Fidelity Funds - Structured Credit Income Fund

a sub-fund of Fidelity Funds

Fidelity Funds - Structured Credit Income Fund Y-ACC-Euro
(ISIN:LU2495143575)

This fund is managed by FIL Investment Management (Luxembourg) S.A.

Objectives and Investment Policy

Objective: The fund aims to achieve capital growth over the medium to longer term and provide income.

Investment Policy: The fund invests at least 70% of its assets, in fixed and floating rate securitised investments issued by government, quasi-government, and corporate issuers from anywhere in the world, including emerging markets. Fixed and floating rate securitized investments may include, but are not limited to, asset-backed securities (ABS), collateralised loan obligations (CLOs), commercial mortgage-backed securities (CMBS), residential mortgage-backed securities (RMBS), as well as securitisations of other receivables and investment grade and below investment grade debt securities. Underlying assets of the asset-backed securities may include credit card receivables, consumer loans, small-to-medium business loans and commercial and residential real estate mortgage loans. To achieve its investment goals, for treasury purposes or in the event of unfavorable market conditions, the fund may also invest in money market instruments and term deposits.

The fund invests at least 50% of its assets in securities of issuers with favourable environmental, social and governance (ESG) characteristics.

The fund may invest in the following assets according to the percentages indicated:

below investment grade securities: less than 30% collateralised and securitised debt securities: ABS 0-30%, collateralized loan obligations 40-80%, CMBS up to 30%. RMBS up to 30%.

eligible REITs and infrastructure securities: up to 5%.

The fund's exposure to distressed securities is limited to 10% of its assets.

The fund's investments are not currency constrained.

The Investment Manager aims to outperform the benchmark.

Investment Process: In actively managing the fund, the Investment Manager applies a bottom-up approach whereby the selection of securities will be based on fundamental analysis of each securitised investment and underlying collateral and a review of their structural features. This analysis involves a thorough review of each individual securitized investment, its risk retention, its deal structure, as well as the underlying collateral. The Investment Manager also considers ESG characteristics when assessing investment risks and opportunities. In determining favourable ESG characteristics, the Investment Manager takes into account ESG ratings provided by Fidelity or external agencies. Through the investment management process the Investment Manager aims to ensure that investee issuers follow good governance practices.

The fund adheres to the Fidelity Sustainable Investing Framework standards. For more information, see "Sustainable Investing and ESG Integration".

Derivatives and Techniques: The fund may use derivatives for hedging, efficient portfolio management and investment purposes.

Benchmark: European Short-term rate (€STR) cash Index, an index that does not take into account ESG characteristics. Used for: outperformance.

Risk Management Method: Absolute VaR. limited to 20% Expected leverage: 250% (may be higher or lower but not expected to exceed 350%).

Base Currency: EUR.

Distribution: As this is a non-distributing share class, dividends are re-invested.

Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This Fund is categorised in risk class 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high.

Additional risks: liquidity.
