'Investment Managers') and to State Street Fund Services (Ireland) Limited (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The ICAV has appointed State Street Custodial Services (Ireland) Limited (the "Depository") to act as Depository of the ICAV's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a sub-fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the ICAV's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the ICAV's Sub-Funds as follows:

Overall materiality and how we determined it	50 basis points (2022: 50 basis points) of Net Assets Value ("NAV") at 30 June 2023 (2022: 30 June 2022) for each of the ICAV's Sub-Funds.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the ICAV is to provide investors with a total return at a Sub-Fund level, taking account of the capital and income returns.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% of overall materiality.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 5 basis points of each Sub-Fund's NAV, for NAV per share impacting differences (2022: 5 basis points of each Sub-Fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

With the exception of Franklin European Equity UCITS ETF where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, our evaluation of the directors' assessment of the Sub-Funds' ability to continue to adopt the going concern basis of accounting included:

- We obtained an understanding of the key indicators that are monitored with respect to going concern assumption and management's future plans for the ICAV and Sub-Funds' over the going concern period (being 12 months from the date of approval of the financial statements);
- We reviewed available board minutes during the period under audit and those available up to the date of this report;
- We considered post year end capital activity by reviewing the underlying accounting records;
- We made enquiries of management with respect to any planned significant redemptions of which they have been informed; and
- We considered the liquidity risk management techniques which are available to the ICAV and Sub-Funds.

With the exception of Franklin European Equity UCITS ETF where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Sub-Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

With the exception of Franklin European Equity UCITS ETF where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, in auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Sub-Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Based on the responsibilities described above and our work undertaken in the course of the audit, the Irish Collective Asset-management Vehicles Act 2015 requires us to also report the opinion as described below:

Directors' Report

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 30 June 2023 is consistent with the financial statements.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibilities Statement set out on page [], the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Sub-Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of

accounting unless the directors either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the ICAV and industry, we identified that the principal risks of non-compliance with laws and regulations related to [], and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Irish Collective Asset-management Vehicles Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended). We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to [].

Audit procedures performed by the engagement team included:

.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the shareholders of each of the Sub-Funds as a body in accordance with section 120 of the Irish Collective Asset-management Vehicles Act 2015 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Irish Collective Asset-management Vehicles Act 2015 exception reporting

Directors' remuneration

Under the Irish Collective Asset-management Vehicles Act 2015 we are required to report to you if, in our opinion, the disclosures of directors' remuneration specified by section 117 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Appointment

We were appointed by the Board of directors on 22 June 2018 to audit the financial statements for the year ended 30 June 2018 and subsequent financial periods. The period of total uninterrupted engagement is 6 years, covering the years ended 30 June 2018 to 30 June 2023.

Andrew O'Callaghan

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023

1. Significant Accounting Policies

The policies have been consistently applied to all financial years presented, unless otherwise stated. The principal accounting policies and estimation techniques applied in the preparation of these financial statements are set out below. Please refer to the general information section of the financial statements for details of how the ICAV is structured.

These audited financial statements for the ICAV are prepared for the year ended 30 June 2023.

a) Basis of Preparation

The ICAV's financial statements have been prepared in accordance with Financial Reporting Standard 102 ("FRS 102"), Irish statute comprising the Irish Collective Asset-management Vehicles Act 2015 (as amended) (the "ICAV Act") and the UCITS Regulations.

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

In preparation of financial statements in conformity with FRS 102, the ICAV is required to make certain accounting estimates and assumptions. Actual results may differ from these estimates and assumptions. The Directors believe that any estimates used in preparing the financial statements are reasonable and prudent. Critical accounting estimates are those which involve the most complex or subjective judgments or assessments. The areas of the ICAV's business that typically require such estimates are the determination of the fair value of financial assets and liabilities.

Certain reclassifications have been made to previously reported amounts to conform to current period presentation, which had no impact on reported net assets.

The financial statements for all Sub-Funds other than the Franklin European Equity UCITS ETF have been prepared on a going concern basis as the Directors are of the view that the ICAV can continue in operational existence for twelve months from the date of approval of these financial statements ("the period of assessment"). The financial statements for Franklin European Equity UCITS ETF have been prepared on a basis other than going concern as this Sub-Fund will cease trading on 16 November 2023.

The ICAV is availing of the exemption available to open-ended investment funds under FRS 102 and is not presenting a cash flow statement.

Fair value of financial instruments

FRS 102, the accounting standard applicable in the United Kingdom and Ireland, requires that a reporting entity, in accounting for its financial instruments apply either a) the full provisions of Section 11 "Basic Financial Instruments" and Section 12 "Other Financial Instruments" of FRS 102, b) the recognition and measurement provisions of IAS 39 "Financial Instruments: Recognition and Measurement" and only the disclosure requirements of Sections 11 and 12 of FRS 102; or c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9, "Financial Instruments" and/or IAS 39 (as amended following the publication of IFRS 9) and only the disclosure requirements of Sections 11 and 12 of FRS 102. The ICAV has chosen to implement the recognition and measurement provisions of IAS 39 and only the disclosure requirements of Sections 11 and 12.

b) Functional and Presentation Currency

Items included in each Sub-Fund's financial statements are measured using the currency of the primary economic environment in which the relevant Sub-Fund operates (the "functional currency"). The functional or base currency of each Sub-Fund is detailed in the General Information section. The ICAV also has adopted these functional currencies as the presentation currency of each of the Sub-Funds.

Transactions in foreign currencies are translated into the functional currency at the exchange rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated into the functional currency of the Sub-Fund at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency of the Sub-Fund at the exchange rate at the date on which fair value was determined.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

1. Significant Accounting Policies (continued)

b) Functional and Presentation Currency (continued)

Any foreign currency differences arising on retranslation are recognised in the Statement of Comprehensive Income in net gain/(loss) on investment activities, including those arising on financial instruments at fair value through profit or loss (“FVTPL”), which are recognised as a component of net gain/(loss) on investment activities at fair value through profit or loss.

c) Financial Assets and Financial Liabilities at Fair Value Through Profit or Loss

Classification

Financial assets and liabilities at FVTPL have two sub-categories: financial assets and financial liabilities held for trading and those designated by management at FVTPL at inception.

All instruments on the Sub-Funds’ Schedule of Investments are classified at FVTPL. Gains and losses from changes in the fair value of the financial assets and financial liabilities at FVTPL category are included in the Statement of Comprehensive Income in Net gain/(loss) on financial assets/liabilities at fair value through profit or loss.

Recognition and Derecognition

Recognition and initial measurement

Purchases and sales of investments are recognised as of the day the transaction takes place (trade date), the date on which the Sub-Fund commits to purchase or sell the asset. Other financial assets and liabilities are recognised on the date in which they originated. Investments are initially recognised at fair value, and transaction costs for all financial assets and financial liabilities carried at FVTPL are expensed as incurred. Financial assets and financial liabilities not at FVTPL are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue.

De-recognition

Investments are de-recognised when the rights to receive cash flows from the investments have expired or the relevant Sub-Fund has transferred substantially all risks and rewards of ownership. On de-recognition of a financial asset, the difference between the carrying amount of the asset and consideration received is recognised in the Statement of Comprehensive Income using the average cost methodology. Financial liabilities are derecognised when the contractual obligations are discharged, cancelled or expired.

Expected Credit Losses

As at 30 June 2023 and 30 June 2022 all other receivables/cash are held with well capitalised counterparties and are due to be settled within one year. Management considered the probability of default to be close to zero. As a result, no loss allowance has been recognised based on 12 month expected credit losses as any such impairment would be wholly insignificant to the ICAV.

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the relevant Sub-Fund has access at that date.

i) Transferable Securities

When available, the Sub-Funds measure the fair value of an investment using the quoted price in an active market for that instrument. A market is regarded as ‘active’ if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. Sub-Funds measure instruments quoted in an active market at a last traded in the case of equity instruments and mid-market prices in the case of corporate and government bonds, because this price provides a reasonable approximation of exit price.

If there is no quoted price in an active market, then the Sub-Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction. The Sub-Fund recognises transfers between levels of the fair value hierarchy as at the end of the reporting year during which the change has occurred.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

1. Significant Accounting Policies (continued)

c) Financial Assets and Financial Liabilities at Fair Value Through Profit or Loss (continued)

Fair Value Measurement (continued)

ii) Forward Currency Contracts

A Sub-Fund may enter into forward currency contracts to hedge against exchange rate risk or, in the case of actively managed Sub-Funds, take currency positions reflecting portfolio managers views. A forward currency contract allows the Sub-Funds to purchase or sell a specific currency on a future date at a price set at the time of the contract. Performance may be significantly influenced by movements in foreign exchange rates because currency positions held by a Sub-Fund may not correspond with the currency of the securities invested in.

The unrealised gain or loss on forward currency contracts is calculated as the difference between the contract price and the spot price as at the reporting period end. All changes in fair value are recognised within net gain/(loss) on financial assets/liabilities at fair value through profit or loss in the Statement of Comprehensive Income. Any realised gains and losses on maturity of forward currency contracts are calculated based on contract basis of the investment in local currency and are included in net gains/(losses) on investment activities at fair value through profit or loss in the Statement of Comprehensive Income.

iii) Futures contracts

Futures contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or an index at a specified future date for a specified price and may be settled in cash or another financial asset. Futures are standardised exchange-traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in the future contract values are settled daily.

Daily fluctuations in the value of a futures contract are recorded as unrealised gains or losses and as realised gains or losses when the position is closed. Realised gains and losses are recognised using the First In First Out ("FIFO") costing methodology. All changes in fair value are recognised within net gain/(loss) on financial assets/liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

d) Amortised Cost

Financial assets and financial liabilities other than those at FVTPL are held at amortised cost. The amortised cost of the financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the accumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

i) Cash and Cash Equivalents, Bank Overdraft and Margin Cash

Cash comprises current deposits with banks and bank overdrafts. Cash and cash equivalents are short-term highly liquid investments with a maturity date of 3 months or less that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes. Cash and cash equivalents are held with State Street Custodial Services (Ireland) Limited and are stated at fair value. As at 30 June 2023, margin cash balances are held with J.P. Morgan (30 June 2022: margin cash balances were held with J.P. Morgan) and are included in Note 7. Bank overdrafts are held with State Street Custodial Services (Ireland) Limited and valued at face value, together with accrued interest where applicable.

ii) Debtors and Creditors

Debtors are recognised at fair value plus transaction costs that are directly attributable to their acquisition origination. Creditors are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition origination. They are subsequently measured at amortised cost.

e) Right of Offset

Financial assets and financial liabilities are offset and the net amount presented in the Statement of Financial Position when, and only when, the ICAV or the Sub-Funds have a legal right to set off the amounts and intend either to settle on a net basis or to realise the asset and settle the liability simultaneously. Income and expenses are presented on a net basis for gains and losses from financial instruments at fair value through profit and loss and foreign exchange gains and losses. The ICAV's financial assets and financial liabilities are not subject to offsetting, enforceable master netting arrangements and similar agreements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

1. Significant Accounting Policies (continued)

f) Investment Income

The ICAV receives investment income from the assets and investments held. The measurement and presentation of the income type is outlined below:

i) Dividend income

Dividend income arising on the underlying equity investments of the ICAV is recognised as income of the relevant Sub-Fund on the ex-dividend date. Income is shown gross of any non-recoverable withholding taxes, which is disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

ii) Interest income/interest expense

Interest income/interest expense which includes any accretion of discount and amortisation of premiums is recognised as income/expense of the relevant Sub-Fund of the ICAV on an effective interest basis in line with the contractual terms, in the Statement of Comprehensive Income.

g) Expenses

All expenses are recognised in the Statement of Comprehensive Income on an accruals basis. Note 5 provides additional details of the fees and expenses of the Sub-Funds.

Expenses arising on the disposal of investments are deducted from the disposal proceeds.

h) Realised Gains and Losses

Realised gains and losses on sale of investments are calculated based on the average book cost of the investment in local currency and are included in Net gain/(loss) on financial assets/liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

i) Unrealised Gains & Losses

Unrealised gains and losses on investments are the difference between the original cost of the investment and its value at the reporting period end and are included in Net gain/(loss) on financial assets/liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

j) Taxation

Dividend and interest income received by the Sub-Funds may be subject to withholding tax imposed in the country of origin. Investment income is recorded gross of such taxes and the corresponding withholding tax is recognised as a tax expense. Withholding tax reclaims receivable are recorded as other receivables in the Statement of Financial Position.

Many of the foreign countries in which the Sub-Funds invest have tax laws that indicate that capital gains taxes may be applicable to non-residents, such as the ICAV. Each relevant Sub-Fund realises capital gains or losses whenever it sells securities. If there are capital gains, the Sub-Fund may be subject to a capital gains tax in that underlying market.

k) Redeemable Participating Shares

The ICAV issues redeemable participating shares in each Sub-Fund, which are redeemable at the holder's option and are classified as financial liabilities. Redeemable participating shares can be put back to the relevant Sub-Fund at any time for cash, securities or a combination of cash and securities equal to a proportionate share of the Sub-Fund's Net Asset Value in accordance with the Prospectus.

The Sub-Fund's Net Asset Value per share is calculated by dividing the net assets attributable to the redeemable participating shareholders by the total number of outstanding redeemable participating shares. Investment positions are valued in accordance with the valuation methodology laid out in the Prospectus for the purpose of determining the Net Asset Value per share for subscriptions and redemptions.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

1. Significant Accounting Policies (continued)

l) Transaction Costs

Transaction costs are defined as the incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or a financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or a financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on purchases and sales of securities and other investments are included in net gain/(loss) on financial assets/liabilities at fair value through profit or loss in the Statement of Comprehensive Income account. Separately identifiable Depository transaction costs are borne by the Manager through the TER of the Sub-Funds of the ICAV as detailed in Note 5.

m) Distribution Policy

The ICAV may issue either or both distributing share classes and accumulating share classes. The Directors may declare dividends in respect of shares in any distributing class out of net income (including dividend and interest income) and/or the excess of realised and unrealised capital gains over realised and unrealised losses in respect of investments of the Sub-Fund. In the case of Sub-Funds with accumulating share classes, the Directors have determined to accumulate all net income (including dividend and interest income) and/or the excess of realised and unrealised capital gains over realised and unrealised losses in respect of investments of the Sub-Fund attributable to such accumulating classes and therefore do not intend to declare dividends in respect of shares in such classes.

n) Significant Accounting Estimates and Judgements

Critical accounting estimates are those which involve the most complex or subjective judgments or assessments. The areas of the ICAV's business that typically require such estimates are the determination of the fair value of financial assets and financial liabilities as outlined in Note 1(a). Judgements applied in the preparation of these financial statements relate to the determination of going-concern as the basis of preparation as outlined in Note 1(a), the functional and presentation currency as outline in Note 1(b), accruals for capital gains tax as discussed in Note 1 (j) and Note 2 and expected credit losses as outlined in Note 1 (c).

Significant accounting estimates used in the preparation of these financial statements relate to the fair value of investments. Details of specific estimates used in these financial statements are included in Note 6 (f). Accounting estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Fair value measurement of derivatives and investments not quoted in active market

The Sub-Funds hold investments that are not quoted in active markets, including derivative financial instruments. Fair value of such instruments is determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. Where no market data is available, the ICAV may value positions using its own models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. The models used to determine fair values are validated and periodically reviewed by experienced personnel of the Investment Managers, independent of the party that created them.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require the Investment Managers to make estimates. Changes in assumptions about these factors could affect the reported fair values of investments. The Sub-Funds consider observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

1. Significant Accounting Policies (continued)

o) Income equalisation

Income equalisation arrangements apply to each Sub-Fund. The arrangements are intended to ensure that the income per share, which is distributed in respect of the distribution period, is not affected by changes in the number of shares in issue during the financial year. The arrangements have no effect on the NAV of any share class. The calculation of equalisation is based on total accumulated undistributed net income. Income equalisation is included in the proceeds from the issuance of redeemable participating shares and payments for the redemption of redeemable participating shares in the Statement of Changes in Net Assets Attributable to holders of redeemable participating shares.

2. Taxation

The ICAV is an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997, as amended (the "TCA"). On that basis, the ICAV is not liable to Irish tax in respect of its income and gains, provided the ICAV is resident for tax purposes in Ireland. The ICAV shall be regarded as resident for tax purposes in Ireland provided it is authorised by the Central Bank of Ireland and it is centrally managed and controlled in Ireland.

However, Irish tax can arise on the happening of a "chargeable event" in the ICAV. A chargeable event arises on any distributions, redemption, repurchase, cancellation, transfer of Shares or the ending of a "relevant period". A relevant period is an eight year period beginning with the acquisition of the Shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding relevant period. A chargeable event does not include:

- (i) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- (ii) An exchange of shares representing one Sub-Fund for another Sub-Fund of the ICAV; or
- (iii) An exchange of shares arising on a qualifying amalgamation or reconstruction of the ICAV with another fund; or
- (iv) Certain exchanges of shares between spouses and former spouses.

No Irish tax will arise in respect of chargeable events in respect of a Shareholder who is an Exempt Irish Investor (as defined in Section 739D TCA) or in respect of a Shareholder who is neither Irish resident nor ordinarily resident in Ireland at the time of the chargeable event provided that a relevant declaration is in place (in accordance with Schedule 2B of the TCA) and the ICAV is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct.

In the absence of an appropriate declaration, the ICAV will be liable for Irish tax on the occurrence of a chargeable event, and the ICAV reserves its right to withhold such taxes from the relevant shareholders. There were no chargeable events during the period under review.

The ICAV is required to recognise a tax liability when it is probable that the tax laws of foreign countries require a tax liability to be assessed on the Sub-Fund's capital gains sourced from such foreign country, assuming the relevant taxing authorities have full knowledge of all the facts and circumstances. The tax liability is then measured at the amount expected to be paid to the relevant taxation authorities, using the tax laws and rates that have been enacted or substantively enacted by the end of the reporting period. There is sometimes uncertainty about the way enacted tax law is applied to offshore investment funds. This creates uncertainty about whether or not a tax liability will ultimately be paid by the Fund. Therefore, when measuring any uncertain tax liabilities, management considers all of the relevant facts and circumstances available at the time that could influence the likelihood of payment, including any formal or informal practices of the relevant tax authorities.

Dividends, interest and capital gains (if any) received on investments made by the ICAV may be subject to withholding taxes imposed by foreign countries from which the investment income/gains are received and such taxes may not be recoverable by the ICAV and its shareholders. Withholding tax and reclaims incurred on dividends are recorded on ex-date. Dividends receivable are shown net of withholding taxes payable, if any, in the Statement of Financial Position.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

2. Taxation (continued)

The ICAV may be subject to taxes imposed on realised and unrealised gains on securities of certain foreign countries in which the ICAV invests. Income/gains are received and such taxes may not be recoverable by the ICAV and its shareholders. Many of these foreign countries have tax laws that indicate that capital gains taxes may be applicable to non residents, such as the ICAV. Typically, these capital gains taxes are required to be determined on a self assessment basis; therefore, such taxes may not be deducted by the ICAV's broker on a 'withholding' basis. The foreign tax expense, if any, is recorded on an accrual basis and is included in "Capital gains taxes" in the Statement of Comprehensive Income. Capital gains tax for the year ended 30 June 2023 and 30 June 2022 was accrued on gains on FTSE Brazil UCITS ETF, FTSE India UCITS ETF, Franklin AC Asia ex Japan UCITS ETF, Franklin Emerging Markets UCITS ETF, Franklin Global Dividend UCITS ETF, Franklin Global Equity SRI UCITS ETF. The amount of foreign tax owed, if any, is included in "Capital gains tax payable" in the Condensed Statement of Financial Position. Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the ICAV or its shareholders. The dividend withholding tax charge for the year ended 30 June 2023 and 30 June 2022 is presented in the Statement of Comprehensive Income. The capital gains tax payable on unrealised gains for the year ended 30 June 2023 and 30 June 2022 is presented in the Statement of Financial Position.

The ICAV considers interest and penalties on related tax liabilities to be an inseparable element of the tax liability and accounts for interest and penalties. These amounts would be included within the tax line in the Statement of Comprehensive Income, and the liability, if any, would be included within the income tax liability on the Statement of Financial Position.

In respect of the year ended 30 June 2023 and 30 June 2022, the ICAV has measured uncertain tax liabilities and related interest and penalties with respect to foreign capital gains taxes at nil. While this represents management's best estimate, the estimated value could differ significantly from the amount ultimately payable.

Reporting Fund Status

The ICAV has received confirmation from HM Revenue & Customs (HMRC) in the UK that it has been granted UK Reporting Fund Status with effect from the launch dates of all Sub-Funds for UK tax purposes.

3. Share Capital & Net Asset Value per Share

Authorised

The authorised share capital of the ICAV is 500,000,000,002 shares of no par value divided into 2 subscriber shares of no par value and 500,000,000,000 redeemable participating shares of no par value. The Directors have the power to issue all of the shares of the ICAV on such terms as they think fit.

Subscriber Shares

The ICAV issued the 2 subscriber shares of no par value at EUR 1 each for the purpose of the registration of the ICAV. The subscriber shares entitle the holders to attend and vote at general meetings of the ICAV but do not entitle the holders to participate in the profits or assets of the ICAV except for a return of capital on a winding-up. They do not form part of the Net Asset Value of the ICAV and are thus disclosed in the financial statements by way of this note only.

Redeemable Participating Shares

Each of the shares entitles the holder to attend and vote at any general meetings of the ICAV and to participate equally in the profits and assets of the Sub-Fund to which the shares relate, subject to any differences between fees, charges and expenses applicable to different classes. Each shareholder shall have one vote for each whole share held. The liability of the shareholders shall be limited to the amount, if any, unpaid on the shares respectively held by them, and the shareholders shall not be liable for the debts of the Sub-Fund. Minimum creation and redemption amounts are specified in the relevant Supplement for each Sub-Fund.

5. Operating Expenses

a) Total Expense Ratio (“TER”)

All of the fees and expenses payable in respect of a Sub-Fund are paid as one single fee. This is referred to as the Total Expense Ratio (“TER”). The following fees and expenses will be discharged out of the TER:

- the fees and expenses of the Manager, Auditor, Investment Manager (including the costs and expenses of any investment adviser appointed by the Investment Manager), legal advisers, Secretary, Directors fees (see page 85 for details of fees paid), Administrator and Depositary;
- the cost of registering any Sub-Fund for sale in any jurisdiction listing and maintaining a listing of Shares on any Listing Stock Exchange;
- the cost of convening and holding Directors’ and Shareholders’ meetings;
- professional fees and expenses for legal and other consulting services;
- the costs and expenses of preparing, printing, publishing and distributing prospectuses, supplements, annual and semi-annual reports and other documents to current and prospective investors;
- the costs and expenses arising from any licensing or other fees payable to any Index Provider or other licensor of intellectual property, trademarks or service marks used by the ICAV;
- the fees of any local paying, centralisation, registration or other similar agent (which must be at normal commercial rates);
- all establishment costs of the Fund and the Sub-Funds; and
- such other costs and expenses (excluding non-recurring and extraordinary costs and expenses) as may arise from time to time and which have been approved by the Directors as necessary or appropriate for the continued operation of the ICAV or of any Sub-Fund.

The TER does not include extraordinary costs and certain transaction costs (including but not limited to transaction charges, stamp duty or other taxes on the investments of the Fund, including duties and charges for portfolio re-balancing, withholding taxes, commissions and brokerage fees incurred with respect to the Fund’s investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in the Sub-Fund and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to a Sub-Fund or the Fund) as may arise from time to time, which will be paid separately out of the assets of the relevant Sub-Fund. Subject to applicable law and regulation, the Manager or Investment Manager may pay part or all of its fees to any person that invests in or provides services to the ICAV or in respect of any Sub-Fund.

The TER is calculated and accrued daily from the Net Asset Value of each Sub-Fund and payable monthly in arrears. The TER of each Sub-Fund of the ICAV is as listed in the relevant Supplement. If a Sub-Fund’s expenses exceed the TER in relation to operating the relevant Sub-Fund, the Manager will cover any shortfall from its own assets.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

5. Operating Expenses (continued)

a) Total Expense Ratio (“TER”) (continued)

The TER payable in respect of each Sub-Fund is listed below.

* Share Class was launched during the financial year, therefore there are no comparatives. Please refer to Note 15 for launch date of this Share Class.

Directors Fees

During the year ended 30 June 2023, the Directors earned fees amounting to EUR 88,293 (30 June 2022: EUR 75,000). These fees have been paid. The Franklin Templeton group provides employees to act as Directors of the ICAV (these Directors do not receive a fee). The remuneration of the Directors shall not exceed EUR 100,000 per annum per Director (or its equivalent) (or such other sum as the Directors may from time to time determine and disclose to the Shareholders).

Independent Auditor’s Remuneration

The remuneration for all work carried out by the statutory audit firm for the year ended 30 June 2023 and 30 June 2022 are as follows:

	30 June 2023 EUR	30 June 2022 EUR
Statutory audit	175,780	163,600
Total	175,780	163,600

The fees for the statutory audit of the financial statements disclosed in the table above are exclusive of VAT and inclusive of out of pocket expenses. The audit fees recognised in the Statement of Comprehensive Income are inclusive of VAT. There were no fees charged for other assurance services or other non-audit services in respect of the current financial year or the prior financial year.

Transaction Costs

Transaction costs are any fees and expenses incurred in buying and selling investments held by the Sub-Funds, e.g., brokerage costs and commissions and correspondence fees for transferring securities or investments or other interests, unless otherwise specified in the relevant Supplements to the Prospectus.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

5. Operating Expenses (continued)

Transaction Costs (continued)

Transaction costs on purchases and sales of equity investments and futures contracts during the financial year are included in net gain/(loss) on financial assets/liabilities at fair value through profit or loss in the Statement of Comprehensive Income. Transaction costs on the purchase and sale of Corporate Bonds and Government Bonds, are included in the purchase and sale price of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed. Separately identifiable Depository transaction costs are borne by the Manager through the TER of the Sub-Funds of the ICAV.

The Sub-Funds incurred total transaction costs during the year ended 30 June 2023 and year ended 30 June 2022 as follows:

Sub-Fund	Currency	30 June 2023 Cost	30 June 2022 Cost

6. Risk Management Policies and Disclosure

Introduction and overview

Each of the Sub-Funds of Franklin Templeton ICAV is exposed to a variety of financial risks in pursuing its stated investment objective and policy such as: credit and counterparty risk, liquidity risk and market risk (which in turn includes currency risk, interest rate risk and price risk). The ICAV takes exposure to certain of these risks to generate investment returns on its portfolio, although these risks can also potentially result in a reduction in the ICAV's net assets. The Investment Manager will use its best endeavours to minimise the potentially adverse effects of these risks on the ICAV's performance where it can do so while still managing the investments of the ICAV in a way that is consistent with the ICAV's investment objective and policy.

The ability of an Index Tracking Sub-Fund (Franklin and Franklin FTSE ranges of Sub-Funds) to achieve significant correlation between the performance of the Sub-Fund and the Index it tracks may be affected by changes in securities markets, changes in the composition of the Index, cash flows into and out of the Sub-Fund and the fees and expenses of the Sub-Fund. The Sub-Fund will seek to track Index returns regardless of the current or projected performance of the Index or of securities comprising the Index. As a result, the Sub-Fund's performance may be less favourable than that of a portfolio managed using an active investment strategy. The structure and composition of the Index will affect the performance, volatility and risk of the Index (in absolute terms and by comparison with other indices), and consequently, the performance, volatility and risk of the Sub-Fund.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

6. Risk Management Policies and Disclosure (continued)

Introduction and overview (continued)

For Sub-Funds where investments are actively managed (as listed in the "General Information", page 6), the Investment Manager will use an investment approach that typically involves research such as fundamental analysis, micro and macroeconomic analysis and/or technical analysis rather than seeking to deliver the performance of an Index, because it believes actively selecting investments can deliver a better outcome than owning the market in its entirety. Such Sub-Funds could experience losses if the Investment Manager's judgment about markets, future volatility, interest rates, industries, sectors and regions or the attractiveness, relative values, liquidity, effectiveness or potential appreciation of particular investments made for a Sub-Fund prove to be incorrect.

Risk mitigation techniques applied to Index Tracking Sub-Funds will be different than those traditionally applied to actively managed Sub-Funds. These Sub-Funds seek to achieve a return that corresponds to or tracks the return of an Index or customised benchmark. Index Tracking Sub-Funds are not actively managed and do not attempt to take defensive positions under any market conditions. Therefore, an Index Tracking Sub-Fund will be negatively affected by general declines in the securities and asset classes represented in its Index. Currency and interest rate exposures will also be determined by the Index. Such Sub-Funds' performance could therefore be lower than funds that may actively shift their portfolio assets to take advantage of market opportunities or to lessen the impact of a market decline or a decline in the value of one or more issuers.

a) Market price risk

Market price risk is defined as risk that the fair value of a financial instrument or its future cash flows will fluctuate because of changes in market prices. Each Sub-Fund holding equity investments is directly affected by movements in market prices.

The management of market risk is affected through asset allocation and diversification based on the Sub-Fund's investment objective as well as the Investment Manager's developed investment process. For the actively managed Sub-Funds, this includes in-depth research as well as monthly analysis of invested companies and the macroeconomics of the invested areas. For passively managed Sub-Funds this may include factor based or weight diversification rules built in the customised index that is tracked.

The maximum risk arising from an investment in a financial instrument is determined by the fair value of the financial instruments, except for short positions in derivatives and securities where the loss may potentially be unlimited. The value of market price risk that the Sub-Funds are exposed to at 30 June 2023 and 2022 is the fair value of investments as disclosed in the relevant Sub-Fund's Schedule of Investments.

Price Sensitivity Analysis

If the price of each equity security held by the Sub-Funds had increased by 5% at 30 June 2023 (30 June 2022: 5%), with all other variables remaining constant, this would have increased the net assets of the Sub-Funds as disclosed in the table below. A 5% decrease would have an equal and opposite effect on the value of the Sub-Funds.

Sub-Fund	Currency	30 June 2023	30 June 2022
Franklin FTSE Brazil UCITS ETF	USD	1,601,456	1,329,786

Franklin STOXX Europe 600 Paris Aligned Climate UCITS ETF	EUR	1,511,235	711,156

b) Foreign Currency risk

Currency risk is defined as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Each Sub-Fund is exposed to currency risk as monetary assets and liabilities of the Sub-Funds may be denominated in a currency other than the functional currency of the Sub-Funds.

The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of that asset.

For the actively managed Sub-Funds, the Investment Manager monitors each Sub Fund's currency exposure on a regular basis and the Investment Manager may attempt to mitigate this risk by using financial derivative instruments ("FDI").

For passive strategies the foreign currency exposures and corresponding risk are observed through attribution reports. As the strategies are passive there can be no risk mitigation. The foreign currency risk is accepted by managers and shareholders.

A Sub-Fund may use FDIs on behalf of a specific class in order to hedge some or all of the foreign exchange risk for such class. A Sub-Fund that hedges foreign exchange risk for any class may enter into forward currency contracts in order to hedge some or all of the foreign exchange risk for the relevant class. To the extent that hedging is successful, the performance of the relevant class is likely to move in line with the performance of the underlying assets. The use of hedged currency classes may substantially limit holders of the relevant classes from benefiting if the currency of each of these classes falls against the base currency and/or the currency in which the assets of the Sub-Fund are denominated.

The foreign currency risk exposure and currency sensitivity analysis, which detail the approximate increase or decrease in net assets attributable to redeemable participating shareholders of each relevant Sub-Fund if the exchange rate of the base currency increased or decreased by 5% relative to the non-base exposure for each Sub-Fund, as at 30 June 2023 and 2022 are detailed in the tables below, for those Sub-Funds with material exposure.

Outflows	(7,668,790)

c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The ICAV is subject to interest rate risk on any debt securities and cash and may have an indirect exposure to interest rate risk through investments in financial derivative instruments whereby the value of the underlying asset may fluctuate as a result of a change in interest rates. Generally, the value of fixed income securities will change inversely with changes in interest rates, the effect being greater the longer the maturity of the security. On the actively managed fixed income Sub-Funds, the interest rate risk is managed through scenario stress testing. Among the measures considered are the results of a +200 basis points parallel shift in IR curves and the results of a proportional shift of +100% on credit spreads. The outcome of those stress tests and their evolution are observed monthly.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

6. Risk Management Policies and Disclosure (continued)

c) Interest rate risk (continued)

As the passively managed funds are tracking equity indices or custom benchmarks, it is considered that the sensitivity of those funds to interest rate risk is of a limited relevance. Furthermore, market risk (including interest risk) is generally not mitigated on index tracking sub-funds as it is accepted through the intention to track a market index. Market risk is however periodically monitored through observation of stress testing performed on the portfolios of assets.

The interest rate exposure for each Sub-Fund at 30 June 2023 is as follows:

d) Credit risk and Counterparty risk

Credit risk is the probable risk of loss resulting from a borrower's failure to repay a loan or meet its contractual obligations. Investments in equity securities are not exposed to credit risk. The Sub-Funds bear credit risk on any debt securities held. Credit risk generally encompasses default risk, spread risk, counterparty risk and settlement risk. The credit risk of the ICAV's debt securities as at 30 June 2023 and 30 June 2022 is monitored by the Investment Manager.

The Investment Manager may use forward currency contracts to hedge against foreign currency exposure. These have a similar credit or default risk to a regular currency spot transaction. Forward currency contracts are 'Over the Counter' traded and therefore have counterparty risk which arises from the potential failure of counterparties to meet their obligations under the contract or arrangement.

Counterparty risk is a sub-set of credit risk and is the risk to each party of a contract that the counterparty will not live up to its contractual obligations. The Sub-Funds have exposure to counterparty risk on any bilateral agreement such as over the counter derivatives transactions where both sides face credit risk, (i.e. forward currency contracts).

Derivatives, cash deposited as margin or other similar investments/monies deposited by or entered into on behalf of the Sub-Funds with a counterparty, options exchange, clearing broker or other parties are not held within the State Street custodial network. The Depositary is therefore not liable in any way for the default of any counterparty.

Franklin Templeton Investment Management Limited, as Investment Adviser, has a Counterparty Credit Committee which meets regularly to review and update a list of approved counterparties, change exposure limits and counterparty approval status. The committee has the authority to block trading with a particular counterparty should they believe that exposure to that particular counterparty is too high. Total firm wide exposures to each counterparty and each counterparties' credit rating, credit default swap spread and share price movements are also monitored and reported to the Trading and Portfolio Management teams on a weekly basis.

At 30 June 2023, the credit rating for Citibank NA was A+ (30 June 2022: A+) and JPMorgan Securities Inc was A+ (30 June 2022: A+).

The ICAV's Depositary is State Street Custodial Services (Ireland) Limited. Substantially all of the assets and cash of the Sub-Funds are held within the custodial network of the Depositary. Bankruptcy or insolvency of the Depositary or of its parent company, State Street Corporation, may cause the Sub-Funds' rights with respect to their investments held by the Depositary to be delayed or limited. The credit rating of State Street Corporation as at 30 June 2023 is A (30 June 2022 A).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

6. Risk Management Policies and Disclosure (continued)

d) Credit risk and Counterparty risk (continued)

The credit risk of the Franklin Euro Green Bond UCITS ETF's debt securities as at 30 June 2023 and 30 June 2022 is summarised as follows:

Below investment grade	-	0.00
Not rated	4.34	9.19
Total	100.00	100.00

* Rating source is Standard & Poor's, if unavailable Moody's ratings are used and if unavailable Fitch Ratings are used.

e) Liquidity risk

The Sub-Funds' assets generally comprise of highly liquid debt and equity securities. For actively managed Sub-Funds, liquidity is a factor that the Investment Manager considers when investing in any financial instrument. For Index Tracking Sub-Funds, the financial instruments invested in will be determined by the relevant Index tracked.

The main financial liability of the Sub-Funds is the redemption of redeemable participating shares. As the Sub-Funds are open ended, the relevant Sub-Fund is required to redeem shares on request by shareholders at a price equivalent to the Net Asset Value per share, subject to settlement and dealing restrictions laid down in the Prospectus.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

6. Risk Management Policies and Disclosure (continued)

e) Liquidity risk (continued)

The Investment Manager manages each Sub-Fund's liquidity position on a daily basis. Also the Investment Manager is able, through the provisions in the Prospectus, to defer the processing of redemptions of significant size to facilitate an orderly disposition of securities in order to protect the interest of the remaining shareholders. The maximum number of redeemable participating shares available for redemption on any given day can be restricted to 10% of the total number of shares in issue in the relevant Sub-Fund. If the Fund refuses to redeem Shares for this reason, the requests for redemption on such date can be reduced rateably and the redemption requests will be treated as if they were received on each subsequent Dealing Day until all the Shares to which the original request related have been redeemed, provided that the Fund is not be obliged to redeem more than 10% of the number of Shares of a particular Sub-Fund outstanding on any Dealing Day, until all the Shares of the Sub-Fund to which the original request related have been redeemed.

The liquidity profile of the Sub-Funds' financial liabilities as at 30 June 2023 is as follows:

f) Fair Value Hierarchy

The ICAV is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The standard requires an entity to provide a quantitative and qualitative analysis of those instruments recognised at fair value based on a three-level measurement hierarchy. The fair value hierarchy has the following levels:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Furthermore, for those instruments which have significant unobservable inputs (Level 3), the amendment requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the financial year split between those recognised in the Statement of Comprehensive Income and recognised through the statement of total recognised gains and losses, purchases, sales issues and settlements. The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

6. Risk Management Policies and Disclosure (continued)

f) Fair Value Hierarchy (continued)

The determination of what constitutes 'observable' requires significant judgement by the Sub-Funds. The Sub-Funds consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Assets and liabilities not carried at fair value are carried at amortised cost, their carrying values are a reasonable approximation of fair value.

The following tables analyse within the fair value hierarchy the Sub-Funds' financial assets and financial liabilities measured at fair value at 30 June 2023.

* Represents net unrealised gain/(loss).

Investments whose values are based on quoted market prices in active markets are classified within Level 1. For the ICAV, these include active listed equities and exchange traded derivatives.

Financial instruments that are not listed but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include bonds.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the financial year. There were transfers out of Level 1 into Level 2 during the financial year ended 30 June 2023 (30 June 2022: None). There were transfers out of Level 1 into Level 3 during the financial years ended 30 June 2023 and 30 June 2022.

Sales	(7,677)
Closing balance	-

	30 June 2022 USD
Franklin Emerging Markets UCITS ETF	
Opening balance	63,169
Realised loss in profit or loss	(55,586)
Unrealised loss in profit or loss	(125,975)
Purchases	179,342
Sales	(42,990)
Closing balance	17,960

	30 June 2022 USD
Franklin Global Dividend UCITS ETF	
Opening balance	-
Transfers into level 3	4,167
Closing balance	4,167

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

6. Risk Management Policies and Disclosure (continued)

g) Global Exposure and Leverage

The Sub-Funds' global exposure and leverage are calculated using the commitment approach and do not exceed 100% of Net Asset Value. The commitment approach converts each Sub-Fund's Financial Derivative Instruments ("FDI") positions into the equivalent positions in the underlying assets and seeks to ensure that the FDI risk is monitored in terms of any future commitments to which it is, or may be obligated.

Any leverage resulting from the use of FDIs and efficient portfolio management techniques are in accordance with the requirements of the Central Bank and will not exceed 100% of the Net Asset Value of the relevant Sub-Fund.

7. Cash and Cash Equivalents

At 30 June 2023, all cash and cash equivalents and bank overdrafts are held with State Street Custodial Services (Ireland) Limited, with the exception of the margin cash below. The long-term credit rating of State Street Corporation, the ultimate parent of the Depositary, as of 30 June 2023 was A (30 June 2022: A). All margin cash balances were held with J.P. Morgan, whose credit rating at 30 June 2023 was A+ (30 June 2022: A+).

The following margin cash balances held with brokers at 30 June 2023 and 30 June 2022 are included within cash and cash equivalents in the Statement of Financial Position:

Sub-Fund	Currency	30 June 2023	30 June 2022

10. Related Party Disclosures

The Directors who are listed on page 2, the Investment Managers, Franklin Advisers, Inc., Franklin Templeton Investment Management Limited, Franklin Templeton Institutional, LLC and Franklin Advisory Services LLC, the Manager, Franklin Templeton International Services S.à r.l., the Swiss Representative, Franklin Templeton Switzerland Limited and the German Information Agent, Franklin Templeton Investment Services GmbH are considered related parties for the purposes of the accounting standards to which the ICAV is subject. Amounts earned by the Investment Manager during the financial year are the operating expenses within the Statement of Comprehensive Income.

Amounts received and payable by the Investment Manager during the financial year and payable at the financial year ended 30 June 2023 are included in the TER for each Sub-Fund and are disclosed in Note 5. The ICAV incurred total charges of EUR 3,153,698 during the financial year (30 June 2022: EUR 2,288,232). At the financial year end, fees of EUR 278,333 (30 June 2021: EUR 202,583) are unpaid and included in other payables.

Transactions with Key Management Personnel

The interests of the Directors in related parties are as follows:

Joseph Carrier joined Legg Mason, Inc. in 2008 until he resigned in 2023 from Franklin Templeton Investments. Mr. Carrier held various senior appointments including Senior Vice President, Enterprise Risk Management for Franklin Templeton Investments and Chief Risk Officer and Chief Audit Executive for Legg Mason, Inc. He is a U.S. national. Appointed to the Board 23 February 2023.

Joseph Larocque joined Legg Mason, Inc. in 2001 until he resigned in 2019 and was the former Managing Director in charge of Affiliate Strategic Initiatives at Legg Mason. He is a U.S. national. Appointed to the Board 23 February 2023.

Jaspal Sagger is the Head of Global Product Strategy and Development for Franklin Templeton having held a similar role at Legg Mason until it was acquired in August 2020. Mr. Sagger joined Legg Mason in February 2014, as Head of International Product Strategy, and assumed the role of Global Head of Product Strategy and Development in January 2019. He is a U.K. national. Appointed to the Board 23 February 2023.

Jane Trust is the Senior Vice President – Fund Board Management for Franklin Templeton. She also oversees governance structure and partners closely with internal groups, such as Legal and Accounting, on board areas of focus. Ms Trust joined Legg Mason in 1987 and held various senior appointments including Senior Managing Director at Legg Mason & Co., LLC. and President and CEO of the Legg Mason – Affiliated Funds. She is a U.S. national. Appointed to the Board 24 February 2023.

The following Directors resigned from the Board during the year:

William Jackson is Chief Administration Officer for Technology & Operations at Franklin Templeton. He is also a director of a number of Franklin Templeton corporate entities, including the Manager, and fund entities based in the U.K. and Luxembourg. He is a U.K. national. Resigned from the Board 17 July 2023.

Gregory E. McGowan joined Franklin Templeton in 1986 until he resigned in 2016 and held various senior appointments including Executive Vice President, Director and General Counsel of Templeton International Inc and Templeton Worldwide Inc. He is a U.S. national. Resigned from the Board 23 February 2023.

Patrick O'Connor is head of Global Exchange Traded Funds for Franklin Templeton Investments. He is a U.S. national. Resigned from the Board 23 February 2023.

Caroline Baron is head of Exchange Traded Fund Sales - EMEA. She supports Franklin Templeton's Global Exchange Traded Funds rollout across Europe and promotes the Franklin Templeton ICAV range in the region. She is a French national. Resigned from the Board 9 November 2022.

During the year ended 30 June 2023 and the year ended 30 June 2022, other than as disclosed above, no Director or connected person of any Director has any interest, beneficial or non-beneficial, in the share capital of the ICAV, or any material interest in the ICAV or in any agreement or arrangement with the ICAV.

Please see page 85 for details of Directors fee paid.

All related party transactions as noted above were carried out at arm's length in the ordinary course of business.

Significant Shareholders

The following tables details the number of shareholders with significant holdings (at least 20%) of the relevant Sub-Fund as at 30 June 2023 and 30 June 2022. The significant shareholders are the Authorised Participants who hold 100% of the Sub-Funds on the primary share register at the reporting date, the majority of which are re-sold on the secondary market. The beneficial ownership of these shares is then passed from the Authorised Participants through the trading of shares on the secondary market.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

11. Efficient Portfolio Management

The ICAV may, on behalf of each Sub-Fund, engage in techniques and instruments such as in FDIs, repurchase/reverse repurchase and stock lending agreements for the purposes of efficient portfolio management meaning the reduction of risk, including the risk of tracking error between the performance of a Sub-Fund and the performance of the Index tracked by the relevant passive Sub-Fund, the reduction of costs to the Sub-Funds, the generation of additional capital or income for the Sub-Fund and hedging against market movements, currency exchange or interest rate risks, taking into account the risk profile of each Sub-Fund and the general provisions of the UCITS Regulations. Such transactions may include foreign exchange transactions which alter the currency characteristics of transferable securities held by each Sub-Fund. No securities lending took place during the year ended 30 June 2023 or the year ended 30 June 2022.

12. Distributions

The following distributions were declared by the Sub-Funds during the year ended 30 June 2023:

15. Significant Events During the Year

On 24 February 2022, Russia began military operations in the sovereign territory of Ukraine. The current political and financial uncertainty surrounding Russia and Ukraine increased market volatility and the economic risk of investing in securities in these countries and other impacted countries within the region. Securities of Russian issuers held by Sub-Funds remain as Level 3, these are noted in the respective Fund's Schedule of Investments. Due to the sanctions, actions by governments, developments in Ukraine itself and other circumstances, the Manager has assessed the impact on the valuation of the affected securities and has adjusted such valuations, as deemed necessary. The Manager will continue to assess the impact on valuation and liquidity and will take any potential actions needed, in accordance with the Sub-Funds' valuation policies and procedures.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2023 (continued)

15. Significant Events During the Year (continued)

Effective 30 September 2022, the ICAV terminated contract with the Austrian Paying Agent.

REMUNERATION DISCLOSURE (UNAUDITED)

Remuneration Policy

FTIS is a management company licensed to manage UCITS funds and following the implementation of EU Directive 2014/91/EU amending the Undertaking for Collective Investment in Transferable Securities Directive (EU Directive 2009/65/EC) (“UCITS V”) on 18 March 2016, it has been subject to the UCITS Remuneration Code.

Purpose and scope of the Remuneration Policy Statement

The Remuneration Policy of FTIS has been designed to align the personal objectives of staff with the long term interests of FTIS and the UCITS and AIFs managed by FTIS. It aims at mitigating incentives practices which may encourage employees to take unnecessary risk.

The Policy applies to a certain category of staff called the identified staff which includes members of the Board of Directors, Conducting Officers, members of control functions, risk takers, and any employee with remuneration which takes them into the same bracket as Conducting Officers or risk takers whose activities have a material impact on the risk profiles of the management company or the UCITS it manages.

Description of the structure of remuneration

The remuneration includes a fixed and variable component.

Fixed remuneration: Fixed remuneration is defined as base salary plus material company provided benefits which may include company cars, company pension contributions, private medical insurance premiums and life assurance premiums.

Base salary levels (including benefits) are set with reference to market benchmarking data (third party industry surveys), which are reviewed regularly.

Fixed salaries are set as a sufficiently high proportion of the total remuneration so that FTIS is able to operate a full flexible bonus policy, including the possibility to pay no bonus.

Variable remuneration: Variable remuneration is defined as annual bonuses paid under the Annual Incentive Plan (AIP), Long Term Awards in the form of performance share grants and Sales Bonus payments. Bonus levels are set with reference to overall corporate and business unit performance as well as individual performance achieved in FTIS.

Remuneration

Franklin Templeton International Services S.à r.l. (“FTIS”), as UCITS licensed management company (the “Management Company”) has a remuneration policy (the “Policy”) in place which applies to all UCITS funds (each a “UCITS” and together the “UCITS”) under its management. The Policy has been designed to discourage excessive risk taking, integrating in its performance management systems risk criteria specific to the business units it covers. The policy has a governance structure aimed at preventing internal conflicts of interest.

There are defined procedures in place for the creation, update, review and approval of the Policy as well as for communication and implementation of the Policy. Senior Management, Human Resources, Compliance and other functions are all involved in this process and the Policy is approved by Senior Management and the Board of Directors of the Management Company.

Fixed remuneration is defined as base salary plus other benefits which may include pension contributions, life assurance premiums or private medical insurance premiums. Levels of fixed remuneration are set with reference to job complexity, level of responsibility, performance and market benchmarking data. These levels are reviewed on a regular basis.

Variable remuneration is defined as annual bonuses, long term awards in the form of performance share grants or sales bonus payments. Levels of variable remuneration are set with reference to overall corporate and business unit performance as well as individual performance.

The full Policy is available at the registered office of the Management Company. Quantitative information relevant to the Franklin Templeton Investment Funds is outlined below:

Total amount of fixed remuneration paid by FTIS and its delegates during the year ended 30 September 2022*, **,***.	€583,032
Total amount of variable remuneration paid by FTIS and its delegates during the year ended 30 September 2022*, **,***.	€391,472
Number of staff of FTIS and in its delegates as at 30 September 2022.	549
Total amount of compensation paid by FTIS and its delegates to Senior managers during the year ended 30 September 2022*, **,***.	€296,040

Remuneration

Total amount paid by FTIS and its delegates to other members of staff who have a material impact on the profile of AIF during year ended 30 September 2022*, **, ***.	€61,663
---	---------

* The total amount of compensation paid by FTIS has been allocated to AIF based on its pro rata share of the average month end total net assets of the funds under management of FTIS for the year ended 30 September 2022.

** The total amount of compensation paid by the FTIS delegates has been allocated to AIF based on its pro rata share of the average month end total net assets of the funds under management of the FTIS delegates for the year ended 30 September 2022.

*** Delegates are Investment Management entities which are subject to regulatory requirements that are equally as effective as those under Article 69(3)(a) of the UCITS Directive.

Details of the Remuneration Policy are available from the management company's website at:

<https://www.franklintempleton.lu/investor/our-approach/our-company/regulatory-information>

A paper copy of FTIS Remuneration Policy is available free of charge upon request at our office.

Appendix: Sustainable Finance Disclosure Regulation (unaudited)

Transparency of the promotion of environmental or social characteristics and of sustainable investment objectives in periodic reports

The Sustainable Finance Disclosure Regulation ((EU) 2019/2088, the “SFDR”) requires the Company to include a description in its periodic reports of the extent to which any Fund classified pursuant to Article 8 of the SFDR (an “Article 8 Fund”) has met its environmental or social characteristics or classified pursuant to Article 9 of the SFDR (an “Article 9 Fund”) has met its sustainable investment objective. The SFDR also empowers the European Banking Authority, the European Insurance and Occupational Pensions Authority and the European Securities and Markets Authority (collectively “ESAs”) to develop draft regulatory technical standards (“RTS”) to specify the information and presentation format in the periodic reports. The following SFDR Article 8 Funds’ and Article 9 Fund’s periodic disclosures have been prepared using the common set of sustainability disclosures or reporting requirements of the RTS which came into effect on 1 January 2023. The asset classifications in the following disclosures are based upon MSCI and may differ to the classification of the securities in the Schedule of Investments.

The disclosures for each classification are outlined as follows:

Sub-Fund name	SFDR classification
Franklin Euro Green Bond UCITS ETF	Article 9
Franklin Euro Short Maturity UCITS ETF	Article 8
Franklin USD Investment Grade Corporate Bond UCITS ETF	Article 8
Franklin Global Equity SRI UCITS ETF	Article 8
Franklin STOXX Europe 600 Paris Aligned Climate UCITS ETF	Article 8
Franklin S&P 500 Paris Aligned Climate UCITS ETF	Article 8

Franklin Euro Green Bond UCITS ETF (the "Fund")

Sustainable investment objective

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

●● <input checked="" type="checkbox"/> YES	●○ <input type="checkbox"/> NO
<p><input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 97.16%</p> <p style="margin-left: 20px;"><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p style="margin-left: 20px;"><input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It made sustainable investments with a social objective: 0.00%</p>	<p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 0.00% of sustainable investment</p> <p style="margin-left: 20px;"><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p style="margin-left: 20px;"><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p style="margin-left: 20px;"><input type="checkbox"/> with a social objective</p> <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent was the sustainable investment objective of this financial product met?

Over the review period, the Fund pursued its environmental objective through allocations to products where sustainable investing was a core objective, supported by a combination of exclusions and engagement:

*The Fund invested 95.57% in green bonds, 1.59% in other eligible instruments financing positive environmental outcomes and 2.84% in cash and derivatives.

* In order to support its environmental objective, the investment management team analysed all eligible expenditures that would be financed by a bond, as well as the issuer's overall economic activity, in order to ensure that neither would cause any significant harm to other environmental or social objectives. On top of this, any issuer would be removed from the investable universe if they were involved in harmful economic activities and/or controversies.

* The Fund committed to invest in bonds labelled as green and other eligible securities that qualified as sustainable investments with an environmental objective (i.e., supporting a low-carbon future). An example of this includes the Fund's investment in a use of proceeds bond issued by TenneT, a Dutch transmission system operator for the Netherlands and large parts of Germany. The company's green bonds help to finance new connections between the electricity grid and energy generated using renewable energy sources, such as off-shore wind power plants. Moreover, TenneT is committed to improving biodiversity at their high-voltage substations and implements a variety of nature conservation and renaturation projects along the North Sea coast. As per a review provided by an independent second party opinion provider, those expenditures had a significant contribution to SDGs #7 "Affordable and clean energy" and #13 "Climate action". A sovereign example includes the Fund's holding of a use of proceeds bond issued by the Federal Republic of Germany in support of its goal to reach GHG neutrality by 2045. The largest part of the proceeds from the sale of the bond were allocated to supporting the bioeconomy. The bioeconomy means using renewable biological resources from the land and sea to produce food, materials and energy in an effort to ensure a more sustainable use of resources. Some projects of note included research into replacing fossil raw materials with renewable raw materials, increasing the sustainability of crop production, and the development of more sustainable biotechnological methods and processes that could be used in the production of chemicals used for pharmaceuticals, cosmetics or food. Germany's green expenditure positively contributed to the following SDGs #1 "No poverty", #2 "Zero hunger", #7 "Affordable and clean energy", #8 "Decent work and economic growth", #9 "Industry, innovation and infrastructure", #11 "Sustainable cities and communities", #12 "Responsible consumption and production", #13 "Climate action", #14 "Life below water", #15 "Life on land", #16 "Peace, justice and strong institutions" and #17 "Partnership for the Goals".

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● **How did the sustainability indicators perform?**

(if not stated otherwise, all values are as of 30th June)

- the amount (in Euro) provided to eligible projects on a quarterly basis – based on allocation to green bonds:

Q3 2022 - 109 900 000 €

Q4 2022 - 212 431 000 €

Q1 2023 - 276 587 000 €

Q2 2023 - 297 737 000 €

Sustainability KPI Name	Value
The percentage of investments in green bonds	95.57%
The percentage of investments in other eligible bonds supportive of a low-carbon future or supportive of the Paris Climate Agreement	1.59%
The percentage of investments in issuers having exposure to or ties with the sectors and the additional exclusions	0.00%

● **... And Compared to Previous Periods?**

Not applicable. This is the first periodic report prepared for the Fund in accordance with Regulation (EU) 2022/1288.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The Investment Manager used proprietary data tools and qualitative research to ensure alignment with the Do No Significant Harm (the "DNSH") principles across the portfolio.

Corporate issuers were monitored using the principal adverse impacts (the "PAIs") Risk App (the "PAI Risk App"). The PAI Risk App used data from a third-party provider to identify issuers involved in harmful economic activities and/or controversies and exclude such issuer from the investment universe.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption. Finally, the Investment Manager applied additional qualitative assessment (based on internal research or external second party opinion) of the issuer's and the project's DNSH eligibility.

During the reference period there were no breaches of the Fund's criteria.

--- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Adverse impact indicators, including PAIs and other data points deemed by the Investment Manager as proxies for adverse impact, were used to:

remove from the investable universe issuers that were considered to do significant harm; and

inform the Investment Manager about the risk associated with adverse impact and take appropriate action – that included due diligence, qualitative scrutiny and/or engagement.

While assessing eligible bonds, the Investment Manager reviewed and documented the materiality of relevant PAIs for the project as well as how the project's implementation affected the issuer's overall PAIs outlook.

For example, while investing in a green bond whose use of proceeds targeted development of renewable energy sources, e.g., solar/PV panels, the Investment Manager ascertained that the financed projects scored well on PAIs linked to greenhouse gas emissions.

--- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

For bonds issued by corporate issuers, the sustainable investments are aligned with the Organisation for Economic Cooperation and Development (the "OECD") Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. For bonds issued by sovereign countries, the OECD Guidelines for Multinational Enterprises and the United Nations Guiding Principles on Business and Human Rights are not applicable to such investments.

Alignment is monitored using data from MSCI. Breaches identified based on the data provided by MSCI are flagged in the investment compliance system for subsequent investigation by the Investment Manager.

Where due diligence proves that the issuer is not aligned with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, it is deemed un-investable and will be disposed of by the Investment Manager.

How did this financial product consider principal adverse impacts on sustainability factors?

PAIs indicators were considered for the purpose of:

- **performing the DNSH test; and**
- **guiding thematic engagement.**

Performing the DNSH test

The Investment Manager used proprietary data tools and qualitative research to ensure alignment with the DNSH principles across the portfolio using the PAIs indicators. Corporate issuers were monitored using the PAI Risk App. The PAI Risk App used data from a third-party provider to identify issuers involved in harmful economic activities and/or controversies based on all mandatory PAIs and excluded such issuer from the investment universe. Additionally, sovereign issuers were subjected to tests and evaluation based on their greenhouse gas emissions, political liberties and/or corruption.

Guiding thematic engagement

The Investment Managers are on target with their commitment effective 1 January 2023 to engage on a calendar year basis with 5% of holdings which were considered as underperformers in terms of their aggregate exposure to applicable mandatory PAIs metrics.

What were the top investments of this financial product?

The largest investments of this Fund, excluding cash and derivatives, were:

Largest investments	Sector	% of Assets	Country
Bundesobligation 10/10/2025 REG S	Government bonds	8.23%	Germany
Bundesrepublik Deutschland Bundesanleihe 08/15/2030 REG S	Government bonds	6.34%	Germany
Netherlands Government Bond .5% 01/15/2040 144A REG S	Government bonds	4.97%	Netherlands
Kreditanstalt Fuer Wiederaufbau 06/15/2029 REG S	Government bonds	4.19%	Germany
Bundesrepublik Deutschland Bundesanleihe 08/15/2050 REG S	Government bonds	4.00%	Germany
Ireland Government Bond 1.35% 03/18/2031 REG S	Government bonds	3.37%	Ireland
Kingdom of Belgium Government Bond 1.25% 04/22/2033 REG S	Government bonds	2.30%	Belgium
Spain Government Bond 1% 07/30/2042 144A REG S	Government bonds	2.20%	Spain
French Republic Government Bond OAT 1.75% 06/25/2039 REG S 144A	Government bonds	2.12%	France

Orsted AS FRN 12/09/3019 REG S *FIXED TO FLOAT*	Utilities	1.11%	Denmark

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is 1 July 2022 - 30 June 2023.

What was the proportion of sustainability-related investments?

The proportion of sustainable investments was 97.16%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

97.16% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (2.84%) was not aligned with the promoted characteristics and consisted primarily of liquid assets, as well as derivatives used for hedging purposes, and issuers for which there was no ESG rating.

In which economic sectors were the investments made?

As of 30 June 2023, the top sectors and sub-sectors of this Fund, excluding cash and derivatives, were:

Top sector	% of Assets
Government bonds	45.45%
Financials	23.13%
Utilities	16.64%
Industrials	4.08%
Real Estate	2.76%
Consumer Discretionary	2.15%
Communication Services	1.67%
Consumer Staples	0.79%
Materials	0.42%
Top sub-sector	% of Assets
Government Bonds	45.45%
Banks	15.98%
Electric Utilities	12.87%
Insurance	4.41%
Multi-Utilities	2.84%
Financial Services	2.74%
Diversified REITs	1.71%
Construction & Engineering	1.68%
Automobiles	1.63%
Diversified Telecommunication Services	1.37%
Ground Transportation	1.09%
Real Estate Management & Development	1.05%
Independent Power & Renewable Electricity Producers	0.93%
Food Products	0.79%
Air Freight & Logistics	0.77%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

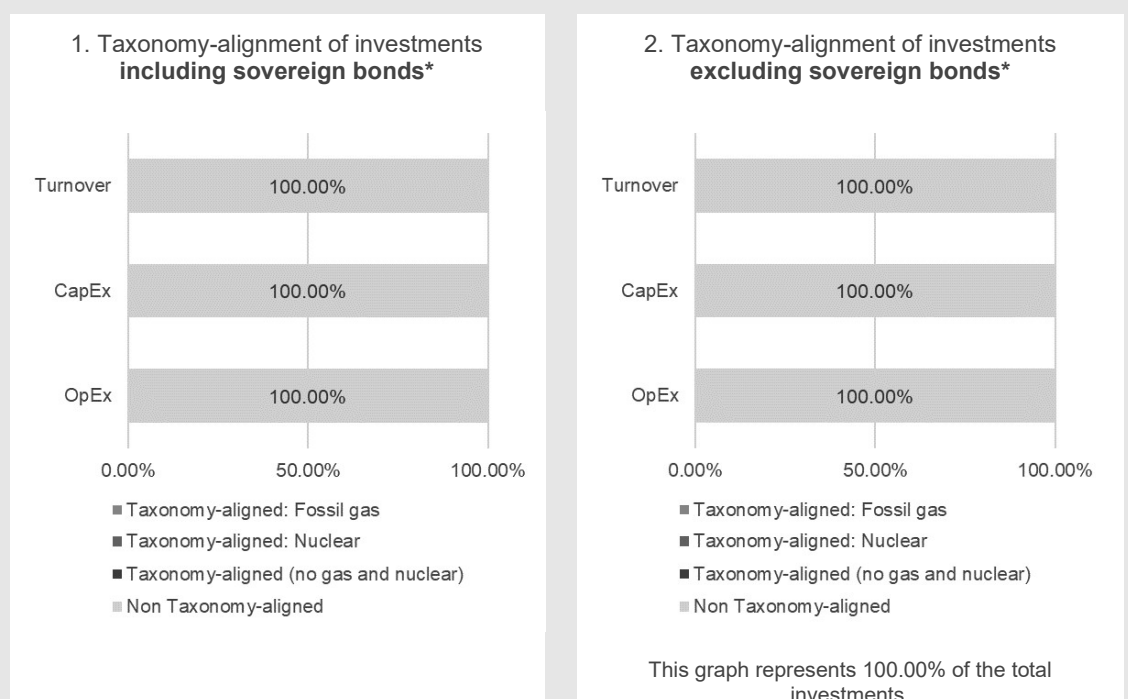

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Not applicable. As set out in the Supplement, the Fund does not commit to making sustainable investments which are aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

- Yes
- In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities as defined in Article 16 and Article 10(2) of the EU Taxonomy Regulation.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Not applicable

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU taxonomy?

The Fund invested 97.16% of NAV into economic activities that are considered as environmentally sustainable under SFDR definition of sustainable investments (2.17).

What was the share of socially sustainable investments?

Consistent with its intentions, as set out in the Supplement, the Fund did not invest in sustainable investments with a social objective.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Not sustainable" was 2.84% and included liquid assets (ancillary liquid assets, bank deposits, money market instruments and money market funds) held for the purposes of servicing the day-to-day requirements of the Fund as well as derivative instruments used for hedging purposes.

For derivatives, the Investment Manager determined what is the underlying asset and if applicable, subjected this asset to all relevant ESG screening depending on the underlying asset's nature. For the avoidance of doubt, the Investment Manager will ensure that the underlying asset of any derivatives used for efficient portfolio management will qualify as a sustainable investment.

If the Investment Manager was not in position to determine the ESG quality of the underlying asset because of its nature (e.g., currency forwards for hedging purposes), the Investment Manager assessed the ESG credentials of a derivative contract counterparty. If a counterparty was a subsidiary without separate ESG reporting scheme, the ESG characteristics of a parent company apply. The Fund did not engage in derivatives with financial institutions which are not meeting Investment Manager's ESG criteria. To qualify as eligible counterparty, a financial institution must meet at least two of the following criteria:

- MSCI ESG rating of BBB or above – or in absence of MSCI rating, being above industry average rating as judged by alternative third party ESG data provider;
- signatory to the Equator Principles;
- signatory to Task Force on Climate-Related Financial Disclosures; and
- is committed to set a Science Based Target initiative (the "SBTI") target.

For liquid assets, the Investment Manager applies minimum environmental and social safeguards by verifying that the counterparties used for placement of deposits meet the EU Taxonomy Safeguards, as assessed by MSCI. Counterparties not meeting such criteria will not be used by the Fund.

The limited proportion of investments under "#2 Not sustainable" and the applicable minimum safeguards did not affect the delivery of the sustainable investment objectives of the Fund on continuous basis.

What actions have been taken to attain the sustainable investment objective during the reference period?

Multiple binding elements in the investment strategy helped to support the attainment of the Fund's environmental objective:

* In order to ensure that the Fund invested at least 75% of its NAV in bonds labelled as green and at least 90% in sustainable investments, the portfolio managers implemented a multi-step security selection process. Firstly, the Investment Manager checked that all eligible expenditures for a bond were in fact sustainable and positively contributed towards environmental goals. Then the Investment Manager ensured that neither the projects nor the issuer caused any significant harm to other environmental or social objectives. The issuer also could not be involved in any harmful economic activities and or controversies. The up to 25% of NAV that the Fund can allocate towards bonds that are not labelled as green allowed us to invest in other instruments that positively contributed to environmental objectives, such as blue bonds or bonds issued by pure players.

* The Investment Manager utilised numerous IT tools in order to determine a portfolio's composition so that it is aligned with the promoted environmental and social characteristics. Using internal and external inputs (e.g., MSCI datasets), the investment managers assessed which issuers were eligible (or not) to be held in the portfolio. For example, those sovereigns that were classified as "Not Free" within the Freedom House Index or utility companies that derived unacceptable levels of revenue from fossil fuels and lacked ambitious decarbonisation targets were excluded from the investable universe (a full list of exclusions is available in the Fund's pre-contractual disclosure).

* Engagement is an integral part of the Fund's sustainability approach and ESG management. While all our engagements are listed above, in the "How did the sustainability indicators perform?" section, the following example helps to highlight the portfolio managers' approach. Over the review period the Investment Manager engaged with the Austrian Debt Management Office (DMO) in order to better understand the country's sustainability policy. During our meetings, the Investment Manager discussed the importance of climate adaptation measures to ensure long-term growth of the national economy, using the impact of changing weather patterns on hydroelectric energy generation as an example of potentially adverse impacts that can be addressed with modern technological solutions. Moreover, the Investment Manager also raised the issue of the biodiversity crisis, which is viewed by the Investment Manager as a matter of equal importance to the climate change crisis.

How did this financial product perform compared to the reference sustainable benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Not applicable

Franklin Euro Short Maturity UCITS ETF (the "Fund")

Legal Entity Identifier: 549300WLCPUYKVK0X09

FRANKLIN TEMPLETON

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
<input type="checkbox"/> It made sustainable investments with an environmental objective: 0.00%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 22.38% of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: 0.00%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and social characteristics of (i) transitioning to a low-carbon economy and (ii) implementing negative screens as part of the investment process through a combination of exclusions, best-in-class investing and engagement:

* In order to promote energy conservation and the reduction of greenhouse gas (GHG) emissions, the portfolio management team sought exposure to, what the Investment Manager termed, environmental champions. Those sovereign issuers were labelled environmental champions that were ranked within the top 20% of their peer group, based on environmental factors including, but not limited to, GHG emissions, energy intensity, protection of biodiversity, air pollution, and renewable energy mix. For corporate issuers, it was companies that were ranked within the top 20% of their peer industry group based on their GHG intensity. At the end of the reporting period, the Fund's allocation to environmental champions stood at 32.3% of its net asset value (NAV).

* Moreover, the bottom 20% of so-called environmental laggards was removed from the investable universe. On top of this, the Fund also refrained from investing in issuers where exposure to fossil fuel extraction or energy production from fossil fuels exceeded the investment team's acceptable limit (as described in the Fund's pre-contractual disclosure: e.g., any company, which derives more than 5% of its revenues from thermal coal extraction is deemed not investable).

* In order to support biodiversity protection and promote responsible waste management (particularly of plastic waste), these subjects were addressed during the Investment Manager's extensive engagements with issuers from sectors that have a material impact on biodiversity (such as food and beverage). More details are provided below, in the "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" section. Additionally, the Fund avoided investments in issuers that had a negative impact on biodiversity sensitive areas.

* Over the review period, the Fund maintained alignment with multiple international norms, observing the United Nations (UN) Global Compact, UN Guiding Principles on Business and Human Rights and the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises.

* Finally, the portfolio management team initiated an engagement campaign to promote gender diversity, with a focus on the gender pay gap and women in leadership and management positions. These efforts will continue into the third quarter 2023.

* The Fund committed to allocate a minimum of 10% of its NAV to sustainable investments in economic activities that contribute to environmental objectives and a minimum of 1% in those that contribute to social objectives. Over the reporting period, 22.38% of the Fund's NAV was invested in sustainable investments (please see a detailed breakdown in the below section "How did the sustainability indicators perform?"). This was achieved primarily through investments in green, social and sustainability use of proceeds bonds that were issued explicitly to finance a specific set of eligible environmental and/or social projects. An example of

this includes the Fund's investment in a use of proceeds bond issued by the Federal Republic of Germany in support of its goal to reach GHG neutrality by 2045. The largest part of the proceeds from the sale of the bond were allocated to supporting the bioeconomy. The bioeconomy means using renewable biological resources from the land and sea to produce food, materials and energy in an effort to ensure a more sustainable use of resources. Some projects of note included research into replacing fossil raw materials with renewable raw materials, increasing the sustainability of crop production, and the development of more sustainable biotechnological methods and processes that could be used in the production of chemicals used for pharmaceuticals, cosmetics or food.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

(if not stated otherwise, all values are as of 30th June)

- Exposure to the principle adverse impacts (the "PAIs") indicators compared to the ICE BofA 0-1 Year Euro Broad Market Index. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators as of 30 June 2023.

Sustainability KPI Name	Value
Percentage of investments in green bonds	20.84%
Percentage of investments in social bonds	1.54%
Percentage of investments in sustainability bonds	0.00%
Percentage of investments in bonds issued by best-in-class issuers ("Environmental Champions")	32.30%
The percentage of investment in issuers having exposure to, or tying with excluded sectors and additional exclusions (securities where the percentage of revenues from excluded sectors rose above limits mandated by prospectus following original purchase, triggering a plan to divest the securities in due time, taking into account the Shareholders' best interests)	0.99%
Number of issuers, with which the Investment Manager engaged	76.00

● **... And compared to previous periods?**

Not applicable. This is the first periodic report prepared for the Fund in accordance with Regulation (EU) 2022/1288.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?**

The objective of the sustainable investments was, amongst others, to fund and promote:

- a) the efficient use of energy, raw materials, water, and land;
- b) the production of renewable energy;
- c) the reduction of waste, and greenhouse gas (GHG) emissions, and lower impact of economic activities on biodiversity;
- d) the development of a circular economy;
- e) tackling inequalities and fostering social cohesion;
- f) social integration;
- g) good labour relations; or
- h) investments in human capital, including disadvantaged communities.

The Fund's sustainable investments included a minimum allocation of 10% of its Net Asset Value to sustainable investments in economic activities that contributed to environmental objectives.

This was achieved by investing in bonds labelled as "green" or in any other securities whose:

- A) proceeds were used on eligible environmental projects;

B) framework adhered to international standards (including but not limited to, the International Capital Market Association (the "ICMA") Green Bond Principles, future European Union Green Bond Standard (the "EU GBS")); and

C) issuers that did not significantly harm other environmental and social objectives while demonstrating good governance practices.

The use of proceeds for these bonds was clearly defined and aligned with the objectives above.

Additionally, the Fund committed to include a minimum allocation of 1% of its Net Asset Value to sustainable social activities. This was achieved by investing in bonds labelled as "social" or in any other securities, whose:

A) proceeds were used on eligible social projects;

B) framework adhered to international standards (including but not limited to, ICMA Social Bond Principles); and

C) issuers that did not significantly harm other environmental and social objectives while demonstrating good governance practices.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary data tools and qualitative research to ensure alignment with the Do No Significant Harm (DNSH) principle across the portfolio.

Corporate issuers were monitored using the Principle Adverse Impact Risk App ("PAI Risk App"). The PAI Risk App uses data from MSCI to identify issuers involved in harmful economic activities and/or controversies. Issuers deemed to violate PAI #7 (activities negatively affecting biodiversity-sensitive areas), #10 (violation of the UN Global Compact principles and the principles of the OECD Guidelines for Multinational Enterprises), and #14 (exposure to controversial weapons) are excluded from the Fund's investment universe.

The Investment Manager also uses the Energy and Environmental Transition Index ("EETI") which ranks the remaining issuers in the Fund's investment universe according to their GHG emissions and intensity. Issuers falling within the bottom 20% of their peer groups with respect to PAI #1 (GHG emissions) and #3 (carbon footprint) (for corporates) and PAI #15 (GHG intensity) (for sovereigns) are excluded from the investment universe.

Additionally, sovereign issuers are subjected to tests based on their political liberties (PAI #16) and/or corruption.

When deploying funds to sustainable investments, especially with regards to the commitment to invest 11% of the Net Asset Value (NAV) in keeping with environmental and social objectives, the Investment Manager applied additional qualitative assessment (based on internal research or on external second party opinion) of the issuer's and of the projects' DNSH eligibility.

During the reference period there were no breaches of the Fund's criteria.

How were the indicators for adverse impacts on sustainability factors taken into account?

Adverse impact indicators, including PAIs and other data points deemed by the Investment Manager as proxies for adverse impact, were used to:

a) remove issuers that were considered to do significant harm from the portfolio; and

b) inform the Investment Manager about the risk associated with adverse impact and take appropriate action – that included due diligence, qualitative scrutiny and/or engagement (for details of an engagement see the "Principal Adverse Impact" and "Investment Strategy of the Fund" sections of this annex).

While assessing eligible green and social bonds, the Investment Manager reviewed and documented the materiality of relevant PAIs for the project as well as how the project's implementation affected the issuer's overall PAIs outlook.

For example, while investing in a green bond whose use of proceeds targeted development of renewable energy sources, (e.g., solar/PV panels), the Investment Manager ascertained that financed projects scored well on PAIs linked to GHG emissions.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

For bonds issued by corporate issuers, the sustainable investments are aligned with the Organisation for Economic Cooperation and Development (the "OECD") Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. For bonds issued by sovereign countries, the OECD Guidelines for Multinational Enterprises and the United Nations Guiding Principles on Business and Human Rights are not applicable to such investments.

Alignment is monitored using data from MSCI. Breaches identified based on the data provided by MSCI are flagged in the investment compliance system for subsequent investigation by the Investment Manager.

Where due diligence proves that the issuer is not aligned with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, it is deemed un-investable and will be disposed of by the Investment Manager.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators were considered for the purpose of:

- (i) identifying best-in-class issuers
- (ii) restricting the Fund's investment universe; and
- (iii) guiding thematic engagement.

Identifying best-in-class issuers

The Fund invested in bonds issued by corporates and sovereigns deemed by the Investment Manager to be "Environmental Champions". "Environmental Champions" were identified using two proprietary ESG rankings:

- The EETI ranked sovereign issuers energy efficiency, natural capital conservation, renewable energy performance, using various data points, including GHG Intensity (emissions normalized by gross domestic product, CO₂e/GDP).
- The ESG Credit App ranked corporate issuers by their GHG emissions and GHG intensity using various data points such as scope 1 and 2 GHG emissions, emitters' historic trajectories.

Restricting Fund's investible universe

Sovereign issuers falling within the bottom 20% of the investment universe based on the EETI and corporate issuers falling within the bottom 20% (i.e. climate laggards) based on the ESG Credit App were also excluded from the portfolio.

Guiding thematic engagement

The Investment Managers are on target with their commitment effective 1 January 2023 to engage on a calendar year basis with 5% of holdings which were considered as underperformers in terms of their aggregate exposure to applicable mandatory PAIs metrics.

PAI indicators	Unit of measurement	Value	Coverage
GHG Emissions: Scope 1 EUR	tCO ₂ e	6,014.33	42.62%

What was the proportion of sustainability-related investments?

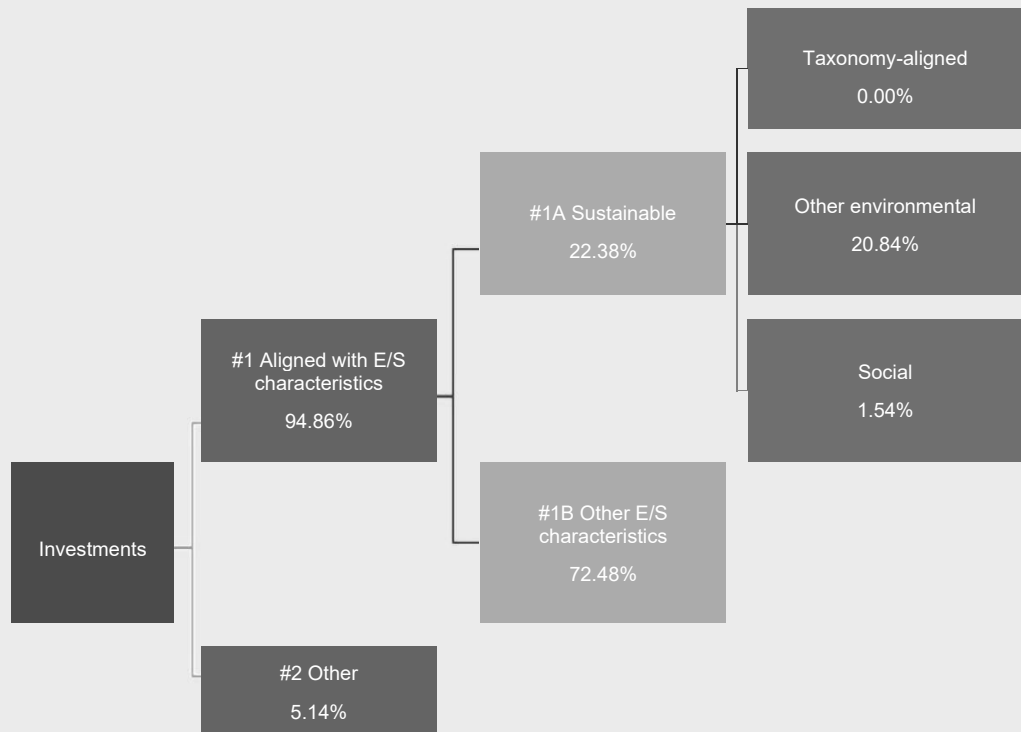

The proportion of sustainable investments was 22.38%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

94.86% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (5.14%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers for which there was no ESG rating.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 22.38% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made?***

As of 30 June 2023, the top sectors and sub-sectors of this Fund, excluding cash and derivatives, were:

Top sector	% of Assets
Government bonds	46.53%
Financials	29.03%
Industrials	5.89%
Health Care	4.19%
Consumer Staples	4.14%

Diversified Telecommunication Services	1.46%
Insurance	1.34%
Transportation Infrastructure	1.28%
Pharmaceuticals	1.09%
Capital Markets	1.04%
Building Products	1.01%
Biotechnology	0.78%
Electrical Equipment	0.76%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g for a transition to a green economy.

- **operational expenditure (OpEx)** reflecting the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

- Yes
- In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 20.84% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

The proportion of Socially sustainable Investments was 1.54%

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 5.14% and included cash and derivatives for which there were no minimum environmental or social safeguards. It also included issuers for which there was no ESG rating.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Multiple binding elements in the investment strategy helped to support the attainment of environmental characteristics promoted by the Fund:

* The Investment Manager utilised numerous IT tools in order to determine a portfolio's composition so that it is aligned with the promoted environmental and social characteristics. Using internal and external inputs (e.g., MSCI datasets), the investment managers assessed which issuers were eligible (or not) to be held in the portfolio. For example, those sovereigns that were classified as "Not Free" within the Freedom House Index or lagged in their environmental performance (i.e., those that fell within the bottom 20% as ranked by our proprietary tool, the Energy and Environmental Transition Index [EETI]) or utility companies that derived unacceptable levels of revenue from fossil fuels and lacked ambitious decarbonisation targets were excluded from the investable universe (a full list of exclusions is available in the Fund's pre-contractual disclosure).

* Engagement is an integral part of the Fund's sustainability approach and ESG management. While all our engagements are listed above, in the "How did the sustainability indicators perform?" section, the following example helps to highlight the portfolio managers' approach. Over the review period the Investment Manager engaged with the Austrian Debt Management Office (DMO) in order to better understand the country's sustainability policy. During our meetings, the Investment Manager discussed the importance of climate adaptation measures to ensure long-term growth of the national economy, using the impact of changing weather patterns on hydroelectric energy generation as an example of potentially adverse impacts that can be addressed with modern technological solutions. Moreover, the Investment Manager also raised the issue of the biodiversity crisis, which is viewed by the Investment Manager as a matter of equal importance to the climate change crisis.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable

Franklin USD Investment Grade Corporate Bond UCITS ETF (the "Fund")

**FRANKLIN
TEMPLETON**

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective?

YES

- It made **sustainable investments with an environmental objective: 0.00%**
 - in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made **sustainable investments with a social objective: 0.00%**

NO

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 17.59% of sustainable investments
 - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Over the review period, the Fund promoted environmental and social characteristics through a combination of exclusions, best-in-class investing and engagement:

* In order to promote energy conservation and the reduction of greenhouse gas (GHG) emissions, the portfolio management team sought exposure to, what they termed, environmental champions. Those sovereign issuers were labelled environmental champions that were ranked within the top 20% of their peer group, based on environmental factors including, but not limited to, GHG emissions, energy intensity, protection of biodiversity, air pollution, and renewable energy mix. For corporate issuers, it was companies that were ranked within the top 20% of their peer industry group based on their GHG intensity. At the end of the reporting period, the Fund's allocation to environmental champions stood at 33.24% of its net asset value (NAV).

* Moreover, the bottom 20% of so-called environmental laggards was removed from the investable universe. On top of this, the Fund also refrained from investing in issuers where exposure to fossil fuel extraction or energy production from fossil fuels exceeded the investment team's acceptable limit (as described in the Fund's pre-contractual disclosure: e.g., any company, which derives more than 5% of its revenues from thermal coal extraction is deemed not investable).

* In order to support biodiversity protection and promote responsible waste management (particularly of plastic waste), these subjects were addressed during the investment management team's extensive engagements with issuers from sectors that have a material impact on biodiversity (such as food and beverage). More details are provided below, in the "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" section. Additionally, the Fund avoided investments in issuers that had a negative impact on biodiversity sensitive areas.

* Over the review period, the Fund maintained alignment with multiple international norms, observing the United Nations (UN) Global Compact, UN Guiding Principles on Business and Human Rights and the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises.

* Finally, the portfolio management team initiated an engagement campaign to promote gender diversity, with a focus on the gender pay gap and women in leadership and management positions. These efforts will continue into the third quarter 2023.

* The Fund committed to allocate a minimum of 10% of its NAV to sustainable investments in economic activities that contribute to environmental objectives and a minimum of 1% in those that contribute to social objectives. Over the reporting period, 17.59% of the Fund's NAV was invested in sustainable investments (please see a detailed breakdown in the below section "How did the sustainability indicators perform?"). This was achieved primarily through investments in green, social and sustainability use of proceeds bonds that were issued explicitly to finance a specific set of eligible environmental and/or social projects. An example of

this includes the Fund's investment in a green bond issued by an American telecom company Verizon. Proceeds from this transaction finance variety of environmental goals, including a development of internal solar and wind energy sources and purchasing renewable energy from 3rd parties, pivot to more energy efficient hardware solutions and buildings and sustainable water management in Verizon's facilities.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

(if not stated otherwise, all values are as of 30th June)

- Exposure to the principle adverse impacts (the "PAIs") indicators compared to the Bloomberg US Corporate Bond Index. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators as of 30 June 2023.

Number of issuers, with which the Investment Manager engaged	38.00

● **... And compared to previous periods?**

Not applicable. This is the first periodic report prepared for the Fund in accordance with Regulation (EU) 2022/1288.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?**

The objective of the sustainable investments was, amongst others, to fund and promote:

- the efficient use of energy, raw materials, water, and land;
- the production of renewable energy;
- the reduction of waste, and greenhouse gas (GHG) emissions, and lower impact of economic activities on biodiversity;
- the development of a circular economy;
- tackling inequalities and fostering social cohesion;
- social integration;
- good labour relations; or
- investments in human capital, including disadvantaged communities.

The Sub-Fund's sustainable investments included a minimum allocation of 10% of its Net Asset Value to sustainable investments in economic activities that contributed to environmental objectives.

This was achieved by investing in bonds labelled as "green" or in any other securities whose:

- proceeds were used on eligible environmental projects;
- framework adhered to international standards (including but not limited to, the International Capital Market Association (the "ICMA") Green Bond Principles, future European Union Green Bond Standard (the "EU GBS")); and
- issuers that did not significantly harm other environmental and social objectives while demonstrating good governance practices.

The use of proceeds for these bonds was clearly defined and aligned with the objectives above.

Additionally, the Sub-Fund committed to include a minimum allocation of 1% of its Net Asset Value to sustainable social activities. This was achieved by investing in bonds labelled as "social" or in any other securities, whose:

- proceeds were used on eligible social projects;
- framework adhered to international standards (including but not limited to, ICMA Social Bond Principles); and
- issuers that did not significantly harm other environmental and social objectives while demonstrating good governance practices.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager uses proprietary data tools and qualitative research to ensure alignment with the Do No Significant Harm (DNSH) principle across the portfolio.

Corporate issuers are monitored using the Principle Adverse Impact Risk App ("PAI Risk App"). The PAI Risk App uses data from MSCI to identify issuers involved in harmful economic activities and/or controversies. Issuers deemed to violate PAI #7 (activities negatively affecting biodiversity-sensitive areas), #10 (violation of the UN Global Compact principles and the principles of the OECD Guidelines for Multinational Enterprises), and #14 (exposure to controversial weapons) are excluded from the Sub-Fund's investment universe.

The Investment Manager also uses the Energy and Environmental Transition Index ("EETI") which ranks the remaining issuers in the Sub-Fund's investment universe according to their GHG emissions and intensity. Issuers falling within the bottom 20% of their peer groups with respect to PAI #1 (GHG emissions) and #3 (carbon footprint) (for corporates) and PAI #15 (GHG intensity) (for sovereigns) are excluded from the investment universe.

Additionally, sovereign issuers are subjected to tests based on their political liberties (PAI #16) and/or corruption.

When deploying funds to sustainable investments, especially with regards to the commitment to invest 11% of the Net Asset Value (NAV) in keeping with environmental and social objectives, the Investment Manager applies additional qualitative assessment (based on internal research or on external second party opinion) of the issuer's and of the projects' DNSH eligibility.

How were the indicators for adverse impacts on sustainability factors taken into account?

Adverse impact indicators, including PAIs and other data points deemed by the Investment Manager as proxies for adverse impact, were used to:

- a) remove issuers that were considered to do significant harm from the portfolio; and
- b) inform the Investment Manager about the risk associated with adverse impact and take appropriate action – that included due diligence, qualitative scrutiny and/or engagement (for details of an engagement see the "Principal Adverse Impact" and "Investment Strategy of the Sub-Fund" sections of this annex).

While assessing eligible green and social bonds, the Investment Manager reviewed and documented the materiality of relevant PAIs for the project as well as how the project's implementation affected the issuer's overall PAIs outlook.

For example, while investing in a green bond whose use of proceeds targeted development of renewable energy sources, (e.g., solar/PV panels), the Investment Manager ascertained that financed projects scored well on PAIs linked to GHG emissions.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

For bonds issued by sovereign countries, the Organisation for Economic Cooperation and Development (the "OECD") Guidelines for Multinational Enterprises and the United Nations Guiding Principles on Business and Human Rights are not applicable to such investments. For bonds issued by corporate issuers, the sustainable investments are aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

Alignment is monitored using data from MSCI. Breaches identified by these service providers are flagged in the investment compliance system for subsequent investigation by the Investment Manager.

Where due diligence proves that the issuer is not aligned with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, it is deemed un-investable.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators were considered for the purpose of:

- (i) identifying best-in-class issuers
- (ii) restricting the Sub-Fund's investment universe; and
- (iii) guiding thematic engagement

Identifying best-in-class issuers

The Sub-Fund invested in bonds issued by corporates and sovereigns deemed by the Investment Manager to be "Environmental Champions". "Environmental Champions" were identified using two proprietary ESG rankings:

- The EETI ranked sovereign issuers energy efficiency, natural capital conservation, renewable energy performance, using

various data points, including GHG Intensity (emissions normalized by gross domestic product, CO2e/GDP).

- The ESG Credit App ranked corporate issuers by their GHG emissions and GHG intensity using various data points such as scope 1 and 2 GHG emissions, emitters' historic trajectories.

Restricting Fund's investible universe

Sovereign issuers falling within the bottom 20% of the investment universe based on the EETI and corporate issuers falling within the bottom 20% (i.e. climate laggards) based on the ESG Credit App were also excluded from the portfolio.

Guiding thematic engagement

The Investment Managers are on target with their commitment effective 1 January 2023 to engage on a calendar year basis with 5% of holdings which were considered as underperformers in terms of their aggregate exposure to applicable mandatory PAIs metrics.

Applying exclusions.

The Fund also considered UNGC violations and exposure to controversial weapons for the purpose of applying specific ESG exclusions.

PAI metrics are as of 30 June 2023.

What was the proportion of sustainability-related investments?

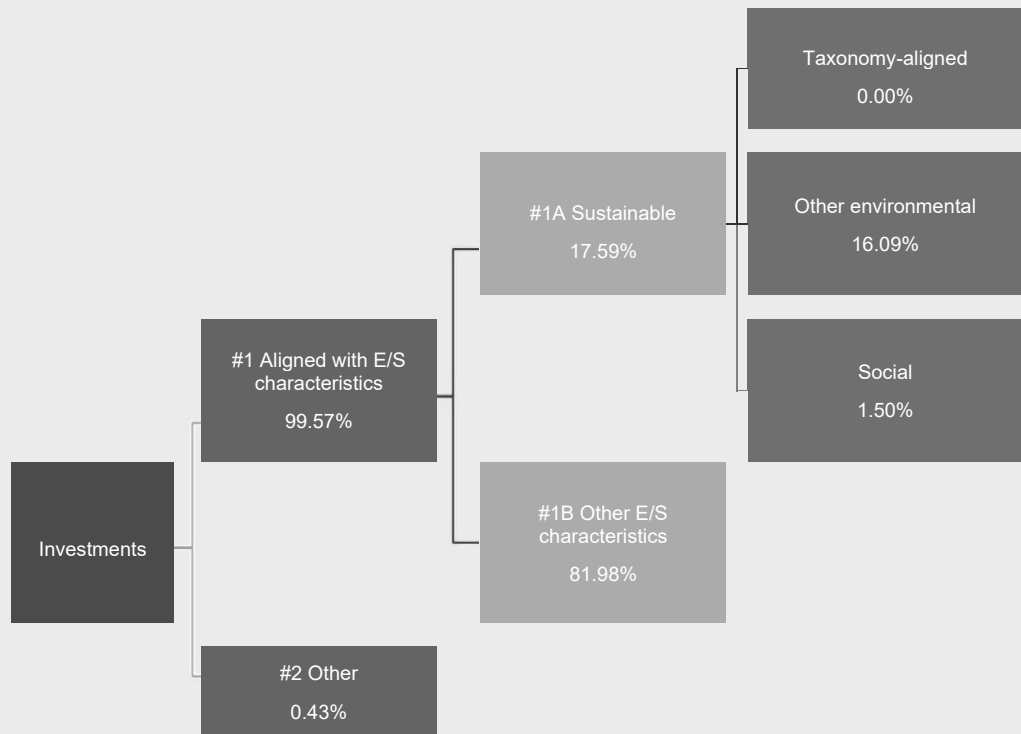

The proportion of sustainability-related investments was 17.59%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.57% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (0.42%) was not aligned with the promoted characteristics and consisted primarily of liquid assets held for the purposes of servicing the day-to-day requirement of the Fund, or issuers for which there was no ESG rating.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 17.59% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made?***

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g for a transition to a green economy.

- **operational expenditure (OpEx)** reflecting the green operational activities of investee companies.

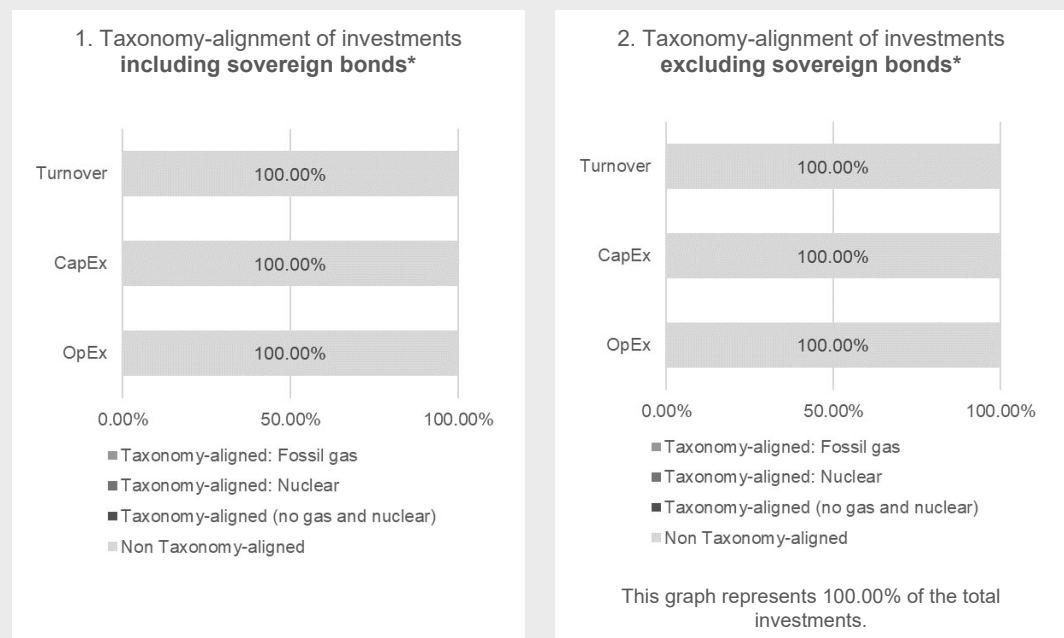

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

- Yes
- In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The Fund did not invest in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to make a minimum proportion 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 16.09% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

What was the share of socially sustainable investments?

The proportion of Socially sustainable Investments was 1.50%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 0.43% and included cash held for the purposes of servicing the day-to-day requirements of the Fund, for which there were no minimum environmental or social safeguards. It also included issuers for which there was no ESG rating.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Multiple binding elements in the investment strategy helped to support the attainment of environmental characteristics promoted by the Fund:

* The investment management team utilised numerous IT tools in order to determine a portfolio's composition so that it is aligned with the promoted environmental and social characteristics. Using internal and external inputs (e.g., MSCI datasets), the investment managers assessed which issuers were eligible (or not) to be held in the portfolio. For example, those sovereigns that were classified as "Not Free" within the Freedom House Index or lagged in their environmental performance (i.e., those that fell within the bottom 20% as ranked by their proprietary tool, the Energy and Environmental Transition Index [EETI]) or utility companies that derived unacceptable levels of revenue from fossil fuels and lacked ambitious decarbonisation targets were excluded from the investable universe (a full list of exclusions is available in the Fund's pre-contractual disclosure).

* Engagement is an integral part of the Fund's sustainability approach and ESG management. While all engagements are listed above, in the "How did the sustainability indicators perform?" section, the following example helps to highlight the portfolio managers' approach. The Investment Managers' sustainability analysts met with IR representatives of Orange SA to discuss topics of energy efficiency and digital exclusion. The analysts learned that the company uses sophisticated tools to monitor optimal coverage and capacity of their mobile telecommunication network. This translated to more efficient use of electric energy, which in turn reduces GHG emissions. The analysts encouraged the issuer to seek further green energy sourcing, by both procuring green energy and on-site production. Separate topic covered concerned digital exclusion. While Orange SA promotes inclusion of people with limited digital skills (e.g., elderly), the analysts stressed an importance of providing basic telecommunication services to economically disadvantaged remote and rural areas.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable

Franklin Global Equity SRI UCITS ETF (the "Fund")

Legal Entity Identifier: 549300ZPOUIIE1XTV058

**FRANKLIN
TEMPLETON**

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

YES

- It made **sustainable investments with an environmental objective: 0.00%**
 - in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made **sustainable investments with a social objective: 0.00%**

NO

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 20.26% of sustainable investments
 - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the environmental and social characteristics of (i) Investment in environmentally and socially responsible companies; and (ii) Avoidance of investment in companies whose products have negative social or environmental impacts by replicating the LibertyQ Global Equity SRI Index (the "Index"), which is designed to represent the performance of companies that have high Environmental, Social and Governance (ESG) ratings relative to their sector peers to ensure the inclusion of the best-in-class companies from an ESG perspective selected from the MSCI ACWI Index (the "Parent Index"). Companies included in the Index are required to have a minimum MSCI ESG Rating of 'A' and be included in the top 25% of issuers in their relevant industrial sector.

The Fund invested in a portfolio of large and mid-cap equity holdings in countries globally that included all or a large proportion of the securities included in the Index. Securities were also held in the same proportion as the weight of those securities in the Index.

The Index promoted environmental characteristics by excluding companies that had exposure to or derived revenue from activities including fossil fuel reserves, fossil fuel extraction and any severe environmental controversies. The Index also applied a range of socially responsible exclusions including conventional and controversial weapons, civilian firearms, nuclear weapons, tobacco, adult entertainment, alcohol, gambling, GMO and nuclear power. The Index also excluded companies that were non-compliant with the UNGC principles, UN Declaration of Human Rights and the ILO Declaration on Fundamental Principles and Rights at Work.

How did the sustainability indicators perform?

The Fund uses the MSCI ESG Rating score of the Index relative to the broader benchmark market universe (represented by the Parent Index) and the Greenhouse Gas (GHG) Intensity of securities in the Index, as measured by scope 1, 2 and 3 emissions as its sustainability indicators.

The combined weighted Scope 1, 2 and 3 average carbon intensity (tons CO₂e/\$ sales) of the Index was 32.7% lower than that of the Parent Index (654.8 vs. 973) based on data provided by MSCI. The Index also achieved an ESG score of 8.4 versus the broader benchmark universe, represented by the Parent Index of 6.8.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainability KPI Name	Value	Benchmark
MSCI ESG Rating score of the reference benchmark compared to the Parent index	8.40	6.80
The Greenhouse Gas (GHG) Intensity of securities in the Index compared to the Parent Index as measured by combined weighted scope 1, 2 and 3 emissions. (tCO2e/M\$ invested)	654.80	973.00

● **... And compared to previous periods?**

Not applicable. This is the first periodic report prepared for the Fund in accordance with Regulation (EU) 2022/1288.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?**

The objectives of the sustainable investments that the Fund made were to fund and promote environmentally and socially responsible companies. The sustainable investments were also able to meet the criteria for "do no significant harm" in accordance with SFDR article 2(17).

Although the Fund did not have sustainable investment as its objective, it committed to investing a minimum of 5% of its Net Asset Value in securities that can be defined as sustainable with an environmental objective. These were securities that through their products and services contributed to an environmental objective and were able to meet the criteria for "do no significant harm" in accordance with SFDR article 2(17). At the end of the reference period, 7.37% of the Fund's securities were invested in sustainable investments with an environmental objective.

Although the Fund did not have sustainable investment as its objective, it committed to investing a minimum of 5% of its Net Asset Value in securities that can be defined as sustainable with a social objective. These were securities that through their products and services contributed to a social objective and were able to meet the criteria for "do no significant harm" in accordance with SFDR article 2(17). At the end of the reference period, 12.89% of the Fund's securities were invested in sustainable investments with a social objective.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

By tracking the Index, the Fund avoided investing in many companies that cause significant harm to any environmental or social objective. In addition, those securities defined as sustainable investments were assessed to ensure that they did not cause significant harm to any environmental or social objective and ensure alignment with SFDR Article 2(17). This assessment required the individual company to meet strict criteria including the following:

- no ties to controversial weapons
- less than 1% of revenue from thermal coal
- less than 5% of revenue from tobacco related activities
- is not a tobacco producer
- not involved in any serious ESG Controversies.

During the reference period there were no breaches of the Fund's criteria.

----- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The Index methodology includes criteria to reduce exposure to or to exclude securities which conflict with the following principal adverse indicators:

- Exposure to companies active in the fossil fuel sector (#4)
- Violations of UN Global Compact Principles (#10)
- Exposure to controversial weapons (#14)

----- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Yes. Any securities that failed to comply with the UNGC principles, OECD Guidelines or UN Guiding Principles on Business and Human Rights were excluded from the Index.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Please see the response to "How were the indicators for adverse impacts on sustainability factors taken into account?"

What were the top investments of this financial product?

During the reference period, the largest 15 investments of this Fund, excluding cash and derivatives, were:

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting the green operational activities of investee companies.

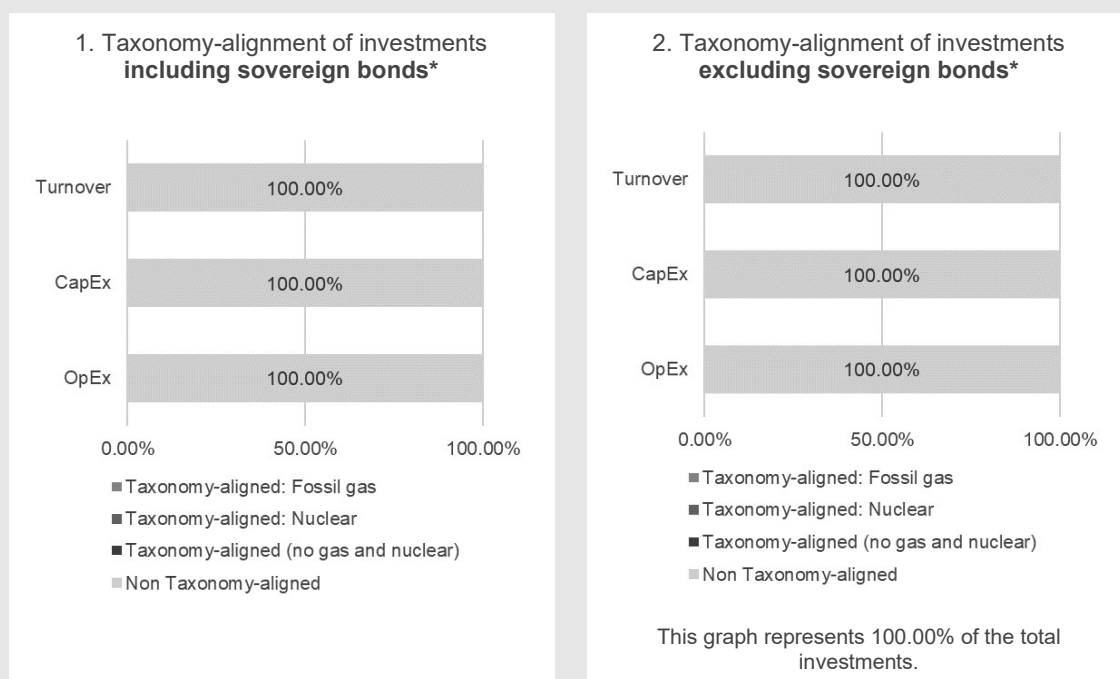

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Consistent with its intentions, as set out in the Supplement, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

- Yes
 In fossil gas In nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

What was the share of investments made in transitional and enabling activities?

Consistent with its intentions, as set out in the Supplement, the Fund did not invest in transitional or enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. As set out in the Supplement, the Fund does not commit to making sustainable investments which are aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

Consistent with its intentions, as set out in the Supplement, all of the Fund's sustainable investments had an environmental objective which was not aligned with EU Taxonomy.

What was the share of socially sustainable investments?

The proportion of Socially sustainable Investments was 12.89%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under ‘#2 Other’ was 0.44% and included cash and derivatives for which there were no minimum environmental or social safeguards. It also included issuers for which there was no ESG rating.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Fund has tracked the Index which excluded stocks of companies that had exposure to and/or derived revenue from certain activities in order to promote the environmental characteristics of the Fund.

The Index is reviewed semi-annually and all securities are assessed for their continued eligibility within the Index. The Investment Manager monitors the portfolio regularly and ensures that the Fund continues to comply with the Index methodology and analyses the investments exposure at a portfolio level for possible adverse impact through the Index tracking. The Investment Manager ensures that the investments of the Fund continue to track the Index closely, thereby ensuring alignment with ESG characteristics of the Index.

Securities that no longer pass the eligibility criteria of the Index are deleted at the rebalance and divested from the Fund. The Investment Managers implement the Index changes and sell out of those securities in a timely fashion.

Proxy voting is carried out across both our active and passively managed funds and ETFs. This helps us exercise our voting rights across both our active and passive managed strategies to be more aligned on sustainability issues, in a systematic way. Where engagements are undertaken this will typically be led by our fundamental research analysts from actively managed strategies, who maintain a direct relationship with the issuers concerned. Engagements are recorded and shared between teams in a central engagement tool.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Further information on the methodology can be found at the following links:

- https://www.msci.com/eqb/methodology/meth_docs/LibertyQ_Global_Equity_SRI_Index_Feb_2018.pdf
- https://www.msci.com/eqb/methodology/meth_docs/MSCI_SRI_Methodology_Feb2021.pdf

● **How does the reference benchmark differ from a broad market index?**

The Index is structured to represent the performance of companies that have high Environmental, Social and Governance (ESG) ratings relative to their sector peers, to ensure the inclusion of the best in-class companies from an ESG perspective, which is not the case for the Parent Index, the Fund's relevant broad market index. The Index methodology also provides for multiple activity-based exclusions, as described above, which are not features of the Parent Index.

● **How did this financial product perform ...**

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective?

<input type="checkbox"/> YES	<input checked="" type="checkbox"/> NO
<input type="checkbox"/> It made sustainable investments with an environmental objective: 0.00%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 10.51% of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: 0.00%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the environmental characteristics of (i) helping investors transition towards a low-carbon economy and (ii) alignment of investments to the Paris Climate Agreement by replicating the STOXX® Europe 600 Paris-Aligned Benchmark Index (the "Index"), which is designed to meet the minimum requirements for EU Paris Aligned Benchmarks (EU PABs).

The Fund invested in a portfolio of large and mid-cap equity holdings in European countries that included all or a large proportion of the securities included in the Index. Securities were also held in the same proportion as the weight of those securities in the Index. The Index was designed to align to the Paris Climate Agreement and help investors to transition towards a low-carbon economy and delivers reduced carbon emissions intensity compared to the STOXX Europe 600 Index (the "Parent Index"), reduced exposure to fossil fuel reserves and increased exposure to potential climate change opportunities.

The Index also excludes companies involved in controversial weapons, tobacco, coal and fossil fuels and power generation subject to specific revenue thresholds specified by the Index provider, military contracting, thermal coal, oil sands, shale energy, gambling and alcohol and those deemed by ISS to be causing a significant obstruction to UN Sustainable Development Goal (SDG) 13 - Climate Action.

How did the sustainability indicators perform?

The Fund uses the Greenhouse Gas (GHG) Intensity of securities in the Index, as measured by scope 1, 2 and 3 emissions as its sustainability indicator.

The combined weighted Scope 1, 2 and 3 average carbon intensity (tons CO₂e/\$ sales) of the Index was 38.5% lower than that of the Parent Index (531.5 vs. 864.3) based on data provided by MSCI. The absolute carbon intensity for Scope 1,2 and 3 emissions of the Index was 52.2% lower than the Parent Index (544.8 vs. 1,140.9). Stoxx calculates carbon intensity from data provided by ISS ESG.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainability KPI Name	Value	Benchmark
The Greenhouse Gas (GHG) Intensity of securities in the reference benchmark compared to the parent index as measured by combined weighted scope 1, 2 and 3 emissions. (tCO2e/M\$ invested)	531.50	864.30
The Greenhouse Gas (GHG) Intensity of securities in the reference benchmark compared to the parent index as measured by absolute scope 1, 2 and 3 emissions. (tCO2e/M\$ invested)	544.80	1,140.90

● **... And compared to previous periods?**

Not applicable. This is the first periodic report prepared for the Fund in accordance with Regulation (EU) 2022/1288.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?**

The objectives of the sustainable investments that the Fund made were to either invest in companies that are providing solutions to mitigate the consequences of climate change or that have established climate policies and set carbon reduction targets and are constituents of the Index. The sustainable investments also met the criteria for "do no significant harm" in accordance with SFDR article 2(17).

Although the Fund did not have sustainable investment as its objective, it committed to investing a minimum of 10% of its Net Asset Value in securities that can be defined as sustainable. These were securities that through their products and services contributed to an environmental objective and were able to meet the criteria for "do no significant harm" in accordance with SFDR article 2 (17). At the end of the reference period, 10.51% of the Fund's Net Asset Value was invested in sustainable investments with an environmental objective.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

By tracking the Index, the Fund avoided investing in many companies that cause significant harm to any environmental or social objective. In addition, those securities defined as sustainable investments were assessed to ensure that they did not cause significant harm to any environmental or social objective and ensure alignment with SFDR Article 2(17). This assessment required the individual company to meet strict criteria including the following:

- no ties to controversial weapons
- less than 1% of revenue from thermal coal
- less than 5% of revenue from tobacco related activities
- is not a tobacco producer
- not involved in any serious ESG Controversies.

During the reference period there were no breaches of the Fund's criteria.

----- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The Index methodology includes criteria to reduce exposure to or to exclude securities which conflict with the following principal adverse indicators:

- GHG intensity of investee companies (#3)
- Exposure to companies active in the fossil fuel sector (#4)
- Violations of UN Global Compact Principles (#10)
- Exposure to controversial weapons (#14)

----- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Yes. Any securities that failed to comply with the UNGC principles, OECD Guidelines or UN Guiding Principles on Business and Human Rights were excluded from the Index.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

 **How did this financial product consider principal adverse impacts on sustainability factors?**

Please see the response to "How were the indicators for adverse impacts on sustainability factors taken into account?"

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the top investments of this financial product?

During the reference period, the largest 15 investments of this Fund, excluding cash and derivatives, were:

Largest investments	Sector	% of Assets	Country
LVMH Moet Hennessy Louis Vuitton SE ORD EUR.3	Consumer Discretionary	4.57%	France
Novo Nordisk A/S ORD DKK.2 CL B	Health Care	4.21%	Denmark
ASML Holding NV ORD EUR.09	Information Technology	4.13%	Netherlands
AstraZeneca PLC ORD GBP.25	Health Care	4.07%	United Kingdom
Novartis AG ORD CHF.5	Health Care	3.27%	Switzerland
Nestle SA ORD REGD CHF0.1	Consumer Staples	2.83%	United States
SAP SE ORD EUR NPV	Information Technology	2.36%	Germany
Cie Financiere Richemont SA ORD CHF1 CL A	Consumer Discretionary	2.11%	Switzerland
Hermes International ORD NPV	Consumer Discretionary	2.04%	France

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 1 July 2022 - 30 June 2023.

What was the proportion of sustainability-related investments?

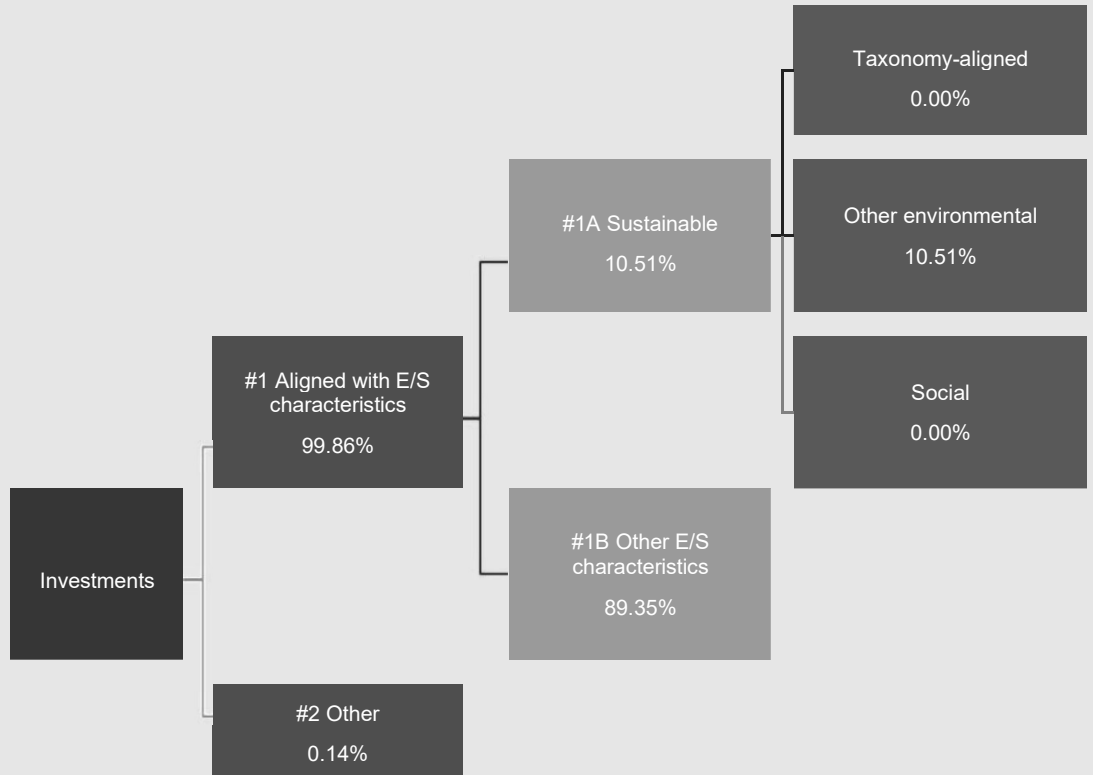

The proportion of sustainable investments was 10.51%.

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

99.86% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (0.14%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers for which there was no ESG rating.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 10.51% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● ***In which economic sectors were the investments made?***

As of 30 June 2023, the top sectors and sub-sectors of the Fund, excluding cash and derivatives, were:

Top sector	% of Assets
Health Care	18.63%
Consumer Discretionary	16.68%
Financials	13.32%
Information Technology	11.50%
Consumer Staples	11.11%
Industrials	10.16%
Materials	7.83%
Communication Services	6.70%
Utilities	3.03%
Real Estate	0.90%
Top sub-sector	% of Assets
Pharmaceuticals	16.69%
Textiles, Apparel & Luxury Goods	12.64%
Chemicals	6.56%
Semiconductors & Semiconductor Equipment	5.84%
Insurance	5.57%
Diversified Telecommunication Services	4.32%
Personal Care Products	4.16%
Banks	3.97%
Software	3.70%
Beverages	3.24%
Food Products	2.94%
Capital Markets	2.73%
Air Freight & Logistics	2.51%
Electric Utilities	2.33%
Professional Services	1.85%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g for a transition to a green economy.

- **operational expenditure (OpEx)** reflecting the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Consistent with its intentions, as set out in the Supplement, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

- Yes
- In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

Consistent with its intentions, as set out in the Supplement, the Fund did not invest in transitional or enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. As set out in the Supplement, the Fund does not commit to making sustainable investments which are aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

Consistent with its intentions, as set out in the Supplement, all of the Fund's sustainable investments had an environmental objective which was not aligned with EU Taxonomy.

What was the share of socially sustainable investments?

Consistent with its intentions, as set out in the Supplement, the Fund did not invest in sustainable investments with a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under ‘#2 Other’ was 0.14% and included cash and derivatives for which there were no minimum environmental or social safeguards. It also included issuers for which there was no ESG rating.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As outlined above, the Fund has tracked the Index which excluded stocks of companies that had exposure to and/or derived revenue from certain activities in order to promote the environmental characteristics of the Fund.

The Index is rebalanced quarterly and all securities are assessed for their continued eligibility within the Index. The Investment Manager monitors the portfolio regularly and ensures that the fund continues to comply with the Index methodology and analyses the investments exposure at a portfolio level for possible adverse impact through the Index tracking. The Investment Manager ensures that the investments of the fund continue to closely track the Index, thereby ensuring alignment with ESG characteristics of the Index.

Securities that no longer pass the eligibility criteria of the Index are deleted at the rebalance and divested from the Fund. The Investment Managers implement the Index changes and sell out of those securities in a timely fashion.

Proxy voting is carried out across both our active and passively managed funds and ETFs. This helps us exercise our voting rights across both our active and passive managed strategies to be more aligned on sustainability issues, in a systematic way. Where engagements are undertaken this will typically be led by our fundamental research analysts from actively managed strategies, who maintain a direct relationship with the issuers concerned. Engagements are recorded and shared between teams in a central engagement tool.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Further information on the methodology can be found at the following link:

https://www.stoxx.com/document/Indices/Common/Indexguide/stoxx_index_guide.pdf

page 357

● **How does the reference benchmark differ from a broad market index?**

The Index is structured to deliver decarbonisation requirements which are absolute but also relative to the Parent Index, which is a relevant broad market index. The Index methodology also provides for multiple activity-based exclusions, as described above, which are not features of the Parent Index.

● **How did this financial product perform ...**

...with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

**FRANKLIN
TEMPLETON**

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

YES

- It made **sustainable investments with an environmental objective: 0.00%**
 - in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made **sustainable investments with a social objective: 0.00%**

NO

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 17.34% of sustainable investments
 - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the environmental characteristics of (i) helping investors transition towards a low-carbon economy and (ii) alignment of investments to the Paris Climate Agreement by replicating the S&P 500 Net Zero 2050 Paris-Aligned ESG Index (the "Index"), which is designed to meet the minimum requirements for EU Paris Aligned Benchmarks (EU PABs).

The Fund invested in a portfolio of US equity holdings that included all or a large proportion of the securities included in the Index. Securities were also held in the same proportion as the weight of those securities in the Index. The Index was designed to align to the Paris Climate Agreement and help investors to transition towards a low-carbon economy and delivers reduced carbon emissions intensity compared to the S&P 500 Index (the "Parent Index"), reduced exposure to fossil fuel reserves and increased exposure to potential climate change opportunities.

The Index also excludes companies involved in controversial weapons, tobacco, small arms, military contracting, thermal coal, oil sands, shale energy, gambling and alcohol and those that were non-compliant with the UNGC principles, OECD Guidelines or UN Guiding Principles on Business and Human Rights.

How did the sustainability indicators perform?

The Fund uses the Greenhouse Gas (GHG) Intensity of securities in the Index, as measured by scope 1, 2 and 3 emissions as its sustainability indicator.

The combined weighted Scope 1, 2 and 3 average carbon intensity (tons CO₂e/\$ sales) of the Index was 61.2% lower than that of the Parent Index (120.9 vs.311.8) based on data provided by S&P and Trucost.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainability KPI Name	Value	Benchmark
The Greenhouse Gas (GHG) Intensity of securities of the reference index compared to the parent index as measured by combined weighted scope 1, 2 and 3 emissions. (tCO ₂ e/M\$ invested) (S&P and Trucost)	120.90	311.83

● ... And compared to previous periods?

Not applicable. This is the first periodic report prepared for the Fund in accordance with Regulation (EU) 2022/1288.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?**

The objectives of the sustainable investments that the Fund made were to either invest in companies that are providing solutions to mitigate the consequences of climate change or that have established climate policies and set carbon reduction targets and are constituents of the Index. The sustainable investments also met the criteria for "do no significant harm" in accordance with SFDR article 2(17).

Although the Fund did not have sustainable investment as its objective, it committed to investing a minimum of 10% of its Net Asset Value in securities that can be defined as sustainable. These were securities that through their products and services contributed to an environmental objective and were able to meet the criteria for "do no significant harm" in accordance with SFDR article 2 (17). At the end of the reference period, 17.34% of the Fund's Net Asset Value was invested in sustainable investments with an environmental objective.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

By tracking the Index, the Fund avoided investing in many companies that cause significant harm to any environmental or social objective. In addition, those securities defined as sustainable investments were assessed to ensure that they did not cause significant harm to any environmental or social objective and ensure alignment with SFDR Article 2(17).
