## What is this product?

### Type

Shares of a sub-fund of Fidelity Funds SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

### Term

This fund is open-ended.

### Objectives

**Objective:** The fund aims to achieve capital growth over the long term.

**Investment Policy:** The fund invests at least 70% of its assets, in European equities, and euro denominated cash and instruments that may be readily converted to cash. The fund invests primarily in Europe and may invest across different countries in this region, which may include emerging markets.

The fund may invest in the following assets according to the percentages indicated:

European equities: up to 100%

Cash and related instruments: up to 50%.

The fund's portfolio may be concentrated in exposure to a limited number of companies accounting for more than 50% the fund's net assets.

**Investment Process:** In actively managing the fund, the Investment Manager considers valuation metrics, company financials, return on capital, cash flows and other measures, as well as company management, industry, economic conditions, and other factors. Allocation by the Investment Manager is made across three core investment strategies. These core investment strategies comprise a long equity strategy, a market neutral equity strategy and a cash allocation strategy.

The long equity strategy is comprised of long equity positions in European companies that the Investment Manager considers to be good quality businesses at attractive valuations.

The market neutral strategy is comprised of long and short equity or equity index futures positions in European companies. The Investment Manager will gain long exposure to those companies considered to be attractive while maintaining short exposure, through the use of derivatives, to those companies considered to be unattractive.

The cash allocation strategy is comprised of Euro denominated cash and instruments that may be readily converted to cash (including cash deposits, treasury bills and government bonds, short-term corporate bonds, commercial paper, short term money market instruments and certificates of deposit). The Investment Manager will allocate assets between the three strategies guided

by the number of opportunities and position sizing within the long equity strategy. When this strategy provides insufficient securities, assets will be allocated to the market neutral equity strategy and/or the cash allocation strategy based on the attractiveness of risk adjusted returns and market conditions, with a preference for the market neutral equity strategy in typical market conditions.

The Investment Manager takes into account Sustainability Risks in its investment process. For more information, see "Sustainable Investing and ESG Integration".

**Derivatives and Techniques:** The fund may use derivatives for hedging, efficient portfolio management and investment purposes (including derivatives which focus on currency, equities or bonds). The fund may use long or short positions.

**Benchmark:** MSCI Europe Index. Used for: risk measurement only.

**Base Currency:** EUR

**Risk Management Method:** Relative VaR limited to 150% of the VaR the benchmark portfolio. Expected leverage: 250% (may be higher or lower but not expected to exceed 350%).

**Additional Information:** You may sell (redeem) some or all of your Shares on any Valuation Day. As this is a non-distributing share class, dividends are re-invested.

This key information document describes a sub-fund of Fidelity Funds. A separate pool of assets is invested and maintained for each sub-fund of Fidelity Funds.

The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds. For more information, please consult the prospectus and latest reports and accounts which can be obtained free of charge in English and other main languages from FIL Investment Management (Luxembourg) S.A.

**Depository:** Brown Brothers Harriman (Luxembourg) S.C.A.

### Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds; who plan to hold their investment for a recommended holding period of at least 5 years; who seek capital growth over the recommended holding period; and who understand the risk of losing some or all of the capital invested.

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes you keep the product for 5 years.  
The actual risk can vary significantly if you cash in at the early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Additional risks: emerging markets, leverage.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If FIL Investment Management (Luxembourg) S.A. is not able to pay you what is owed, you could lose your entire investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years Example investment : EUR 10,000		If you exit after 1 year	If you exit after 5 years
<b>Scenarios</b>			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	What you might get back after costs	5,470 EUR	5,010 EUR
	Average return each year	-45.3%	-12.9%
<b>Unfavourable</b>	What you might get back after costs	8,110 EUR	8,730 EUR
	Average return each year	-18.9%	-2.7%
<b>Moderate</b>	What you might get back after costs	9,920 EUR	11,690 EUR
	Average return each year	-0.8%	3.2%
<b>Favourable</b>	What you might get back after costs	12,870 EUR	14,520 EUR
	Average return each year	28.7%	7.7%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 03/2015 and 03/2020.

The moderate scenario occurred for an investment between 03/2017 and 03/2022.

The favourable scenario occurred for an investment between 06/2016 and 06/2021.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	734 EUR	1,798 EUR
<b>Annual cost impact (*)</b>	7.3%	3.5% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.7% before costs and 3.2% after costs.

### Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	5.25% of the amount you pay in when entering this investment.	511 EUR
<b>Exit costs</b>	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	1.95% of the value of your investment per year. This is an estimate based on actual costs over the last year.	190 EUR
<b>Transaction costs</b>	0.34% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	33 EUR
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this product.	0 EUR

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product.

**Order Processing:** Requests to buy, switch or sell fund shares that are received and accepted by the Management Company by 4:00 PM CET (3:00 PM UK time) on any Valuation Day are ordinarily processed at the NAV for that Valuation Day. Settlement normally occurs within 3 business days.
