The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising Franklin Templeton International Services S.à r.l. in relation to this Key Information Document.

This PRIIP is authorised in Ireland.

Date of Production of the KID: 12/02/2024

What is this product?

Type

The product is a share class of FTGF Western Asset US Mortgage-Backed Securities Fund (the "Fund") which is part of the Franklin Templeton Global Funds plc, an investment company with variable capital incorporated with limited liability in Ireland and established as an umbrella fund with segregated liability between sub-funds.

Term

The Fund has no maturity date. The Fund could be closed under the conditions laid down in the current prospectus of the Fund.

Objectives

Investment Objective

The Fund's investment objective is to maximise total return, consisting of income and capital appreciation.

Investment Policy

- The Fund invests at least 80% of its assets in US mortgage-backed securities, issued in US dollars and guaranteed by the US government or one of its agencies and listed or traded on regulated markets located in the United States as set out in the Prospectus
- The Fund will only purchase debt securities rated at least B- by S&P or its equivalent by another NRSRO or, if unrated, deemed to be of comparable quality by the investment manager and sub-investment manager.
- Mortgage-backed securities and asset-backed securities are bonds that provide the bondholder with regular payments dependent on the cash-flow arising from interest and capital from a pool of mortgages.
- The Fund may also invest up to 20% of its assets in bonds issued by the US government, or one of its agencies, asset-backed securities and other US dollar money market instruments.
- The Fund invests mainly in higher rated bonds.
- The Fund may invest in derivatives (financial instruments whose value is derived from the value of other assets), to help try to achieve the Fund's objective as well as to reduce risk or cost or to generate additional growth or income for the Fund.
- **Benchmark:** Bloomberg US Mortgage-backed Securities Index
- **Manager's Discretion:** The Fund is actively managed, and the investment manager is not constrained by the benchmark. The benchmark is used for

performance comparison purposes and by the investment manager in measuring and managing investment risk. The Fund's investments will include components of the benchmark, although the weightings of the Fund's holdings may differ materially from those of the benchmark and will normally include instruments not included in the benchmark.

- **Transaction Costs:** The Fund bears costs in buying and selling investments, which may have a material impact on the Fund's performance.

Share Class Policy

For this share class all, or some portion of, net income is declared and paid monthly to shareholders.

For this share class certain fees and expenses may be charged to capital rather than income. This will result in an increase in income available for distribution by foregoing some of the capital that the share class would have available for future investment and potential growth. In addition, all or some portion, of realised and unrealised capital gains net of realised and unrealised capital losses may be declared as a dividend.

Processing of subscription and redemption orders

You can buy, sell and switch your shares on each day that the New York Stock Exchange is open for business.

Intended retail investor

The Fund may appeal to investors looking to maximise total return with a combination of income and capital appreciation by obtaining exposure to debt securities that are mortgage-backed securities issued in US Dollars and issued or guaranteed by the US government, its agencies instrumentalities or political sub-divisions. The Fund may also invest in derivatives in the form of embedded derivatives and direct derivative investment. Investors should be willing to hold their investment over the medium to long term for a minimum period of 3 to 5 years. The Fund is suitable for investors who do not need to have specific knowledge and/or experience of financial markets with the understanding that they may not get back the full amount invested in the Fund.

Depositary

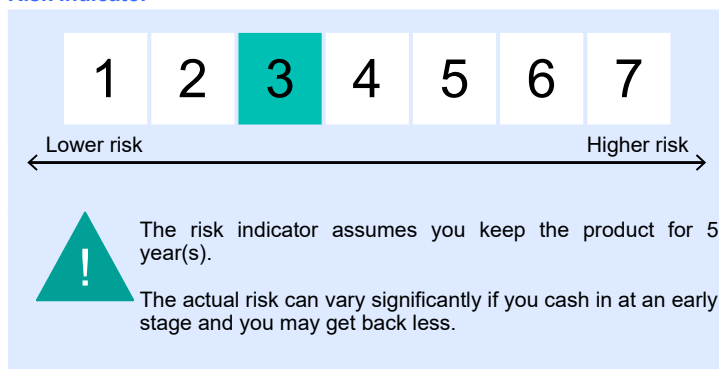

Bank of New York Mellon SA/NV, Dublin Branch

Further Information

Please refer to the 'Other relevant information' section below.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payment in a different currency, so that the final return you get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the product not included in the summary risk indicator:

- Credit risk
- Concentration risk

For the other risks applicable to this Fund, please refer to the Primary Risks section of the Fund supplement contained within the prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:

5 years

Example Investment:

10,000 USD

If you exit after 1 year

If you exit after 5 years

Scenarios

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	7,270 USD	6,590 USD
	Average return each year	-27.30%	-8.00%
Unfavourable	What you might get back after costs	7,850 USD	7,310 USD
	Average return each year	-21.50%	-6.07%
Moderate	What you might get back after costs	9,260 USD	8,630 USD
	Average return each year	-7.40%	-2.90%
Favourable	What you might get back after costs	9,950 USD	9,240 USD
	Average return each year	-0.50%	-1.57%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between October 2017 and October 2022.

Moderate scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between May 2016 and May 2021.

Favourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between December 2013 and December 2018.

What happens if Franklin Templeton International Services S.à r.l. is unable to pay out?

Franklin Templeton International Services S.à r.l. ("FTIS") is the management company of the Fund, but the assets are held separately from FTIS by the depositary. BNY Mellon SA/NV Dublin Branch, as the appointed depositary of the Fund, is liable to the Fund or its shareholders for any loss of financial instruments held in custody by it or its delegates (cash could however be lost in case of default of the depositary or its delegates).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	627 USD	1,060 USD
Annual cost impact (*)	6.3%	2.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.6% before costs and -2.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Please note that the figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment.	Up to 500 USD
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.27% of the value of your investment per year. This is an estimate based on actual costs over the last year.	127 USD
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0 USD
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

This Fund has no minimum required holding period. We consider that the 5 year recommended holding period is appropriate because the Fund is designed for long-term investment. You may sell your shares on any dealing day. The value of your investments may go down as well as up irrespective of the period you are holding your investments, depending on such factors as the performance of the Fund, movements in stock and bond prices, and conditions in financial markets generally. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

How can I complain?

Investors who would like to receive the procedures relating to complaints handling or wish to make a complaint about the Fund, the operation of FTIS or the person advising on or selling the Fund, should go on the website www.franklintempleton.lu, contact Franklin Templeton International Services, S.à r.l., 8A, rue Albert Borschette L-1246 Luxembourg, or send an e-mail to the client service department at lucs@franklintempleton.com.

Other relevant information
