What is this product?

Type

The product is a unit of the sub-fund Emerging Markets Equity (the sub-fund) of GAM Multistock (the "Umbrella Fund"), a "société d'investissement à capital variable" (SICAV) and is authorised as an undertaking for collective investment in transferable securities (UCITS) in accordance with Part I of the Law of 17 December 2010 on undertakings for collective investment (the "Law of 2010").

Term

The Fund has no maturity date. The Fund could be closed under the conditions set down in the current prospectus of the Fund.

Objectives

Investment Objective

The aim of the sub-fund ("Fund") is to achieve long-term capital growth. For this purpose, the Fund invests in selected shares of companies in emerging economies.

Investment Policy

The Fund invests at least 70% of its assets in companies in emerging markets. Through the link between the Shanghai, Shenzhen and Hong Kong stock exchanges (Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect), the Fund can invest directly in Chinese A shares. In addition, investments in Chinese B and H shares can be built up.

The Fund may use complex financial instruments to hedge the Fund assets and to profit from promising investments. These instruments entail additional leverage and, as a result, the Fund assets may fluctuate significantly up or down.

The Fund promotes environmental and/or social characteristics in accordance with Article 8 of Regulation (EU) 2019/2088 (the "SFDR"), but does not have a sustainable investment as its objective.

The Fund is actively managed with reference to the MSCI Emerging Markets Index (the "benchmark index") by virtue of the fact that it uses the latter in the appropriate currency for performance comparison purposes. However, the benchmark is not used to determine the Fund's portfolio composition or as a performance target, and the Fund can only be invested in securities that are not represented in the benchmark.

Share Class Policy:

The Fund has several share classes. These may differ with regard to fees, minimum investment, use of revenues and investor qualification.

Income is reinvested in the share class.

Processing of subscription and redemption orders

Investors may buy or sell the Fund on any bank working day in Luxembourg.

Intended retail Investor

This Fund is aimed at retail and professional clients and eligible counterparties, who are seeking capital accumulation across categories and have a medium-term investment horizon. This Fund is aimed at investors with basic knowledge or experience of financial products. The investor is prepared to bear financial losses and does not require any capital guarantees.

Depositary

The custodian is State Street Bank International GmbH, Luxembourg Branch, 49, Avenue J.F. Kennedy, L-1855 Luxembourg.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. If you choose a foreign currency share class you will be exposed to currency risk and your final return will depend on the exchange rate between the foreign currency and your local currency. The risk is not considered in the indicator shown above.

You can find more information about the other risks in the prospectus at www.gam.com.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What happens if GAM (Luxembourg) S.A. is unable to pay out?

For your protection the company's assets are held separately with the custodian, so the Fund's ability to pay out would not be affected by the insolvency of the Fund Management Company. If the Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. The assets and liabilities of the Fund are segregated from other sub-funds in the GAM Multistock, subject to the provisions of Luxembourg law. This document describes a share class of a sub-fund of the GAM Multistock. Subject to the conditions set down in the prospectus of the GAM Multistock, you are entitled to switch from one share class to another, either in the Fund or in another sub-fund of the GAM Multistock. Please refer to the "How to Switch Shares" section of the prospectus for further information on how to switch.
