Fidelity UCITS ICAV

GENERAL INFORMATION

Fidelity UCITS ICAV (the “Fund”) was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Act 2015 (as amended) on 19 August 2016 under registration number C158668 and is authorised by the Central Bank of Ireland (the “Central Bank”) under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”).

Except where the context otherwise requires, defined terms shall bear the meaning given to them in the Prospectus of the Fund.

The Fund is organised in the form of an umbrella fund with segregated liability between sub-funds. The Prospectus provides that the Fund may offer separate sub-funds. Each sub-fund will have a distinct schedule of investments. Currently there are sixteen Sub-funds under the umbrella (each, a “Sub-Fund” and, collectively, the “Sub-Funds”), fifteen of which were launched as of the financial period end and are detailed in the table below.

There is one other Sub-Fund of the umbrella that has been approved by the Central Bank of Ireland (Fidelity Crypto Industry and Digital Payments UCITS ETF), but it has not been launched as at the financial period end.

<i>Sub-Fund</i>	<i>Launch Date</i>
Fidelity Global Quality Income UCITS ETF	27 March 2017
Fidelity US Quality Income UCITS ETF	27 March 2017
Fidelity Emerging Markets Quality Income UCITS ETF	30 October 2017
Fidelity Europe Quality Income UCITS ETF	30 October 2017
Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF	18 May 2020
Fidelity Sustainable Research Enhanced US Equity UCITS ETF	21 May 2020
Fidelity Sustainable Research Enhanced Global Equity UCITS ETF	27 May 2020
Fidelity Sustainable Research Enhanced Emerging Markets Equity UCITS ETF	24 November 2020
Fidelity Sustainable Research Enhanced Japan Equity UCITS ETF	1 December 2020
Fidelity Sustainable Research Enhanced Pacific ex-Japan Equity UCITS ETF	3 December 2020
Fidelity Electric Vehicles and Future Transportation UCITS ETF	24 August 2022
Fidelity Clean Energy UCITS ETF	24 August 2022
Fidelity Cloud Computing UCITS ETF	24 August 2022
Fidelity Digital Health UCITS ETF	24 August 2022
Fidelity Metaverse UCITS ETF	24 August 2022
Fidelity Crypto Industry and Digital Payment UCITS ETF	Unlaunched

With the prior approval of the Central Bank, the Fund from time to time may create an additional Sub-Fund or Sub-Funds. The investment policies and objectives for which will be outlined in a Relevant Supplement, together with details of the initial offer period, the initial subscription price for each Share and such other relevant information in relation to the additional Sub-Fund or Sub-Funds as the Directors may deem appropriate, or the Central Bank requires, to be included. Each Relevant Supplement will form part of, and should be read in conjunction with, the Prospectus. In addition, the Fund may create additional Classes of Shares within a Sub-Fund to accommodate different terms, including different charges and/or fees and/or brokerage arrangements provided that the Central Bank is notified in advance, and gives prior clearance, of the creation of any such additional Class of Shares.

The most recent Prospectus of the Fund is dated 1 December 2022. The most recent Supplements for Fidelity Global Quality Income UCITS ETF, Fidelity US Quality Income UCITS ETF, Fidelity Emerging Markets Quality Income UCITS ETF and Fidelity Europe Quality Income UCITS ETF are dated 7 June 2023. The most recent Supplements for all the other Sub-Funds are dated 1 December 2022.

The Sub-Funds are exchange traded funds (“ETFs”) and all active Shares in the Sub-Funds are designated as “ETF Shares” (being Shares that are intended to be actively traded on a secondary market). The following Sub-Funds are the Index Tracking Sub-Funds: Fidelity Global Quality Income UCITS ETF, Fidelity US Quality Income UCITS ETF, Fidelity Emerging Markets Quality Income UCITS ETF, Fidelity Europe Quality Income UCITS ETF, Fidelity Electric Vehicles and Future Transportation UCITS ETF, Fidelity Clean Energy UCITS ETF, Fidelity Cloud Computing UCITS ETF, Fidelity Digital Health UCITS ETF and the Fidelity Metaverse UCITS ETF. The following Sub-Funds are the Actively Managed Sub-Funds: Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF, Fidelity Sustainable Research Enhanced US Equity UCITS ETF, Fidelity Sustainable Research Enhanced Global Equity UCITS ETF, Fidelity Sustainable Research Enhanced Emerging Markets Equity UCITS ETF, Fidelity Sustainable Research Enhanced Japan Equity UCITS ETF and the Fidelity Sustainable Research Enhanced Pacific ex-Japan Equity UCITS ETF. The benchmark indices for the Index Tracking Sub-Funds are listed below:

The Manager has appointed Geode Capital Management, LLC to act as Investment Manager of the Index Tracking Sub-Funds and FIL Investments International to act as Investment Manager of the Actively Managed Sub-Funds (each, an “Investment Manager” and, collectively, the “Investment Managers”).

The investment objective of the Index Tracking Sub-Funds is to provide investors with a total return, taking into account both capital and income returns, which reflects, before fees and expenses, the return of the relevant benchmark index (each, an “Index”).

For more information on the Index please refer to the available index methodology which can be downloaded from the Fidelity ETFs website, www.spdji.com.

The investment objective of the Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF is to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies in Europe.

The investment objective of the Fidelity Sustainable Research Enhanced US Equity UCITS is to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies in the United States.

The investment objective of the Fidelity Sustainable Research Enhanced Global Equity UCITS ETF is to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies domiciled globally.

The investment objective of the Fidelity Sustainable Research Enhanced Emerging Markets Equity UCITS ETF is to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies in emerging markets.

The investment objective of the Fidelity Sustainable Research Enhanced Japan Equity UCITS ETF is to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies domiciled in Japan.

The investment objective of the Fidelity Sustainable Research Enhanced Pacific ex-Japan Equity UCITS ETF is to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies domiciled in developed market countries in the Pacific region excluding Japan.

Fidelity Global Quality Income UCITS ETF

The Fidelity Global Quality Income Index is designed to reflect the performance of stocks of large and mid-capitalisation dividend paying companies from developed countries that exhibit quality fundamental characteristics. The Index comprises the equity securities of the relevant companies. The Index constituents are screened according to fundamental measures such as free cash flow margin, return on invested capital and free cash flow stability with the objective of identifying financially robust companies. The companies with highest dividend yield are then selected for inclusion within the Index. The Index is rebalanced annually.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund’s performance and that of the Index.

In order to seek to achieve this investment objective, Geode Capital Management LLC (the “Investment Manager”) will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably practical (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Sub-Fund will use optimisation to select Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF

The Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF is designed to achieve its investment objective by actively investing in a portfolio primarily made up of equity securities of companies domiciled, or exercising the predominant part of their economic activity, in Europe.

FIL Investments International will use a quantitative approach to deliver a portfolio of investments that are usually focused on the highest conviction stock recommendations identified by the Investment Manager's research analysts. The portfolio will have a robust environmental, social and governance (the "ESG") profile, focusing on companies that maintain strong ESG credentials.

The Sub-Fund will hold a portfolio of equity securities which is systematically selected and managed with the aim of outperforming the MSCI Europe (Net Total Return) Index (the "Benchmark") over the long-term. The Benchmark is designed to measure the capital gains of the larger segments of the European stock market and assumes that any cash distributions, such as dividends, are reinvested.

The following is the active Share Class in the Sub-Fund as at 31 July 2023:

<i>Share Class</i>	<i>Share Class Launch Date</i>	<i>Currency</i>
Acc	18 May 2020	EUR

Fidelity Sustainable Research Enhanced US Equity UCITS ETF

The Fidelity Sustainable Research Enhanced US Equity UCITS ETF aims to achieve its investment objective by actively investing in a portfolio primarily made up of equity securities of companies domiciled, or exercising the predominant part of their economic activity, in the United States.

FIL Investments International will use a quantitative approach to deliver a portfolio of investments that are usually focused on the highest conviction stock recommendations identified by the Investment Manager's research analysts. The portfolio will have the ESG profile, focusing on companies that maintain strong ESG credentials.

The Sub-Fund will hold a portfolio of equity securities which is systematically selected and managed with the aim of outperforming the MSCI USA (Net Total Return) Index (the "Benchmark") over the long-term. The Benchmark is designed to measure the capital gains of the larger segments of the U.S. stock market and assumes that any cash distributions, such as dividends, are reinvested.

Fidelity Electric Vehicles and Future Transportation UCITS ETF

The Fidelity Electric Vehicles and Future Transportation ESG Tilted Index NR is designed to reflect the performance of a global universe of companies engaged in the production of electric and/or autonomous vehicles and their components, technology, or energy systems or engaged in other initiatives that aim to change the future of transportation (the "Index Theme"). The Index Theme comprises two sub-themes: (a) future transportation technologies, which covers activities such as, but not limited to, manufacturing of electric vehicle, lithium batteries, electric vehicles charging stations or ride sharing apps and (b) future transportation enablers, which covers activities such as, but not limited to, power devices, application processors or electronic circuits semi-conductor company or supporting components and software manufacturing such as sensors, GPS, or autonomous software/electronics. The Index comprises equity securities of the relevant companies.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index Securities in a similar proportion to their weighting in the Index. The Sub-Fund may in certain, limited circumstances, where replication of the Index is not reasonably practical (for example as a result of the illiquidity or unavailability of certain securities within the Index), invest in instruments that are not included in the Index but which the Investment Manager believes will help the Sub-Fund track the Index, e.g. securities which provide similar price and yield performance and risk profiles to constituents of the Index.

The following is the active Share Class in the Sub-Fund as at 31 July 2023:

<i>Share Class</i>	<i>Share Class Launch Date</i>	<i>Currency</i>

Fidelity UCITS ICAV

GENERAL INFORMATION (CONTINUED)

Fidelity Clean Energy UCITS ETF

The Fidelity Clean Energy ESG Tilted Index NR is designed to reflect the performance of a global universe of companies that distribute, produce or provide technology or equipment to support the production of energy from solar, wind, hydrogen and other renewable sources (the "Index Theme"). The Index comprises equity securities of the relevant companies who are positioned to benefit from the increased demand for clean energy.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index Securities in a similar proportion to their weighting in the Index. The Sub-Fund may in certain, limited circumstances, where replication of the Index is not reasonably practical, invest in instruments that are not included in the Index but which the Investment Manager believes will help the Sub-Fund track the Index, e.g. securities which provide similar price and yield performance and risk profiles to constituents of the Index.

<i>Share Class</i>	<i>Share Class Launch Date</i>	<i>Currency</i>
Acc	24 August 2022	USD

Fidelity Cloud Computing UCITS ETF

The Fidelity Cloud Computing ESG Tilted Index NR is designed to reflect the performance of a global universe of companies that provide products or services enabling the increased adoption of cloud computing, characterized by the delivery of computing resources over the internet (the "Index Theme"). The Index may therefore encompass stock of companies engaged in activities linked to cloud infrastructure, such as, but not limited to, on-demand data storage space, remote servers technology and networks, cloud platforms, such as, but not limited to, tools supporting the creation of computer programs or operating systems delivered online and cloud software, such as, but not limited to, software applications delivered over the internet relevant to the Index Theme. The Index comprises equity securities of the relevant companies who are positioned to benefit from the increased adoption of cloud computing technology.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index Securities in a similar proportion to their weighting in the Index. The Sub-Fund may in certain, limited circumstances, where replication of the Index is not reasonably practical, invest in instruments that are not included in the Index but which the Investment Manager believes will help the Sub-Fund track the Index, e.g. securities which provide similar price and yield performance and risk profiles to constituents of the Index.

Fidelity Digital Health UCITS ETF

The Fidelity Digital Health ESG Tilted Index NR is designed to reflect the performance of a global universe of companies providing healthcare records management, connected healthcare devices, surgical robotics, telemedicine, and other technology-enabled health care products and services (the "Index Theme"). The Index Theme comprises two sub-themes: (a) digital healthcare products and services, which covers activities such as, but not limited to, healthcare software products, internet pharmacies, telehealth services, robotic surgery products and (b) connected medical devices, which covers activities such as, but not limited to, neurology, oncology, respiratory and cardiology medical devices. The Index comprises equity securities of the relevant companies.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index.

Fidelity Metaverse UCITS ETF

The Fidelity Metaverse ESG Tilted Index NR is designed to reflect the performance of a global universe of companies that develop, manufacture, distribute, sell products or services related to establishing and enabling the “Metaverse”, which is a term used to describe a future state of the internet characterized by a network of both augmented reality and virtual worlds that can be experienced persistently and in a shared environment by large numbers of users (the “Index Theme”). The Index may therefore encompass stock of companies engaged in activities such as, but not limited to, the manufacturing of computing hardware, components, or digital infrastructure, design and engineering software, gaming technology, web development and content services or smart phone and wearable technology relevant to the Index Theme. The Index comprises equity securities of the relevant companies.

The investment objective of the Sub-Fund is to track the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund’s performance and that of the Index.

In order to seek to achieve this investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index Securities in a similar proportion to their weighting in the Index. The Sub-Fund may in certain, limited circumstances, where replication of the Index is not reasonably practical (for example as a result of the illiquidity or unavailability of certain securities within the Index), invest in instruments that are not included in the Index but which the Investment Manager believes will help the Sub-Fund track the Index, e.g. securities which provide similar price and yield performance and risk profiles to constituents of the Index.

INVESTMENT MANAGER'S REPORT

Fidelity Global Quality Income UCITS ETF

The Fidelity Global Income Index ("Index") returned +7.53% for the six-month period ending July 31, 2023. The Fidelity Global Quality Income UCITS ETF ("Sub-Fund") returned +7.79% (gross of fees) for the same period ahead of its benchmark by twenty-six basis points. The Sub-Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of trading due to dividend accruals, trading costs as a result of index rebalancing, and withholding tax differences between the Sub-Fund and the Index.

Seven of the eleven sectors within the Index had positive returns for the period. Information Technology contributed the most, up +30.65% followed by Industrials which was up +11.49%. The two sectors in negative return territory were Materials and Real Estate; they fell -4.22% and -3.76% respectively. On a stock level, Nvidia Corp rose +139.25% and BE Semiconductor Industries was up +74.89% over the period. Stocks on the negative side of the equation included Nutrien Ltd and Texas Pacific Land Corporation, which fell -32.13% and -24.22% respectively.

The Sub-Fund seeks to track benchmark returns by closely replicating the constituents and characteristics of the Fidelity Global Quality Income Index, investing dividend income and implementing trading strategies for index events with the most cost effective means available. As a result, the Sub-Fund is expected to perform closely to its benchmark.

Please see table in Appendix 2 – Tracking Error section from pages 175 to 176.

July 2023

Geode Capital Management LLC

Fidelity US Quality Income UCITS ETF

The Fidelity US Quality Income Index ("Index") gained +9.00% for the six-month period ending July 31, 2023. The Fidelity US Quality Income UCITS ETF ("Sub-Fund") outperformed the index by returning +9.22% (gross of fees). The Sub-Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of trading due to dividend accruals, trading cost associated with index rebalancing, and withholding tax differences between the Sub-Fund and the Index.

Seven of the eleven GICS sectors had positive returns over the year. Information Technology had the highest return in the index return up +33.70% followed by the Industrials sector gaining +9.53%. Utilities (-5.49%), and Financials (-4.47%) were the strongest laggards during the period. On the stock side, Nvidia Corporation and Broadcom Inc. led the way returning +139.25% and +55.56% respectively. The top two detractors were Sirius Xm Holdings which fell -20.17% and State Street Corporation dropped -19.92%.

The Sub-Fund continues to track benchmark returns by closely replicating the constituents and characteristics of the Fidelity US Quality Income Index, investing dividend income and implementing trading strategies for index events with the most cost effective means available. As a result, the Sub-Fund is expected to perform in line with its benchmark.

Please see table in Appendix 2 – Tracking Error section from pages 175 to 176.

Fidelity Emerging Markets Quality Income UCITS ETF

The Fidelity Emerging Markets Quality Income Index ("Index") returned +5.47% for the six-month period ending July 31, 2023. The Fidelity Emerging Markets Quality Income UCITS ETF ("Sub-Fund") returned nine basis points lower, up +5.38% (gross of fees). The Sub-Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of trading costs sourced from index rebalances and security selection from the portfolio optimization employed and tax differentials between the Sub-Fund and benchmark.

Eighteen out of the twenty-five countries within the Index had positive returns. Chile led the way up (+37.25%), and Singapore (+25.99%) was also positive a contributor. Honk Kong was the largest laggard and lost (-20.88%) during the period. On a stock level, Giga-Byte Technology was up +159.74% followed by Lite-On Technology which gained +125.83%. Detractors from the index return included China Meidong Auto Holdings which fell -55.24% for the year and Country Garden Holdings which declined -39.84%.

INVESTMENT MANAGER'S REPORT (CONTINUED)

Fidelity Emerging Markets Quality Income UCITS ETF (continued)

The Sub-Fund seeks to track benchmark returns by replicating the constituents and characteristics of the Fidelity Emerging Markets Quality Income Index, investing dividend income, and implementing trading strategies for index events with the most cost effective means available. As a result, the Sub-Fund is expected to perform closely to its benchmark.

Geode Capital Management LLC

Fidelity Europe Quality Income UCITS ETF

The Fidelity Europe Quality Income Index (“Index”) rose +5.70% for the six-month period ending July 31, 2023. The Fidelity Europe Quality Income UCITS ETF (“Sub-Fund”) outperformed for the period by thirty-nine basis points, returning +6.09% (gross of fees). The Sub-Fund is managed on a risk-controlled basis and is constructed to closely replicate its mandated benchmark. Expected sources of performance variance include the impact of trading due to dividend accruals, trading costs associated with index rebalancing, and withholding tax differences between the Sub-Fund and the Index. Returns are in Euros.

Nine of the eleven sectors within the Index had positive returns for the year. Utilities (+13.79%) and Industrials (+12.28%) rose the highest. Energy and Materials were the primary laggards for the period down -9.02% and -6.67% respectively. Industria de Diseno Textil was the leading contributor to benchmark performance; the stock price was up +26.04%. Deutsche Post Ag also a top contributor up +24.5%. The top underperformers included Neste Oyj which fell -27.66% and Anglo American -24.10%.

The Sub-Fund continues to track the benchmark return by closely replicating the constituents and characteristics of the Fidelity Europe Quality Income Index, investing dividend income and implementing trading strategies for index events with the most cost effective means available. As a result, the Sub-Fund is expected to perform closely to its benchmark.

Please see table in Appendix 2 – Tracking Error section from pages 175 to 176.

Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF

Market Commentary

The Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF (“Sub-Fund”) returned 5.56% gross over the period (from February 1st 2023 through July 31st 2023) underperforming the MSCI Europe Net Return EUR Index (“The Index”) returns of 6.11%.

European equities rose over the 6-month period. In March, the collapse of SVB and Signature Bank in the US and the failure of Credit Suisse in Europe led to fears of wider contagion in the banking sector. Despite these concerns, investors were encouraged by positive corporate results, China's continued economic reopening and a further reduction in US headline inflation. However, the resurgence of concerns in the banking sector towards the end of April and the release of lacklustre economic data from China in May dampened sentiment. While lower inflation readings for the eurozone and hopes for Chinese stimulus measures boosted investor sentiment towards the end of the period, markets were impacted by the European Central Bank's (ECB) decision to raise its deposit rate to 23-year high of 3.75%. ECB President Christine Lagarde also hinted at the possibility of an extended rate-hiking cycle to bring down inflation.

Portfolio Commentary

The Sub-Fund underperformed its index, primarily due to stock selection in industrials, communication services and materials. On a positive note, stock selection in consumer staples, consumer discretionary and energy boosted the relative returns. At a stock level, an overweight stance in Siemens Energy, an underweight stance in Novartis and a lack-of-exposure to Airbus detracted from relative performance. On a positive note, an out-of-benchmark exposure to Hensoldt, an overweight stance in Whitbread and Jeronimo Martins supported the relative returns.

INVESTMENT MANAGER'S REPORT (CONTINUED)

Fidelity Sustainable Research Enhanced Europe Equity UCITS ETF (continued)

Positioning and Outlook

This enhanced index Sub-Fund is managed by the Fidelity Systematic Investing team and is constructed using a rigorous and repeatable investment process. It is designed to provide sustainable broad Europe equity exposure with low active risk and a tracking error of below 2%. This Sub-Fund leverages Fidelity's unique fundamental research and proprietary sustainable ratings. It is expected to behave similarly to the index, with broadly neutral sector and regional positions, with security selection being the predominant driver of risk. The portfolio is designed to outperform its benchmark, with an alpha target of +1% gross per annum through the market cycle, i.e., more than five years.

At a sector level, energy, communication services, and information technology are the key overweights. Conversely, the key underweights are consumer discretionary, industrials, and materials. At a stock level, the Sub-Fund has key overweight positions in Roche Holding, Vitesco Technologies Group, and Legrand. On the other hand, key underweight positions include BP, Siemens, and Schneider Electric.

FIL Investments International

Fidelity Sustainable Research Enhanced US Equity UCITS ETF

Market Commentary

The Fidelity Sustainable Research Enhanced US Equity UCITS ETF ("Sub-Fund") returned 14.46% gross over the period (from January 1st, 2023, through July 31st, 2023) outperforming the MSCI USA Net Return USD Index ("The Index") returns of 13.41%.

US equities, as measured by the S&P 500 Index (Net), rose in US dollar terms. After a strong start to the period as easing inflation strengthened the case for a smaller rate hike by the US Federal Reserve (Fed), shares fell in March as the collapse of Silicon Valley Bank (SVB) and Signature Bank in the US, and the subsequent failure of Credit Suisse in Europe introduced uncertainty into markets. However, regulators reassured investors of the strength of the financial system and commercial banks acquired the deposits and loans of the collapsed banks. Consequently, equities bounced back and ended the first quarter in positive territory. Markets started the second quarter on a positive note considering a strong earnings season, with companies recording some of their best quarterly performance relative to analyst expectations since the fourth quarter of 2021. Uncertainty in April and May led to relatively muted performance, with narrow leadership from mega-cap names delivering the majority of gains. Equities were supported in June as the US Senate approved the debt ceiling bill funding package. The Fed paused its interest rate hiking cycle at its June policy meeting for the first time since March 2022. In July, the markets were supported positive second quarter earnings and increased prospects of a soft landing. From a sector perspective, information technology (IT), communication services and consumer discretionary and were the strongest performers. While real estate, utilities, and energy, declined.

Portfolio Commentary

The Sub-Fund outperformed its index, primarily due to stock selection in communication services, industrials, and information technology. Conversely, stock selection in materials, consumer discretionary and health care detracted from relative returns. At a stock level, an overweight stance in Howmet Aerospace, Microsoft and Digital Realty Trust supported the relative returns. Conversely, an underweight stance in Adobe, a lack-of-exposure to General Electric Company and an overweight stance in SBA Communications detracted from relative performance.

Positioning and Outlook

This enhanced index Sub-Fund is managed by the Fidelity Systematic Investing team and is constructed using a rigorous and repeatable investment process. It is designed to provide sustainable broad US equity exposure with low active risk and a tracking error of below 2%. This Sub-Fund leverages Fidelity's unique fundamental research and proprietary sustainable ratings. It is expected to behave similarly to the index, with broadly neutral sector and regional positions, with security selection being the predominant driver of risk. The portfolio is designed to outperform its benchmark, with an alpha target of +1% gross per annum through the market cycle, i.e., more than five years.

At a sector level, financials, materials, and energy are the key overweights. Conversely, the key underweights are industrials, utilities, and communication services. At a stock level, the Sub-Fund has key overweight positions in Cheniere Energy, Electronic Arts, and Howmet Aerospace. On the other hand, key underweight positions include Chevron, Adobe, and Tesla.

July 2023

FIL Investments International

INVESTMENT MANAGER'S REPORT (CONTINUED)

Fidelity Sustainable Research Enhanced Global Equity UCITS ETF

Market Commentary

The Fidelity Sustainable Research Enhanced Global Equity UCITS ETF ("Sub-Fund") was broadly in line with the index, returning 11.03% gross over the period (from January 1st, 2023, through July 31st, 2023) versus the MSCI World USD Index ("The Index") returns of 11.09%.

Global equities generated positive returns in US dollar terms over the six-month period to the end of July 2023. Investors appeared to bet that easing inflation and slowing global growth would eventually force major central banks to pursue less restrictive policies. The US Federal Reserve and the European Central Bank slowed the pace of interest rate hikes, with the former pausing its rate hike cycle in June. That said, markets were volatile as inflation remained higher than target levels, which led major central banks to retain their hawkish stance. Turmoil in the banking sector in developed markets further weighed on equities, though policymakers acted swiftly to manage contagion risks. Uncertainties before the US debt ceiling deal also kept investors cautious. Against this backdrop, US and Europe ex UK rallied, supported by some resilient economic data and healthy corporate earnings. From a sector perspective, information technology, consumer discretionary and communication services were among the best performers.

Portfolio Commentary

Stock selection in consumer staples, utilities and energy boosted the relative returns whilst information technology, health care and financials detracted. At a stock level, a lack-of-exposure to Adobe, an underweight stance in Amazon.com and Eli Lilly & Company detracted from relative performance. On a positive note, an overweight stance in Microsoft, Accenture and Howmet Aerospace supported the relative returns.

Positioning and Outlook

This enhanced index Sub-Fund is managed by the Fidelity Systematic Investing team and is constructed using a rigorous and repeatable investment process. It is designed to provide sustainable broad Global equity exposure with low active risk and a tracking error of below 2%. This Sub-Fund leverages Fidelity's unique fundamental research and proprietary sustainable ratings. It is expected to behave similarly to the index, with broadly neutral sector and regional positions, with security selection being the predominant driver of risk. The portfolio is designed to outperform its benchmark, with an alpha target of +1% gross per annum through the market cycle, i.e., more than five years.

At a sector level, financials, communication services, and consumer discretionary are the key overweights. Conversely, the key underweights are industrials, consumer staples, and utilities. At a stock level, the Sub-Fund has key overweight positions in Linde, JPMorgan Chase & Co., and Morgan Stanley. On the other hand, key underweight positions include Procter & Gamble, Chevron, and Novo-Nordisk.

July 2023

FIL Investments International

Fidelity Sustainable Research Enhanced Emerging Markets Equity UCITS ETF

Market Commentary

The Fidelity Sustainable Research Enhanced Emerging Markets Equity UCITS ETF ("Sub-Fund") underperformed over the period (from January 1st 2023 through July 31st 2023) returning 2.59% gross against the MSCI Emerging Markets Net Return Index ("The Index") 3.26%.

Emerging markets advanced over the period. The period started on a weak note as global risk-off sentiment was triggered in February by expectations of more interest rate hikes by the US Federal Reserve (Fed). Turmoil among developed market banks also raised concerns about global financial instability. The asset class continued to decline in April and May amid concerns over weakness in China's economic recovery, the continued sell-off in US regional banks, and a deterioration in relations between the US and China. Performance rebounded strongly in June and July, supported by the Fed's pause in interest-rate hikes amid signs of easing inflation, which resulted in a weaker US dollar. Indications that China was considering a stimulus package were also supportive. At the sector level, Energy and information technology were among the key contributors. Energy rose back amid stronger oil prices while IT rallied as growth expectations for artificial intelligence gained momentum. Health care and real estate were among the worst performers. All regions ended in positive territory, with Latin America a standout performer, followed by emerging Europe, Middle East and Africa (EMEA) and emerging Asia.

INVESTMENT MANAGER'S REPORT (CONTINUED)

Fidelity Sustainable Research Enhanced Emerging Markets Equity UCITS ETF (continued)

Portfolio Commentary

The Sub-Fund underperformed its index, primarily due to stock selection in consumer staples, health care and consumer discretionary. On a positive note, stock selection in information technology, utilities and real estate boosted the relative returns. At a stock level, an overweight stance in Hapvida Participacoes, Posco Holdings and a lack-of-exposure to EcoPro BM detracted from relative performance. On a positive note, a lack-of-exposure to Vale, an overweight stance in Wistron and Quanta Computer supported the relative returns.

Positioning and Outlook

This enhanced index Sub-Fund is managed by the Fidelity Systematic Investing team and is constructed using a rigorous and repeatable investment process. It is designed to provide sustainable broad Emerging Markets equity exposure with low active risk and a tracking error of below 2%. This Sub-Fund leverages Fidelity's unique fundamental research and proprietary sustainable ratings. It is expected to behave similarly to the index, with broadly neutral sector and regional positions, with security selection being the predominant driver of risk. The portfolio is designed to outperform its benchmark, with an alpha target of +1% gross per annum through the market cycle, i.e., more than five years.

At a sector level, financials, real estate, and communication services are the key overweights. Conversely, the key underweights are utilities, energy, and materials. At a stock level, the Sub-Fund has key overweight positions in Samsung Electronics, Grupo Mexico, and Banco Bradesco. On the other hand, key underweight positions include Petrobras, Vale, and Hon Hai Precision Industry.

July 2023

FIL Investments International

Fidelity Sustainable Research Enhanced Japan Equity UCITS ETF

Market Commentary

The Fidelity Sustainable Research Enhanced Japan Equity UCITS ETF ("Sub-Fund") marginally underperformed, returning 19.55% gross over the period (from January 1st 2023 through July 31st 2023) against the MSCI Japan Net Return Index ("The Index") of 19.75%.

The Japanese equity market climbed to a multi-decade high during the period, registering its strongest first-half performance since the advent of Abenomics. Extended buying by overseas investors drove share price gains, though market breadth was limited and returns were concentrated in large-cap stocks. Market participants were encouraged by a steady stream of corporate governance related developments, spurred by reform measures from the Tokyo Stock Exchange, and a largely positive domestic earnings season. The Bank of Japan's (BoJ) dovish policy stance and a weaker yen also supported the positive trend in share prices. Japan's currency came under broad-based pressure amid renewed monetary policy divergence, breaking through the ¥145 level against the US dollar for the first time since November 2022. Value stocks outperformed over the period, led by large-cap names across the Wholesale Trade, Iron & Steel, mining and transportation equipment sectors. Trading companies (a highly publicised target of Berkshire Hathaway) and semiconductor-related firms were among the strongest performers. Conversely, domestic and defensive industries underperformed the broader market, and small-cap growth stocks were conspicuous laggards.

Portfolio Commentary

The Sub-Fund underperformed its index, primarily due to stock selection in information technology, consumer discretionary and utilities. On a positive note, stock selection in consumer staples, communication services and materials boosted the relative returns. At a stock level, an underweight stance in Advantest, Honda Motor, and Renesas Electronics detracted from relative performance. On a positive note, an overweight stance in Marubeni, Tokyo Electron and Itochu supported the relative returns.

Positioning and Outlook

This enhanced index Sub-Fund is managed by the Fidelity Systematic Investing team and is constructed using a rigorous and repeatable investment process. It is designed to provide sustainable broad Japan equity exposure with low active risk and a tracking error of below 2%. This Sub-Fund leverages Fidelity's unique fundamental research and proprietary sustainable ratings. It is expected to behave similarly to the index, with broadly neutral sector and regional positions, with security selection being the predominant driver of risk. The portfolio is designed to outperform its benchmark, with an alpha target of +1% gross per annum through the market cycle, i.e., more than five years.

INVESTMENT MANAGER'S REPORT (CONTINUED)

Fidelity Sustainable Research Enhanced Japan Equity UCITS ETF (continued)

Positioning and Outlook (continued)

At a sector level, consumer discretionary, information technology, and financials are the key overweights. Conversely, the key underweights are real estate, utilities, and health care. At a stock level, the Sub-Fund has key overweight positions in Tokyo Electron, Central Japan Railway, and Shin-Etsu Chemical. On the other hand, key underweight positions include Honda Motor, Softbank, and Seven & I Holdings.

July 2023

FIL Investments International

Fidelity Sustainable Research Enhanced Pacific ex-Japan Equity UCITS ETF

Market Commentary

The Fidelity Sustainable Research Enhanced Pacific ex-Japan Equity UCITS ETF ("Sub-Fund") returned -3.81% gross over the period (from January 1st 2023 through July 31st 2023) against the MSCI Pacific ex-Japan Net Return Index ("The Index") -3.61%, underperforming by 0.20%.

Pacific ex Japan equities ended in a negative territory over the period. All the countries except Singapore declined, with Hong Kong being the largest drag on performance led by rising geopolitical tensions between the US and China led at the start of the year. Domestic consumption-led stocks were sold-off in the second half of the period, given slower-than-expected consumption in China. Faced with escalating price pressures, the US Federal Reserve (Fed) responded with interest rate hikes, which saw regional currencies weaken against the US dollar. The turmoil in the global banking sector in March and concerns over global economic downtrend also added to volatility in the region. Australian equities also declined amid high inflationary environment. Weakness in household consumption drove the bulk of the slowdown as cost-of-living pressures weighed on real disposable incomes. Australia's June-quarter headline Consumer Price Index (CPI) indicator rose by 6.0% year-on-year vs. 7.0% year-on-year in the March quarter, reflecting a clear downtrend in inflation, but still above the RBA's target range. The Westpac-Melbourne Institute's Index of Consumer Sentiment rose slightly in June. Sentiment has steadied near recession lows, with inflation being a dominant drag on confidence. Retail sales in Australia unexpectedly fell in June as inflationary pressures and tight financial conditions continued to weigh on consumer spending. At a sector level, Information Technology and energy were the best performing sectors while health care and real estate declined the most.

Portfolio Commentary

The Sub-Fund underperformed its index, primarily due to stock selection in financials, consumer discretionary and an underweight stance in industrials. On a positive note, stock selection in real estate, an overweight stance in information technology and an overweight stance in communication services boosted the relative returns. At a stock level, an overweight stance in DBS Group, IDP Education and Macquarie Group, Ltd. detracted from relative performance. On a positive note, an underweight stance in Link Real Estate Investment Trust, South32 and an out-of-benchmark exposure to ComfortDelGro supported the relative returns.

Positioning and Outlook

This enhanced index Sub-Fund is managed by the Fidelity Systematic Investing team and is constructed using a rigorous and repeatable investment process. It is designed to provide sustainable broad Pacific ex Japan equity exposure with low active risk and a tracking error of below 2%. This Sub-Fund leverages Fidelity's unique fundamental research and proprietary sustainable ratings. It is expected to behave similarly to the index, with broadly neutral sector and regional positions, with security selection being the predominant driver of risk. The portfolio is designed to outperform its benchmark, with an alpha target of +1% gross per annum through the market cycle, i.e., more than five years.

At a sector level, communication services, consumer staples, and energy are the key overweights. Conversely, the key underweights are materials, utilities, and health care. At a stock level, the Sub-Fund has key overweight positions in Commonwealth Bank of Australia, Singapore Telecom, and CapitaLand India Trust. On the other hand, key underweight positions include ANZ Group, National Australia Bank, and Oversea-Chinese Banking Corp.

* The Sub-Fund launched on 24 August 2022.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2023

1. Organisation

Fidelity UCITS ICAV (the “Fund”) was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Act 2015 (as amended) on 19 August 2016 under registration number C158668 and is authorised by the Central Bank of Ireland (the “Central Bank”) under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”).

The Fund is organised in the form of an umbrella fund with segregated liability between Sub-Funds. The Prospectus provides that the Fund may offer separate Sub-Funds. Each Sub-Fund will have a distinct schedule of investments. The portfolio of assets maintained for each Sub-Fund will be invested in accordance with the investment objectives and policies applicable to such Sub-Fund as specified in the Relevant Supplement. For more information please refer to the General Information section from pages 2 to 9.

The active Shares of each Index Tracking Sub-Fund are admitted to the Official List and to trading on the Regulated Market of Euronext Dublin and are admitted to trading on the London Stock Exchange, Deutsche Börse, SIX Swiss Exchange and Borse Italiana.

The Shares of each Actively Managed Sub-Fund are admitted to the Official List and to trading on the Regulated Market of Euronext Dublin and are admitted to trading on the London Stock Exchange, Deutsche Börse, SIX Swiss Exchange and Borse Italiana.

2. Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are consistent with those of the annual audited financial statements for the financial year ended 31 January 2023 as described in those financial statements.

The accounting policy is as follows:

a) Basis of Preparation of Financial Statements

These condensed unaudited interim financial statements for the financial period ended 31 July 2023 have been prepared in accordance with International Accounting Standard 34, ‘Interim Financial Reporting’ (“IAS 34”). They should be read in conjunction with the Fund’s annual audited financial statements for the financial year ended 31 January 2023, which have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (‘IFRS’), interpretations adopted by the International Accounting Standards Board (‘IASB’), ICAV ACT 2015 and certain requirements of the UCITS Regulations and the Central Bank’s (Supervision and Enforcement) Act 2013 (section 48(1)) UCITS Regulations 2019 (the “Central Bank UCITS Regulations”) that apply to financial reports.

The condensed interim financial statements have been prepared on the going concern basis and under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The preparation of the condensed interim financial statements requires the Directors to exercise critical judgments in the process of applying the Funds’ accounting policies and to make certain accounting estimates and assumptions. Actual results may differ from those estimates and assumptions. Critical accounting judgments and estimates are set forth in Note 2.

The condensed interim financial statements as at 31 July 2023 are unaudited. We note that the statutory auditor’s report in the audited year end financial statements as at 31 January 2023 was unqualified.

Similar to the financial year ended 31 January 2023, these financial statements were prepared on a going concern basis.

The Fund is authorised by the Central Bank as a UCITS pursuant to the UCITS Regulations.

The comparative figures used on the Statement of Financial Position and related notes are as at 31 January 2023. Comparative figures for the six months period ended 31 July 2022 are presented for the Statement of Comprehensive Income, the Statement of Changes in Equity, the Statement of Cash Flows and the related notes.

For the Fidelity Electric Vehicles and Future Transportation UCITS ETF, Fidelity Clean Energy UCITS ETF, Fidelity Cloud Computing UCITS ETF, Fidelity Digital Health UCITS ETF and Fidelity Metaverse UCITS ETF the period ended 31 July 2023 is the first interim reporting cycle, and therefore there are no comparatives in the Statement of Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows.

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2023
(CONTINUED)**

2. Significant Accounting Policies (continued)

b) New standards, amendments and interpretations

New standards and amendments to existing standards

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2022 that have a material effect on the financial statements of the Sub-Funds.

New standards, amendments and interpretations effective after 1 January 2023 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2023 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Funds.

c) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. All cash at bank balances are held with Brown Brothers Harriman, or with third party institutions approved by FIL Investment Management (Luxembourg) S.A., Ireland Branch (the "Manager") on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depositary the following day. Details are shown in Note 3.

d) Futures Contracts

A futures contract is a legal agreement, to buy or sell a particular commodity or financial instrument at a predetermined price at a specified time in the future.

Initial margin deposits are made upon entering into open futures contracts and are generally made in cash or cash equivalents. Subsequent payments (variation margin) to and from the clearing broker are made on a daily basis based on changes in the market value of futures contracts. Initial margin and variation margin is presented under Margin Cash Due from Broker or Margin Cash Due to Broker on the Statement of Financial Position. The fair value of open futures contracts is based upon their quoted daily settlement prices. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised.

e) Forward Foreign Exchange Contracts

Forward foreign exchange contracts are agreements between two parties to exchange two designated currencies at a specific time in the future.

The fair value of open forward foreign exchange contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the valuation date. Changes in the value of forward foreign exchange contracts are recognised as unrealised gains or losses on forward foreign exchange contracts until the contracts are terminated, at which time realised gains and losses are recognised.

A Sub-Fund may use forward foreign exchange contracts for the purposes of hedging the currency exposure of the underlying securities into the relevant base currency or on behalf of a specific class in order to hedge some or all of the foreign exchange risk for such class.

For each relevant Sub-Fund, gains or losses on open foreign currency exchange spot contracts are included in Cash and Cash Equivalents in the Statement of Financial Position. Unrealised gains and losses on open forward foreign currency exchange contracts are included in Financial Derivative Instruments (the "FDIs") under assets or liabilities, as appropriate, on the Statement of Financial Position and are shown on the Schedule of Investments of each relevant Sub-Fund. Realised gains and losses and change in unrealised gains and losses on forward foreign currency contracts are included in Net Gain/(Loss) in Financial Assets at Fair Value through Profit or Loss and Financial Derivative Instruments on the Statement of Comprehensive Income.

f) Foreign Exchange Translation

Functional and Presentation Currency

Items included in the Sub-Funds' financial statements are measured using the currency in which Shareholder transactions take place (the "Functional Currency"). The Functional Currency and presentation currency of each Sub-Fund is as follows:

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2023
(CONTINUED)**

2. Significant Accounting Policies (continued)

f) Foreign Exchange Translation (continued)

<i>Sub-Fund</i>	<i>Functional Currency</i>	<i>Presentation Currency</i>
Fidelity Global Quality Income UCITS ETF	USD	USD
Fidelity US Quality Income UCITS ETF	USD	USD
Fidelity Emerging Markets Quality Income UCITS ETF	USD	USD
Fidelity Europe Quality Income UCITS ETF	EUR	EUR

Fidelity Digital Health UCITS ETF	USD	USD
Fidelity Metaverse UCITS ETF	USD	USD

Transactions and Balances

Assets and liabilities denominated in currencies other than the Functional Currency are translated into the Functional Currency at the exchange rates ruling at the Statement of Financial Position date. Transactions in currencies other than the Functional Currency are translated into the Functional Currency at the exchange rates ruling at the dates of the transactions. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the result for the year. Proceeds from subscriptions and amounts paid for redemptions in currencies other than the Functional Currency are translated into the Functional Currency at the exchange rates prevailing at the dates of the transactions.

g) Investments Purchased and Sold Awaiting Settlement

Investments purchased and sold represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statement of Financial Position date respectively. The due from brokers balance is held for collection. These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Sub-Funds shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Sub-Funds shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required if the credit risk increases to the point that it is considered to be credit impaired. During the financial period ended 31 July 2023 and the financial year ended 31 January 2023 no such impairments have occurred.

h) Interest Revenue and Interest Expenses

Interest revenue is recognised on the effective interest method and credited to the Statement of Comprehensive Income.

i) Dividend Income

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as “ex-dividend”. Income is shown gross of any non-recoverable withholding taxes and net of any tax credits. Withholding tax is disclosed in the Statement of Comprehensive Income.

j) Transaction Costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2023
(CONTINUED)

2. Significant Accounting Policies (continued)

k) Expenses

Expenses are recognised in the Statement of Comprehensive Income on an accrual basis.

l) Foreign Withholding Taxes

Dividends, interest and capital gains (if any) received on investments made by each Sub-Fund may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Sub-Funds or their Shareholders.

Dividend and interest revenue is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

m) Redeemable Participating Shares

Redeemable Participating Shares provide the Shareholders with the right to redeem their Shares for cash equal to their proportionate share of the Net Asset Value of the Sub-Funds and, accordingly, are classified as financial liabilities. The liability to Shareholders is presented in the Statement of Financial Position as "Net Assets Attributable to Holders of Redeemable Participating Shares" and is based on the residual assets of each Sub-Fund after deducting all other liabilities.

n) Distribution Policy

The Prospectus empowers the Directors to declare dividends in respect of Shares in any Distributing Class out of net income (including dividend income, securities lending income and interest revenue less expenses) in respect of investments of each Sub-Fund (collectively, "Net Income").

In respect of Distributing Classes, and subject to Net Income being available for distribution, it is the current intention of the Directors, subject to any de minimis threshold, to declare dividends out of Net Income attributable to each of the relevant classes. Under normal circumstances, the Directors intend that dividends shall be declared on a quarterly basis in or around February, May, August and November of each year and paid on the last Thursday of that relevant month, or any such other Business Day that the Directors deem appropriate in relation to the Net Income for the relevant period. However, Shareholders should note that the Directors may, in their discretion, decide not to make such payment in respect of a Distributing Class.

The Directors may in their sole discretion, determine that the Fund shall, on behalf of one or more Sub-Funds, apply an equalisation methodology in respect to any Distributing Class Shares. An equalisation account will be maintained for each Sub-Fund so that the amount distributed will be the same for all Shares of each Distributing Class notwithstanding different dates of issue. A sum equal to that part of the subscription issued price of an Distributing Class Share which reflects income (if any) accrued but undistributed up to the date of issue will be deemed to be an equalisation payment and treated as repaid to Shareholders in the relevant Sub-Fund with the first dividend to which the Shareholder was entitled in the same relevant year as that in which the Shares are issued. The redemption price of each Distributing Class Share will also include an equalisation payment in respect of the accrued income of the relevant Sub-Fund up to the Dealing Day on which the relevant Distributing Class Shares are redeemed.

Dividends for the financial period ended 31 July 2023 are disclosed in the table below:

	18 August 2022	410,562	0.0456
	17 November 2022	201,433	0.0237

Distributions are recognised in the Statement of Comprehensive Income as Finance Costs.

o) Income Equalisation

In respect of the “Distributing Classes”, each Sub-Fund operates equalisation arrangements and makes equalisation payments in respect of each Share of such Distributing Classes to reflect the pro rata payment of distributions based on the year of time the share has been owned by a Shareholder. Income equalisation is recognised in the Statement of Comprehensive Income as Finance Costs.

p) Price Adjustment Policy (Swing Pricing)

A price adjustment policy has been adopted and implemented to protect the interests of the Shareholders. The purpose of the price adjustment policy is to allocate the costs associated with large inflows and outflows to investors transacting that day, thereby protecting the long-term Shareholder from the worst effects of dilution. It achieves this purpose by adjusting the share class price at which deals in a sub-fund are transacted. As such, share class prices may be adjusted up or down depending on the level and type of investor transactions on a particular day within a sub-fund. In this way the existing and remaining Shareholders do not suffer an inappropriate level of dilution. The Fund will only trigger an adjustment in the price when there are significant net flows likely to have a material impact on the remaining Shareholders. The adjustment will be based on the normal dealing costs for the particular assets in which a sub-fund is invested but will not exceed 2% of the price. The Directors of the Manager may decide to increase this adjustment limit in exceptional circumstances to protect Shareholders' interests. Once an adjustment is made to a share class price, that price is the official price for that share class for all deals that day.

At 31 July 2023 and 31 January 2023, price adjustments were not made to the Net Asset Value of the Funds.

3. Cash and Cash Equivalents, Bank Overdraft and Margin Cash

Cash and cash equivalents include cash in hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. All cash at bank balances are held with Brown Brothers Harriman, or with third party institutions approved by the Manager on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depositary the following day.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2023
(CONTINUED)

3. Cash and Cash Equivalents, Bank Overdraft and Margin Cash (continued)

Margin Cash is identified on the Statement of Financial Position under Margin Cash due from/to broker and is not included as a component of Cash and Cash Equivalents.

In line with the Central Bank Guidance (the "CBI") paper entitled Umbrella Funds – Cash Accounts Holding Subscription, Redemption and Dividend Monies published in March 2016, one or more cash accounts at umbrella level in the name of the Fund (each, an "Umbrella Cash Account") are being operated by the Administrator in accordance with the requirements of the Central Bank. Such Umbrella Cash Accounts are designed to hold unprocessed subscription monies received from investors, redemption monies payable to investors and/or other amounts due to investors.

The table below reflects the amount held in these cash accounts as at 31 July 2023 and 31 January 2023.

<i>Sub-Fund</i>	<i>31 July 2023</i>	<i>31 January 2023</i>
Fidelity Global Quality Income UCITS ETF	USD	USD

Fidelity Sustainable Research Enhanced Japan Equity UCITS ETF	JPY	JPY
	-	237,743
Fidelity Sustainable Research Enhanced Pacific ex-Japan Equity UCITS ETF	USD	USD
	-	2,582

Balances held on these cash accounts at the financial period end, if any, are included as a component of the Cash and Cash Equivalents and/or Bank Overdraft line items on the Statement of Financial Position.

4. Share Capital

The Fund may issue up to 500,000,000,002 Shares of no par value. The maximum issued Share capital of the Fund shall be 500,000,000,002 Shares of no par value and the minimum issued Share capital of the Fund shall be €2 represented by two Subscriber Shares of no par value issued for €1 each. The issued Share capital of the Fund shall not be less than the currency equivalent of €2 represented by two Shares of no par value.

The movement in the number of redeemable participating Shares for each Sub-Fund for the financial period ended 31 July 2023 and financial year ended 31 January 2023 are as follows:

Fidelity Global Quality Income UCITS ETF

5. Taxation

Each Sub-Fund is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997. The Sub-Funds will not be liable to Irish tax in respect of their income and gains, other than on the occurrence of a chargeable event with respect to Irish resident Shareholders. The Fund will be obliged to account for Irish income tax to the Irish Revenue Commissioners if Shares are held by non-exempt Irish resident Shareholders.

In accordance with the reporting fund regime introduced by the United Kingdom HM Revenue and Customs, each Share Class will be viewed as a separate "offshore fund" for UK tax purposes. The reporting regime permits an offshore fund to seek advance approval from HM Revenue and Customs to be treated as a reporting fund. Once an offshore fund has been granted "reporting fund" status it will maintain that status for so long as it continues to satisfy the conditions to be a "reporting fund", which include making reports to HM Revenue and Customs and investors for each year of account, without a requirement to apply for further certification by HM Revenue and Customs.

Each Share Class in the Sub-Funds is treated as a "reporting fund". This has been approved by HM Revenue and Customs.

Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of Shares by an Irish resident Shareholder or on the ending of a "Relevant Period". A "Relevant Period" for these purposes is an eight year beginning with the acquisition of the Shares by the Irish resident Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- (i) a Shareholder who is not Irish resident and not ordinarily resident in Ireland at the time of the chargeable event provided the necessary signed statutory declarations are held by the Sub-Fund; or
- (ii) certain exempted Irish resident investors who have provided the Sub-Fund with the necessary signed statutory declaration.

Capital gains, dividends, and interest received by the Sub-Funds may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Sub-Funds or their Shareholders.

6. Fees

All of the fees and expenses payable in respect of each Sub-Fund are paid as one single fee. This is referred to as the total expense ratio or "TER". The Manager is responsible for arranging the payment from the TER of all operational expenses of the Sub-Funds, including Directors', Auditors', Legal Advisors', Administrator's, Depositary's and other service providers' fees and expenses and Class hedging costs. The Manager is entitled to an annual fee in respect of the services that it provides to the Sub-Funds. However, this fee will only be paid in circumstances where there is a residual amount left from the TER after the other operational expenses have been paid. Save where another party has agreed to reimburse the Sub-Funds, the TER includes but is not limited to fees and expenses of the Investment Manager, Depositary, Administrator, Secretary and any sub-investment advisor. Subject to applicable law and regulation, the Manager or the Investment Manager may pay part or all of its fees to any person that invests in or provides services to the Fund or in respect of the Sub-Funds.

The TER does not include extraordinary costs, transaction costs and related expenses, including but not limited to, transaction charges, stamp duty or other taxes on the investments of the Sub-Funds, including duties and charges for portfolio re-balancing, withholding taxes, commissions and brokerage fees incurred with respect to the Sub-Funds' investments, interest on borrowings and bank charges incurred in negotiating, effecting or varying the terms of such borrowings, any commissions charged by intermediaries in relation to an investment in the Sub-Funds and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Sub-Funds or the Fund, which will be paid separately out of the assets of the relevant Sub-Fund.

The TER is calculated and accrued daily from the Net Asset Value of the Sub-Funds and payable at least quarterly in arrears. The TER of each Sub-Fund is as listed in the Relevant Supplement. If the Sub-Funds' expenses exceed the TER outlined above in relation to operating the Sub-Funds, the Manager will cover any shortfall from its own assets.

Directors' Fees

The aggregate emoluments of the Directors paid by the Manager out of the TER on behalf of the Sub-Funds (including expenses) for the financial period ended 31 July 2023 was EUR12,500 which were paid to Denise Kinsella and Bronwyn Wright as Independent Directors. For the financial period ended 31 July 2022 the amount was EUR20,000 which were paid to Denise Kinsella, Bronwyn Wright and Dominic Rossi as Independent Directors.

Executive Directors are not paid a fee from the Fund.

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2023
(CONTINUED)**

7. Related Parties and Connected Persons*Related Party Disclosures*

In the opinion of the Directors of the Manager, the list of related parties under IAS 24 "Related Party Transactions" is as follows:

- FIL Limited – the ultimate holding company of the Manager and fellow subsidiary undertakings namely:
 - (i) FIL Investment Management (Luxembourg) S.A., Ireland Branch
 - (ii) FIL Distributors
- The Directors of the Fund and their dependents.
- The Manager of the Fund and the Investment Manager of the Actively Managed Sub-Funds are related parties to the Fund and receive fees, as outlined in the Note 6. The amounts payable as at 31 July 2023 and 31 January 2023 are disclosed in the Statement of Financial Position.

There were no related parties holding shares in the Sub-Funds as at 31 July 2023 and 31 January 2023.

All related parties transactions are at arm's length.

Connected Persons

The Manager, the Depositary, the Investment Manager and each of their respective affiliates are considered to be connected parties of the Fund for the purposes of the Central Bank UCITS Regulations.

The following table details the types of transaction entered into with counterparties that are connected persons:

<i>Type of Transaction</i>	<i>Counterparty</i>
Administration	Brown Brothers Harriman Fund Administration Services (Ireland) Limited
Depositary, FX and Hedging Services	Brown Brothers Harriman Trustee Services (Ireland) Limited
Distributor	FIL Distributors
Manager	FIL Investment Management (Luxembourg) S.A., Ireland Branch
Investment Managers	Geode Capital Management LLC FIL Investments International

Dealing with Connected Persons

Regulation 43 of the Central Bank UCITS Regulations ("Restriction on transactions with connected persons") states that "a responsible person shall ensure that any transaction between a UCITS and connected person is:

- (i) conducted at arm's length; and
- (ii) in the best interest of the shareholders of the UCITS".

In accordance with Regulation 81(4) of the Central Bank UCITS Regulations, the Directors of the Manager are satisfied that:

- (i) there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and
- (ii) all transactions with connected persons that were entered into during the year to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

8. Transaction Costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2023
(CONTINUED)**

9. Financial Risk Management

The activities of the Fund expose it to various financial risks such as market risk (including other price risk, interest rate risk, and currency risk), credit risk and liquidity risk. The overall risk management process for the Fund focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance for the Fund.

The Funds financial risk management objectives and policies are consistent with those disclosed in the Funds audited financial statements as at and for the financial year ended 31 January 2023.

a) Fair Value Estimation

Each Sub-Fund has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels as defined under IFRS 13:

(i) Level 1: Investments whose values are based on quoted market prices in active markets and are therefore classified within level 1 include active listed equities, U.S. government treasury bills and certain non-U.S. sovereign obligations. Quoted prices for these instruments are not adjusted.

(ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and certain non-U.S. sovereign obligations, listed equities and over the counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

(iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments include certain corporate debt securities. As observable prices are not available for these securities, the Sub-Funds have used valuation techniques to derive the fair value.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Directors. The Directors have delegated this task to the Administrator. The Administrator considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Where unobservable inputs are used in determining the fair value of an investment, the Administrator receives instruction from the Manager of the fair value measurement to use.

As at 31 July 2023 and 31 January 2023, cash and cash equivalents are classified as Level 1. All other assets and liabilities not disclosed in the tables below are classified as Level 2.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2023
(CONTINUED)

9. Financial Risk Management (continued)

a) Fair Value Estimation (continued)

The following tables analyse within the fair value hierarchy of the Sub-Funds' financial assets and liabilities measured at fair value at 31 July 2023 and 31 January 2023:

* The Equity level 3 holdings as at 31 July 2023 consisted of: Alrosa, MMC Norilsk Nickel, Novolipetsk Steel, Sberbank of Russia, Tatneft and Transneft and are classified as Level 3 because their fair value has been written down due to Russian sanctions. TCS Group Holding's fair value has been written down to zero because its primary dealings are in Russia and is subject to sanctions.

** The Equity level 3 holdings as at 31 January 2023 consisted of: Sunac China Holdings which is classified as Level 3 because it is suspended and valued at zero. Alrosa, MMC Norilsk Nickel, Novolipetsk Steel, Sberbank of Russia, Tatneft and Transneft and are classified as Level 3 because their fair value has been written down due to Russian sanctions. TCS Group Holding's fair value has been written down to zero because its primary dealings are in Russia and is subject to sanctions.

There were no transfers between levels as at 31 July 2023.

The following table presents the transfers between hierarchy levels for the financial year ended 31 January 2023:

	Level 1 USD	Level 2 USD	Level 3 USD
Equities	(3,239,985)	–	3,239,985
Total	(3,239,985)	–	3,239,985

Transfers between levels of the fair value hierarchy, for the purpose of preparing above table, are deemed to have occurred at the beginning of the financial year.

The Equities transfer of USD 3,239,985 out of Level 1 and into Level 3 relates to the following holdings: MMC Norilsk Nickel (USD 1,032,619), Sberbank of Russia (USD 1,244,475) and Transneft (USD 962,891).

These investments are now being classed as Level 3 because they are Russian holdings and a decision has been taken by the Fund to write their fair value down to zero.

The following table presents movement in Level 3 instruments for the financial period ended 31 July 2023.

9. Financial Risk Management (continued)

b) Cybersecurity Risk

The Fund and its service providers (including the Manager and Investment Manager) are susceptible to cyber-attacks and technological malfunctions that may have effects that are similar to those of a cyber-attack. Cyber-attacks include, among others, stealing or corrupting data maintained online or digitally, preventing legitimate users from accessing information or services on a website, releasing confidential information without authorisation, and causing operational disruption. Successful cyber-attacks against, or security breakdowns of, the Fund, the Manager, Investment Manager, or the Depositary, or other service provider may adversely affect the Sub-Funds or their Shareholders. For instance, cyber-attacks may interfere with the processing of Shareholder transactions, affect the Fund's ability to calculate its Net Asset Value, cause the release or misappropriation of private Shareholder information or confidential Sub-Fund information, impede trading, cause reputational damage, and subject the Fund to regulatory fines, penalties or financial losses, reimbursement or other compensation costs, and additional compliance costs. The Manager and the Investment Manager have established business continuity plans and systems designed to prevent cyber-attacks. Such plans and systems are subject to inherent limitations. Similar types of cyber security risks also are present for issuers of securities in which the Sub-Funds invest, which could result in material adverse consequences for such issuers, and may cause the Sub-Funds' investments in such securities to lose value.

c) Custody and Title Risk

The Depositary is under a duty to hold in custody all financial instruments that may be registered in a financial instruments account opened in the depositary's books and all financial instruments that can be physically delivered to the depositary. The Depositary is required to ensure that all financial instruments that can be registered in a financial instruments account opened in the depositary's books are registered in the depositary's books within segregated accounts. For other assets, the Depositary shall verify the Fund's ownership of such assets. The Depositary will maintain a record of the financial instruments entrusted to it and those assets for which it is satisfied that the Fund holds the ownership. When the Depositary employs a sub-custodian the Depositary retains responsibility for the assets of the Sub-Fund.

However, it should be noted that not all jurisdictions have the same rules and regulations as Ireland regarding the custody of assets and the recognition of the interests of a beneficial owner such as a Sub-Fund. Therefore, in such jurisdictions, there is a risk that if a subcustodian becomes bankrupt or insolvent, the Sub-Fund's beneficial ownership of the assets held by such sub-custodian may not be recognised and consequently the creditors of the sub-custodian may seek to have recourse to the assets of the Sub-Fund. In those jurisdictions where the Sub-Fund's beneficial ownership of its assets is ultimately recognised, the Sub-Fund may suffer delay and cost in recovering those assets.

The Sub-Funds may invest in markets where custodial and/or settlement systems are not fully developed, therefore the assets of a Sub-Fund which are traded in such markets and which have been entrusted to sub-custodians, in circumstances where the use of such sub-custodians is necessary, may be exposed to risk. The Depositary shall maintain an appropriate level of supervision over the sub-custodian and make appropriate enquiries from time to time to confirm that the obligations of the agent continue to be competently discharged.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2023
(CONTINUED)

11. Soft Commission Agreements

There were no soft commission arrangements entered into during the financial periods ended 31 July 2023 and 31 July 2022.

12. Efficient Portfolio Management

The Sub-Funds may employ investment techniques and instruments for efficient portfolio management purposes only, subject to the conditions and within the limits from time to time laid down by the Central Bank of Ireland. Any such technique or instrument must be one which (alone or in combination with one or more other techniques or instruments) is believed by the Investment Manager to be economically appropriate to the efficient portfolio management of the Sub-Fund, i.e. the use of a technique or instrument may only be undertaken for the purposes of one or more of the following:

- (a) a reduction in risk;
- (b) a reduction in costs; or
- (c) the generation of additional capital or income for the Sub-Fund with an appropriate level of risk, taking into account the risk profile of the Sub-Fund and the general provisions of the UCITS Regulations.

During the financial period ended 31 July 2023 and financial year ended 31 January 2023, the Sub-Funds used futures contracts for efficient portfolio management purposes. The exposure, counterparties, net revenues and costs from using these techniques are all detailed below.

Exposure obtained through the efficient portfolio management:

Fidelity Global Quality Income UCITS ETF

31 July 2023

Net Revenue on Futures Contracts	35,410	270

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 JULY 2023
(CONTINUED)**

13. Significant Events during the Financial Period

Following the continued Russia invasion of Ukraine, the impact of actual and contagion risk of sanctions, there has been increased global geopolitical tensions, including between the USA, Russia and also China. Changing macroeconomic factors have caused direct and indirect impacts due to higher inflation and monetary policy interest rate increases, changes in economic sentiment, and increased market volatility impacting the equity and bond markets throughout 2022 and early 2023. The Directors of the Manager continue to monitor the situation closely considering the needs and requirements of clients and stakeholders, including ongoing monitoring of market volatility, funds, fund liquidity, business continuity planning, cyber risk assessment, operational resilience and scenario planning, together with other operational risks and emerging risks that may arise.

Following the market events effecting SVB Financial Group and Signature Bank, the Manager took the decision to apply discounts to their prices of 100% effective 13th March 2023. The NAV impact of these discounts on the Sub-Funds which held these investments on that date were as follows:

Holding	Sub-Fund	NAV Impact at 13th March 2023
Signature Bank	Fidelity Sustainable Research Enhanced US Equity UCITS ETF	0.03%
Signature Bank	Fidelity Sustainable Research Enhanced Global Equity UCITS ETF	0.08%
SVB Financial Group	Fidelity Sustainable Research Enhanced Global Equity UCITS ETF	0.12%

These positions were fully sold from the portfolio on 29 March 2023 (Signature Bank) and 6 June 2023 (SVB Financial Group) because they were deemed worthless.

Ms. Denise Kinsella resigned as a Director of the Fund, effective 31 March 2023.

There have been no other significant events affecting the Fund during the financial period.

14. Events since the Financial Period End

There have been no significant events affecting the Fund after the financial period end.

15. Approval of Financial Statements

The interim report and unaudited condensed financial statements were approved by the Board of Directors of the Fund on 19 September 2023.

APPENDIX 1 – STATEMENT OF SIGNIFICANT CHANGES IN THE COMPOSITION OF PORTFOLIO

In accordance with the UCITS Regulations, as amended, a statement of changes in the composition of the Schedule of Investments during the reporting year is provided to ensure that Shareholders can identify changes in the investments held by the Sub-Funds. The following statements present the aggregate purchases and sales of transferable securities exceeding one percent of the total value of purchases or sales, respectively, for the year. At a minimum, the largest twenty purchases and twenty sales are presented, if available.

Fidelity Global Quality Income UCITS ETF

APPENDIX 2 – TRACKING ERROR

Each of the Index Tracking Sub-Funds employ a “passive” investment strategy designed to replicate the performance of the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, where full replication of the Index is not reasonably possible (for example as a result of the number of securities or the illiquidity of certain securities within the Index), the Index Tracking Sub-Funds will use optimisation to select Index securities in order to build a representative portfolio that provides a return that is comparable to that of the Index.

Tracking error measures the volatility of the return difference between each Index Tracking Sub-Fund and the Index. It is calculated as the standard deviation of the delivered excess returns over an annual period. Anticipated tracking error is disclosed for the Index Tracking Sub-Funds in the table below. Realised (ex-post) tracking error may vary from the anticipated tracking error, depending on a range of circumstances. These include transaction costs, securities lending income and withholding tax differences. The anticipated tracking error and ex-post tracking error are not expected to vary significantly under normal circumstances.

For the Financial Period ended 31 July 2023, the anticipated tracking errors and the ex-post tracking errors were as follows:

<i>Sub-Fund</i>	<i>Anticipated tracking error (bps)</i>	<i>Ex-post tracking error (bps)</i>
Fidelity Global Quality Income UCITS ETF	10	2
Fidelity US Quality Income UCITS ETF	5	1
Fidelity Emerging Markets Quality Income UCITS ETF	75	7
Fidelity Europe Quality Income UCITS ETF	10	6
Fidelity Electric Vehicles and Futures Transportation UCITS ETF	50	4
Fidelity Clean Energy UCITS ETF	50	4
Fidelity Cloud Computing UCITS ETF	50	0
Fidelity Digital Health UCITS ETF	50	2
Fidelity Metaverse UCITS ETF	50	1

The table below compares the realised Sub-Funds’ performance against the performance of the relevant benchmark Index during the Financial Period ended 31 July 2023. An explanation for the difference gross of TER is provided:

<i>Sub-Fund</i>	<i>Sub-Fund return for the Financial Period ended 31 July 2023 %</i>	<i>Benchmark return for the Financial Period ended 31 July 2023 %</i>	<i>Tracking difference net of TER %</i>	<i>TER %</i>	<i>Tracking difference gross of TER %</i>	<i>Explanation of the gross tracking difference</i>
Fidelity Global Quality Income UCITS ETF	7.79	7.53	0.26	0.40	0.66	The outperformance of the Sub-Fund was due to the sampling techniques employed.
Fidelity US Quality Income UCITS ETF	9.22	9.00	0.22	0.30	0.52	The outperformance of the Sub-Fund was due to the sampling techniques employed.
Fidelity Emerging Markets Quality Income UCITS ETF	5.38	5.47	-0.09	0.50	0.41	The outperformance of the Sub-Fund was due to the sampling techniques employed.
Fidelity Europe Quality Income UCITS ETF	6.09	5.70	0.39	0.30	0.69	The outperformance of the Sub-Fund was due to the sampling techniques employed.
Fidelity Electric Vehicles and Futures Transportation UCITS ETF	12.77	12.86	-0.09	0.50	0.41	The outperformance of the Sub-Fund was due to the sampling techniques employed.

Fidelity UCITS ICAV

APPENDIX 2 – TRACKING ERROR (CONTINUED)

<i>Sub-Fund (continued)</i>	<i>Sub-Fund return for the Financial Period ended 31 July 2023 %</i>	<i>Benchmark return for the Financial Period ended 31 July 2023 %</i>	<i>Tracking difference net of TER %</i>	<i>TER %</i>	<i>Tracking difference gross of TER %</i>	<i>Explanation of the gross tracking difference</i>
Fidelity Clean Energy UCITS ETF	-8.99	-9.05	0.06	0.50	0.56	The outperformance of the Sub-Fund was due to the sampling techniques employed.

APPENDIX 3 – SECURITIES FINANCING TRANSACTIONS

The Securities Financing Transactions (“SFTs”) Regulation (the “Regulation”) came into force on 12 January 2016 and introduced additional disclosure requirements around securities lending, repurchase agreement/reverse repurchase agreements, total return swaps (TRSs) and other lending/borrowing transactions in annual and interim annual financial statements, published after 13 January 2017. The Regulation came about due to what was perceived as ‘shadow banking’ risk in the securities financing markets and aims to reduce this risk by improving transparency in the securities financing markets in a number of ways:

- By imposing conditions on the 'reuse' of collateral, so that clients and counterparties understand the risks involved and give their consent to the reuse,
- By requiring managers to make detailed disclosures to their investors of the use they make of SFTs both in their periodic financial statements and pre-contractual documentation; and
- By requiring counterparties to report SFTs to a trade repository so as to provide transparency to regulators on the use of SFTs by market participants.

As the Sub-Funds did not hold any SFTs as at 31 July 2023, the interim report and unaudited financial statements do not include any additional disclosures.
