## 1. General information

GAM FCM Cat Bond Inc. (the "Company") is an open-ended investment company organised in a similar manner to an open-ended unit trust or mutual fund, structured to make its investments through an investment company, GAM FCM Cat Bond Investments Inc. (the "Investment Company"). The Company and the Investment Company are each registered as a company limited by shares under the BVI Business Companies Act (2013 Revision) (as amended) of the British Virgin Islands.

The Company's objective is to generate returns through selective investment in a global portfolio of insurance-linked securities.

Various classes of shares are available, denominated in US dollar, Australian dollar, Euro, New Zealand dollar, Pound sterling, Swiss franc and Japanese yen. Shares are normally issued and redeemed on the last business day of each calendar month, with subscriptions and redemptions being subject to the notice periods per the Prospectus. Although each class will be treated as bearing its own liabilities, the Company as a whole will remain liable to third parties for all liabilities of the Company. As at 31 December 2023 and 31 December 2022, there is no such existing or contingent liability.

At the year end, the Company owns 100% (2022: 100%) of the share capital of the Investment Company, however due to the application of IFRS 10 - Consolidated Financial Statement ("IFRS 10") separate financial statements have been prepared. These financial statements reflect the total assets, liabilities and operations of the Company.

IFRS 10 defines an investment entity and introduced an exception from consolidation requirements for investment entities. The exception to consolidation requires investment entities to account for subsidiaries at fair value through profit or loss. The Company meets the definition of an investment entity as does the Investment Company therefore the Company and the Investment Company are preparing separate financial statements.

The Company is an alternative investment fund ("AIF") and the Manager is its alternative investment fund manager ("AIFM") for the purposes of the Directive 2011/61/EU of the European Parliament and of the Council ("AIFMD").

# 2. Summary of material accounting policies

# (a) Basis of preparation of financial statements

The financial statements are prepared in accordance with IFRS Accounting Standards under the historical cost convention as modified by the fair valuation of financial assets and financial liabilities through profit or loss.

The financial statements of the Company are prepared on a going concern basis.

Accounting estimates and judgements

The preparation of financial statements in accordance with IFRS Accounting Standards requires the Directors to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates

The estimates and underlying assumptions (the most significant of which are the fair value of financial assets/liabilities and expense accruals) are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Standards and amendments to existing standards effective 1 January 2023:

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after1 January 2023 (unless otherwise stated). The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Accounting Standards Practice Statement 2

The amendments require the disclosure of material' rather than significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information disclosed in the financial statements. To support this amendment, the IASB also amended IFRS Accounting Standards Practice Statement 2 Making Materiality Judgements to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

Definition of Accounting Estimates - Amendments to IAS 8

The amendments to IAS 8 clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors. They also clarify how entities use measurement techniques and inputs to develop accounting estimates. These amendments had no material impact on the financial statements of the Company.

New standards, amendments and interpretations effective 1 January 2024:

A number of new standards, amendments to standards and interpretations were issued and are effective for annual periods beginning 1 January 2024. None of these have been early adopted or are expected to have a material effect on the financial statements of the Company.

# 2. Summary of material accounting policies, continued

## (b) Financial assets and financial liabilities at fair value through profit or loss

#### Classification

IFRS Financial Instruments ("IFRS 9") replaced the provisions of IAS 39 that relate to the recognition, classification and measurement of financial instruments, including derecognition and impairment of such financial instruments. The Directors have determined that in order for the financial statements to give a true and fair view it is necessary to fair value all financial instruments through profit or loss as permitted by IFRS 9, since all financial instruments are managed on a fair value basis. Therefore the Company has classified its financial assets and financial liabilities at fair value through profit or loss.

## Recognition/Derecognition

Purchases and sales are initially recognised on trade date – the date on which the Company commits to purchase or sell the asset. Investments are derecognised when the rights to receive the cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

#### Measurement

Financial assets and liabilities are initially recognised at fair value, and transaction costs for all financial assets/liabilities carried at fair value through profit or loss are expensed as incurred. Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value at market close on each valuation day.

The computation of realised gains and losses on sales of financial assets and liabilities at fair value through profit or loss is made on the basis of average cost and accounted for in the Income Statement. Gains and losses arising from changes in the fair value of the 'financial assets and financial liabilities at fair value through profit or loss' category are included in the Income Statement in the period in which they arise.

#### Fair Value Estimation

The Company classifies its unconsolidated Investment Company into financial assets at fair value through profit or loss by such designation on initial recognition. Financial assets at fair value through profit or loss are initially recorded in the Balance Sheet at cost which is the fair value at the date of initial recognition. Subsequent to initial recognition, financial assets at fair value through profit or loss are re-measured at fair value. Changes in fair value of the Investment Company are recorded in the Income Statement as "Net fair value gains on financial assets and financial liabilities at fair value through profit or loss". This is the net of coupon/interest payments at Investment Company level, all changes in fair value of underlying financial assets and liabilities, both realised and unrealised, gains and losses on foreign exchange and operating expenses at Investment Company level. Financial assets classified in this category are designated by management on initial recognition as part of a group of financial assets which are managed and their performance evaluated on a fair value basis, in accordance with a documented investment strategy. IFRS 10's Investment Entity Amendment also requires the Investment Company to be accounted for at fair value through profit or loss in accordance with IAS 39. As the Company's investment in the Investment Company, as defined under IFRS 10, is not held for trading, it is presented in the financial statements with the financial assets at fair value through profit and loss, as it is managed on a fair value basis.

As at 31 December 2023, investments totalling US\$2,501,493,644 (2022: US\$2,160,419,485) representing 100.02% (2022: 100.37%) of the net asset value ("NAV") of the Company were valued based on the latest available unaudited NAV provided by the relevant fund manager or administrator.

#### Forward Foreign Exchange Contracts

Forward contracts entered into by the Company represent a firm commitment to receive or deliver a fixed quantity of foreign currency at a specified value and point in time based upon an agreed or contracted quantity. The realised/unrealised gain or loss is equal to the difference between the value of the contract at the onset and the value of the contract at settlement date/year-end date and are included in the Income Statement.

An analysis of the portfolio is shown in the Portfolio Statement.

#### Offsetting financial instruments

The Company presents the fair value of derivatives in the Balance Sheet on a gross basis. Enforceable master netting or similar agreements are in place and a legal right of offset exists between the relevant counterparties. The Company holds such agreements with State Street Bank (2022: Goldman Sachs).

#### (c) Cash and cash equivalents and bank overdraft

Cash and cash equivalents and bank overdraft comprises cash, bank overdraft and foreign currency on deposit with the Custodian with original maturities of less than three months.

#### (d) Bank interest

Interest earned and interest expense on cash at bank and broker balances is recognised using the effective rate of interest method.

#### (e) Fees and expenses

Fees and expenses are accounted for on an accruals basis.

# 2. Summary of material accounting policies, continued

#### (f) Shares in issue

All shares issued by the Company are redeemable at the shareholders option and are classified as financial liabilities under IAS 32 - Financial Instruments. Any dividend distribution on the shares is recognised as a finance cost in the Income Statement. Shareholders may request redemption of their shares on application to the Administrator in accordance with the terms of the Prospectus, for an amount equal to a proportionate share of the net asset value ("NAV") of the Company.

#### (g) Foreign Currency Translation

Functional Currency and Presentation Currency

The Company has adopted the US dollar ("US\$") as its functional currency under IAS 21 - The Effects of Changes in Foreign Exchange Rates as it most appropriately reflects the economic environment in which the Directors believe the Company operates. The presentation currency is also the US\$.

#### Transactions and Balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of assets and liabilities denominated in foreign currencies are recognised in the Income Statement.

The following rates of exchange to US\$ have been used at the year end.

	2023	2022
Australian Dollar	1.4655	=
Euro	0.9053	0.9370
Japanese yen	140.9800	131.9450
New Zealand Dollar	1.5794	-
Pound sterling	0.7844	0.8310
Swiss franc	0.8417	0.9250

#### (h) Other assets measured at amortised cost

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Investment Company shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Investment Company shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. The Investment Company measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management consider both historical analysis and forward looking information in determining any expected credit loss. Management consider the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Investment Company.

#### (i) Taxes

The Company is exempt from all income taxes in the British Virgin Islands. Interest, dividends and other revenue received and capital gains made by the Company may be subject to withholding or similar taxes imposed by the country in which such interest, dividends or other revenues or capital gains originate. The Company will not normally be eligible to benefit from any treaties for the relief from double taxation. If any subsequent tax liabilities are considered payable then adequate provision will be made in the financial statements.

Liabilities relating to uncertain tax positions are accrued only when such liabilities are probable and can be estimated with reasonable accuracy.

#### (j) Investment Entity

The Company has multiple unrelated investors and indirectly holds multiple investments through the Investment Company. Ownership interests in the Company are in the form of redeemable shares which are classified as debt in accordance with IAS 32 and which are exposed to variable returns from changes in the fair value of the Company's net assets. The Company has been deemed to meet the definition of an investment entity per IFRS 10 as the following conditions exist:

- (i) The Company has obtained funds for the purpose of providing investors with investment management services.
- (ii) The Company's business purpose, which was communicated directly to investors, is investing solely for returns from capital appreciation and investment income, through the use of an Investment Company-Company structure.
- (iii) The performance of investments made through the Investment Company are measured and evaluated on a fair value basis.

# 2. Summary of material accounting policies, continued

#### (j) Investment Entity, continued

Although the Company does not meet all of the typical characteristics of an investment entity (namely, the Company does not have multiple investments), Management believe it is nevertheless an investment entity because it was formed in conjunction with the Investment Company and effects multiple investments through the Investment Company.

#### (k) Distribution policy

In respect of the A AUD Income, A NZD Income, A USD Income, USD Open QII, Institutional Income and JPY Income classes the Directors may from time to time declare and pay a dividend whether interim or final and whether in money or in specie. Dividend distributions to redeemable participating shareholders are classified as finance costs in the Income Statement.

#### (I) Receivable for investments sold and payable for investments purchased

Receivable for investments sold and payable for investments purchased represent amounts receivable and payable respectively, for transactions contracted for but not yet delivered at the end of the year. These amounts are included in the Balance Sheet.

#### (m) Subscriptions receivable / Redemptions payable

Subscriptions receivable and redemptions payable relate to subscriptions in the Company which are not yet paid by the investors and redemptions from the Company that are still to be paid by the Company to the investors. These amounts are included in the Balance Sheet.

## 3. Subsidiary

As detailed in Note 1, the Company has determined that the Investment Company continues to meet the definition of a subsidiary under the provisions of IFRS 10. Subsidiaries are entities under the Company's control. The Company controls an entity when it is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through power over the entity.

The Company and Investment Company operate as an integrated structure whereby the Company invests solely into the Investment Company. Total subscriptions made by the Company into the Investment Company during the year ended 31 December 2023 was US\$621,118,442 (2022: US\$355,777,413). As at 31 December 2023 there were capital commitment obligations amounted to US\$52,353,765 (2022: US\$54,176,446) due to the Investment Company for unsettled purchases.

Movements in the fair value of the Investment Company's portfolio and corresponding movements in the fair value of the Investment Company may expose the Company to a loss.

	Place of incorporation	Proportion of	Proportion of	Method used to
Name of subsidiary	and operation	ownership	voting power	account for investment
GAM FCM Cat Bond				Fair value through profit or
Investments Inc.	British Virgin Islands	100%	100%	loss

## 4. Financial assets and financial liabilities at fair value through profit or loss

#### (a) Fair Value Hierarchy

The Company is required to disclose financial instruments measured at fair value based on a three level hierarchy that reflects the significance of the inputs in such fair value measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date. Investments typically classified within level 1 include active listed equities, exchange traded derivatives and certain government bonds.

Level 2 - Inputs other than quoted prices from active markets that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active. Investments typically classified within level 2 include investments in corporate bonds, certain government bonds, certain listed equities and over the counter derivatives. Investment funds are also considered level 2 investments if there is evidence that redemptions occurred during the year and there were no restrictions preventing redemptions at the year end.

Level 3 - Inputs that are unobservable that are significant to the valuation. Investments typically classified within level 3 include certain corporate bonds, private equities and investment funds that have suspended redemptions, created side pocket classes or imposed gates.

The Company uses the "market approach" valuation technique to value its investments. Inputs are determined by observable data. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" may require significant judgment but can generally be considered as that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the risk of that instrument.

# 4. Financial assets and financial liabilities at fair value through profit or loss, continued

#### (a) Fair Value Hierarchy, continued

The investment in the Investment Company is categorised as level 2, reflecting the observable inputs used in valuing the majority of the underlying portfolio of the Investment Company. Please refer to the audited financial statements of the Investment Company for further details.

All investments held at 31 December 2023 and 31 December 2022 were classified as level 2.

Other than financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss, all other financial instruments not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value. These financial assets and financial liabilities are classified as level 2 apart from cash and cash equivalents which is classified as level 1.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting year. There were no transfers between levels during the years ended 31 December 2023 or 31 December 2022.

(b) Other net changes in fair value on financial assets and financial liabilities at fair value through profit or loss

	2023	2022
	US\$	US\$
- Realised	116,167,926	(14,195,321)
- Change in unrealised	301,968,033	(82,065,193)
Total net gains/(losses)	418,135,959	(96,260,514)

## 5. Fees and expenses

#### (a) Performance fee

The Delegate Investment Manager shall be entitled to a performance fee in respect of the Open, Institutional, Institutional Income, GBP Distributor, EUR Institutional B, JPY Institutional B and JPY Income classes, attributable to each series in respect of each calendar year (the "performance period") that will accrue on each valuation day and be payable (i) annually in arrears at the end of each calendar year, (ii) as at each dealling day with respect to shares redeemed by shareholders or (iii) as of the date of closure of the Company, whichever is applicable. Distributions paid out by the Company shall not be deemed to impact the performance of a share class.

The performance fee is calculated on a series-by- series basis, in an amount to 10% of the outperformance of the relevant series over the Benchmark Return (as defined below) and subject to the High Water Mark (as defined below). Each performance fee is calculated on a series-by-series basis in an effort to ensure that performance fees are equitably assessed among shareholders. All fees and expenses (except the performance fee) that have been paid for a given period are deducted prior to calculating the performance fees for such period. Adjustments will be made to account for distributions, subscriptions and redemptions.

The performance fee with respect to a Series is calculated on a cumulative basis and is payable only where the NAV per share has risen above the High Water Mark. The "High Water Mark" is defined as the higher of (i) the issue price of the relevant series and, (ii) the highest NAV per share (adjusted for any distribution) of the relevant series as at any prior calendar year end. Therefore, the performance fee payable with respect to a series is not payable until all prior net losses with respect to such series are recouped. Shares issued as of separate dealing days will be designated as shares of separate series each with its own NAV per Share. The "Benchmark" is the prorated Risk-Free Rate. The rate is based on a 360-day year and subject to a maximum in each case of 10% per annum. The rate to be used will differ according to class currency.

In each case, the rate is pro-rated over the relevant calculation period based on the day count convention of each rate. Where the prorated Risk-Free Rate falls below zero, the rate will be fixed at 0% for calculation purposes. The "Risk-Free Rate" means an interbank interest rate benchmark, which will differ according to currency. Please refer to the prospectus for further details on these rates.

The "Benchmark Return" is the prorated return on the Benchmark with respect to the relevant calculation period (being the period from either (i) the date of issue of the series of share or (ii) the end of a prior calendar year end, to the relevant valuation day). Any underperformance of a series versus the Benchmark for a prior year will not be clawed back i.e., it is non-cumulative.

The performance fee will be accrued and taken into account in the calculation of the NAV per share (adjusted for any distribution) of each series on each valuation day.

Included in the calculation of the performance fee shall be net realised and unrealised capital gains plus net realised and unrealised capital losses as at the end of the relevant calendar year. As a result, performance fees may be paid on unrealised gains which may subsequently never be realised.

No performance fee is payable in respect of, or out of the assets attributable to, the non series classes of shares.

At the year end, other creditors included an amount of US\$8,521,871 (2022: US\$25,220) due to the Delegate Investment Manager in the form of a performance fee.

## 5. Fees and expenses, continued

## (b) Investment Manager fee and Manager fee

The Company pays a monthly aggregate management fee at the annual rate of 1.45% of the NAV of the Open, GBP Distributor and JPY Income classes, 1.75% of the NAV of the Open II classes, 1.25% of the NAV of the Institutional II classes, 1.85% of the NAV of the Reserved classes, up to 1.05% of the NAV for the Z classes, up to 0.95% of the NAV of each Series in respect of the EUR Institutional B and 0.95% of the NAV of each Series in respect of the Institutional, Institutional Income, JPY Institutional B and USD P classes, from which the Manager and the Investment Manager receive their remuneration. The Investment Manager shall be responsible for the fees of the Delegate Investment Manager. At the year end, other creditors included an amount of US\$998,002 (2022: US\$997,543) due to the Investment Manager and US\$909,284 (2022: US\$865,347) due to the Manager.

The Delegate Investment Manager shall be responsible for the fees of the Sub-Adviser.

#### (c) Administration fee

The Company pays a monthly fee to the Administrator at the annual rate of up to 0.08% of the NAV of the Company. At the year end, other creditors included an amount of US\$137,384 (2022: US\$122,814) due to the Administrator. The Administrator is responsible for the fees and expenses of the Secretary and the Delegate Administrator.

#### (d) Custody fee

The Custodian will receive such fees as may be agreed, from time to time, at normal commercial rates.

#### (e) Selling Agent fee

The Company pays a monthly fee, calculated on each valuation day, to each Selling Agent at the annual rate of up to 0.50% of the NAV of each Series in respect of the JPY Institutional B class introduced by the Selling Agent. At the year end, other creditors included an amount of US\$Nil (2022: US\$Nil) due to the Selling Agent.

#### (f) Interest expense

Interest expense relate to a bank overdraft which is repayable on demand.

#### 6. Dividend distribution

Net income available for distribution purposes comprises net dividends, bond interest, bank interest and sundry income received less expenses.

Dividends paid by the Company are disclosed separately in the Income Statement as a finance cost together with proposed distributions to holders of redeemable shares are recognised in the Income Statement when such dividends are appropriately authorised.

## 7. Financial risk management

As at 31 December 2023 and 31 December 2022, the Investment Company held all of the assets on behalf of the Company with the exception of some of the forward foreign exchange contracts. Since the Company owns the Investment Company, all of the risks affecting the Investment Company will indirectly affect the Company. The Company is exposed to market risk, credit risk and liquidity risk arising from the financial instruments it holds.

The investment management and financial risk management of the Company has been delegated by the Board of Directors (which remains ultimately responsible) to the Delegate Investment Manager. The Board of Directors reviews the performance of the Company on a quarterly basis.

#### (a) Market price risk

The Company's investments (refer to the analysis in the Portfolio Statement) are susceptible to market price risk arising from uncertainties about future prices. The Investment Manager manages price risk primarily through diversification of the portfolio of the Investment Company and by regularly reviewing and evaluating the Company's potential exposure to market risk.

At 31 December 2023, if the total fair value of investments had increased by 10% with all other variables held constant, this would have increased the net assets attributable to the shareholders by approximately US\$250,149,364 (2022: US\$216,041,949). Conversely, if the total fair value of investments had decreased by 10% with all other variables held constant, this would have decreased the net assets attributable to the shareholders by approximately US\$250,149,364 (2022: US\$216,041,949).

#### (b) Currency risk

The Company may hold assets denominated in currencies other than the US\$, the functional currency. It may therefore be exposed to currency risk, as the value of the securities denominated in other currencies may fluctuate due to changes in exchange rates. The Investment Manager monitors the Company's currency risk exposure and may utilise hedging techniques in order to remove or reduce currency risks within the Company. As such, the Company enters into forward foreign exchange contracts in order to hedge against currency exchange rate risk on non US\$ denominated classes. Forward foreign exchange contracts may also be entered into in order to further the Company's objective in terms of capital appreciation. All forward foreign exchange contracts held by the Company at the year end are for the purpose of hedging against foreign exchange rate risk of non US dollar denominated classes.

The table below summarises the currency exposure risks of the Company as at 31 December 2023 and 31 December 2022.

As at 31 December 2023

	Non-monetary	Monetary	Net currency
	assets/(liabilities)	assets/(liabilities)	exposure
	US\$	US\$	US\$
Australian dollar	-	(161)	(161)
Euro	-	12,247	12,247
Japanese yen	-	(2,389)	(2,389)
New Zealand dollar	-	196	196
Pound sterling	-	494	494
Swiss franc		1,443	1,443
		11,830	11,830
As at 31 December 2022			
	Non-monetary	Monetary	Net currency
	assets/(liabilities)	assets/(liabilities)	exposure
	US\$	US\$	US\$
Euro	-	10,814	10,814
Japanese yen	-	863	863
Pound sterling	-	379	379
Swiss franc	-	1,622	1,622

#### (c) Interest rate risk

The Company may hold interest-bearing financial assets and liabilities which may expose the Company to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial positions and cash flows. However, as the majority of the Company's financial assets and liabilities are non-interest bearing the Company is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

13,678

13,678

The cash positions of the Company which are held with the Custodian are earning interest at rates which are based on current, most appropriate rates, less a spread as determined by the Custodian.

# 7. Financial risk management, continued

#### (d) Credit risk

The Company may be exposed to credit risk, which is the risk that a counterparty to a financial transaction with the Company will be unable to pay amounts in full when due.

Investment under custody with the Custodian are held in a bankruptcy remote vehicle and therefore are not exposed to significant credit risk with the Custodian. At 31 December 2023 the credit rating of the Custodian was equal to A (2022: A) according to Standard & Poor's.

The Delegate Investment Manager manages credit risk for derivative transactions by only using approved brokers that belong to an internationally recognised financial services firm or alternatively command a high market share in a given market segment. Investments and cash held by brokers are not normally held within segregated accounts.

The following table discloses the breakdown of investments, pending trades and cash held with the Underlying fund & Custodian at the year end.

	Financial assets at fair value	Pending trades	Cash	Total
As at 31 December 2023	US\$	US\$	US\$	US\$
Underlying fund &				
Custodian	2,501,493,644	37,240,427	56,900	2,538,790,971
State Street Bank	47,127,978	<u>-</u>		47,127,978
-	2,548,621,622	37,240,427	56,900	2,585,918,949
	Financial assets at fair			
	value	Pending trades	Cash	Total
As at 31 December 2022	US\$	US\$	US\$	US\$
Underlying fund &				
Custodian	2,160,419,485	3,081,561	47,376	2,163,548,422
Goldman Sachs	20,402,015			20,402,015
	2,180,821,500	3,081,561	47,376	2,183,950,437

The Company, through its investment in the Investment Company, is exposed to the credit risk which the Investment Company has at any point in time. The maximum credit risk which the Company may have is the value of its investments in the Investment Company and amounts receivable from the Investment Company in respect of outstanding sales of investments.

Investments are broken down into the following concentrations:

	2023	2022
Analysis, by geographical area	%	%
British Virgin Islands	100.02	100.37
Forward foreign exchange contracts	1.24	0.86
Other net current liabilities	(1.26)	(1.23)
	100.00	100.00
The underlying geographical exposure is included in the Investment Company financial statement	nents.	
	2023	2022
Analysis, by investment	%	%

Forward foreign exchange contracts	1.24	0.86
Other net current liabilities	(1.26)	(1.23)
	100.00	100.00

# 7. Financial risk management, continued

## (e) Liquidity risk

Liquidity risk is the risk that the Company cannot generate sufficient cash resources to meet its payment obligations in full as they fall due, or can do so only at materially disadvantageous terms. If necessary, the Directors may borrow to meet redemptions or they may defer payment of redemption proceeds if they consider that borrowing would be materially prejudicial to the interests of continuing shareholders. The Directors may also limit aggregate redemptions with respect to any or all share classes on any dealing day where the Company has received redemption requests representing at least 10% of the total aggregate value of the shares in issue eligible for redemption as at that dealing day.

The Company may trade in derivative contracts traded over the counter which are not traded in an organised market and may be illiquid. As a result, the Company may not be able to liquidate quickly its investments in these instruments at an amount close to their fair value. In case of liquidity issues, the Company may borrow to meet redemption requests.

All financial liabilities are due within three months.

#### (f) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 31 December 2023 and 31 December 2022 the transactions between the Company and the below listed counterparties are governed by separate master netting agreements. Each agreement allows for net settlement of certain open contracts where the Company and the respective counterparty both elect to settle on a net basis. In the absence of such an election, contracts will be settled on a gross basis. However, each party to the master netting arrangement will have the option to settle all open contracts on a net basis in the event of default of the other party.

<sup>\*</sup> Based on published NAV.

Each share carries the right to one vote on matters put to a shareholder vote.

The Reserved classes are only available to investors who have negotiated terms of investment with the GAM Group.

The capital of the Company is represented by the net assets attributable to shareholders. The amount of net asset attributable to shareholders can change significantly on a regular basis as the Company is subject to regular subscriptions and redemptions at the discretion of shareholders subject to the notice periods per the Prospectus.

	2023	2022
Reconciliation of NAV	US\$	US\$
Net assets attributable to the shareholders of the Company per the financial statements	2,501,116,754	2,152,375,534
Proposed dividend distribution	5,578,979	4,885,960
Net assets attributable to the shareholders of the Company in accordance with the		
Prospectus	2,506,695,733	2,157,261,494

# 9. Total Expense Ratio Information

The total expense ratio table shows the actual expenses incurred by the Share Classes during the reporting year, expressed as an annualised percentage of the average net assets of the Share Classes for the corresponding year.

Total expense ratio for the year ended 31 December 2023:

		Total TER excluding		Total TER (Including
Fund Class	Currency	Performance Fee	Performance Fee	Performance Fee)

## 10. Related parties

- (i) The Delegate Investment Manager and Sub-Adviser are considered to be related parties of the Company by virtue of the influence that they have over the Company's investment activities. The Manager, Administrator and the Investment Manager are also related parties because they are wholly owned subsidiaries of GAM Holding AG. Fee arrangements with these parties are set out in Note 5.
- (ii) No Director of the Company had any interest in any contract of significance in relation to the Company's business at any time during the years ended 31 December 2023 and 31 December 2022.
- (iii) As at 31 December 2023, one shareholder (2022: one shareholder) held over 20% of the issued share capital of the Company.
- (iv) The Directors of the Company received US\$3,300 (2022: US\$3,300) for acting as a Director of the Company, these fees were paid by the Investment Company. Aldrian Foo has waived his fee for acting as a Director of the Company.
- (v) On 31 January 2023, the Company received assets from the Investment Company to cover an in specie subscription with a market value of US\$126,769,340. On 28 February 2023, the Company transferred assets to the Investment Company to cover an in specie redemption with a market value of US\$103,113,211. Details of these transactions are disclosed in the Supplementary Information of the Cash Flow Statement.

#### 11. Interests in other entities

Interests in Unconsolidated Structured Entities

A structured entity is defined as an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to the administrative tasks only and the relevant activities are directed by means of contractual agreements. A structured entity often has some of the following features or attributes:

- restricted activities;
- a narrow and well defined objective;
- insufficient equity to permit the structured entity to finance its activities without subordinated financial support; and
- financing in the form of multiple contractually linked instruments that create concentrations of credit or other risks.

## Involvement with Unconsolidated Entities

Investment entity

To adopt the amendment to IFRS 10 and to be exempt from preparing consolidated financial statements, the Company must meet the definition of an investment entity. The Company is satisfied that it meets both the required criteria and typical characteristics of an investment entity.

# 11. Interests in other entities, continued

#### Subsidiary

As at 31 December 2023 and 31 December 2022, the Company had one subsidiary, the Investment Company, which is an unconsolidated structured entity and is a 100% owned subsidiary of the Company. The Company has determined that the Investment Company continues to meet the definition of a subsidiary. Subsidiaries are entities under the Company's control. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through power over the entity which is the case in this instance. Therefore the Investment Company is treated as an investment and is measured at fair value through profit or loss.

Below is a summary of the Company's holding in the unconsolidated subsidiary as at 31 December 2023:

				Company's		Maximum
	Line item in			<b>Holding Fair</b>	% of Total Financial	exposure
	Statement of	No of	Subsidiary	Value	Assets at Fair Value	to losses
Subsidiary	Financial Position	Investments	Nominal	US\$	through Profit or Loss	US\$
GAM FCM Cat	Financial assets at					
Bond	fair value through					
Investments Inc.	profit or loss	1	10,059,339	2,501,493,644	100.00%	2,501,493,644

Below is a summary of the Company's holding in the unconsolidated subsidiary as at 31 December 2022:

				Company's		Maximum
	Line item in			<b>Holding Fair</b>	% of Total Financial	exposure
	Statement of	No of	Subsidiary	Value	Assets at Fair Value	to losses
Subsidiary	Financial Position	Investments	Nominal	US\$	through Profit or Loss	US\$
GAM FCM Cat	Financial assets at					
Bond	fair value through					
Investments Inc.	profit or loss	1	10,346,695	2,160,419,485	100.00%	2,160,419,485

## 12. Significant events during the year

The Management of the Company acknowledges the military actions engaged by Russia in Ukraine and the conflict in Israel and their potential to negatively impact the markets in which the Company's assets are invested. The ultimate impact on the Company remains uncertain and can vary according to the countries, asset classes, industry sectors and securities they are invested in. The Manager and Investment Manager are closely monitoring the impact on the Company including any impact on liquidity and liquidity management, fair valuation procedures, investment compliance breaches.

There were no other significant events affecting the Company during the year.

# 13. Subsequent events

There have been no significant events affecting the Company since the year end.

## 14. Contingent liabilities

The Directors are not aware of any contingent liabilities.

## 15. Approval of the financial statements

The financial statements were approved by the Board of Directors on 24 June 2024.

# Statement of Directors' Responsibilities

It is the Directors' responsibility to prepare financial statements for each year which give a true and fair view of the state of affairs of the Company and results of the Company for that period. In preparing those financial statements, the Directors have a responsibility to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed; and
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with IFRS Accounting Standards. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The integrity of these financial statements published, on <a href="www.gam.com">www.gam.com</a>, remain the responsibility of the Board.

# Independent auditor's report

To the Directors of GAM FCM Cat Bond Inc.

# Report on the audit of the financial statements

## Our opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of GAM FCM Cat Bond Inc. (the Company) as at 31 December 2023, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

#### What we have audited

GAM FCM Cat Bond Inc.'s financial statements comprise:

- the balance sheet as at 31 December 2023;
- the portfolio statement as at 31 December 2023;
- the income statement for the year then ended;
- the statement of changes in net assets attributable to the shareholders of the Company for the year then ended;
- the cash flow statement for the year then ended; and
- the notes to the financial statements, which include material accounting policies and other explanatory information.

# **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Independence

We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

#### Other information

Management is responsible for the other information. The other information comprises all of the information in the Annual Report (but does not include the financial statements and our auditor's report thereon).

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Other matter

This report, including the opinion, has been prepared for and only for the Directors in accordance with the terms of our engagement letter dated 14 December 2023 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

PricewaterhouseCoopers

Dublin, Ireland 24 June 2024

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: GAM FCM CAT Bond Inc. (the "Fund") Legal entity identifier: 549300BVLC12IINKY210

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be

aligned with the

Taxonomy or not.

Did th	is financial product have a sustainable	investment objective?
••	Yes	● No
	It made sustainable investments with an environmental objective:%  in economic activities that qualify as environmentally sustainable under the EU Taxonomy  in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments  with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  with a social objective
	t made sustainable investments with a social objective:%	It promoted E/S characteristics, but did not make any sustainable investments

All data presented in the annex which follows has been calculated based on the portfolio holdings of the Fund as at 31 December 2023 and constitutes unaudited information which has not been subject to any assurance provided by the Auditors or any third party.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- 1) The Delegate Investment Manager applied a proprietary rating methodology to support the promotion of high ESG characteristics in the Fund. The Fund primarily invests in securities assessed to have positive ESG ratings, while securities assessed as negative are not eligible for inclusion. The rating methodology is described in the Investment Strategy section the Fund's Propectus under the heading "Analysis of ESG Factors" and the Delegate Investment Manager's ESG Policy, which is available by accessing the link detailed in response to the question "Where can I find more product specific information online?" in the Prospectus;
- 2) Excluded insurance-linked securities ("ILS") from sponsors involved in specific activities considered to cause negative environmental and social impact, as described in the Sustainability Exclusion Criteria within the Prospectus; and
- Assessed adherence to generally accepted international norms and standards set by the United Nations Global Compact ("UN Global Compact"), by exclusion of ILS from sponsors that violate these principles.

The environmental and social characteristics were promoted in line with the binding elements of the Investment Strategy of the Fund, as outlined in the Fund's Prospectus, and there were no breaches of the exclusion criteria or significant adverse impacts during the year.

No reference benchmark was designated for the purpose of attaining the environmental and social characteristics promoted by the Fund.

Sustainability

how the

social

indicators measure

environmental or

characteristics promoted by the

financial product are attained.

#### How did the sustainability indicators perform?

The following sustainability indicators are used to measure the environmental and/or social characteristics of the Fund.

#### 1) Indicators relating to the analysis of ESG factors

The Fund invested in ILS with only positive or neutral ESG ratings, as assessed by the Delegate Investment Manager's proprietary ESG rating methodology, and excluded investments that are rated as negative. This assessment is conducted at the investment and sponsor level and reported as % of the Fund's ILS investments in each category.

No exceptions were made during the reporting period.

Sustainability Indicator	Units	Data source	Date <sup>1</sup>	Data coverage <sup>2</sup>	Proportion of data estimated <sup>3</sup>	Output <sup>4</sup>
Investments with POSITIVE ESG ratings: proportion of securities within the Fund with a POSITIVE sponsor ESG rating based on the Delegate Investment Manager's proprietary scoring framework.	% of Fund	Delegate Investment Manager internal ESG Score	31 Dec 2023	100%	Not applicable	89.96%
Investments with NEUTRAL ESG ratings: proportion of securities within the Fund with a NEUTRAL sponsor ESG rating based on the Delegate Investment Manager's proprietary scoring framework.	% of Fund	Delegate Investment Manager internal ESG Score	31 Dec 2023	100%	Not applicable	10.04%

<sup>&</sup>lt;sup>1</sup> Data snapshot taken at the Fund's year end.

<sup>&</sup>lt;sup>2</sup> Calculated as the proportion of ILS investments (by NAV) that are assigned ESG ratings. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus.

<sup>&</sup>lt;sup>3</sup> Not applicable as the ESG Scores are assessed internally.

<sup>&</sup>lt;sup>4</sup> Calculated as the proportion of ILS investments (by NAV) that are rated ESG positive or neutral. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus.

#### 2) Indicators relating to Sustainability Exclusion Criteria

Involvement by the sponsor in the following activities, beyond the revenue threshold specified, would result in the investment being ineligible (other than where outlined in the Sustainability Exclusion Criteria within the Prospectus). This assessment is conducted at the sponsor level and reported as % of the Fund's investment sponsored by entities failing the criteria.

No exceptions were made during the reporting period.

Given the nature of sponsors in the ILS market, which are predominantly (re)insurance entities and where are a large percentage of sponsors are privately held companies or government-related entities, product involvement assessments are based on internal research drawing on information made available by the sponsors as well as from public third-party sources.

Sustainability Indicator	Units	Data source	Date <sup>5</sup>	Data coverage <sup>6</sup>	Proportion of data estimated <sup>7</sup>	Output <sup>8</sup>
ILS sponsored by non-sovereight	gns		ı	ı		ı
Involvement in controversial weapons: share of investments in ILS sponsored by companies involved in the manufacture or selling of controversial weapons.	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%
Involvement in weapons manufacturing or weapons component manufacturing: share of investments in ILS sponsored by companies involved in the manufacture of military weapons systems, and/or tailor-made components of these weapons systems, and/or tailor-made products or services that support military weapons systems (above 10% revenue threshold).	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%
Involvement in tobacco manufacturing: share of investments in ILS sponsored by companies involved in the manufacture of tobacco products (above 5% revenue threshold).	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%
Involvement in tobacco retail and distribution: share of investments in ILS sponsored by companies involved in the distribution and/or retail sale of	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%

<sup>&</sup>lt;sup>5</sup> Data snapshot taken at the Fund's year end.

<sup>&</sup>lt;sup>6</sup> Calculated as the proportion of ILS investments (by NAV) from ILS sponsors that are assessed Sustainability Exclusion Criteria. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus.

<sup>&</sup>lt;sup>7</sup> Not applicable as compliance with the Sustainability Exclusion Criteria is assessed internally by the Delegate Investment Manager.

<sup>&</sup>lt;sup>8</sup> Calculated as the proportion of ILS investments (by NAV) from ILS sponsors that fail the criteria. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus.

tobacco products (above 5% revenue threshold).						
Involvement in oil sands extraction: share of investments in ILS sponsored by companies involved in oil sands extraction (above 25% revenue threshold).	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%
Involvement in thermal coal mining: Share of investments in ILS sponsored by companies involved in mining thermal coal or from generating electricity from thermal coal (above 25% revenue threshold).	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%
Sovereign sponsored ILS						
"Not Free" Sovereign Sponsors: share of investments in ILS sponsored by countries which have been assessed as "Not Free" by the Freedom House Global Freedom Score.	% of Fund	Freedom House	31 Dec 2023	100%	Not applicable	0%

## 3) <u>Indicators relating to international norms and standards ILS sponsored by non-sovereigns</u>

Companies are expected to adhere to minimum international norms and standards as defined by the UN Global Compact. Companies assessed as having seriously breached the UN Global Compact are excluded, unless the issuer is considered to have taken substantial and adequate steps to have addressed the allegations. This assessment is conducted at the sponsor level and reported as % of the Fund's investment sponsored by entities failing the criteria.

No exceptions were made during the reporting period.

RepRisk and Sustainalytics are used as independent third-party assessments of current severe UN Global Compact violations of sponsors. If only one assessment is available for a sponsor, that assessment is used as the final assessment of a sponsor's compliance with the UN Global Compact. If a sponsor is not covered by either third-party data provider, internal research based on third-party data sources and engagement with the sponsor, if appropriate, are used to form an assessment.

Sustainability Indicator	Units	Data source	Date <sup>9</sup>	Data coverage <sup>10</sup>	Proportion of data estimated <sup>11</sup>	Output <sup>12</sup>
Violations of UN Global Compact principles (also related to Principal Adverse Impacts): share of investments in investee companies that have been involved in violations of the UNGC principles.	% of Fund	RepRisk/ Sustainalytics/I nternal research	31 Dec 2023	96.57%	3.43%	0%

#### ...and compared to previous periods?

There are no material differences in the environmental and/or social characteristics of the Fund when compared to the previous reporting period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

<sup>&</sup>lt;sup>9</sup> Data snapshot taken at the Fund's year end.

<sup>&</sup>lt;sup>10</sup> Calculated as the proportion of ILS investments (by NAV) from non-sovereign ILS sponsors that are covered by at least one third-party data provider. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus nor ILS from sovereign sponsors.

<sup>&</sup>lt;sup>11</sup> Calculated as the proportion of ILS investments (by NAV) from non-sovereign ILS sponsors that are not by at least one third-party data provider. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus nor ILS from sovereign sponsors.

<sup>&</sup>lt;sup>12</sup> Calculated as the proportion of ILS investments (by NAV) from non-sovereign ILS sponsors that fail the criteria. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus nor ILS from sovereign sponsors.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

## **Appendix - Sustainable Finance Disclosure Regulation (SFDR)** (Unaudited)

#### How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered the principal adverse impacts (PAIs)—as detailed in Table 1, and noting the additional indicators in Tables 2 and 3, of Annex 1 of the SFDR Delegated Act—on sustainability factors in a qualitative and/or quantitative way dependent on the relevance of the specific indicator and the quality and availability of data.

The actions taken in relation to the PAI indicators considered are summarised in the table below:

#### Non-Sovereign Issuers

Adverse Sustainability Indicator		Fund Considerations		
	Tab	ole 1		
Social & Employee Matters	10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	No investments in the Fund were sponsored by entities that violate any of the UN Global Compact principles, including on social and employee matters, throughout the reporting period.		
	14. Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons, and biological weapons)	No investments in the Fund were sponsored by entities that have any direct involvement in controversial weapons throughout the reporting period.		
	Tab	le 2		
Emissions	Investments in companies without carbon emission reduction initiatives	If an ILS sponsor is involved in the generation of energy from thermal coal with a revenue level above the Sustainability Exclusion Criteria threshold, then an investment can only be made if the sponsor is involved in credible carbon		
Energy performance	5. Breakdown of energy consumption by type of non-renewable sources of energy	emission reduction initiatives to bring the sponsor in line with the Sustainability Exclusion Criteria in a reasonable timeframe.		
	G,	There is one ILS sponsors in the Fund that is involved in the generation of energy from thermal coal. that sponsor had a thermal coal-related revenue level below the Sustainability Exclusion Criteria threshold throughout the reporting period.		
Water, waste and material emissions		Considered only if sponsor actions in this area leads to a UN Global Compact violation. No investments in the Fund were sponsored by entities that violate any of the UN Global Compact principles, including on environmental matters, throughout the reporting period.		
	Tab	ole 3		
Social and employee matters		Considered only if sponsor actions in this area leads to a UN Global Compact violation. No investments in the Fund were sponsored by entities that violate any of the UN Global Compact principles, including on labor standards matters, throughout the reporting period.		
Human Rights		Considered only if sponsor actions in this area leads to a UN Global Compact violation. No investments in the Fund were sponsored by		

	entities that violate any of the UN Global Compact principles, including on human rights matters, throughout the reporting period.
Anti-corruption and anti-bribery	Considered only if sponsor actions in this area leads to a UN Global Compact violation. No investments in the Fund were sponsored by entities that violate any of the UN Global Compact principles, including on anti-corruption and anti-bribery matters, throughout the reporting period.

#### Sovereign Issuers

Adverse su	ustainability indicator	Fund Considerations		
	Та	ble 1		
Social	16. Investee countries subject to social violations	Only considered through the Freedom House Global Freedom Score. Sovereign issuers that receive a "Not Free" score on the Freedom House Global Freedom Score are not eligible for investment, unless this sovereign is working through an international organization, such as the World Bank, the United Nations, a regional development bank or another body with robust and transparent sustainability safeguards.  All sovereign ILS sponsors in the Fund were assessed as "Free" by the Freedom House Global Freedom Score, throughout the reporting period.		
	Та	ble 3		
Social Human Rights	Average freedom of expression score  20. Average human rights performance	Only considered through the Freedom House Global Freedom Score. Sovereign issuers that receive a "Not Free" score on the Freedom House Global Freedom Score are not eligible for investment, unless this sovereign is working through an international organization, such as the World Bank, the United Nations, a regional development bank or another body with robust and transparent sustainability safeguards.  All sovereign ILS sponsors in the Fund were assessed as "Free" by the Freedom House Global Freedom Score throughout the reporting period.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31 December 2023

Asset allocation

describes the

investments in

specific assets.

share of

The table above provides a snapshot of the largest investments as at 31 December 2023. This snapshot is reflective of the general portfolio composition throughout the reporting period.

Investments typically support the (re)insurance industry, the sponsor type (e.g. insurer, reinsurer, corporate, government) is reflected in the columns "Sector" as this is most appropriate for the Fund. Government sponsors of ILS within the Fund include local municipalities, transit authorities, state insurance entities and residual insurance pools formed by statute, national insurance programs (that can be classified as sovereign) and public-private reinsurance pools, as well as international organizations (that can also facilitate ILS issuance for sovereigns). During the reporting period there were four ILS sovereign sponsors within in the Fund.

#### What was the proportion of sustainability-related investments?

While the Fund promotes environmental and social characteristics within the meaning of Article 8 of the SFDR, it does not currently commit to investing in a minimum level of "sustainable investments" within the meaning of the SFDR and it does not currently commit to a minimum level of investments taking into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation. As such, the Fund's portfolio alignment to sustainability-related investments is not calculated.

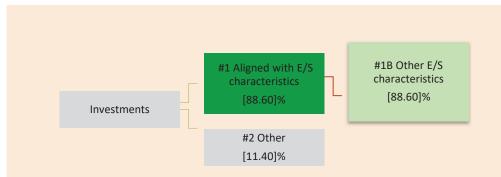

#### What was the asset allocation?

All assets excluding ILS that are rated NEUTRAL, cash, cash-equivalents, and/or certain derivatives are aligned with environmental/social characteristics of the Fund. As at 31 December 2023 (snapshot at year-end), 88.60% of the Fund was aligned with E/S characteristics, while 11.40% was in assets categorised as #2 Other in accordance with the Prospectus. Further details in relation to such assets

is set out in the section entitled "What investments are included under "#2 Other", what is their purpose and are there any minimum environmental or social safeguards?" below.

- #1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.
- #2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#### In which economic sectors were the investments made?

Investments typically support sponsors in the (re)insurance industry and the sponsor type (e.g. insurer, reinsurer, corporate, government) is reflected in the table below as it is most appropriate for the asset class. Allocations are shown as a % ILS-only NAV of the Fund as at 31 December 2023.

Sponsor Type	Allocation
Insurer	62.49%
Reinsurer	10.88%
Corporate	2.16%
Government	24.47%

Sponsors are classified as an insurer, reinsurer, corporate or government by the Delegate Investment Manager on a best-efforts basis. If a sponsor is involved in both insurance and reinsurance, it is classified according to the line of business that contributes the most by premium. Government sponsors of ILS within the Fund include local municipalities, transit authorities, state insurance entities and residual insurance pools formed by statute, national insurance programs (that can be classified as sovereign) and public-private reinsurance pools, as well as international organizations.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund promotes environmental and social characteristics within the meaning of Article 8 of the SFDR, it does not currently commit to investing in a minimum level of "sustainable investments" within the meaning of the SFDR and it does not currently commit to a minimum level of investments taking into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation. As such, the minimum proportion of the Fund's investments that contribute to environmentally sustainable economic activities for the purposes of the Taxonomy Regulation, including investments in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy, is 0%.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, , e.g. relevant for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective. **Transitional** activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas

emission levels

performance.

## Appendix - Sustainable Finance Disclosure Regulation (SFDR) (Unaudited)

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy<sup>13</sup>?

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\*For the purpose of these graphs, 'sovereign bonds' consist of all ILS sovereign exposures

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

.

<sup>&</sup>lt;sup>13</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

sustainable

sustainable

investments with an environmental

objective that **do not take into** 

account the criteria

for environmentally

economic activities

under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The following investments were included under "2 Other":

- ILS rated NEUTRAL
- Cash
- Cash equivalents (including US Treasury Bills)
- Currency hedges for non-US dollar assets
- ILS repo positions

The non-ILS "other" investments listed above were used for currency and cash management purposes for the Fund.

All ILS investments in the Fund have the same investment rationale outlined above, including ILS with a neutral ESG rating.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

#### 1. Actions relating to analysis of ESG factors

The Fund invested in ILS with only positive or neutral ESG ratings, based on a proprietary ESG rating methodology, and excluded investments that are rated as negative. This assessment was conducted at the investment and sponsor level.

#### 2. Actions relating to Sustainability Exclusion Criteria

The Sustainability Exclusion Criteria were assessed, on a best-efforts basis, as part of investment controlling, using internal research drawing on information from sponsors, independent ESG rating providers where available and other recognised public third-party sources. There were no breaches of the Sustainability Exclusion Criteria during the reporting period.

#### 3. Indicators relating to international norms and standards

UN Global Compact compliance was assessed, on a best-efforts basis, as part of investment controlling. The Delegate Investment Manager used third-party data providers' frameworks and data to categorise serious breaches, which were intended to identify credible allegations of a violation of global norms, supplemented by internal research where third-party data coverage was unavailable. There were no breaches of the UN Global Compact compliance during the period.

How did this financial product perform compared to the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental and social characteristics promoted by the Fund.

How does the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable

#### Methodologies and data

This report relies on sustainability-related data. The quality, timeliness, completeness and availability of sustainability-related data may still not be comparable with the general quality, timeliness, completeness and availability of more standardised and traditional financial data.

Sustainability indicators and asset allocation sections are reported based on a snapshot of the Fund at year-end and are not an average of quarterly values.

#### GAM Fund Management Limited - AIFMD disclosure

#### **Remuneration Disclosure**

#### Qualitative disclosures

#### Decision-making process to determine remuneration policies

Under the GAM Group's framework ultimate responsibility in compensation matters is held by the Board of Directors. The Board is supported in compensation-related issues by the Compensation Committee ("CompC").

- The Board is responsible for establishing the Group Compensation Policy, and with support of the CompC regularly reviewing the Group Compensation Policy to meet any important regulatory developments and the objectives of the Group.
- The CompC is delegated with the role of supporting the Board in setting compensation guidelines, establishing share-based compensation plans and approving the aggregate variable compensation expenditure of the Group as well as determining and proposing to the Board the individual total compensation payable to the members of the Board (other than its Chairman) for approval. The CompC regularly reports to the Board on the status of its activities, the development of the compensation architecture within the Group as well as on the operational implementation of this Policy. The CompC consists of at least three members of the Board all of whom are Non-Executive Directors.
- The Compensation Management Committee ('CMC') has delegated authority from the CompC to provide support and advice to the CompC to ensure that the compensation policy and practices across GAM Holding AG Group operate in line with EU regulations that apply to its regulated entities and delegates. The CMC's members are appointed by the Group CEO including senior members from the Risk, Compliance and Human Resources functions of the Group.

GAM Group's compensation philosophy is aligned with the Group's overall long-term objective of sustainable growth and profitability as well as its tolerance for risk. The Group's approach provides for compensation that attracts and retains employees in each local market and motivates them to contribute to the development and growth of our business. The policy promotes sound and effective risk management and does not encourage inappropriate risk taking.

#### Link between pay and performance

As described above, GAM Group operates a Group-wide remuneration policy, which applies to all employees across the Group including the above entities. The compensation structure is designed to incentivise delivery of strong investment performance within a sound risk and control environment, and to safeguard the long-term success and prosperity of the customer and the Manager's shareholders. A robust performance management system forms part of the compensation process and enables us to reward success and minimise the possibility of payment for failure.

The composition of the elements within an individual's overall compensation is the result of the function and performance of the individual, including alignment with the Group's risk tolerances, market competitiveness and overall profitability. The Group's total compensation approach comprises fixed and variable compensation.

Fixed compensation includes base salary, which reflects seniority, experience, skills and market conditions, together with fixed allowances for certain employees in Switzerland consistent with customary local practice.

Variable compensation is awarded annually and is dependent on Group, business area and individual performance. Cash bonuses that are driven by activities that leave meaningful amounts of future risk with the Group, either via direct balance sheet exposure or through the potential for other negative income events are prohibited.

For members of the Group Management Board, a portion of variable compensation is paid in the form of deferred, share-based awards, reflecting their accountability for the operating results achieved and the impact of their decisions on the Group's future development.

In addition to members of the Group Management Board, other senior employees of the Group have a portion of their variable compensation deferred to provide alignment with long-term interest of clients and shareholders.

Discretionary compensation decisions are based on individual's achievement of pre-set targets and contributions to the Group's development. This fosters a work ethic that is driven by high performance and tangible results.

#### Identified Staff

The categories of staff for inclusion as Identified staff for GAM Fund Management Limited include:

- Executive and non-executive members of the Board
- Other members of senior management
- Staff responsible for control functions

Directors of this regulated entity do not receive any kind of variable remuneration linked to their role. Should any variable remuneration be granted to directors in the future, such remuneration will be fixed and not linked to the short-term results of the entity.

### **Supplementary Information (Unaudited)**

The Identified Staff are identified and reviewed on an annual basis by the CMC in line with the criteria set out under EU regulations, namely:

If, in the performance of their professional activities certain staff of a delegate portfolio manager can have a material impact on the risk profiles of the funds they manage, these employees are considered as "Identified Staff". For this purpose, the Group considers the respective delegate portfolio manager as subject to equally effective regulation if they are required by law and regulations or in accordance to internal standards to put in place a remuneration policy, which in accordance to the ESMA Remuneration Guidelines 2013/232 and 2016/575 is considered equivalent in its objectives. The Group's regulated entities will only delegate its portfolio management to firms, whose remuneration policy complies with the 'equivalence standard' as described.

#### Quantitative disclosures

The remuneration data provided below reflects amounts paid in respect of the performance year 2023 in relation to the AIFs managed by GAM Fund Management Limited.

GAM Fund Management Limited manages funds, with a combined AUM of €9,779m - representing funds of the Management Company, including those managed by delegates at 31 December 2023.

Total annual remuneration paid to all Management Company employees	€4.69M
Of which fixed:	€4.69M
Of which variable:	€0.0M
Number of Management Company employees	75
Total Remuneration paid to Identified Staff in the Management Company	€1.94M
Of which paid to Senior Management:	€0.79M
Of which paid to other identified staff:	€1.15M

Portfolio Management duties are delegated and the contractual arrangements to appoint the delegates include a provision which states that the delegate must follow, to an appropriate degree, AIFMD remuneration rules.

#### Notes

In the figures above, fixed remuneration relates to salary and pension benefits and variable remuneration includes the annual bonus including any long-term incentive awards.

Where relevant, the remuneration information provided in the table above relates to a proportion of the amount of total fixed and variable remuneration paid to employees in the Management Company and its delegate(s) that relates to their funds activities.

## 1. General information

GAM FCM Cat Bond Investments Inc. (the "Investment Company") is an open-ended investment company organised in a similar manner to an open-ended unit trust or mutual fund. The Investment Company is registered as a company limited by shares under the BVI Business Companies Act (2013 Revision) (as amended) of the British Virgin Islands.

The Investment Company's investment objective is to generate returns through selective investment in a global portfolio of insurance-linked securities.

The Investment Company is 100% owned by GAM FCM Cat Bond Inc. (the "Company"). IFRS 10 - Consolidated Financial Statements ("IFRS 10") defines an investment entity and introduced an exception from consolidation requirements for investment entities. The exception to consolidation requires investment entities to account for subsidiaries at fair value through profit or loss. The Investment Company meets the definition of an investment entity, as does the Company, therefore the Investment Company and the Company are preparing separate financial statements.

The Company and Investment Company are an alternative investment fund ("AIF") and the Manager is their alternative investment fund manager ("AIFM") for the purposes of the Directive 2011/61/EU of the European Parliament and of the Council ("AIFMD").

# 2. Summary of material accounting policies

#### (a) Basis of preparation of financial statements

The financial statements are prepared in accordance with IFRS Accounting Standards under the historical cost convention as modified by the fair valuation of financial assets and financial liabilities through profit or loss. The resulting accounting estimates will, by definition, seldom equal the related actual results.

The financial statements of the Investment Company are prepared on a going concern basis.

Accounting estimates and judgements

The preparation of financial statements in accordance with IFRS Accounting Standards requires the Directors to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions (the most significant of which are the fair value of financial assets/liabilities and expense accruals) are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Standards and amendments to existing standards effective 1 January 2023:

The Investment Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2023 (unless otherwise stated). The Investment Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Accounting Standards Practice Statement 2

The amendments require the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information disclosed in the financial statements. To support this amendment, the IASB also amended IFRS Accounting Standards Practice Statement 2 Making Materiality Judgements to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

Definition of Accounting Estimates - Amendments to IAS 8

The amendments to IAS 8 clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors. They also clarify how entities use measurement techniques and inputs to develop accounting estimates. These amendments had no material impact on the financial statements of the Investment Company.

New standards, amendments and interpretations effective 1 January 2024:

A number of new standards, amendments to standards and interpretations were issued and are effective for annual periods beginning 1 January 2024. None of these have been early adopted or are expected to have a material effect on the financial statements of the Investment Company.

## (b) Financial assets and financial liabilities at fair value through profit or loss

#### Classification

IFRS 9 Financial Instruments ("IFRS 9") replaced the provisions of IAS 39 that relate to the recognition, classification and measurement of financial instruments, including derecognition and impairment of such financial instruments. The Directors have determined that in order for the financial statements to give a true and fair view it is necessary to fair value all financial instruments through profit or loss as permitted by IFRS 9 since all financial instruments are managed on a fair value basis. Therefore the Investment Company has classified its financial assets and financial liabilities at fair value through profit or loss.

# 2. Summary of material accounting policies, continued

## (b) Financial assets and financial liabilities at fair value through profit or loss, continued

#### Recognition/Derecognition

Purchases and sales are initially recognised on trade date – the date on which the Investment Company commits to purchase or sell the asset. Investments are derecognised when the rights to receive the cash flows from the investments have expired or the Investment Company has transferred substantially all risks and rewards of ownership.

#### Measurement

Financial assets and liabilities are initially recognised at fair value, and transaction costs for all financial assets/liabilities carried at fair value through profit or loss are expensed as incurred. Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value at market close on each valuation day.

The computation of realised gains and losses on sales of financial assets and liabilities at fair value through profit or loss is made on the basis of average cost and accounted for in the Income Statement. Gains and losses arising from changes in the fair value of the 'financial assets and financial liabilities at fair value through profit or loss' category are included in the Income Statement in the period in which they arise.

#### Fair Value Estimation

As at 31 December 2023, investments totalling US\$2,463,814,096 (31 December 2022: US\$2,069,540,224) representing 98.49% (31 December 2022: 95.79%) of the net asset value ("NAV") of the Investment Company were valued based on quotes from one or more reputable brokers and third party pricing service.

#### Debt Securities - Catastrophe Bonds

A well known category of ILS is commonly referred to as catastrophe bonds or "Cat" bonds and are linked to specifically defined loss events caused by both natural and non-natural catastrophes including, but not limited to, earthquakes, windstorm phenomena, mortality and other low frequency/high severity insurance related events. Cat bonds are generally floating rate securities with maturities of one to five years. Their coupons typically pay a fixed spread in excess of a quarterly coupon based on secured overnight rate of return for the currency relevant to the class in question. Cat bonds are relatively liquid instruments, although they may become illiquid during periods in which relevant catastrophes are occurring or immediately anticipated. As at 31 December 2023 and 31 December 2022 all positions are valued using a mixture of multiple brokers, single broker priced and third party pricing service.

#### Debt Securities – Corporate Bonds

Corporate Bonds are valued on the basis of dealer supplied quotations or by using a pricing service selected by the Delegate Investment Manager. The fair value of the instrument is estimated using valuation techniques if a quoted market price is not available from a broker/dealer or a third party pricing service. Valuation methods include the use of recent unaffiliated market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

#### Preferred Equity

The Investment Company also invests in catastrophe-linked preferred shares. They are similar to catastrophe bonds in that they are linked to specifically defined loss events caused by both natural and non-natural catastrophes. This class of investments are very illiquid, and such positions may be more difficult and costly to unwind in many circumstances. As at 31 December 2023 and 31 December 2022, these positions are valued using single broker prices and third party pricing service.

#### Repurchase Agreements

During the years ended 31 December 2023 and 31 December 2022 the Investment Company entered into repurchase agreements. There are no material income/gains arising from the use of repurchase agreements and transaction costs are embedded in the price of the investments and are not separately identifiable. Securities purchased under agreements to resell are valued at fair value and adjusted for any movements in foreign exchange rates. Interest rates vary for each repurchase agreement and are set at the initiation of the agreement.

## Forward Foreign Exchange Contracts

Forward contracts entered into by the Investment Company represent a firm commitment to receive or deliver a fixed quantity of foreign currency at a specified value and point in time based upon an agreed or contracted quantity. The realised/unrealised gain or loss is equal to the difference between the value of the contract at the onset and the value of the contract at settlement date/period-end date and are included in the Income Statement.

An analysis of the portfolio is shown in the Portfolio Statement.

#### Offsetting financial instruments

The Investment Company presents the fair value of derivatives in "financial assets/financial liabilities fair value through profit or loss" in the Balance Sheet on a gross basis. Enforceable master netting or similar agreements are in place and a legal right of offset exists between the Investment Company and State Street Bank.

#### (c) Cash and cash equivalents

Cash and cash equivalents comprises cash and foreign currency on deposit with the Custodian with original maturities of less than three months.

# 2. Summary of material accounting policies, continued

#### (d) Collateral

Cash collateral provided by the Investment Company is identified in the Balance Sheet as cash collateral and is not included as a component of cash and cash equivalents. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Investment Company classifies that asset in its balance sheet separately from other assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

Cash collateral, relates to cash pledged for bond contracts with fair value as at 31 December 2023 of US\$228,760,481 (2022: US\$219,873,254) held with Bank of New York Mellon Trust Company.

Stock collateral is pledged in respect of repurchase agreements that are held with JP Morgan. Securities with a fair value of US\$241,445,821 (2022: US\$394,185,153) have been pledged to JP Morgan on the repurchase agreements which had a fair value of US\$(95,002,000) (2022: US\$(151,233,237)) at the reporting date.

#### (e) Bond interest income on financial assets at fair value through profit or loss

Bond interest income on investments in debt securities is recognised when earned using the effective interest method.

#### (f) Bank interest

Interest earned and interest expense on cash at bank and broker balances is recognised using the effective rate of interest method.

#### (g) Fees and expenses

Fees and expenses are accounted for on an accruals basis.

#### (h) Shares in issue

All shares issued by the Investment Company are redeemable at the shareholders option and are classified as equity under IAS 32 - Financial Instruments. Shareholders may request redemption of their shares on application to the Administrator in accordance with the terms of the Prospectus, for an amount equal to a proportionate share of the NAV of the Investment Company.

#### (i) Foreign Currency Translation

Functional Currency and Presentation Currency

The Investment Company has adopted the US Dollar ("US\$") as its functional currency under IAS 21 - The Effects of Changes in Foreign Exchange Rates as it most appropriately reflects the economic environment in which the Directors believe the Investment Company operates. The presentation currency is also the US\$.

# Transactions and Balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of assets and liabilities denominated in foreign currencies are recognised in the Income Statement.

The following rates of exchange to US\$ have been used at the year end.

	2023	2022
Euro	0.9053	0.9370
Japanese yen	140.9800	131.9450
New Zealand dollar	1.5794	-
Pound sterling	0.7844	0.8313

#### (j) Other assets measured at amortised cost

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Investment Company shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Investment Company shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. The Investment Company measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management consider both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability of default to be immaterial as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Investment Company.

# 2. Summary of material accounting policies, continued

#### (k) Taxes

The Investment Company is exempt from all income taxes in the British Virgin Islands. Interest, dividends and other revenue received and capital gains made by the Investment Company may be subject to withholding or similar taxes imposed by the country in which such interest, dividends or other revenues or capital gains originate. The Investment Company will not normally be eligible to benefit from any treaties for the relief from double taxation. If any subsequent tax liabilities are considered payable then adequate provision will be made in the financial statements.

Liabilities relating to uncertain tax positions are accrued only when such liabilities are probable and can be estimated with reasonable accuracy.

#### (I) Subscriptions receivable / Redemptions payable

Subscriptions receivable and redemptions payable relate to subscriptions in the Investment Company which are not yet paid by the Company and redemptions from the Investment Company that are still to be paid by the Investment Company to the Company. These amounts are included in the Balance Sheet.

#### (m) Receivable for investments sold and payable for investments purchased

Receivable for investments sold and payable for investments purchased represent amounts receivable and payable respectively, for transactions contracted for but not yet delivered at the end of the year. These amounts are included in the Balance Sheet.

# 3. Financial assets and financial liabilities at fair value through profit or loss

#### (a) Fair Value Hierarchy

The Investment Company is required to disclose financial instruments measured at fair value based on a three level hierarchy that reflects the significance of the inputs in such fair value measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Investment Company has the ability to access at the measurement date. Investments typically classified within level 1 include active listed equities, exchange traded derivatives and certain government bonds.

Level 2 - Inputs other than quoted prices from active markets that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active. Investments typically classified within level 2 include investments in corporate bonds, certain government bonds, certain listed equities and over the counter derivatives. Investment funds are also considered level 2 investments if there is evidence that redemptions occurred during the year and there were no restrictions preventing redemptions at the year end.

Level 3 - Inputs that are unobservable that are significant to the valuation. Investments typically classified within level 3 include certain corporate bonds and ILS, private equities and investment funds that have suspended redemptions, created side pocket classes or imposed gates.

The Investment Company uses a mixture of multiple brokers, single broker priced and independent pricing vendors to value its investments. Inputs are determined by observable data. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" may require significant judgment but can generally be considered as that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the risk of that instrument.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting year.

# 3. Financial assets and financial liabilities at fair value through profit or loss, continued

## (a) Fair Value Hierarchy, continued

The following tables analyse within the fair value hierarchy the Investment Company's financial assets and liabilities measured at fair value at 31 December 2023 and 31 December 2022:

As at 31 December 2023

A	Level 1 US\$	Level 2	Level 3	Total
Assets Financial assets at fair value	05\$	US\$	US\$	US\$

- Repurchase Agreement	-	(151,233,237)	-	(151,233,237)
- Derivatives		(2,277,223)		(2,277,223)
Total liabilities		(153,510,460)		(153,510,460)

Other than financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss, all other financial instruments not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value. These financial assets and financial liabilities are classified as level 2 apart from cash and cash equivalents which is classified as level 1.

The level 3 holdings which amount to US\$651,333,567 (2022: US\$555,347,175) consists of privately held preferred equity investments and single broker or third party pricing service priced debt positions. A pricing committee consisting of members of the Administrator and the Delegate Investment Manager hold regular meetings to determine the price of the holdings by utilising obtainable information e.g. latest redemption price, prices from independent valuation expert.

# 3. Financial assets and financial liabilities at fair value through profit or loss, continued

# (a) Fair Value Hierarchy, continued

The following table is the movement in level 3 investments for the years ended 31 December 2023 and 31 December 2022.

2023	2022
US\$	US\$
555,347,175	691,403,018
330,501,796	316,186,987
(369,883,118)	(363,916,448)
43,344,087	2,871,000
-	-
92,023,627	(91,197,382)
651,333,567	555,347,175
72,137,829	(121,137,195)
	US\$ 555,347,175 330,501,796 (369,883,118) 43,344,087 - 92,023,627 651,333,567

As per IFRS 13, an entity is not required to provide quantitative information for level 3 instruments if the quantitative unobservable inputs are not observable by the entity. Based on this, the Directors believe that no further disclosure is required for the quantitative sensitivity analysis of level 3 inputs.

The tables below sets out information about significant unobservable inputs used as at 31 December 2023 and 31 December 2022 in measuring financial instruments categorised as level 3 in the fair value hierarchy:

	Fair value at			
	31 December			
	2023	Valuation	Reasonable possible shift	
Description	US\$	Technique	+/- (absolute value)	Change in Valuation +/-
Preferred Equity Investments	175,359,085	Priced by single broker or third party pricing service	10%	17,535,909
Debt securities	475,974,482	Priced by single broker or third party pricing service	10%	47,597,448
	Fair value at			
	31 December			
	2022	Valuation	Reasonable possible shift

2023

2022

## 4. Fees and expenses

Expenses such as Investment Manager fee, Manager fee, Performance fee and Administration fee are paid on behalf of the Investment Company by the Company.

#### (a) Custody fee

The Custodian will receive such fees as may be agreed, from time to time, at normal commercial rates.

#### (b) Other expenses

Other expenses comprise of legal and accounting fees, electronic data and accounting systems costs, printing and publication costs and certain other administrative costs and out of pocket expenses.

# 5. Financial risk management

The Investment Company through its investment objective may be exposed to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Investment Company is subject to certain investment restrictions and may also use certain derivative financial instruments to moderate certain risk exposures. The Directors of the Company and the Investment Company have the power to borrow as part of its investment philosophy.

The investment management and financial risk management of the Investment Company has been delegated by the Board of Directors (which remains ultimately responsible) to the Delegate Investment Manager. The Board of Directors reviews the performance of the Investment Company on a quarterly basis

#### (a) Market price risk

The Investment Company's investments (refer to the analysis in the Portfolio Statement) are susceptible to market price risk arising from uncertainties about future prices. The Investment Manager manages price risk primarily through diversification of the portfolio and by regularly reviewing and evaluating the Investment Company's potential exposure to market risk.

At 31 December 2023, if the total fair value of investments had increased by 10% with all other variables held constant, this would have increased the net assets attributable to the shareholders by approximately US\$246,381,410 (2022: US\$206,954,022). Conversely, if the total fair value of investments had decreased by 10% with all other variables held constant, this would have decreased the net assets attributable to the shareholders by approximately US\$246,381,410 (2022: US\$206,954,022).

#### (b) Currency risk

The Investment Company may hold assets denominated in currencies other than the US\$, the functional currency. It may therefore be exposed to currency risk, as the value of the securities denominated in other currencies may fluctuate due to changes in exchange rates. The Delegate Investment Manager monitors the Investment Company's currency risk exposure and may utilise hedging techniques in order to remove or reduce currency risks within the Investment Company. As such, the Investment Company enters into forward foreign exchange contracts in order to hedge against currency exchange rate risk on non US\$ denominated securities.

The table below summarises the currency exposure risks of the Investment Company as at 31 December 2023 and 31 December 2022.

As at 31 December 2023

	Non-monetary	Monetary	Forward currency	Net currency
	assets/(liabilities)	assets/(liabilities)	contracts	exposure
	US\$	US\$	US\$	US\$
Euro	-	66,958,263	(66,992,820)	(34,557)
Japanese yen	-	25,098,021	(24,870,657)	227,364
Pound sterling	-	10,203,798	(10,072,458)	131,340
New Zealand dollar		9,062,723	(8,975,846)	86,877
		111,322,805	(110,911,781)	411,024

# 5. Financial risk management, continued

## (b) Currency risk, continued

As at 31 December 2022

	Non-monetary	Monetary	Forward currency	Net currency
	assets/liabilities	assets/liabilities	contracts	exposure
	US\$	US\$	US\$	US\$
Euro	-	18,310,331	(18,983,076)	(672,745)
Japanese yen	-	41,088,187	(40,731,354)	356,833
Pound sterling		8,841,474	(9,100,462)	(258,988)
		68,239,992	(68,814,892)	(574,900)

#### (c) Interest rate risk

The Investment Company may hold interest-bearing financial assets and liabilities which may expose the Investment Company to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial positions and cash flows. As the Investment Company is invested in bonds, there is interest rate risk.

The cash positions of the Investment Company which are held with the Custodian are earning interest at rates which are based on current, most appropriate rates, less a spread as determined by the Custodian.

At 31 December 2023 and 31 December 2022 if the interest rates had changed by +/- 0.75%, with all other variables held constant, the impact on net asset attributable to shareholders would amount to +/- US\$18,663,489 (2022: 15,698,644) of the total interest rate sensitivity gap figures presented in the tables below.

The following tables summarise the Investment Company's exposure to interest rate risks. It includes the Investment Company's assets and trading liabilities at fair value categorised by the earlier of contractual re-pricing or maturity dates.

As at 31 December 2023

	Less than 1	1 month-1			Non-interest

## (d) Credit risk

The Investment Company may be exposed to credit risk, which is the risk that a counterparty to a financial transaction with the Investment Company will be unable to pay amounts in full when due.

Counterparty risk is limited in that most securities are settled on delivery against payment (DVP trades) in the recognised clearing systems, and the risk of default is considered to be minimal as security delivery and payment are simultaneous.

The Delegate Investment Manager manages credit risk for non-DVP trades by only using approved brokers that belong to an internationally recognised financial services firm or alternatively command a high market share in a given market segment. Investments and cash held by brokers are not normally held within segregated accounts.

The following tables disclose breakdown of investments, cash and cash collateral held with State Street Custodial Services (Ireland) Limited, Bank of New York Mellon, Citigroup, HSBC Bank Plc and JP Morgan (S&P credit rating: AA-, AA-, BBB+ and A+ respectively) as custodian and brokers as at 31 December 2023 and 31 December 2022. The balance held with the Custodian in the table below includes securities with a fair value of US\$241,445,821 (2022: US\$394,185,153) which have been pledged to JP Morgan on the repurchase agreements.

# 5. Financial risk management, continued

# (e) Liquidity risk

Liquidity risk is the risk that the Investment Company cannot generate sufficient cash resources to meet its payment obligations in full as they fall due, or can do so only at materially disadvantageous terms. The Delegate Investment Manager regularly reviews the liquidity profile of the portfolio. If necessary, the Directors may borrow to meet redemptions or they may defer payment of redemption proceeds to the Company. The Directors of the Company may also limit aggregate redemptions with respect to any or all share classes on any dealing day where the Company has received redemption requests representing at least 10% of the total aggregate value of the shares in issue eligible for redemption as at that dealing day.

The Investment Company may trade in derivatives, the majority of which are traded on a recognised market and are readily realisable, however from time to time, the Investment Company may invest in derivative contracts traded over the counter which are not traded in an organised market and may be illiquid. As a result, the Investment Company may not be able to liquidate quickly its investments in these instruments at an amount close to their fair value. In case of liquidity issues, the Investment Company may borrow to meet redemption requests.

All financial liabilities are due within one to three months.

#### (f) Offsetting and amounts subject to master netting arrangements and similar agreements

As at 31 December 2023 and 31 December 2022 the transactions between the Investment Company and counterparties are governed by separate master netting agreements. Each agreement allows for net settlement of certain open contracts where the Investment Company and the respective counterparty both elect to settle on a net basis. In the absence of such an election, contacts will be settled on a gross basis. However, each party to the master netting arrangement will have the option to settle all open contracts on a net basis in the event of default of the other party.

Investments pledged as collateral by the Investment Company can be sold or re-pledged by the respective counterparty. Cash collateral received is restricted and does not form part of the Investment Company's cash and cash equivalents. Under the terms of the master netting agreements, collateral can only be seized by a party in the event of default of the other party.

Related amounts not set-off in the

Financial assets subject to offsetting, enforceable master net arrangements and similar agreements:

Ordinary share US\$248.65 US\$208.80

# 7. Related parties

- (i) The Delegate Investment Manager and Sub-Adviser are considered to be related parties of the Investment Company by virtue of the influence that they have over the Investment Company's investment activities. The Manager, Administrator and the Investment Manager are also related parties because they are wholly owned subsidiaries of GAM Holding AG. Fee arrangements with these parties are settled by the Company on behalf of the Investment Company.
- (ii) No Director of the Investment Company had any interest in any contract of significance in relation to the Investment Company's business at any time during the years ended 31 December 2023 and 31 December 2022.
- (iii) The Company is a related party to the Investment Company since it holds 100% of the shares issued by the Investment Company (31 December 2022: 100%) as disclosed in Note 6.
- (iv) During 2023 the Investment Company purchased and sold securities from another entity managed by the Delegate Investment Manager with a cost of approximately US\$2.8 (2022: US\$33) million and sales proceeds of approximately US\$68 (2022: US\$200) million respectively. In 2023 the sale of securities gave rise to realised loss of US\$1.1 (2022: US\$1.3) million. These transactions took place at market rates.
- (v) On 1 February 2023, the Investment Company received assets from another entity managed by the Delegate Investment Manager with a cost of US\$114,272,827 and cash amount of US\$12,496,513 to cover the inspecie subscription of US\$126,769,340. On 28 February 2023, the Investment Company transferred assets to another entity managed by the Manager with a market value of US\$98,171,638 and cash amount of US\$4,941,573 to cover the inspecie redemption of US\$103,113,211. The transfer of assets gave rise to realised loss of US\$7,215,020. Details of these transactions are disclosed in the Supplementary Information of the Cash Flow Statement. There were no such transactions in the year ended 31 December 2022.

# 8. Significant events during the year

The Management of the Company acknowledges the military actions engaged by Russia in Ukraine and the conflict in Israel and their potential to negatively impact the markets in which the Company's assets are invested. The ultimate impact on the Company remains uncertain and can vary according to the countries, asset classes, industry sectors and securities they are invested in. The Manager and Investment Manager are closely monitoring the impact on the Company including any impact on liquidity and liquidity management, fair valuation procedures, investment compliance breaches.

There were no other significant events affecting the Investment Company during the year.

## 9. Subsequent events

After the year end, the Investment Company purchased and sold securities from another entity managed by the Delegate Investment Manager with a cost of approximately US\$152.1 million and sales proceeds of approximately US\$72.9 million respectively. The sale of securities gave rise to realised loss of US\$930,219. These transactions took place at market rates.

There have been no other significant events affecting the Investment Company since the year end.

# 10. Contingent liabilities

The Directors are not aware of any contingent liabilities.

## 11. Approval of the financial statements

The financial statements were approved by the Board of Directors on 24 June 2024.

# Statement of Directors' Responsibilities

It is the Directors' responsibility to prepare financial statements for each year which give a true and fair view of the state of affairs of the Investment Company and results of the Investment Company for that period. In preparing those financial statements, the Directors have a responsibility to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed; and
- prepare the accounts on a going concern basis unless it is inappropriate to presume that the Investment Company will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Investment Company and to enable them to ensure that the financial statements comply with IFRS Accounting Standards. They are also responsible for safeguarding the assets of the Investment Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The integrity of these financial statements published, on <a href="www.gam.com">www.gam.com</a>, remain the responsibility of the Board.

# Independent auditor's report

To the Directors of GAM FCM Cat Bond Investments Inc.

# Report on the audit of the financial statements

# Our opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of GAM FCM Cat Bond Investments Inc. (the Investment Company) as at 31 December 2023, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

#### What we have audited

GAM FCM Cat Bond Investments Inc.'s financial statements comprise:

- the balance sheet as at 31 December 2023;
- the portfolio statement as at 31 December 2023;
- the income statement for the year then ended;
- the statement of changes in equity for the year then ended;
- the cash flow statement for the year then ended; and
- the notes to the financial statements, which include material accounting policies and other explanatory information.

# **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Independence

We are independent of the Investment Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

# Other information

Management is responsible for the other information. The other information comprises all of the information in the Annual Report (but does not include the financial statements and our auditor's report thereon).

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Investment Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Investment Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Investment Company's financial reporting process.

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Investment Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Investment Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Investment Company to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Other matter

This report, including the opinion, has been prepared for and only for the Directors in accordance with the terms of our engagement letter dated 14 December 2023 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

PricewaterhouseCoopers

Dublin, Ireland 24 June 2024

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: GAM FCM CAT Bond Inc. (the "Fund") Legal entity identifier: 549300BVLC12IINKY210

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be

aligned with the

Taxonomy or not.

Did th	is financial product have a sustainable	investment objective?
••	Yes	● No
	It made sustainable investments with an environmental objective:%  in economic activities that qualify as environmentally sustainable under the EU Taxonomy  in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments  with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  with a social objective
	t made sustainable investments with a social objective:%	It promoted E/S characteristics, but did not make any sustainable investments

All data presented in the annex which follows has been calculated based on the portfolio holdings of the Fund as at 31 December 2023 and constitutes unaudited information which has not been subject to any assurance provided by the Auditors or any third party.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- 1) The Delegate Investment Manager applied a proprietary rating methodology to support the promotion of high ESG characteristics in the Fund. The Fund primarily invests in securities assessed to have positive ESG ratings, while securities assessed as negative are not eligible for inclusion. The rating methodology is described in the Investment Strategy section the Fund's Propectus under the heading "Analysis of ESG Factors" and the Delegate Investment Manager's ESG Policy, which is available by accessing the link detailed in response to the question "Where can I find more product specific information online?" in the Prospectus;
- 2) Excluded insurance-linked securities ("ILS") from sponsors involved in specific activities considered to cause negative environmental and social impact, as described in the Sustainability Exclusion Criteria within the Prospectus; and
- Assessed adherence to generally accepted international norms and standards set by the United Nations Global Compact ("UN Global Compact"), by exclusion of ILS from sponsors that violate these principles.

The environmental and social characteristics were promoted in line with the binding elements of the Investment Strategy of the Fund, as outlined in the Fund's Prospectus, and there were no breaches of the exclusion criteria or significant adverse impacts during the year.

No reference benchmark was designated for the purpose of attaining the environmental and social characteristics promoted by the Fund.

Sustainability

how the

social

indicators measure

environmental or

characteristics promoted by the

financial product are attained.

#### How did the sustainability indicators perform?

The following sustainability indicators are used to measure the environmental and/or social characteristics of the Fund.

## 1) Indicators relating to the analysis of ESG factors

The Fund invested in ILS with only positive or neutral ESG ratings, as assessed by the Delegate Investment Manager's proprietary ESG rating methodology, and excluded investments that are rated as negative. This assessment is conducted at the investment and sponsor level and reported as % of the Fund's ILS investments in each category.

No exceptions were made during the reporting period.

Sustainability Indicator	Units	Data source	Date <sup>1</sup>	Data coverage <sup>2</sup>	Proportion of data estimated <sup>3</sup>	Output <sup>4</sup>
Investments with POSITIVE ESG ratings: proportion of securities within the Fund with a POSITIVE sponsor ESG rating based on the Delegate Investment Manager's proprietary scoring framework.	% of Fund	Delegate Investment Manager internal ESG Score	31 Dec 2023	100%	Not applicable	89.96%
Investments with NEUTRAL ESG ratings: proportion of securities within the Fund with a NEUTRAL sponsor ESG rating based on the Delegate Investment Manager's proprietary scoring framework.	% of Fund	Delegate Investment Manager internal ESG Score	31 Dec 2023	100%	Not applicable	10.04%

<sup>&</sup>lt;sup>1</sup> Data snapshot taken at the Fund's year end.

<sup>&</sup>lt;sup>2</sup> Calculated as the proportion of ILS investments (by NAV) that are assigned ESG ratings. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus.

<sup>&</sup>lt;sup>3</sup> Not applicable as the ESG Scores are assessed internally.

<sup>&</sup>lt;sup>4</sup> Calculated as the proportion of ILS investments (by NAV) that are rated ESG positive or neutral. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus.

#### 2) Indicators relating to Sustainability Exclusion Criteria

Involvement by the sponsor in the following activities, beyond the revenue threshold specified, would result in the investment being ineligible (other than where outlined in the Sustainability Exclusion Criteria within the Prospectus). This assessment is conducted at the sponsor level and reported as % of the Fund's investment sponsored by entities failing the criteria.

No exceptions were made during the reporting period.

Given the nature of sponsors in the ILS market, which are predominantly (re)insurance entities and where are a large percentage of sponsors are privately held companies or government-related entities, product involvement assessments are based on internal research drawing on information made available by the sponsors as well as from public third-party sources.

Sustainability Indicator	Units	Data source	Date <sup>5</sup>	Data coverage <sup>6</sup>	Proportion of data estimated <sup>7</sup>	Output <sup>8</sup>					
ILS sponsored by non-sovereigns											
Involvement in controversial weapons: share of investments in ILS sponsored by companies involved in the manufacture or selling of controversial weapons.	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%					
Involvement in weapons manufacturing or weapons component manufacturing: share of investments in ILS sponsored by companies involved in the manufacture of military weapons systems, and/or tailor-made components of these weapons systems, and/or tailor-made products or services that support military weapons systems (above 10% revenue threshold).	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%					
Involvement in tobacco manufacturing: share of investments in ILS sponsored by companies involved in the manufacture of tobacco products (above 5% revenue threshold).	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%					
Involvement in tobacco retail and distribution: share of investments in ILS sponsored by companies involved in the distribution and/or retail sale of	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%					

<sup>&</sup>lt;sup>5</sup> Data snapshot taken at the Fund's year end.

<sup>&</sup>lt;sup>6</sup> Calculated as the proportion of ILS investments (by NAV) from ILS sponsors that are assessed Sustainability Exclusion Criteria. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus.

<sup>&</sup>lt;sup>7</sup> Not applicable as compliance with the Sustainability Exclusion Criteria is assessed internally by the Delegate Investment Manager.

<sup>&</sup>lt;sup>8</sup> Calculated as the proportion of ILS investments (by NAV) from ILS sponsors that fail the criteria. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus.

tobacco products (above 5% revenue threshold).						
Involvement in oil sands extraction: share of investments in ILS sponsored by companies involved in oil sands extraction (above 25% revenue threshold).	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%
Involvement in thermal coal mining: Share of investments in ILS sponsored by companies involved in mining thermal coal or from generating electricity from thermal coal (above 25% revenue threshold).	% of Fund	Internal research	31 Dec 2023	100%	Not applicable	0%
Sovereign sponsored ILS						
"Not Free" Sovereign Sponsors: share of investments in ILS sponsored by countries which have been assessed as "Not Free" by the Freedom House Global Freedom Score.	% of Fund	Freedom House	31 Dec 2023	100%	Not applicable	0%

# 3) <u>Indicators relating to international norms and standards ILS sponsored by non-sovereigns</u>

Companies are expected to adhere to minimum international norms and standards as defined by the UN Global Compact. Companies assessed as having seriously breached the UN Global Compact are excluded, unless the issuer is considered to have taken substantial and adequate steps to have addressed the allegations. This assessment is conducted at the sponsor level and reported as % of the Fund's investment sponsored by entities failing the criteria.

No exceptions were made during the reporting period.

RepRisk and Sustainalytics are used as independent third-party assessments of current severe UN Global Compact violations of sponsors. If only one assessment is available for a sponsor, that assessment is used as the final assessment of a sponsor's compliance with the UN Global Compact. If a sponsor is not covered by either third-party data provider, internal research based on third-party data sources and engagement with the sponsor, if appropriate, are used to form an assessment.

Sustainability Indicator	Units	Data source	Date <sup>9</sup>	Data coverage <sup>10</sup>	Proportion of data estimated <sup>11</sup>	Output <sup>12</sup>
Violations of UN Global Compact principles (also related to Principal Adverse Impacts): share of investments in investee companies that have been involved in violations of the UNGC principles.	% of Fund	RepRisk/ Sustainalytics/I nternal research	31 Dec 2023	96.57%	3.43%	0%

There are no material differences in the environmental and/or social characteristics of the Fund when compared to the previous reporting period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

— How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

<sup>&</sup>lt;sup>9</sup> Data snapshot taken at the Fund's year end.

<sup>&</sup>lt;sup>10</sup> Calculated as the proportion of ILS investments (by NAV) from non-sovereign ILS sponsors that are covered by at least one third-party data provider. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus nor ILS from sovereign sponsors.

<sup>&</sup>lt;sup>11</sup> Calculated as the proportion of ILS investments (by NAV) from non-sovereign ILS sponsors that are not by at least one third-party data provider. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus nor ILS from sovereign sponsors.

<sup>&</sup>lt;sup>12</sup> Calculated as the proportion of ILS investments (by NAV) from non-sovereign ILS sponsors that fail the criteria. The calculation does not include non-ILS assets defined under "#2 Other" in the Prospectus nor ILS from sovereign sponsors.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

# **Appendix - Sustainable Finance Disclosure Regulation (SFDR)** (Unaudited)

## How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered the principal adverse impacts (PAIs)—as detailed in Table 1, and noting the additional indicators in Tables 2 and 3, of Annex 1 of the SFDR Delegated Act—on sustainability factors in a qualitative and/or quantitative way dependent on the relevance of the specific indicator and the quality and availability of data.

The actions taken in relation to the PAI indicators considered are summarised in the table below:

#### Non-Sovereign Issuers

Adverse Sustainability Indicator		Fund Considerations		
	Tab	ole 1		
Social & Employee Matters	10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	entities that violate any of the UN Global Compact principles, including on social and employee matters, throughout the reporting period.		
	14. Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons, and biological weapons)	No investments in the Fund were sponsored by entities that have any direct involvement in controversial weapons throughout the reporting period.		
	Tab	ble 2		
Emissions	4. Investments in companies without carbon emission reduction initiatives	If an ILS sponsor is involved in the generation of energy from thermal coal with a revenue level above the Sustainability Exclusion Criteria threshold, then an investment can only be made if the sponsor is involved in credible carbon		
Energy performance	5. Breakdown of energy consumption by type of non-renewable sources of energy	emission reduction initiatives to bring the sponsor in line with the Sustainability Exclusion Criteria in a reasonable timeframe.		
	G,	There is one ILS sponsors in the Fund that is involved in the generation of energy from thermal coal. that sponsor had a thermal coal-related revenue level below the Sustainability Exclusion Criteria threshold throughout the reporting period.		
Water, waste and material emissions		Considered only if sponsor actions in this area leads to a UN Global Compact violation. No investments in the Fund were sponsored by entities that violate any of the UN Global Compact principles, including on environmental matters, throughout the reporting period.		
	Tab	ole 3		
Social and employee matters		Considered only if sponsor actions in this area leads to a UN Global Compact violation. No investments in the Fund were sponsored by entities that violate any of the UN Global Compact principles, including on labor standards matters, throughout the reporting period.		
Human Rights		Considered only if sponsor actions in this area leads to a UN Global Compact violation. No investments in the Fund were sponsored by		

	entities that violate any of the UN Global Compact principles, including on human rights matters, throughout the reporting period.
Anti-corruption and anti-bribery	Considered only if sponsor actions in this area leads to a UN Global Compact violation. No investments in the Fund were sponsored by entities that violate any of the UN Global Compact principles, including on anti-corruption and anti-bribery matters, throughout the reporting period.

# Sovereign Issuers

Adverse sustainability indicator		Fund Considerations		
	Та	ble 1		
Social	16. Investee countries subject to social violations	Only considered through the Freedom House Global Freedom Score. Sovereign issuers that receive a "Not Free" score on the Freedom House Global Freedom Score are not eligible for investment, unless this sovereign is working through an international organization, such as the World Bank, the United Nations, a regional development bank or another body with robust and transparent sustainability safeguards.  All sovereign ILS sponsors in the Fund were assessed as "Free" by the Freedom House Global Freedom Score, throughout the reporting period.		
	Та	ble 3		
Social Human Rights	Average freedom of expression score  20. Average human rights performance	Only considered through the Freedom House Global Freedom Score. Sovereign issuers that receive a "Not Free" score on the Freedom House Global Freedom Score are not eligible for investment, unless this sovereign is working through an international organization, such as the World Bank, the United Nations, a regional development bank or another body with robust and transparent sustainability safeguards.  All sovereign ILS sponsors in the Fund were assessed as "Free" by the Freedom House Global Freedom Score throughout the reporting period.		

What were the top investments of this financial product?

Largest Investments	Sector	% Assets	Country
BOND 811	Reinsurer	3.36	BERMUDA
BOND 669	Government	2.65	BERMUDA
BOND 900	Government	2.02	BERMUDA
BOND 662	Government	1.85	BERMUDA
BOND 872	Insurer	1.84	BERMUDA
BOND 809	Insurer	1.61	BERMUDA
BOND 787	Insurer	1.49	BERMUDA
BOND 797	Government	1.42	BERMUDA
BOND 906	Government	1.37	BERMUDA
BOND 781	Government	1.25	BERMUDA
BOND 594	Insurer	1.20	BERMUDA
BOND 827	Insurer	1.17	BERMUDA
BOND 646	Government	1.17	BERMUDA
BOND 691	Insurer	1.15	SINGAPORE
BOND 887	Government	1.04	BERMUDA

The table above provides a snapshot of the largest investments as at 31 December 2023. This snapshot is reflective of the general portfolio composition throughout the reporting period.

Investments typically support the (re)insurance industry, the sponsor type (e.g. insurer, reinsurer, corporate, government) is reflected in the columns "Sector" as this is most appropriate for the Fund. Government sponsors of ILS within the Fund include local municipalities, transit authorities, state insurance entities and residual insurance pools formed by statute, national insurance programs (that can be classified as sovereign) and public-private reinsurance pools, as well as international organizations (that can also facilitate ILS issuance for sovereigns). During the reporting period there were four ILS sovereign sponsors within in the Fund.

#### What was the proportion of sustainability-related investments?

While the Fund promotes environmental and social characteristics within the meaning of Article 8 of the SFDR, it does not currently commit to investing in a minimum level of "sustainable investments" within the meaning of the SFDR and it does not currently commit to a minimum level of investments taking into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation. As such, the Fund's portfolio alignment to sustainability-related investments is not calculated.

## What was the asset allocation?

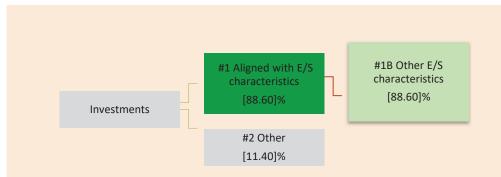

All assets excluding ILS that are rated NEUTRAL, cash, cash-equivalents, and/or certain derivatives are aligned with environmental/social characteristics of the Fund. As at 31 December 2023 (snapshot at year-end), 88.60% of the Fund was aligned with E/S characteristics, while 11.40% was in assets categorised as #2 Other in accordance with the Prospectus. Further details in relation to such assets

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31 December 2023

Asset allocation describes the share of investments in specific assets.

is set out in the section entitled "What investments are included under "#2 Other", what is their purpose and are there any minimum environmental or social safeguards?" below.

- #1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.
- #2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#### In which economic sectors were the investments made?

Investments typically support sponsors in the (re)insurance industry and the sponsor type (e.g. insurer, reinsurer, corporate, government) is reflected in the table below as it is most appropriate for the asset class. Allocations are shown as a % ILS-only NAV of the Fund as at 31 December 2023.

Sponsor Type	Allocation
Insurer	62.49%
Reinsurer	10.88%
Corporate	2.16%
Government	24.47%

Sponsors are classified as an insurer, reinsurer, corporate or government by the Delegate Investment Manager on a best-efforts basis. If a sponsor is involved in both insurance and reinsurance, it is classified according to the line of business that contributes the most by premium. Government sponsors of ILS within the Fund include local municipalities, transit authorities, state insurance entities and residual insurance pools formed by statute, national insurance programs (that can be classified as sovereign) and public-private reinsurance pools, as well as international organizations.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund promotes environmental and social characteristics within the meaning of Article 8 of the SFDR, it does not currently commit to investing in a minimum level of "sustainable investments" within the meaning of the SFDR and it does not currently commit to a minimum level of investments taking into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation. As such, the minimum proportion of the Fund's investments that contribute to environmentally sustainable economic activities for the purposes of the Taxonomy Regulation, including investments in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy, is 0%.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, , e.g. relevant for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules. **Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective. **Transitional** activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas

emission levels

performance.

# Appendix - Sustainable Finance Disclosure Regulation (SFDR) (Unaudited)

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy<sup>13</sup>?

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\*For the purpose of these graphs, 'sovereign bonds' consist of all ILS sovereign exposures

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

.

<sup>&</sup>lt;sup>13</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

under Regulation

(EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The following investments were included under "2 Other":

- ILS rated NEUTRAL
- Cash
- Cash equivalents (including US Treasury Bills)
- Currency hedges for non-US dollar assets
- ILS repo positions

The non-ILS "other" investments listed above were used for currency and cash management purposes for the Fund.

All ILS investments in the Fund have the same investment rationale outlined above, including ILS with a neutral ESG rating.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

## 1. Actions relating to analysis of ESG factors

The Fund invested in ILS with only positive or neutral ESG ratings, based on a proprietary ESG rating methodology, and excluded investments that are rated as negative. This assessment was conducted at the investment and sponsor level.

#### 2. Actions relating to Sustainability Exclusion Criteria

The Sustainability Exclusion Criteria were assessed, on a best-efforts basis, as part of investment controlling, using internal research drawing on information from sponsors, independent ESG rating providers where available and other recognised public third-party sources. There were no breaches of the Sustainability Exclusion Criteria during the reporting period.

#### 3. Indicators relating to international norms and standards

UN Global Compact compliance was assessed, on a best-efforts basis, as part of investment controlling. The Delegate Investment Manager used third-party data providers' frameworks and data to categorise serious breaches, which were intended to identify credible allegations of a violation of global norms, supplemented by internal research where third-party data coverage was unavailable. There were no breaches of the UN Global Compact compliance during the period.

How did this financial product perform compared to the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental and social characteristics promoted by the Fund.

How does the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable

# Methodologies and data

This report relies on sustainability-related data. The quality, timeliness, completeness and availability of sustainability-related data may still not be comparable with the general quality, timeliness, completeness and availability of more standardised and traditional financial data.

Sustainability indicators and asset allocation sections are reported based on a snapshot of the Fund at year-end and are not an average of quarterly values.

#### Decision-making process to determine remuneration policies

Under the GAM Group's framework ultimate responsibility in compensation matters is held by the Board of Directors. The Board is supported in compensation-related issues by the Compensation Committee ("CompC").

- The Board is responsible for establishing the Group Compensation Policy, and with support of the CompC regularly reviewing the Group Compensation Policy to meet any important regulatory developments and the objectives of the Group.
- The CompC is delegated with the role of supporting the Board in setting compensation guidelines, establishing share-based compensation plans and approving the aggregate variable compensation expenditure of the Group as well as determining and proposing to the Board the individual total compensation payable to the members of the Board (other than its Chairman) for approval. The CompC regularly reports to the Board on the status of its activities, the development of the compensation architecture within the Group as well as on the operational implementation of this Policy. The CompC consists of at least three members of the Board all of whom are Non-Executive Directors.
- The Compensation Management Committee ('CMC') has delegated authority from the CompC to provide support and advice to the CompC to ensure that the compensation policy and practices across GAM Holding AG Group operate in line with EU regulations that apply to its regulated entities and delegates. The CMC's members are appointed by the Group CEO including senior members from the Risk, Compliance and Human Resources functions of the Group.

GAM Group's compensation philosophy is aligned with the Group's overall long-term objective of sustainable growth and profitability as well as its tolerance for risk. The Group's approach provides for compensation that attracts and retains employees in each local market and motivates them to contribute to the development and growth of our business. The policy promotes sound and effective risk management and does not encourage inappropriate risk taking.

#### Link between pay and performance

As described above, GAM Group operates a Group-wide remuneration policy, which applies to all employees across the Group including the above entities. The compensation structure is designed to incentivise delivery of strong investment performance within a sound risk and control environment, and to safeguard the long-term success and prosperity of the customer and the Manager's shareholders. A robust performance management system forms part of the compensation process and enables us to reward success and minimise the possibility of payment for failure.

The composition of the elements within an individual's overall compensation is the result of the function and performance of the individual, including alignment with the Group's risk tolerances, market competitiveness and overall profitability. The Group's total compensation approach comprises fixed and variable compensation.

Fixed compensation includes base salary, which reflects seniority, experience, skills and market conditions, together with fixed allowances for certain employees in Switzerland consistent with customary local practice.

Variable compensation is awarded annually and is dependent on Group, business area and individual performance. Cash bonuses that are driven by activities that leave meaningful amounts of future risk with the Group, either via direct balance sheet exposure or through the potential for other negative income events are prohibited.

For members of the Group Management Board, a portion of variable compensation is paid in the form of deferred, share-based awards, reflecting their accountability for the operating results achieved and the impact of their decisions on the Group's future development.

In addition to members of the Group Management Board, other senior employees of the Group have a portion of their variable compensation deferred to provide alignment with long-term interest of clients and shareholders.

Discretionary compensation decisions are based on individual's achievement of pre-set targets and contributions to the Group's development. This fosters a work ethic that is driven by high performance and tangible results.

#### Identified Staff

The categories of staff for inclusion as Identified staff for GAM Fund Management Limited include:

- Executive and non-executive members of the Board
- Other members of senior management
- Staff responsible for control functions

Directors of this regulated entity do not receive any kind of variable remuneration linked to their role. Should any variable remuneration be granted to directors in the future, such remuneration will be fixed and not linked to the short-term results of the entity.

# **Supplementary Information (Unaudited)**

The Identified Staff are identified and reviewed on an annual basis by the CMC in line with the criteria set out under EU regulations, namely:

If, in the performance of their professional activities certain staff of a delegate portfolio manager can have a material impact on the risk profiles of the funds they manage, these employees are considered as "Identified Staff". For this purpose, the Group considers the respective delegate portfolio manager as subject to equally effective regulation if they are required by law and regulations or in accordance to internal standards to put in place a remuneration policy, which in accordance to the ESMA Remuneration Guidelines 2013/232 and 2016/575 is considered equivalent in its objectives. The Group's regulated entities will only delegate its portfolio management to firms, whose remuneration policy complies with the 'equivalence standard' as described.

#### Quantitative disclosures

The remuneration data provided below reflects amounts paid in respect of the performance year 2023 in relation to the AIFs managed by GAM Fund Management Limited.

GAM Fund Management Limited manages funds with a combined AUM of  $\leq$ 9,779m - representing funds of the Management Company, including those managed by delegates at 31 December 2023.

Total annual remuneration paid to all Management Company employees Of which fixed:	€4.69M €4.69M
Of which variable:	€0.0M
Number of Management Company employees	75
Total Remuneration paid to Identified Staff in the Management Company	€1.94M
Of which paid to Senior Management:	€0.79M
Of which paid to other identified staff:	€1.15M

Portfolio Management duties are delegated and the contractual arrangements to appoint the delegates include a provision which states that the delegate must follow, to an appropriate degree, AIFMD remuneration rules.

#### Notes

In the figures above, fixed remuneration relates to salary and pension benefits and variable remuneration includes the annual bonus including any long-term incentive awards

Where relevant, the remuneration information provided in the table above relates to a proportion of the amount of total fixed and variable remuneration paid to employees in the Management Company and its delegate(s) that relates to their funds activities.
