What is this product?

Type: Shares of a Sub-Fund of First Eagle Amundi, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

The Sub-Fund seeks to offer investors capital growth through diversification of its investments over all categories of assets and a policy following a "value" approach.

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation*.

To achieve this objective, the Sub-Fund invests mainly in equities and Equity-linked Instruments without any restriction in terms of market capitalization or geographical diversification, including emerging markets. The sub-fund may also invest in government and corporate bonds (including up to 10% of its assets in convertible bonds) from anywhere in the world, money market instruments, and cash and may seek exposure to commodities, real estate and currencies. The Sub-Fund's investments in bonds will be primarily for the purpose of cash management and the instruments will primarily be rated as investment grade. No more than 10% of the Sub-Fund's assets will be invested in bonds that are below investment grade, and no investments will be made in distressed securities. The investment process is based on fundamental analysis of the financial and business situation of the issuers, market outlook and other elements.

The Sub-Fund aims for an improved environmental footprint and sustainability profile by integrating ESG (environmental, social and corporate governance) factors. Whilst the Investment Manager aims to invest in ESG rated securities, not all investments of the Sub-Fund will have an ESG rating and, in any event, such investments will not comprise more than 10% of the Sub-Fund*.

The Sub-Fund may invest in financial derivative instruments for hedging purpose and for the purpose of efficient portfolio management. The Sub-Fund may not enter into securities lending transactions.

* As from 26/04/2021

Benchmark : The Sub-Fund is actively managed. The Sub-Fund may use a benchmark a posteriori as an indicator for assessing the Sub-Fund's performance and, as regards the performance fee benchmark used by relevant share classes, for calculating the performance fees. There are no constraints relative to any such Benchmark restraining portfolio construction.

The Sub-Fund has not designated a reference benchmark for the purpose of the Disclosure Regulation.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process and, based on Amundi's proprietary ESG rating system, F and G rated-companies (with A the highest rating and G the lowest) are excluded.

Further and as from 26 April 2021, the Sub-Fund will seek to achieve an ESG score of its portfolio greater than that of its investment universe. Further, the 20% lowest ESG rated securities of the investment universe will be excluded from investment by the Sub-Fund. The selection of securities through the use of Amundi's ESG rating methodology takes into account principal adverse impacts of investment decisions on Sustainability Factors according to the nature of the Sub-Fund.
