Security code: A0HGEX ISIN: LU0232955988

Management Company: DWS Investment S.A., a member of the Deutsche Bank Group.

Objectives and investment policy

The objective of the investment policy is to achieve sustainable capital growth. In order to achieve this, the fund invests at least 75% of its assets in equities of issuers from an EU member state, Norway and/or Iceland. In addition, the fund may invest in share certificates, convertible bonds, convertible debentures and warrant-linked bonds and warrants for securities, and fixed- and floating-rate securities of German issuers. At least two thirds of the funds overall assets (after deduction of the liquid assets) are invested in equities issued by companies whose registered office is in Germany, or that conduct their principal business activity in Germany and qualify as companies with a large market capitalization. "Large Caps" are companies with a market capitalization above EUR 3 billion. Up to 25% of the net assets may be invested in equities of any size worldwide. Individual securities are chosen on the basis of an active selection process. The selection of individual investments is at the discretion of the fund management. The fund is subject to various risks. A more detailed description of risks can be found under 'Risks' in the sales prospectus. The currency of FPM Funds Stockpicker Germany Large Cap is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares on each valuation day. The redemption may only be suspended in exceptional cases taking into account your interests as an investor.

Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high.
