Fidelity Funds - Sustainable China A Shares Fund

a sub-fund of Fidelity Funds

E-ACC-Euro (ISIN: LU2385789651)

This fund is managed by FIL Investment Management (Luxembourg) S.A.

Objectives and Investment Policy

- The fund aims to provide long-term capital growth with the level of income expected to be low.
- The fund will invest at least 70% in the shares of companies that are listed or traded on stock exchanges in China.
- The fund adopts a Sustainable Focused strategy under which a minimum of 70% will be invested in shares of companies that maintain sustainable characteristics. The fund promotes environmental and social characteristics pursuant to article 8 of the SFDR.
- On an ongoing basis, the fund will consider a wide range of environmental and social characteristics such as climate change mitigation and adaptation, water and waste management, biodiversity, product safety, supply chain, health and safety and human rights. The fund seeks to promote these characteristics by adhering to the Fidelity Sustainable Family Framework.
- The fund complies with a principle-based exclusion framework which includes norm-based and negative screening of sectors, companies, practices based on specific ESG criteria to be determined by the Investment Manager from time to time. In addition, the Investment Manager will exclude investment in issuers having exposure to thermal coal mining, coal-fired electric utilities and crude palm oil.
- China is considered to be an emerging market.
- The fund has the freedom to invest outside its principal geographies, market sectors, industries or asset classes.
- The fund may invest up to 100% directly and/or indirectly in onshore China A and B Shares on an aggregated basis with direct investments being up to 100% of its assets. Less than 70% will be invested in China A Shares through the QFII status.
- The fund may invest in assets directly or achieve exposure indirectly through other eligible means including derivatives. The fund can use derivatives with the aim of risk or cost reduction or to generate additional capital or income, including for investment purposes, in line with the fund's risk profile.
- The fund is actively managed. The Investment Manager will, when selecting investments for the fund and for the purposes of monitoring risk, reference MSCI China A International Net Index (the "Index"). The fund's performance can be assessed against its Index. The Investment Manager has a wide range of discretion relative to the Index. While the fund will hold assets that are components of the Index, it may also invest in companies, countries or sectors that are not included in, and that have different weightings from, the Index in order to take advantage of investment opportunities.
- Income earned by the fund is accumulated in the share price.
- Shares can usually be bought and sold each business day of the fund.

Risk and Reward Profile

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- Currency hedging may be used which aims to reduce the effect of such changes. However, the effects may not be completely eliminated to the degree expected.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
