Forward Lucy Global Megatrends - CI-USD II

ISIN LU2459148495

A sub-fund of FWU Protection Fund SICAV, a Luxembourg UCITS.

Management Company: FWU Invest S.A., 33, rue de Gasperich, L-5826 Hesperange, Grand Duchy of Luxembourg

Objectives and investment policy

Objective: Maximize long-term capital growth by investing primarily in equity securities of companies that are domiciled anywhere in the world.

Benchmark: The Sub-Fund is actively managed, in reference to the following benchmark: 100 % MSCI World Net Total Return USD Index.

The majority of the Sub-Fund's equity securities will be components of the benchmark but with different weightings to the benchmark. The Management Company uses its discretion to invest in companies not included in the benchmark in order to take advantage of specific investment opportunities. The investment strategy does not restrict the extent to which the portfolio holdings may deviate from the benchmark. Investors' attention is drawn to the fact that the Sub-Fund is actively managed and references a benchmark indicator exclusively as ex-post performance indicator including for the purpose of calculating the Annual Performance Fee.

Portfolio securities: The Sub-Fund aims to achieve its objective through direct investments in equity securities traded on Regulated Markets or on markets that are regulated, operate regularly and are recognised and open to the public. The Sub-Fund may also invest in derivatives, forward currency contracts, Exchange traded Futures and may engage in plain vanilla option strategies (such as selling or buying of call options or put options), either as a hedge or for efficient portfolio management. The Sub-Fund will have recourse to securities lending for the purposes of efficient portfolio management up to a maximum of 50% of the Net Asset Value of the Sub-Fund. Under normal circumstances, it is generally expected that the principal amount of such transactions will not exceed 30% of the Net Asset Value and remain within the range of 5% to 30% of the Net Asset Value.

Investment process: The Management Company will analyze and select an appropriate number of industry trends that will have extraordinary impact on the global economy in the future, or who have an above average expected return potential over the long term. The "FORWARD LUCY" algorithm will then evaluate the current market preferences for various smart beta factors, and allocate capital to the equities within each of the global megatrends which score best on the most favourable factors. Mainly USD, EUR, GBP, SEK, DKK, CHF, NOK, CAD, AUD, JPY denominated equity securities, and to a lesser extent equity securities in other currencies, will be selected. Environment, Social and Governance (ESG) scoring is a complement to the fundamental analysis. Designed for: Investors who understand the risks of this Sub-Fund and who plan to invest their money for the long term. Base currency: USD.

TERMS TO UNDERSTAND

Shares: Securities that represent a share in the business results of a company.

Derivatives: Financial instruments whose value depends on one or more indexes, securities, rates or currencies.

You can buy or sell shares of the Sub-Fund only if you are an institutional investor, on every day that is a whole business day in Luxembourg. These

shares are accumulation shares (meaning any income received is retained in the value of the shares).

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, Lower risk ← **Typically higher rewards, Higher risk** →

The value of an investment in the Sub-Fund can go up and down. When you sell your shares, they may be worth less than what you paid for them. If your currency as an investor is different from the subscription currency of the Sub-Fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses. The rating is based on medium-term volatility (variations in the Sub-Fund's share price over a recent period, generally several years). Going forward, the Sub-Fund's actual volatility could be lower or higher, and its rated risk/reward level may be changed. The above risk rating is based on past performance, is not guaranteed and may shift over time.

The Sub-Fund's risk rating reflects the following:

- The Sub-Fund invests in a diversified range of asset classes.
- The Sub-Fund seeks to lower the portfolio's volatility.

The risk rating does not reflect the possible effects of unusual market conditions, which could amplify everyday risks and could trigger other risks, such as:

Counterparty risk: The Sub-Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its commitments to the Sub-Fund.

Liquidity risk: Certain securities could become hard to value, or to sell at a desired time and price.

Management risk: Portfolio management techniques that have worked well in normal market conditions could prove ineffective or detrimental during unusual conditions.

Operational risk: In any market, but particularly in emerging markets, the Sub-Fund could suffer large losses from system breakdowns, undetected flaws, fraud, corruption, political or military actions, seizure of property or other adverse events.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year
