What is this product?

Type

The product is a share class of FTGF Brandywine Global High Yield Fund (the "Fund") which is part of the Franklin Templeton Global Funds plc, an investment company with variable capital incorporated with limited liability in Ireland and established as an umbrella fund with segregated liability between sub-funds.

Term

The Fund has no maturity date. The Fund could be closed under the conditions laid down in the current prospectus of the Fund.

Objectives

Investment Objective

The Fund's primary investment objective is to generate high levels of income. The generation of capital gains is a secondary objective.

Investment Policy

- The Fund will invest at least 80% of its assets in corporate debt securities rated BB+ or lower by S&P, or Ba1 or lower by Moody's, or the equivalent or lower from another NRSRO, or if unrated deemed by the investment manager to be of comparable quality issued anywhere in the world, including emerging market countries. Such investment may be directly (70% minimum) in such shares or indirectly via derivatives (financial instruments whose value is derived from the value of other assets).

- The Fund may also invest in debt securities issued by governments. The Fund may invest in debt securities rated as low as C by Moody's or D by S&P.

- The Fund may invest up to 5% in contingent convertible bonds (bonds that can convert into equity upon a specified event taking place).

- The Fund may invest in mortgage-backed and asset-backed securities, which are bonds that provide the bondholder with regular payments dependent on the cash-flow arising from a specified pool of assets such as interest and capital from mortgages or car loans.

- The Fund holds investments issued in different currencies and tries to profit from changes in the exchange rates between currencies.

- The Fund may invest in derivatives, to help try to achieve the Fund's objective as well as to reduce risk or cost or to generate additional growth or income for the Fund.

- Benchmark:** Bloomberg Global High Yield Index

- Manager's Discretion:** The Fund is actively managed. The investment manager seeks to outperform the benchmark over a complete economic cycle of several years. There is no guarantee that this will be achieved. The benchmark does not constrain how the investment manager manages the Fund.

- Transaction Costs:** The Fund bears costs in buying and selling investments, which may have a material impact on the Fund's performance.

Share Class Policy

Income and gains from the Fund's investments are not paid but instead are reflected in the Fund's share price.

For this share class, the investment manager intends to index hedge "(IH)" the currency exposure, which means that the share class will retain a degree of exposure to the currencies that are significant to the fund's investment strategy in comparison to the currencies of the relevant index.

Processing of subscription and redemption orders

You can buy, sell and switch your shares on each day that the New York Stock Exchange is open for business.

Intended retail investor

The Fund may appeal to investors looking to achieve a high level of income with capital growth as a secondary objective by obtaining exposure to high yield (riskier) global corporate debt securities that are considered high yielding by the investment manager, as well as derivatives. Investors should be willing to hold their investment over the medium to long term for a minimum period of 3 to 5 years. The Fund is suitable for investors who do not need to have specific knowledge and/or experience of financial markets with the understanding that they may not get back the full amount invested in the Fund.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payment in a different currency, so that the final return you get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the product not included in the summary risk indicator:

- Credit risk

For the other risks applicable to this Fund, please refer to the Primary Risks section of the Fund supplement contained within the prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:

5 years

Example Investment:

10,000 GBP

If you exit after 1 year

If you exit after 5 years

Scenarios

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	4,140 GBP	4,670 GBP
	Average return each year	-58.60%	-14.13%
Unfavourable	What you might get back after costs	8,410 GBP	9,730 GBP

What happens if Franklin Templeton International Services S.à r.l. is unable to pay out?

Franklin Templeton International Services S.à r.l. ("FTIS") is the management company of the Fund, but the assets are held separately from FTIS by the depository. BNY Mellon SA/NV Dublin Branch, as the appointed depository of the Fund, is liable to the Fund or its shareholders for any loss of financial instruments held in custody by it or its delegates (cash could however be lost in case of default of the depository or its delegates).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- GBP 10,000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	86 GBP	498 GBP
Annual cost impact (*)	0.9%	0.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.2% before costs and 3.3% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Please note that the figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed.

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

This Fund has no minimum required holding period. We consider that the 5 year recommended holding period is appropriate because the Fund is designed for long-term investment. You may sell your shares on any dealing day. The value of your investments may go down as well as up irrespective of the period you are holding your investments, depending on such factors as the performance of the Fund, movements in stock and bond prices, and conditions in financial markets generally. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

How can I complain?

Investors who would like to receive the procedures relating to complaints handling or wish to make a complaint about the Fund, the operation of FTIS or the person advising on or selling the Fund, should go on the website www.franklintempleton.lu, contact Franklin Templeton International Services, S.à r.l., 8A, rue Albert Borschette L-1246 Luxembourg, or send an e-mail to the client service department at lucs@franklintempleton.com.
