

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fidelity Funds - Sustainable Multi Asset Income Fund

a sub-fund of Fidelity Funds

A-QINCOME(G)-Euro (ISIN: LU2151107294 / WKN: A2P2PP)

This fund is managed by FIL Investment Management (Luxembourg) S.A.

Objectives and Investment Policy

- The fund aims to provide income and moderate capital growth over the medium to longer term by actively allocating to, and within, different asset classes including equity, fixed income, commodity, infrastructure, real estate and cash.
- The fund adopts a Sustainable Focused strategy under which a minimum of 70% will be invested in securities that maintain sustainable characteristics. The fund promotes environmental and social characteristics pursuant to article 8 of the SFDR.
- On an ongoing basis, the fund will consider a wide range of environmental and social characteristics such as climate change mitigation and adaptation, water and waste management, biodiversity, product safety, supply chain, health and safety and human rights. The fund seeks to promote these characteristics by adhering to the Fidelity Sustainable Family Framework.
- The fund complies with a principle-based exclusion framework which includes norm-based and negative screening of sectors, companies, practices based on specific ESG criteria to be determined by the Investment Manager from time to time.
- Less than 30% of the fund's total net assets will be invested in hybrids and Cocos, with less than 20% of the total net assets to be invested in Cocos.
- The fund has the freedom to invest outside its principal geographies, market sectors, industries or asset classes.
- As this fund may invest globally, it may invest in countries considered to be emerging markets, including Russia and China.
- The fund will invest less than 30% directly and/or indirectly in onshore China A and B Shares and/or onshore China fixed income securities on an aggregated basis.
- The fund may invest less than 10% in offshore China fixed income instruments including, but not limited to, dim sum bonds.
- The fund's exposure to Distressed Securities is limited to 10% of its assets.
- The fund may, under normal market conditions, invest up to 100% in fixed income securities (including up to 100% in investment grade bonds, up to 60% in high yield bonds, up to 50% in government bonds, up to 50% in emerging market bonds and up to 10% in Russian bonds), up to 50% in equities (including up to 50% in emerging market equities and up to 10% in Russian equities), up to 30% in eligible closed-ended real estate investment trusts, up to 30% in infrastructure securities (excluding REITs) and up to 5% in commodities. The aggregate limit of investment in emerging market equities and bonds is up to 50% and is up to 10% in Russian equities and bonds. In adverse market conditions the fund may hold up to 25% in cash or money market instruments.
- The fund is actively managed without reference to an index.
- Income earned by the fund is paid to shareholders out of gross investment income for most of the time. The fund seeks to maintain a stable payment per share so far as is reasonable. The payment is not fixed and will vary according to economic and other circumstances, and the ability of the fund to support stable payments without a long-term positive or negative impact on its capital. This may occasionally result in income payment coming out of the capital.
- The fund's source of income will mainly be generated from dividend payments (from equity securities) and coupon payments (from bond holdings) based on their potential to generate income and capital growth.
- Shares can usually be bought and sold each business day of the fund.

Risk and Reward Profile

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean a "risk free" investment.
- The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.
- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.
- Currency hedging may be used which aims to reduce the effect of such changes. However, the effects may not be completely eliminated to the degree expected.
- The use of derivatives may result in "leverage" by which we mean a level of exposure which could expose the fund to the potential of greater gains or losses than would otherwise be the case.
- There is a risk that the issuers of bonds may not be able to repay the money they have borrowed or make interest payments. While we seek to mitigate this, the fund may be exposed to the risk of financial loss if it invests into an instrument issued by an entity that subsequently defaults on its borrowings. Losses may also be realised if an entity that the fund is exposed to ceases to make interest payments over a period of time or indefinitely. Bond prices have an inverse relationship with interest rates such that when interest rates rise, bonds may fall in value. Rising interest rates may cause the value of your investment to fall.
- Liquidity is a measure of how easily an investment can be converted into cash. Under certain market conditions assets may be more difficult to value or sell at a desired price. This could affect the fund's ability to meet redemptions in a timely manner.

Charges for this fund (ISIN: LU2151107294)

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge 5.25%

Exit charge N/A

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges 1.68%

Charges taken from the fund under certain specific conditions

Performance fee N/A

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor.

The ongoing charges figure is based on expenses for the year ending 30/04/2021. This figure may vary from year to year. It excludes:

- performance fees (where applicable);
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

Past Performance

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The fund was launched on 20/11/2001. This class was launched on 08/04/2020. Past performance has been calculated in EUR.

If applicable, events in the fund's life which may have affected the performance history are highlighted as an '*'; in the chart, which may include changes to the fund's objective and details of such events can be found on our website or by requesting it from your appointed representative or your usual Fidelity contact. If applicable, the Objectives and Investment Policy section shall refer to a benchmark and information on previous benchmarks may be found in the annual report and accounts.
