

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## NN (L) Greater China Equity - P Dis USD

ISIN: LU0119217288

A sub-fund (hereafter referred to as the fund) of NN (L)

This fund is managed by NN Investment Partners B.V.

### Objectives and Investment Policy

The fund consists of a portfolio of stocks of companies diversified throughout all sectors of the greater Chinese economy. The issuers of these stocks are established, listed or traded in the People's Republic of China, Hong Kong Special Administrative Region or Taiwan. Other than directly investing in companies, the fund may also invest in other financial instruments. The Fund may also invest directly, up to 20% of its net assets, in mainland China via Stock Connect which is the mutual market access programme through which investors can deal in selected securities. The fund uses active management to target companies that are the most promising companies on the greater Chinese markets based on fundamental analysis, with stock, country and sector deviation limits maintained relative to the benchmark. Its stock-level

composition will therefore materially deviate from the benchmark. Measured over a period of several years we aim to beat the performance of the benchmark MSCI Golden Dragon 10/40 (NR). The benchmark is a broad representation of our investment universe. The fund may also include investments into securities that are not part of the benchmark universe. We ensure the portfolio is diversified across the region, at country level and stock level. You can sell your participation in this fund on each (working) day on which the value of the units is calculated, which for this fund occurs daily. The fund aims at providing you with a regular dividend.

### Risk and Reward Profile

Lower risk - Typically lower rewards				Higher risk - Typically Higher rewards		
1	2	3	4	5	6	7

Historical data, such as is used for calculating this indicator, may not be a reliable indication of the future risk profile of this fund. There is no guarantee that the risk indicator will remain unchanged, it may shift over time. The lowest category of risk does not mean that the investment is risk-free.

This fund is in category 6 because of the behaviour of the product during the measuring period. The overall market risk, taking into account past performances and future potential evolution of the markets, associated with stocks and/or financial instruments used to reach the investment objective is considered high. These financial instruments are impacted by various factors. These include, but are not limited to, the development of the financial

market, the economic development of issuers of these instruments who are themselves affected by the general world economic situation and the economic and political conditions in each country. The fund's liquidity risk is set to medium. Liquidity risks arise when a specific underlying investment is difficult to sell, causing possible difficulty to redeem your investment from the fund. Moreover, currency fluctuation may impact highly the fund's performance. Investments in a specific geographic area are more concentrated than investments in various geographic areas. No guarantee is provided as to the recovery of your initial investment. The fund may invest in China A-shares through Stock Connect, a system facilitating equity investment to the Chinese market. Investments through this system are subject to specific risks, including but not limited to, quota limitations, trading restrictions, recalling of eligible stocks, clearing and settlement risk and regulatory risk. Investors are advised to familiarise themselves with the risks of this system as outlined in the prospectus.

## Charges

All fees paid by investors are used to meet the ongoing charges of the fund, including sales and marketing costs. These charges reduce the potential growth of the investment.

### One-off charges taken before or after you invest:

Entry charge	3%
Exit charge	0%
Switching fee	3%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

### Charges taken from the fund over a year:

Ongoing charge	1.91%
----------------	-------

### Charges taken from the fund under certain specific conditions:

Performance fee	0%
-----------------	----

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser. The ongoing charges figure is based on expenses for the year ending 12/2019. This figure may vary from year to year.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the funds when buying or selling units in another collective investment undertaking

You will find further details on fees in the section "Fees, expenses and taxation" of the sales prospectus on the website <http://www.fundinfo.com>.

## Past Performance

- Performance in the past is not a reliable indicator of future results.
- The past performance shown here takes account of all charges and costs, excluding entry and exit costs and fund switching costs.
- This sub-fund was launched in 1999.
- This share class was launched in 1999.
- The past performance is calculated in USD.

\* This performance was achieved when the fund had different characteristics.
