

KEY INFORMATION DOCUMENT

FIERACAPITAL

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product: Fiera Atlas Global Companies Fund – A Dist GBP
Manufacturer: Fiera Capital (UK) Limited, part of the Fiera Capital Group
ISIN IE000W8QXUS2
Website: <https://uk.fieracapital.com/en/>
Contact: +44 020 7518 2100
This key information document is valid as at 01 January 2023.

What is this product?

Type:

The Fund is a sub-fund of the Magna Umbrella Fund Plc, an open-ended variable capital umbrella investment company with limited liability and segregated liability between Funds incorporated under the laws of Ireland with registered number 277318 and authorised as an undertaking for collective investment in transferable securities pursuant to the European Communities (UCITS) Regulations, 2011 (S.I Number 352 of 2011), as amended. The Magna Umbrella Fund Plc is authorised in Ireland by the Central Bank of Ireland.

Term:

The Fund is not subject to any fixed term.

Objectives:

The investment objective of the Fund is to deliver annualised double digit returns (10% or greater) before fees and costs, with lower risk of capital loss than broader global equity markets, over the long term by investing in a portfolio of listed equities and holding them generally for an investment horizon of over 5 to 7 years.

The Investment Manager expects that a minimum of 80% of the Fund's portfolio will generally consist of long positions in global publicly listed equities. The Investment Manager anticipates that the portfolio of the Fund will, under typical market conditions, contain between 25 and 35 positions in global exceptional companies with strong wealth creation credentials.

The Fund will seek to maintain a diversified portfolio through investing in issuers of companies with a range of end markets and end customers and among a diversified selection of sectors. When considering investments for the Fund, the Investment Manager will consider the long-term objective of achieving superior and sustainable returns.

The Fund is considered to be actively managed in reference to the MSCI All-Country World Index ("Benchmark") by virtue of the fact that it uses the Benchmark for performance comparison purposes. However, the Benchmark is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmark.

The base currency of the Fund is USD. Any non-base currency share classes will be currency hedged against the currency exposure between the denominated currency of the class and the base currency of the Fund.

The Directors are empowered to declare and pay dividends or Shares of any Class or Fund in the Company. Your attention is drawn to the section of the Prospectus entitled "The Shares" and the sub-section therein entitled "Dividends and Distributions" for further information.

You may redeem your Shares in the Fund on any day on which banks in Dublin, London and New York are open for business.

Intended Retail Investor:

This product is for retail investors, with basic investment knowledge, seeking growth through an actively managed fund and looking to invest over the medium to long term.

Details of the up-to-date remuneration policy of the Manager, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits including the composition of the remuneration committee, if any, are available at: <https://bridgeconsulting.ie/management-company-services>; and a paper copy of the remuneration is available on request from the Manager. The Manager may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Company.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the value of your investment. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Due to effects of unusual market conditions, other risks could be triggered, such as: counterparty risk and liquidity risk
This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of [the product / a suitable benchmark] over the last [x] years.] Markets could develop very differently in the future.

Recommended holding period: 5 years Investment: 10 000 GBP			
Scenarios		1 year	5 years (recommended holding period)
Stress	Minimum		
	What you might get back after costs	4 390 GBP	2 810 GBP
	Average return each year	- 22.12 %	- 3.88 %
Unfavourable	Minimum		
	What you might get back after costs	7 790 GBP	8 200 GBP
	Average return each year	- 22.12%	- 3.88%
Moderate	Minimum		
	What you might get back after costs	10 460 GBP	14 880 GBP
	Average return each year	4.61%	8.28%
Favourable	Minimum		
	What you might get back after costs	12 470 GBP	16 120 GBP
	Average return each year	24.71%	10.02%

The figures shown include all the costs of the product itself, (where applicable) [but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor]. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 12/2021 and 11/2022, the moderate scenario occurred for an investment between 01/2015 and 12/2019, and the favourable scenario occurred for an investment between 01/2013 and 12/2017.

What happens if Fiera Capital (UK) Limited is unable to pay out?

In the event of the default or liquidation of the Investment Manager, there would be no direct impact on investors as the assets are entrusted to and kept safe by the Depositary. If the Depositary becomes insolvent or otherwise unable to deliver under the product, you may face financial loss. The default of the product manufacturer or UCITS Management Company should not affect the assets.

The Company is not a 'guaranteed UCITS' within the meaning of the applicable Irish laws and regulations. As a result, there is no guarantee scheme in place which provides a guaranteed rate of return. You will not be covered by a compensation scheme.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10 000 is invested.

Investment: 10 000 GBP	If you exit after 1 year	If you exit after 5 years
Total Costs	575 GBP	1147 GBP
Annual Cost Impact ^(*)	5.75 %	1.62 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.90% before costs and 8.28% after costs.

(Where applicable): "We may share part of the costs with the person selling you the product to cover the services they provide to you. (Where applicable) [They will inform you of the amount.]"

(Where applicable): "These figures include the maximum distribution fee that the person selling you the product may charge ([] % of amount invested / [] EUR). This person will inform you of the actual distribution fee."

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The impact of the costs when entering your investment. 5.00% is the maximum that, at the discretion of the Directors, may be taken out of your money before it is invested.
