What is this product?

Type	The product is a Luxembourg investment company with variable capital (Société d'investissement à capital variable, "SICAV") incorporated in the form of a public limited company (société anonyme, "S.A."). As an undertaking for collective investment in transferable securities ("UCITS"), it is subject to Part I of the Luxembourg Law of 17 December 2010 ("Law of 2010"), as amended.
Term	The term of the Fund is unlimited, so there is no maturity date. The Fund may be dissolved and liquidated under the specific circumstances set out in the Articles of Incorporation.
Objectives	The sub-fund is actively managed. The aim of the FPM Funds Ladon sub-fund's investment principles is to generate the highest possible capital growth. The sub-fund FPM Funds Ladon actively invests in those technologies and companies that serve environmental and climate protection and help the economy achieve its sustainable goals. The sub-fund invests at least 75% of the net sub-fund assets in shares and securities with share characteristics, a maximum of 20% in bonds and securities with bond characteristics, a maximum of 10% in investment fund units, and a maximum of 10% in 1:1 certificates on shares, indices, commodities or currencies. The sub-fund may employ derivative financial instruments such as forwards, futures, single stock futures and options for investment and hedging purposes. No reference is made to a benchmark in managing the Fund. Income of the sub-fund (or: in this unit class) shall be distributed; the sub-fund may pay interim dividends. This key information document describes a sub-fund of a fund. The Prospectus and the annual and semi-annual report are prepared for the entire fund. The assets and liabilities of each sub-fund are segregated from those of the other sub-funds of the fund. The shareholder has the right to switch his shares in one sub-fund into shares of another sub-fund. For further information about how to exercise that right, please refer to the detailed description in the prospectus. Depositary of the fund is Hauck Aufhäuser Lampe Privatbank AG, Niederlassung Luxembourg. The prospectus and current reports, the current share prices and further information about the sub-fund or further share classes of the sub-fund can be found free of charge in English language on our homepage https://fondsfinder.universal-investment.com .
Intended retail investor	The fund is designed for investors who are capable of assessing the risks and value of the investment. The investor must be prepared and able to accept significant fluctuations in the value of the shares, and the potential of a significant loss of capital. The assessment of the SICAV should not be considered investment advice; instead, it is intended to provide the investor with an initial point of reference for determining whether the fund is appropriate for their investing experience, risk tolerance and investment horizon.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 5 out of 7, which is a medium high risk class. This rates the potential losses from future performance at a medium high level, and poor market conditions will likely impact our capacity to pay you. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of FPM Funds Ladon over the last 12 years. Markets could develop very differently in the future.

Recommended holding period: 7 Years

Example Investment: 10,000 EUR

		If you exit after 1 year	If you exit after 7 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	1,708 EUR	781 EUR
	Average return each year	-82.92%	-30.53%
Unfavourable	What you might get back after costs	5,303 EUR	4,135 EUR
	Average return each year	-46.97%	-11.85%
Moderate	What you might get back after costs	9,929 EUR	11,491 EUR
	Average return each year	-0.71%	2.00%
Favourable	What you might get back after costs	23,586 EUR	16,742 EUR
	Average return each year	135.86%	7.64%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario was based on an investment between 12/2021 and 01/2024. The moderate scenario was based on an investment between 08/2012 and 08/2019. The favourable scenario was based on an investment between 12/2014 and 12/2021.

What happens if the Manufacturer is unable to pay out?

The failure of the Manufacturer will have no direct impact on your payment, since statutory regulations required that, if the Manufacturer becomes insolvent, the fund does not become part of the insolvency assets, but rather remains separate.

What are the costs?

The person selling you this product or advising you on it may charge you other costs. If this is the case, this person will inform you of these costs (also free of charge in paper form) and explain how these costs will affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 7 years
Total costs	661 EUR	3,019 EUR
Annual cost impact (*)	6.6%	4.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.2% before costs and 2.0% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.0% (currently 3.0%) of the amount you pay when acquiring this investment. The amount indicated is the maximum rate. This may be lower in individual cases. You can request the amount actually applicable for you from the distributor of the shares in the Fund.	Up to 300 EUR
Exit costs	0.0% of your investment before it is paid out to you. The amount indicated is the maximum rate. This may be lower in individual cases. You can request the amount actually applicable for you from the distributor of the shares in the Fund.	Up to 0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	3.0% of the value of your investment per year. The indicated costs were incurred during the last fiscal year of the fund, which ended on 31/12/2023. The ongoing costs can fluctuate from year to year.	290 EUR
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	24 EUR
Incidental costs taken under specific conditions		
Performance related fees	Performance fee: The performance fee corresponds to 20% of the sum by which the performance of the shares exceeds the performance of the MSCI® Europe Climate Paris Aligned Index (EUR) (benchmark), from the start of each financial year to the end of the financial year (the calculation period). The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last five years.	47 EUR

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. Due to legal requirements, we are obliged to show the percentage figures with only one decimal place.

How long should I hold it and can I take my money out early?

Recommended holding period: 7 Years

This product does not have a mandatory holding period. The recommended holding period is based either on historical data or the Manufacturer's estimate regarding the average fluctuation in the unit value, which is to be expected for this product. If you, as an investor, have a shorter investment horizon, the risk is on average higher than at the time of redemption, the unit value of the product will be lower than when you invested. There are no redemption costs or fees. However, you may return the product in accordance with the procedures indicated in the Sales Prospectus.

How can I complain?

If you have any questions or complaints about the product, the manufacturer or customer service, please contact your customer service representative first.
