Publication date: 30/07/2024

What is this product?

Type

Shares of a sub-fund of Fidelity Funds SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

Term

The fund has a defined maturity date.

Objectives

Objective: The fund aims to achieve capital growth over the long term for investors planning to withdraw substantial portions of their investment in the year 2060.

Investment Policy: The fund invests in a range of asset classes such as equities, bonds, interest bearing and money market instruments as well as real estate, infrastructure and eligible exposure to commodities from anywhere in the world, including emerging markets. These investments may be denominated in any currency and some of them may be below investment grade or unrated. The proportion of assets allocated to each asset class varies over time and the fund will increasingly favour lower risk investments as it approaches its target date, shifting to an increasingly conservative asset allocation.

The fund may invest in the following assets according to the percentages indicated:

UCITS and UCIs: up to 100%

infrastructure securities, eligible REITs and commodity exposure: less than 30%

collateralised and securitised debt instruments: up to 20%

SPACs: less than 5%.

The fund may invest in currencies other than euro and, which may or may not be hedged to euro. The Euro to which the name of the fund refers is a currency of reference and not a currency of investments.

Investment Process: The fund is actively managed and references a blend of market indices (each a "Market Index") in order to set internal guidelines around the weightings allocated to different asset classes. The fund is managed to offer an optimised asset allocation between asset classes with different risk and return characteristics. The asset allocation has been designed to de-risk portfolio by migrating from a growth to a defensive asset

allocation up to the fund's target date.

The Investment Manager takes into account Sustainability Risks in its investment process.

For more information, see "Sustainable Investing and ESG Integration".

Derivatives and Techniques: The fund may use derivatives for hedging, efficient portfolio management and investment purposes.

Benchmark: As at 1 January 2023, the Market Indices consist of MSCI World ex Europe Index (Net) ; MSCI Europe Index (Net) ; MSCI Emerging Markets Index (Net) ; EURIBOR 1M + 3% Further information is available on request at <https://www.fidelity.lu>.

Base Currency: EUR.

Risk Management Method: Commitment.

Additional Information: You may sell (redeem) some or all of your Shares on any Valuation Day. As this is a non-distributing share class, dividends are re-invested.

This key information document describes a sub-fund of Fidelity Funds. A separate pool of assets is invested and maintained for each sub-fund of Fidelity Funds.

The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds. For more information, please consult the prospectus and latest reports and accounts which can be obtained free of charge in English and other main languages from FIL Investment Management (Luxembourg) S.A.

These documents and details of the Remuneration Policy are available via <https://www.fil.com>.

The Net Asset Value of the funds is available at the registered office of FIL Investment Management (Luxembourg) S.A., and at www.fidelityinternational.com.

Depository: Brown Brothers Harriman (Luxembourg) S.C.A.

Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds; who plan to hold their investment for a recommended holding period of at least 5 years; who seek capital growth over the recommended holding period; and who understand the risk of losing some or all of the capital invested.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.
The actual risk can vary significantly if you cash in at the early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Additional risks: emerging markets, credit.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If FIL Investment Management (Luxembourg) S.A. is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years Example investment : EUR 10,000		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6,640 EUR	5,640 EUR
	Average return each year	-33.6%	-10.8%
Unfavourable	What you might get back after costs	8,540 EUR	10,480 EUR
	Average return each year	-14.6%	0.9%
Moderate	What you might get back after costs	10,540 EUR	14,230 EUR
	Average return each year	5.4%	7.3%
Favourable	What you might get back after costs	13,840 EUR	16,690 EUR
	Average return each year	38.4%	10.8%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 12/2021 and 05/2024.

The moderate scenario occurred for an investment between 05/2017 and 05/2022.

The favourable scenario occurred for an investment between 10/2016 and 10/2021.

What happens if FIL Investment Management (Luxembourg) S.A. is unable to pay out?

The assets and liabilities of this product are segregated from those of FIL Investment Management (Luxembourg) S.A. There is no cross-liability between these entities, and the product would not be liable if FIL Investment Management (Luxembourg) S.A. or any delegated service provider were to fail or default.

Shares of this product are traded on a stock market and settlement of such transactions are not affected by the position of FIL Investment Management (Luxembourg) S.A.

This product does not participate in an investor compensation scheme.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	167 EUR	526 EUR
Annual cost impact (*)	1.7%	0.9% each year

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.3% before costs and 7.3% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	1.00% of the amount you pay in when entering this investment.	100 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.56% of the value of your investment per year. This is an estimate based on actual costs over the last year.	56 EUR
Transaction costs	0.11% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	11 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product.

Order Processing: Requests to buy, switch or sell fund shares that are received and accepted by the Management Company by 4:00 PM CET (3:00 PM UK time) on any Valuation Day are ordinarily processed at the NAV for that Valuation Day. Settlement normally occurs within 3 business days.
