## What is this product?

### Type

The Product is a share of the Sub-fund FTGF Western Asset Short Duration Blue Chip Bond Fund (the Sub-fund) which is part of the Franklin Templeton Global Funds plc (the "Umbrella Fund"), an investment company with variable capital incorporated with limited liability in Ireland and established as an umbrella fund with segregated liability between sub-funds.

### Term

The fund has no maturity date. Management company: Franklin Templeton International Services S.à r.l. is not entitled to terminate the fund unilaterally.

### Objectives

#### Investment Objective

The fund's investment objective is to achieve total return, through income and capital appreciation.

#### Investment Policy

- The fund invests mainly in higher rated corporate bonds (rated A- or higher by S&P or the equivalent by another NRSRO, or if unrated deemed to be of comparable quality) issued in certain developed countries.
- The fund will only invest in those corporate bonds that have priority over certain other bonds in a claim against the issuer.
- The fund may invest in bonds issued by international organisations.
- The fund may invest in securities denominated in any currency; however, the fund will attempt to hedge all non-US Dollar positions to the US Dollar, so that the fund is not exposed to any currencies other than the US Dollar.
- The fund may invest in derivatives (financial instruments whose value is derived from the value of other assets), to help try to achieve the fund's objective as well as to reduce risk or cost or to generate additional growth or income for the fund.
- This is an Article 8 fund under the EU Sustainable Finance Disclosure Regulation.

• **Manager's Discretion:** The fund is actively managed. The investment manager has discretion in selecting investments within the fund's objective and investment policies.

• **Transaction Costs:** The fund bears costs in buying and selling investments, which may have a material impact on the fund's performance. A benchmark is not used for performance comparison purposes.

#### Share Class Policy

Income and gains from the fund's investments are not paid but instead are reflected in the fund's share price.

For this share class, the manager applies a portfolio hedge that is intended to minimize the currency risk between the currency of the share class (which is in a non-base currency) and the base currency of the Fund.

#### Processing of subscription and redemption orders

You can buy, sell and switch your shares on each day that the New York Stock Exchange is open for business.

#### Intended retail investor

The Fund may appeal to investors looking to achieve total return with a combination of income and capital appreciation by obtaining exposure to high quality corporate debt securities globally, excluding emerging markets that are deemed 'blue chip' (debt rating of A- or high by S&P or equivalent). The debt securities purchased are expected to have an average portfolio duration of 0 to 5 years. Investors should be willing to hold their investment over the medium to long term for a minimum period of 3 to 5 years. The Fund is suitable for investors who do not need to have specific knowledge and/or experience of financial markets with the understanding that they may not get back the full amount invested in the Fund.

#### Depositary

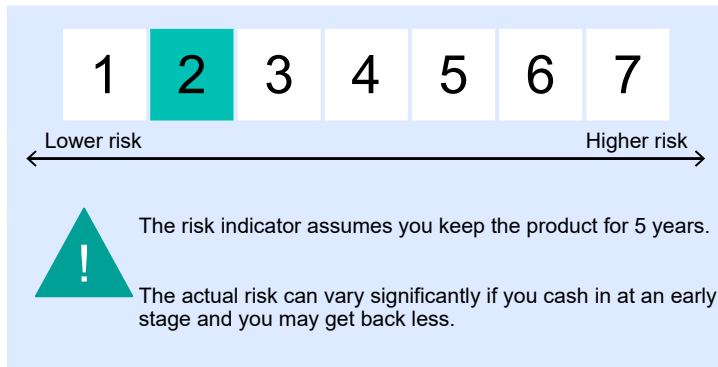

Bank of New York Mellon SA/NV, Dublin Branch

## What are the risks and what could I get in return?

### Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 2 out of 7, which is a low risk class. Due to the nature of the Fund's investments, the Fund's performance can fluctuate to a small degree over time.

**Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the PRIIP not included in the summary risk indicator:

- Credit risk

For the other risk applicable to this Fund, please refer to the Primary Risks section of the fund supplement contained within the prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

**Recommended holding period:**

## What happens if Franklin Templeton International Services S.à r.l. is unable to pay out?

As a shareholder of the Fund, you would not be able to make a claim to the Financial Services Compensation Scheme about the Fund in the event that the Fund is unable to pay out. Franklin Templeton International Services S.à r.l. is the management company of the Fund, but the assets are held separately from Franklin Templeton International Services S.à r.l. by the depository. BNY Mellon SA/NV Dublin Branch, as the depository of the Fund, is liable to the Fund or its shareholders for any loss of financial instruments held in custody by it or its delegate. (Cash could however be lost in case of default of the depository or its delegates).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depository.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Total costs</b>	47 EUR	222 EUR
<b>Annual cost impact (*)</b>	0.5%	0.5% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -1.2% before costs and -1.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Please note that the figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed.

### Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	We do not charge an entry fee.	0 EUR
<b>Exit costs</b>	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
