- Green Ash SICAV - Chanos Equity Long/Short Fund (until 30.11.2023)

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the Key Investor Information Documents, the latest annual report and the latest semi-annual report.

Shareholders may obtain the prospectus, the Key Investor Information Documents (PRIIPS KID), the latest annual and semi-annual reports, the changes in the composition of the securities portfolio during the reporting period and copies of the Articles of Association free of charge from the registered office of the Company or the local representatives in the countries where the SICAV is registered.

### Audit report

To the Shareholders of **Green Ash SICAV** 

### **Our** opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Green Ash SICAV (the "Fund") and of each of its sub-funds as at 31 December 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 December 2023;
- the combined statement of operations / changes in net assets for the Fund and the statement of operations / changes in net assets for each of the sub-funds for the year then ended;
- the statement of Investments in Securities for each of the sub-funds as at 31 December 2023; and
- the notes to the financial statements, which include a summary of significant accounting policies.

### Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

## Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

 $<sup>\</sup>label{eq:pricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg T: +352 494848 1, F: +352 494848 2900, www.pwc.lu$ 

Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256) R.C.S. Luxembourg B 65 477 - TVA LU25482518

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
  control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for Green Ash SICAV - Chanos Equity Long/Short Fund which was liquidated as at 30 November 2023) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### General

Green Ash SICAV (the "Company") is an open-ended investment fund with multiple compartments ("société d'investissement à capital variable" (SICAV) à compartiments multiples) governed by Luxembourg law, established in accordance with the provisions of Part I of the law of 17.12.2010 on undertakings for collective investments, as amended ("Law of 17 December 2010").

The Company was incorporated for an unlimited duration on the 08.01.2016 under the name of Woodman SICAV.

The Company's registered office is at 5, rue Jean Monnet L-2180 Luxembourg, Grand Duchy of Luxembourg and the Company is registered with the Registre de Commerce et des Sociétés of Luxembourg under number B203127.

As of 31.12.2023 the Company had 4 Sub-Funds:

#### Sub-Fund

Sub-Fund	Launch date
Green Ash SICAV - Green Ash Short Duration Credit Fund	15.06.2020
Green Ash SICAV - Green Ash Onyx Fund	03.12.2020
Green Ash SICAV - Green Ash Horizon Fund	09.07.2021
Green Ash SICAV - Green Ash Diversified Growth Fund	27.04.2022

Changes:

Green Ash SICAV - Chanos Equity Long/Short Fund was liquidated as of 30.11.2023.

#### Summary of significant accounting policies

a) Presentation of financial statements

The financial statements have been prepared in accordance with the legal and regulatory requirements relating to the preparation of financial statements as prescribed by the Luxembourg authorities for Luxembourg investment companies.

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds under the going concern basis of accounting except for the Subfund - Green Ash SICAV - Chanos Equity Long/Short Fund which arrived at the end of its life cycle as at 30.11.2023. As such, the financial statements for this Subfund has been prepared on a nongoing concern basis.

#### b) Computation of the net asset value

The net asset value of each Sub-Fund is determined each day on the basis of income/expenses accrued up to the same day, transactions in the investment portfolio until the preceding day and the valuation of net assets on the basis of the last available market price.

The financial statements reflect the net asset value as calculated on 31,12,2023 based on the market prices of the investments as of 29.12.2023.

If on any Valuation Day the aggregate value of transactions in shares of a Sub-Fund results in a net increase or decrease of shares which exceeds a threshold set by the Board of Directors from time to time for that Sub-Fund (relating to the cost of market dealing for that Sub-Fund), the Net Asset Value of the Sub-Fund will be adjusted by an amount (not exceeding 2% of that Net Asset Value) which reflects both the estimated fiscal charges and dealing costs that may be incurred by the Sub-Fund and the estimated bid/offer spread of the assets in which the Sub-Fund invests. The adjustment will be an addition when the net movement results in an increase of all Shares of the Company and a deduction when it results in a decrease.

The NAV per share as disclosed in the statistical information is the published NAV per share whereas the total net assets disclosed in the statement of net assets is the total net asset value excluding period end swing adjustment.

As per 31.12.2023, no swing price was applied on the Sub-Funds.

#### c) Valuation of investment securities

The Net Asset Value per share is calculated as of each Valuation Day as determined for each Sub-Fund. The assets and liabilities of the Company will be determined according to the principles below:

- The value of cash at hand and on deposit, bills and demand notes and accounts receivable, prepaid expenses, dividends and interest declared or due but not yet collected, shall be deemed to be the full value thereof. However, if it is unlikely that this value will be received in full, the value thereof will be determined deducting the amount the Company considers appropriate to reflect the true value thereof.

- The value of all transferable securities listed or traded on a stock exchange will be determined based on the last available price published on the market considered to be the main market for trading the transferable securities in question.

- The value of all transferable securities traded on another regulated market, operating regularly, recognised and open to the public shall be assessed based on the most recent price available.

- In as much as transferable securities in a portfolio are not traded or listed on a stock exchange or another Regulated Market or if, for securities listed or traded on such an exchange or other market, the price determined in accordance with above is not representative of the real value of these transferable securities, these will be valued based on their probable realisation value, which will be estimated in a prudent manner and in good faith.

- The liquidation value of financial derivative instruments not traded on stock exchanges will be determined in accordance with the rules set by the Board of Directors in a prudent manner and in good faith.

- Undertakings for collective investment are valued at the latest known Net Asset Value or sale price in the event that prices are listed.

- All other securities and assets are valued at their probable realisation value estimated in a prudent manner and in good faith according to procedures established by the Board of Directors.

#### d) Cash at banks and at brokers

Cash at banks and at brokers includes cash in hand, margin calls and deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less and bank overdrafts.

#### e) Net realised gain/loss on sales of investments

The realised gains or losses on the sales of securities are calculated on the basis of the average acquisition cost.

#### f) Foreign exchange conversion

The financial statements are kept in the reference currency of each Sub-Fund and the combined financial statements are kept in EUR.

Cash at banks, other net assets and the value of portfolio securities in currencies other than reference currency of each Sub-Fund are converted into the reference currency at the foreign exchange rate prevailing on the date of valuation.

Income and expenses in currencies other than reference currency of each Sub-Fund are converted into the reference currency at the foreign exchange rate applicable at the date they accrue to the Sub-Fund.

Realised gains or losses on foreign currencies are accounted for in the statement of operations and changes in net assets.

The acquisition cost of securities in currencies other than the reference currency of each Sub-Fund is converted into the reference currency at the foreign exchange rate valid at the date of acquisition.

#### g) Transactions on investments in securities

The transactions on investments in securities are booked on a trade date basis.

#### h) Valuation of financial futures contracts of each Sub-Fund

Unmatured financial future contracts are valued at valuation date at market prices prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and are shown under unrealised gain/loss on financial future contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations and changes in net assets under "Net realised gain (loss) on financial futures contracts".

#### i) Valuation of forward foreign exchange contracts of each Sub-Fund

Unmatured forward foreign exchange contracts are valued at valuation date at forward exchange rates prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and are shown under unrealised gain/loss on forward foreign exchange contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations and changes in net assets under "Net realised gain (loss) on forward foreign exchange contracts".

#### j) Valuation of swaps

On each valuation day, swap agreements are valued at the net present value of the future cash flows, using the relevant interest rate yield curve on valuation day. For the valuation of excess return swaps, the relevant underlying is taken into account. The resulting unrealised gains or losses are shown under unrealised gain/loss on swap contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations / changes in net assets under "Net realised gain (loss) on swap contracts".

#### k) Valuation of option contracts of each Sub-Fund

Premiums received on issued options are recorded as liabilities and premiums paid on the purchase of options are recorded as assets in the statement of net assets. Option contracts outstanding on the reporting date are valued at the last settlement or close price on the stock exchanges or regulated markets. Realised and unrealised gains or losses are recorded in the statement of operations and changes in net assets.

#### I) Allocation of accrued expenses

Accrued expenses which can be allocated directly to a Sub-Fund are charged to this Sub-Fund. Accrued expenses which cannot be allocated directly are divided among the Sub-Funds in proportion to the net assets of each Sub-Fund.

#### m) Formation expenses of each Sub-Fund

Formation expenses are amortised on a straight-line basis over a period of five years.

#### n) Income recognition

Dividends are recorded on ex-dividend date, net of withholding tax. Interest is accrued on a daily basis.

#### Management fee, Investment Management fee and Performance fee (see detail at Sub-Fund level)

Green Ash SICAV - Green Ash Short Duration Credit Fund:

The maximum management fee for all Shares of all Classes paid out of the assets of the Sub-Fund is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to up to 0.85% p.a. for Shares of Classes R and up to 0.50% p.a. for Shares of Classes I, subject to a minimum fee in the amount of EUR 29,000.

The maximum investment management fee for the Investment Manager paid out of the management fee amounts to up to 0.80% p.a. for Shares of Classes R and up to 0.45% p.a. for Shares of Classes I.

#### Green Ash SICAV - Green Ash Onyx Fund:

The maximum management fee for all Shares of all Classes paid out of the assets of the Sub-Fund is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to up to 1.795% p.a. for Shares of Classes B2, up to 0.845% p.a. for Shares of Classes I, subject to a minimum fee in the amount of EUR 29,000.

The maximum investment management fee for the Investment Manager paid out of the management fee amounts to up to 1.75% p.a. for Shares of Class B and up to 1.15% p.a. for Shares of Class B2.

The Investment Manager is, in addition, entitled to a performance-related remuneration ("Performance Fee").

The Performance Fee is subject to a "high water mark". The Investment Manager is entitled to a Performance Fee if, at the end of the financial period, the NAV per share of the Sub-Fund is above of the previous high water mark (outperformance over the high water mark).

The Performance Fee is calculated and accrued on every Valuation Day and paid out after the end of the financial period. At launch of the Sub-Fund or, as the case may be, a share category, the high water mark is identical to the initial issue price per share. If, on the last Valuation Day of the financial period, the NAV per share outperforms the previous high water mark, the high water mark is reset on the last Valuation Day of said financial period to the NAV calculated after deduction of the accrued Performance Fee per share.

In any other cases, the high water mark remains unchanged. For shares redeemed on any valuation day during the financial period (net outflows), the accrued Performance Fee attributable to the redeemed shares is crystallized and paid out to the Investment Manager after the end of the financial period.

The amount of the Performance Fee is 10% of the outperformance over the high water mark.

In addition to the Management Fee, the Management Company is entitled to a yearly fee payable out of the total net assets of the Sub-Fund. The % of this Management Company fee is included in the Management fee rate in the technical data.

Share Class	CCY	Performance fee rate	Amount of performance fee charged for the	% on the Share Class NAV of performance fee
			year	charges for the year
В	EUR	10%	-	0.00%
B2	EUR	10%	-	0.00%
ВH	USD	10%	-	0.00%

No performance fee was charged during the year ended.

Green Ash SICAV - Green Ash Horizon Fund:

The maximum management fee for all Shares of all Classes paid out of the assets of the Sub-Fund is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts up to 0.85% p.a. for Shares of Classes IA, subject to a Minimum Fee in the amount of EUR 20,000.

The maximum investment management fee for the Investment Manager paid out of the management fee amounts to 0.80% p.a. (plus any applicable taxes, if any) for Shares of Class IA.

The Investment Manager, is in addition, entitled to receive from the Company in respect of the Sub-Fund a performance-related remuneration (the "Performance Fee") in the amount of 10% of the amount by which the GAV per share exceeds the High Watermark ("HWM") multiplied by the number of shares in issue in the related class at the end of the relevant Calculation Period (as defined herein after).

Share Class	CCY	Performance fee rate	Amount of performance fee charged for the year	% on the Share Class NAV of performance fee charges for the year
IA	USD	10%	-	0.00%
IA	AUD	10%	-	0.00%
IA	GBP	10%	-	0.00%

No performance fee was charged during the year ended.

Green Ash SICAV - Green Ash Diversified Growth Fund:

The maximum management fee for all Shares of all Classes paid out of the assets of the Sub-Fund is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to up to 1.05% p.a. for Shares of Classes RA, subject to a minimum fee in the amount of USD 29,000.

The maximum investment management fee for the Investment Manager paid out of the management fee amounts to up to 1.00% p.a. for Shares of Classes RA. The Investment Manager is, in addition, entitled to a performance-related remuneration ("Performance Fee").

The Performance Fee is subject to a "high water mark". The Investment Manager is entitled to a Performance Fee if, at the end of the financial period, the NAV per share of the Sub-Fund is above of the previous high water mark (outperformance over the high water mark).

The Performance Fee is calculated and accrued on every Valuation Day and paid out after the end of the financial period. At launch of the Sub-Fund or, as the case may be, a share category, the high water mark is identical to the initial issue price per share. If, on the last Valuation Day of the financial period, the NAV per share outperforms the previous high water mark, the high water mark is reset on the last Valuation Day of said financial period to the NAV calculated after deduction of the accrued Performance Fee per share.

In any other cases, the high water mark remains unchanged. For shares redeemed on any valuation day during the financial period (net outflows), the accrued Performance Fee attributable to the redeemed shares is crystallized and paid out to the Investment Manager after the end of the financial period.

The amount of the Performance Fee is 10% of the outperformance over the high water mark.

In addition to the Management Fee, the Management Company is entitled to a yearly fee payable out of the total net assets of the Sub-Fund. The % of this Management Company fee is included in the Management fee rate in the technical data.

Share Class	CCY	Performance fee rate	Amount of performance fee charged for the year	% on the Share Class NAV of performance fee charges for the year
RA	EUR	10%	22,800.73	0.15%

The performance fee charged during the year ended amounted to 22,800.73 EUR.

Green Ash SICAV - Chanos Equity Long/Short Fund (until 30.11.2023):

The maximum management fee for all Shares of all Classes paid out of the assets of the Sub-Fund is calculated monthly on the basis of the average Net Asset Value of the respective Class and amounts to (i) up to 1.845% p.a. (plus any applicable taxes, if any) for Shares of Classes R; (ii) up to 1.245% p.a. (plus any applicable taxes, if any) for Shares of Classes I; and (iii) up to 0.945 % p.a. (plus any applicable taxes, if any) for Shares of Classes F, subject to a Minimum Fee.

The maximum investment management fee for the Investment Manager paid out of the management fee amounts to (i) up to 1.8% p.a. (plus any applicable taxes, if any) for Shares of Class R; (ii) up to 1.2% p.a. (plus any applicable taxes, if any) for Shares of Class I and (iii) up to 0.9% p.a. (plus any applicable taxes, if any) for Shares of Class F.

The maximum sub-investment management fee for the Sub-Investment Manager paid out of the investment management fee amounts to (i) up to 0.7% p.a. (plus any applicable taxes, if any) for Shares of Class R; (ii) up to 0.7% p.a. (plus any applicable taxes, if any) for Shares of Class I; and (iii) up to 0.55% p.a. (plus any applicable taxes, if any) for Shares of Class F.

In addition, the Investment Manager is entitled to receive from the Company in respect of the Sub-Fund a performance-related remuneration (the "Performance Fee") in the amount of 20% of the amount by which the GAV (as defined hereafter) per share exceeds the High Watermark ("HWM") multiplied by the number of shares in issue in the related class at the end of the relevant Calculation Period (as defined herein after).

The HWM is the higher of: (a) the initial issue price, when shares in the relevant class were first issued, or the subscription price, as applicable, and (b) the highest NAV per share on which a Performance Fee was paid.

The Performance Fee in respect of each Calculation Period will be calculated by reference to the NAV per share before deduction for any accrued Performance Fee (i.e. the "Gross Asset Value" or "GAV" per share).

Share Class	CCY	Performance fee rate	Amount of performance fee charged for the period	% on the Share Class NAV of performance fee charges for the period
FH	CHF	20%	-	-

#### "Taxe d'abonnement" and taxation

The Company is not subject to taxation in Luxembourg on its income, profits or gains and is not subject to net wealth tax. No stamp duty, capital duty or other tax will be payable in Luxembourg upon the issue of the shares of the Company.

The Company is however subject to a subscription tax ("taxe d'abonnement") levied at the rate of 0.05% per annum based on its net asset value at the end of the relevant quarter, calculated and paid quarterly.

A reduced subscription tax of 0.01% per annum is applicable to UCITS individual compartments of UCITS with multiple compartments, as well as for individual classes of securities issued within a UCITS or within a compartment of a UCITS with multiple compartments, provided that the securities of such compartments or classes are reserved to one or more institutional investors.

Interest and dividend income, and gains on securities, may be subject to nonrecoverable withholding taxes deducted at source in the countries of origin. Changes in the composition of the securities portfolio during the reporting year/period are available to Shareholders free of charge at the registered office of the Company or the local representatives in the countries where the Company is registered.

#### Fund performance

(see detail at Sub-Fund level)

The performance of the year Y is based on the net asset values as calculated on the last business day of the year Y and Y-1. Those net asset values reflect the market prices of the investments as of the last business day of the year Y and Y-1. Historical performance is no indicator of current or future performance.

The performance data given does not take into account commissions and costs incurred in the purchase or redemption of fund shares. The since inception performance is annualised. The YTD (year-To-Date) performance includes the period from 01.01.2023 until 31.12.2023.

#### Exchange Rates

The combined financial statements are kept in EUR. For this purpose, the financial statements of the Sub-Funds are converted into EUR at the following foreign exchange rate:

1 EUR = 1.10465 USD

#### Transaction costs

Transactions costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the reporting year. Transaction fees are included in the cost of securities purchased and sold.

For the year ended on 31.12.2023, the Sub-Funds incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, (including derivatives instruments or other eligible assets) as follows:

Sub-Fund	Ссу	Transaction cost
Green Ash SICAV - Green Ash Short Duration Credit	USD	0.00
Fund		
Green Ash SICAV - Green Ash Onyx Fund	EUR	323,738.77
Green Ash SICAV - Green Ash Horizon Fund	USD	12,637.57
Green Ash SICAV - Green Ash Diversified Growth	EUR	11,423.87
Fund		
Green Ash SICAV - Chanos Equity Long/Short Fund	USD	6,088.95
(until 30.11.2023)		

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and for some other derivative contracts, transaction costs will be included in the purchase and sales price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Sub-Fund.

#### Total Expense Ratio (TER)

(see detail at Sub-Fund level)

The TER expresses the sum of all costs and commissions charged on an ongoing basis to the fund's assets, taken retrospectively as a percentage of the average assets.

If a Subfund invests at least 10% of its net assets as a fund of fund in target funds, a composite TER of the fund of funds is to be calculated as follows:

The prorated TER of the individual target funds including a performance related remuneration, weighted according to the share they represent in the overall assets of the fund of funds as of the closing date and the TER of the fund of funds minus the retroceded commissions received from the target funds during the reporting year.

The TER is calculated following the AMAS guideline.

#### Options

As at 31.12.2023, Green Ash SICAV - Green Ash Horizon Fund was engaged in options transactions with Credit Suisse (Luxembourg) S.A.:

Description	Ссу	Quantity	Commitment (in Ccy)	Valuation (in USD)
MATTERPORT INC a C-st 20 19/01/2024	USD	30	490,549.50	30.00
QUANTUMSCAPE CORP a C-st 30 19/01/2024	USD	12	186,950.40	36.00
				66.00

As at 31.12.2023, Green Ash SICAV - Green Ash Onyx Fund was engaged in options transactions with Credit Suisse (Luxembourg) S.A.:

Description	Ссу	Quantity	Commitment (in Ccy)	Valuation (in EUR)
S&P 500 INDEX P-st 4400 29/02/2024	USD	230	-11,096,414.03	333,970.04
				333.970.04

#### **Financial Derivative Instruments**

The subfunds may engage in derivative transactions for the purpose of efficient portfolio management. Details of the derivatives are displayed in the Notes pages. Depending on the type of derivatives held, collateral might be received from the different counterparts to reduce the counterparty exposure. For other type of derivatives, margin accounts might be used.

As at 31.12.2023, in order to reduce the counterparty risk, the following subfunds have received the following assets as collateral from the following counterparties for an amount of:

Green Ash Onyx Fund:

Туре	Counterparty	Ссу	Amount
Cash	MORGAN STANLEY & CO. INTERNATIONAL	USD	250,000.00
	PLC		

### Cash collateral

The following table shows the amount of cash collateral included in the Cash at banks and at brokers as disclosed the Statement of Net Assets:

Subfund	Counterparty	Ccy	Amount
Green Ash Short Duration Credit	CREDIT SUISSE LUX	USD	120,000.00
Fund			

#### **Cross Sub-Fund investments**

The following investment was not eliminated from the combined figures. At 31.12.2023, the total combined NAV of the Company excluding these investments amounted to EUR 217,880,733.33.

Green Ash SICAV - Green Ash Onyx Fund:

	Valuation
Investee Sub-Fund	(in EUR)
GREEN ASH SHORT DURATION CREDIT FD I H CHF C	104,625.15
GREEN ASH SHORT DURATION CREDIT FUND I H EUR CAP	5,660,566.00
GREEN ASH SHORT DURATION CREDIT FUND I USD C	95,795.05
	5,860,986.20

#### War in Ukraine

During late February 2022, the eastern part of Europe has entered into a phase of instability following the military action taken by Russia against Ukraine (the "Situation"). As a result, a list of global leading countries, not limited to Canada, the European Union, Japan, New Zealand, Taiwan, the United Kingdom, and the United States unveiled a series of sanctions against Russia to cripple the economy targeting banks, oil refineries, and military exports, etc. On the other aspect and amid the worsening situations in Ukraine due to the prevalent military situation, the economy deterioration and volatility in Ukraine seems imperative. In addition to the direct impact on the concerned economies and parties, Ukraine and Russia, the einpact on other specifically, the link between the economies of Europe and Russia is considerable enough for its effects to an extent that may hit the western economy even harder, also with effects on the US economy.

The Board of Directors is closely monitoring the effects of the Situation on the investors, investments and other stakeholders and have assessed that the Situation does not impact the financial statements as at 31 December 2023 and the ability of the Company and its Sub-Funds to continue as going concern.

#### Significant events during the year

On 12 June 2023, Credit Suisse Group AG was merged into UBS Group AG and the combined entity now operates as a consolidated banking group (the "Merger"). The Fund receives various services and has banking relationships with consolidated subsidiaries of Credit Suisse Group AG, and as such these relationships and service providers may change in the future as a result of the Merger.

A new prospectus came into force as at 09.01.2023.

#### Subsequent events

No significant event occurred after the year end.

#### Manager's Report (unaudited)

#### Green Ash SICAV - Green Ash Short Duration Credit Fund

The fund rose +8.15% (EUR hedged share class +5.91%). 45% of the returns were driven by the high yield component, which had an average weight of 36% in the fund over the course of the year.

2023 was characterised by resilient growth (despite consensus forecasts pricing a 2 in 3 probability of recession at the start of the year), and rapidly declining inflation. A large fraction of Wall Street strategists fought these two realities well into the second half the year, until successive data prints on both the inflation and growth front overwhelmed the hard landing/sticky inflation narrative, and drove a huge repricing across all developed market government bond curves. This in turn drove most risk assets higher, and the US dollar lower. The market is now pricing 5-6 interest rate cuts in the US, Europe and the UK by the end of 2024, with the timing of the first expected sometime between March and May.

As we have pointed out through the course of the year, while the primary market recovered from record lows in 2022, there remains a dearth of new high yield supply, which has provided a strong technical to the market. In the US, the supply/demand deficit of -\$129BN can be entirely attributed to rising stars (\$121BN), which outnumbered fallen angels by a factor of 9x. This is in large part a function of resilient corporate earnings and improving balance sheets – to again take a US example, spread per leverage has declined by -39bps YoY to 106, back to levels seen for much of the halcyon days of 2019.

We continue to see a supportive environment ahead for credit, as we approach the next easing cycle. The fund currently yields 5.59% in USD, 5.42% in GBP, 4.12% in EUR and 1.89% in CHF.

#### Green Ash SICAV - Green Ash Onyx Fund

The Green Ash Onyx I H GBP class advanced +10.71% in 2023 (I USD was up +11.48%).

Market based measures of future monetary policy extended their dovish move and priced 6 interest rates cuts for 2024 by the end of December in both US and Europe, while the shift lower in yield curves compressed real rates. The US Dollar again declined, further loosening financial conditions. Energy commodites, whether due to relatively subdued growth prospect away from the US or due to supply dynamics, were soft adding a tailwind to the favourable inflation narrative. Credit markets continued to be supported and equity markets extended their advance with the MSCI World up another 4.8%, taking for example the Dow Jones Industrial index to new all-time highs. This was led mainly by the Industrials sector as well as the most rate sensitive sectors. The VIX index dropped to levels not seen since before the pandemic, as equity volatility declined. The macro backdrop, preceived attractiveness in valuation and move in rates favoured value and smaller capitalization stocks in to year end. This was demonstrated by the powerful rally and attempted breakout in the Russell 2000 index, clawing back some of its significant underperformance versus the Nasdaq 100.

Heading into 2024, we maintain a positive view on the fundamentals of the Technology stocks and particularly in exposure to US names which are benefitting from the artificial intelligence theme. We continue to regard these as the most resilient and relative winners in the face of the uncertainty brought by the economic slow-down, and now benefit from the declining interest rates environment, a headwind to our book until the end of October. We see the opportunity in value and smaller capitalization stocks – which we continue to closely monitor – as better covered via investments in more secure parts of the capital structure.

On the fixed income side, we maintain what we believe to be a defensive long duration position in high conviction AT1s and higher quality high yield credits as well as longer duration in government bonds, where we added a new position in Gilts in December.

2023 was characterized by moderating but overall resilient growth, and by declining inflation. We expect this trend to continue in 2024 and do not see evidence of these trends changing. We do however see evidence of greater breadth in sources of performance across asset classes and even within equity markets. We have been preparing the portfolio composition to reflect this opportunity set. We continue to closely watch the developments on macroeconomic lead indicators on growth expectations, inflation, and interest rates as well as monitoring the geo-political developments with China, Russia and the Middle East

#### Green Ash SICAV - Green Ash Horizon Fund

The Horizon Fund's USD IA shareclass rose 35.06% in 2023 (GBP IA +33.38% and AUD IA +31.35%), versus 23.79% for the MSCI World.

2023 was characterised by resilient growth (despite consensus forecasts pricing a 2 in 3 probability of recession at the start of the year), and rapidly declining inflation. A large fraction of Wall Street strategists fought these two realities well into the second half the year, until successive data prints on both the inflation and growth front overwhelmed the hard landing/sticky inflation narrative, and drove a huge repricing across all developed market government bond curves. This in turn drove most risk assets higher, and the US dollar lower. The market is now pricing 5-6 interest rate cuts in the US, Europe and the UK by the end of 2024, with the timing of the first expected sometime between March and May.

Government bond yields are the foundation for asset valuation, and the massive repricing seen in November and December supercharged the smaller cap end of the market – the Russell 2000 index staged its third largest two month rally in its history (going back to 1979), breaking out of its wide, two-year range and clawing back some of its chronic underperformance versus the Nasdaq 100. This is still only a fraction of the ground lost in a market dominated by the 'Magnificent 7' mega cap tech stocks, and it remains to be seen whether this marks the start of a regime change.

Data & Al was the top performing theme of the year, rising +110.74%, and driving 57% of the fund's returns despite only having an average weight of 25%. Digital Consumer rose +48.55% and 5G & Edge rose +42.63% in 2023, contributing attribution of +10.77% and +7.47% respectively at fund level. Longevity & Genomics rose +2.56% for the full year, contributing little in the way of attribution, and Electrification fell -12.51%, resulting in -2.99% of negative attribution.

Looking ahead to 2024, the macro remains important – will growth hold up, as last year's interest rate hike start to flow through the financial system? Will the Fed hike in anticipation of a slowdown, or require a crisis or overshoot to pivot into an easing stance? We will find out over the course of the year, but in the meantime remain confident that the secular growth in Al deployment and electrification will continue to support all five of the fund's themes. We look to the future with great optimism, as waves of converging technologies enter a multi-year period of rapid innovation, driving higher productivity and reshaping the ways we live and work.

#### Green Ash SICAV - Green Ash Diversified Growth Fund

The Green Ash Diversified Growth fund rose +10.84% in 2023, more than recovering the previous year's losses. The best equity position in 2023 was Nvidia with its staggering +239% return. In fixed income, both corporate and government debt posited positive attribution returns (ca. +2%) and closed the year respectively at +5.91% and 3.75%.

Market based measures of future monetary policy extended their dovish move and priced 6 interest rates cuts for 2024 by the end of December in both US and Europe, while the shift lower in yield curves compressed real rates. Amazingly, last 2 months rally in rates meant that the US 10-year yield closed the year flat compared to where it started. Conversely, the real yield rally in US did not unwind completely the advances made during 2023, resulting in a 10-year yield closing at pre-GFC levels. The US Dollar again declined, further loosening financial conditions. Energy commodities, whether due to relatively subdued growth prospect away from the US or due to supply dynamics, were soft adding a tailwind to the favourable inflation narrative. Equity markets extended their advance with the MSCI World up another 4.8%, taking for example the Dow Jones Industrial index to new all-time highs. This was led mainly by the Industrials sector as well as the most rate sensitive sectors. The VIX index dropped to levels not seen since before the pandemic, as equity volatility declined. The macro backdrop, perceived attractiveness in valuation and move in rates favoured value and smaller capitalization stocks in to year end. This was demonstrated by the powerful rally and attempted breakout in the Russell 2000 index, clawing back some of its significant underperformance versus the Nasdaq 100. The S&P500 started the year on a 17x forward P/E (75th percentile on a data set going back to 1976) and ended the year on a 20x forward P/E (90th percentile). The credit market was also strong, especially in US and in the higher quality part of the market. However, High Yield corporate closed the year with double digits return while investment grade was broadly high-single digit.

### Manager's Report (unaudited)

In 2024 we see the markets, especially in US, threading a narrow path between relatively high short-term rates, increasing HY corporate defaults and a yield curve still inverted on one hand, and bright spots of the economy, a favorable inflation trend and resilient consumers on the other. As a result, we observe some evidence of greater breadth in sources of performance across asset classes and even within equity markets. The demand for generative AI and the more traditional PC memory market exiting one of the most significant downtum of its history are likely to be two of the main positive fundamental themes for next year. These are some of the developments that we will be closely monitoring, alongside with geo-political events, which will provide guidance for future changes.

### Green Ash SICAV - Chanos Equity Long/Short Fund (until 30.11.2023)

Green Ash SICAV - Chanos Equity Long/Short Fund was liquidated as of 30.11.2023.

#### Unaudited information

#### **Risk management**

The global exposure of the Sub-Funds is calculated on the basis of the commitment approach.

#### Remuneration

Functions and risk management activities and does not include any remuneration for delegated investment managers. The remuneration information represents a proportion of the total remuneration to staff of the Management Company function as attributable to all the funds it manages taking into consideration non-UCITS and UCITS alike, in relation to the total net assets of the Company.

The Management Company has implemented a series of safeguards that refrain staff from taking undue risks compared to the activity profile.

The aggregate remuneration for these individuals in relation to Green Ash SICAV was CHF 21,537.52 out of which CHF 17,339.55 are fixed and CHF 4,197.97 are variable for the financial year.

Under the methodology the number of staff considered is 9, and 5 persons with function of Conducting Officer.

#### General information in relation to Total Return Swaps ("TRS")

#### Types of SFTs and TRS

As at 31.12.2023, the Company is engaged in Total Return Swaps.

#### Re-use of collateral

The Company does not re-use collateral in relation to securities financing transactions. There is no cash collateral reinvestment.

#### Safekeeping of collateral

The safekeeping of collateral is done by Credit Suisse (Luxembourg) S.A. (the "Depositary Bank"). The collateral relating to transactions in TRS is held in segregated accounts.

#### Settlement and clearing

The settlement and clearing of securities financing transactions occur bilaterally.

#### Maturity tenor and collateral

The maturity tenor of the SFTs is always open maturity. The maturity tenor of the related collateral is disclosed in the section below.

#### Total Return Swaps ("TRS")

The details of the TRS (name of the counterparties, country of the counterparties, volume of transactions) held by each Subfund as of the reporting date are disclosed in the Technical Data and Notes section of each Subfund in this report.

The table below shows the amount of assets engaged in TRS, split between payable and receivable, by each Subfund at the reporting date, categorized by maturity tenor. The maturity tenor refers to the maturity date of the Total Return Swap as of the reporting date.

#### Green Ash SICAV - Green Ash Onyx Fund Amount of assets engaged in TRS (in EUR)

Maturity tenor of TRS	Absolute amount of payable/receivable on TRS (in EUR)	As a proportion of Total Net Assets (in %)
Payable loss than 1 month	2.100.029.00	1.13%
Payable less than 1 month Payable above 12 months	1,771,007.92	0.95%
Total	3.871.036.92	2.09%

There are no cost associated in these transactions, as included in the spread of each contract.

The maturity tenor of TRS is held in cash and has an open maturity.

#### Transparency of the promotion of environmental or social characteristics and of sustainable investments

As requested in Art. 11(1) of Regulation (EU) 2019/2088 (SFDR), Subfunds as referred to in Art. 8 of that Regulation, shall describe the extent to which environmental or social characteristics are met. Products as referred to in SFDR Art. 9 shall describe the overall sustainability-related impact of the Subfund by means of relevant sustainability indicators.

For Subfunds falling under Art. 8 or 9 of SFDR the respective information are disclosed on Subfund level below.

Subfunds not falling under Art. 8 or 9 of SFDR are not listed below. The investments underlying those Subfunds do not take into account the EU criteria for environmentally sustainable economic activities.

### ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

#### Product name: Green Ash SICAV – Green Ash Legal entity identifier: investment means Short Duration Credit Fund 549300E0H67BXVHU2049 an investment in an economic activity Environmental and/or social characteristics that contributes to an environmental or social objective, Did this financial product have a sustainable investment objective? provided that the investment does not Yes × No significantly harm any environmental or It made **sustainable** It promoted Environmental/Social (E/S) social objective and investments with an characteristics and that the investee while it did not have as its objective a companies follow environmental objective: \_\_\_% good governance sustainable investment, it had a proportion of practices. in economic activities that % of sustainable investments qualify as environmentally with an environmental objective in economic sustainable under the EU The EU Taxonomy is activities that qualify as environmentally Taxonomy a classification sustainable under the EU Taxonomy system laid down in in economic activities that do Regulation (EU) with an environmental objective in not qualify as environmentally 2020/852, economic activities that do not qualify as sustainable under the EU establishing a list of environmentally sustainable under the EU Taxonomy environmentally Taxonomy sustainable economic activities. with a social objective That Regulation does not include a It made sustainable investments It promoted E/S characteristics, but **did not** list of socially × sustainable make any sustainable investments with a social objective: % economic activities.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund integrated environmental, social and governance information (the ESG factors) into the investment decision process in order to select a portfolio with strong or improving characterisitcs in ESG factors such as climate change, natural capital, pollution & waste, environmental opportunities, human capital, product liability, stakeholder opposition, social opportunities, ownership & control, compensation, board composition, business ethics and

## Sustainable

Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

transparency. The investment process is ESG aware by incorporating sustainability considerations to enhance risk-adjusted returns.

### How did the sustainability indicators perform?

In accordance with the SubFund's sustainability indicators, as at 31/12/23 the SubFund:

1) Had 0% of investments in companies that are involved in the controversial weapons (any tie), 0% in thermal coal (mining; <10% of revenues), 0% in gambling (operator; <10% of revenues) and 0% in tobacco (producer; <10% of revenues).

2) Had 0% of investments in companies that are in violation of the United Nations ("UN") Global Compact Violation and Weapons, the ten principles of the UN Global Compact ("UNGC") https://www.unglobalcompact.org/what-is-gc/mission/principles, the OECD Guidelines for Multinational Enterprises, or the International Labour Organisation's (the "ILO") standards.

3) Finished 2023 with an ESG rating of AA, based on MSCI ESG ratings methodology, versus A for the MSCI World (M1W0)

### ...and compared to previous periods?

The portfolio's sustainability indicator performance was one notch lower than the previous year. This was due to a change in MSCI ESG rating calculation methodology, which no longer factors in positve/negative ratings momentum into ESG ratings at fund level.

# What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Subfund did not commit to make any sustainable investments.

# How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Subfund did not commit to make any sustainable investments.

— How were the indicators for adverse impacts on sustainability factors taken into account?

The Subfund did not commit to make any sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Subfund did not commit to make any sustainable investments.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

### Principal adverse

impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters. The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

# R

# How did this financial product consider principal adverse impacts on sustainability factors?

The Subfund did not consider principal adverse impacts on sustainability factors.

The list includes the investments constituting **the** greatest proportion of investments of the financial product during the reference period which is: 31.12.2023

## What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

Portfolio exposure as of 31/12/23. Does not represent an everage for the reporting period and is not representative of the portfolio exposure at any other day of the financial year. Excludes FX hedges and cash balances.

### What was the proportion of sustainability-related investments?

As at 31/12/23, the proportion of investments aligned with the E/S characteristics promoted by the SubFund (category #1 above) comprised 94.9% of its net assets. Does not represent an average for the reporting period and is not representative of the portfolio exposure at any other day of the financial year.

### What was the asset allocation?

**#1** Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#20ther** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

#### The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

### In which economic sectors were the investments made?

### Fund Sector Exposure

NACE Sector Code	NACE Name	% Assets
С	Manufacturing	18.11%
Other	Other	15.98%
J	Information and communication	13.69%
К	Financial and insurance activities	12.44%
N	Administrative and support service activities	8.73%
Н	Transporting and storage	8.32%
G	Wholesale and retail trade; repair of motor vehicles and motorcycles	6.24%
D	Electricity, gas, steam and air conditioning supply	4.89%
L	Real estate activities	4.68%
I	Accommodation and food service activities	3.69%
Q	Human health and social work activities	2.06%
В	Mining and quarrying	1.18%

\* Please note that the NACE sector allocation is not used in the SubFund's investment strategy. It is provided for disclosure purposes only.

\*\* Portfolio exposure as of 31/12/23. Does not represent an average for the reporting period and is not representative of the portfolio exposure on any other day of the financial year. The "Other" category includes cash, and derivative positions.

Asset allocation describes the share of investments in specific assets.

#### Fund Sector Exposure to Fossil Fuels Sub-sectors

NACE Sector Code	NACE Name	% assets
B5.1.0	Mining of hard coal	0.00%
B5.2.0	Mining of lignite	0.00%
B6.1.0	Extraction of crude petroleum	1.18%
B6.2.0	Extraction of natural gas	0.00%
B9.1.0	Support activities for petroleum and natural gas extraction	0.00%
C19.2	Manufacture of refined petroleum products	0.00%
D35.2.1	Manufacture of gas	0.00%
D35.2.2	Trade of gas through mains	0.00%
G46.71	Wholesale of solid, liquid and gaseous fuels and related products	0.00%
G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.0%

\* Please note that the NACE sector allocation is not used in the SubFund's investment strategy. It is provided for disclosure purposes only.

\*\* Portfolio exposure as of 31/12/23. Does not represent an average for the reporting periodand is not representative of the portfolio exposure on any other day of the financial year. The "Other" category includes cash and/or derivative positions

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy (0%).

# Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

	Yes:		
		In fossil gas	In nuclear energy
×	No		

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** 

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional

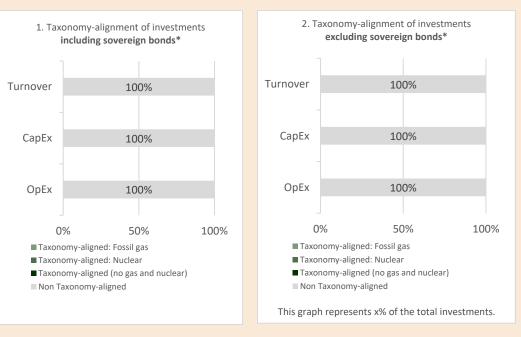

activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover
   reflecting the
   share of revenue
   from green
   activities of
   investee
   companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

### What was the share of investments made in transitional and enabling activities?

The Subfund did not make investments in transitional and enabling economic activities (0%)

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy remained the same, 0%.

# What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective not aligned with the EU Taxonomy (0%).

## What was the share of socially sustainable investments?

The Subfund did not make any socially sustainable investment (0%).

(EU) 2020/852.

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.23, 5.1% of investments were classfied as "other". Investments classified as "other", are neither aligned with the environmental or social characterisitics nor qualified as sustainable investment, and will only consitute a small fraction of the Sub-fund's total portfolio. Such #2 Other investments include cash and cash equivalents or corporates that do not have an MSCI ESG rating. In the case of cash and cash equivelents, these are held to manage risk and achieve the Sub-fund's investment objectives. Environmental and social safeguards are not relevant to these assets.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental and social characteristics promoted by The Sub-fund, The Sub-fund incorporated ESG criteria into the selection and monitoring of its holdings. The Sub-fund screened for companies that are taking positive steps to meet and exceed ESG and sustainability goals, and excluded industries and companies that do not, including companies involved in the weapons, coal or tobacco industry. For this purpose, external ESG metrics were used to rate the relevant ESG risk of each security, as well as to decide the weightings or exclusions of the relevant securities.

The Sub-fund applied the following considerations to integrate ESG considerations into the investment process:

• The % of investments in companies that are involved in the controversial weapons (Any Tie), thermal coal (mining; <10% of revenues), gambling (operator; <10% of revenues) or tobacco (producer; <10% of revenues) industry

• Exclude companies that are in violation of the United Nations ("UN") Global Compact Violation and Weapons, the ten principles of the UN Global Compact ("UNGC") https://www.unglobalcompact.org/what-is-gc/mission/principles, the OECD Guidelines for Multinational Enterprises, or the International Labour Organisation's (the "ILO") standards

• The Sub-fund's weighted average ESG score compared to the MSCI World Total Return Index (M1WO)

The Sub-fund met all of these criteria, and finished the period with an MSCI ESG rating of AA.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

## How did this financial product perform compared to the reference benchmark?

The Subfund does not use a reference benchmark for the purpose of attaining the environmental and/or social characteristics.

How does the reference benchmark differ from a broad market index?

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

- How did this financial product perform compared with the reference benchmark? N/A
- How did this financial product perform compared with the broad market index?`

N/A

### ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

#### Sustainable **Product name:** Green Ash SICAV – Green Ash Legal entity identifier: investment means Onyx Fund 549300LVP4KVEPTBQU39 an investment in an economic activity Environmental and/or social characteristics that contributes to an environmental or social objective, Did this financial product have a sustainable investment objective? provided that the investment does not Yes × No significantly harm any environmental or It made **sustainable** It promoted Environmental/Social (E/S) social objective and investments with an characteristics and that the investee while it did not have as its objective a companies follow environmental objective: \_\_\_% good governance sustainable investment, it had a proportion of practices. in economic activities that % of sustainable investments qualify as environmentally with an environmental objective in economic sustainable under the EU The EU Taxonomy is activities that qualify as environmentally Taxonomy a classification sustainable under the EU Taxonomy system laid down in in economic activities that do Regulation (EU) with an environmental objective in not qualify as environmentally 2020/852, economic activities that do not qualify as sustainable under the EU establishing a list of environmentally sustainable under the EU Taxonomy environmentally Taxonomy sustainable economic activities. with a social objective That Regulation does not include a It made sustainable investments It promoted E/S characteristics, but **did not** list of socially × sustainable make any sustainable investments with a social objective: % economic activities.

Sustainable

investments with an environmental objective might be aligned with the Taxonomy or not.

This Subfund integrated environmental, social and governance information (the ESG factors) into the investment decision process in order to select a portfolio with strong or improving characterisitcs in ESG factors such as climate change, natural capital, pollution & waste, environmental opportunities, human capital, product liability, stakeholder opposition, social opportunities, ownership & control, compensation, board composition, business ethics and transparency. The investment process is ESG aware by incorporating sustainability considerations to enhance risk-adjusted returns.

### How did the sustainability indicators perform?

In accordance with the Subfund's sustainability indicators, as at 31/12/23 the Subfund:

1) Had 0% of investments in companies that are involved in the controversial weapons (any tie), 0% in thermal coal (mining; <10% of revenues), 0% in gambling (operator; <10% of revenues) and 0% in tobacco (producer; <10% of revenues).

2) Had 0% of investments in companies that are in violation of the United Nations ("UN") Global Compact Violation and Weapons, the ten principles of the UN Global Compact ("UNGC") https://www.unglobalcompact.org/what-is-gc/mission/principles, the OECD Guidelines for Multinational Enterprises, or the International Labour Organisation's (the "ILO") standards.

3) Finished 2023 with an ESG rating of AA, based on MSCI ESG ratings methodology, versus A for the MSCI World (M1W0)

### ...and compared to previous periods?

The portfolio's sustainability indicator performance was one notch lower than the previous year. This was due to a change in MSCI ESG rating calculation methodology, which no longer factors in positve/negative ratings momentum into ESG ratings at fund level.

# What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Subfund did not commit to make any sustainable investments.

# How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Subfund did not commit to make any sustainable investments.

— How were the indicators for adverse impacts on sustainability factors taken into account?

The Subfund did not commit to make any sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Subfund did not commit to make any sustainable investments.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

### Principal adverse

impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

## How did this financial product consider principal adverse impacts on sustainability factors?

The Subfund did not consider principal adverse impacts on sustainability factors.

### What were the top investments of this financial product?

	Largest investments	Sector	% Assets	Country

Portfolio exposure as of 31/12/23. Does not represent an average for the reporting period and is not representative of the portfolio exposure at any other day of the financial year. Excludes FX hedges and cash balances.

### What was the proportion of sustainability-related investments?

As at 31/12/23, the proportion of investments aligned with the E/S characteristics promoted by the Subfund (category #1 above) comprised 92.3% of its net assets. Does not represent an average for the reporting period and is not representative of the portfolio exposure at any other day of the financial year.

### What was the asset allocation?

**#1** Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#20ther** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

### The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

### In which economic sectors were the investments made?

### Fund Sector Exposure

NACE Sector Code	NACE Name	% Assets
С	Manufacturing	25.84%
К	Financial and insurance activities	19.44%
Other	Other	14.65%
0	Public administration and defence; compulsory social security	14.06%

	Accommodation and food service activities	0.15%

### Asset allocation describes the share of investments in specific assets.

\* Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only.

\*\* Portfolio exposure as of 31/12/23. Does not represent an average for the reporting period and is not representative of the portfolio exposure on any other day of the financial year. The "Other" category includes cash, and derivative positions.

#### Fund Sector Exposure to Fossil Fuels Sub-sectors

G46.7.1

NACE Sector Code	NACE Name	% assets
B5.1.0	Mining of hard coal	0.00%
B5.2.0	Mining of lignite	0.00%
B6.1.0	Extraction of crude petroleum	1.04%
B6.2.0	Extraction of natural gas	0.00%
B9.1.0	Support activities for petroleum and natural gas extraction	0.54%
C19.2	Manufacture of refined petroleum products	2.73%
D35.2.1	Manufacture of gas	0.00%
D35.2.2	Trade of gas through mains	0.00%
G46.71	Wholesale of solid, liquid and gaseous fuels and related products	0.29%

include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

To comply with the EU Taxonomy, the criteria for **fossil gas** 

### **Enabling activities**

directly enable other activities to make a substantial contribution to an environmental objective.

### Transitional

activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance. \* Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only.

Wholesale of solid, liquid and gaseous fuels and related products

0.0%

\*\* Portfolio exposure as of 31/12/23. Does not represent an average for the reporting periodand is not representative of the portfolio exposure on any other day of the financial year. The "Other" category includes cash and/or derivative positions

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy (0%).

# Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

	Yes:		
		In fossil gas	In nuclear energy
×	No		

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover
   reflecting the
   share of revenue
   from green
   activities of
   investee
   companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

### What was the share of investments made in transitional and enabling activities?

The Subfund did not make investments in transitional and enabling economic activities (0%)

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy remained the same, 0%.

# What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective not aligned with the EU Taxonomy (0%).

## What was the share of socially sustainable investments?

The Subfund did not make any socially sustainable investment (0%).

(EU) 2020/852.

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.23, 7.7% of investments were classfied as "other". Investments classified as "other", are neither aligned with the environmental or social characterisitics nor qualified as sustainable investment, and will only consitute a small fraction of the Sub-fund's total portfolio. Such #2 Other investments include cash and cash equivalents or corporates that do not have an MSCI ESG rating. In the case of cash and cash equivelents, these are held to manage risk and achieve the Sub-fund's investment objectives. Environmental and social safeguards are not relevant to these assets.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental and social characteristics promoted by The Sub-fund, The Sub-fund incorporated ESG criteria into the selection and monitoring of its holdings. The Sub-fund screened for companies that are taking positive steps to meet and exceed ESG and sustainability goals, and excluded industries and companies that do not, including companies involved in the weapons, coal or tobacco industry. For this purpose, external ESG metrics were used to rate the relevant ESG risk of each security, as well as to decide the weightings or exclusions of the relevant securities.

The Sub-fund applied the following considerations to integrate ESG considerations into the investment process:

• The % of investments in companies that are involved in the controversial weapons (Any Tie), thermal coal (mining; <10% of revenues), gambling (operator; <10% of revenues) or tobacco (producer; <10% of revenues) industry

• Exclude companies that are in violation of the United Nations ("UN") Global Compact Violation and Weapons, the ten principles of the UN Global Compact ("UNGC") https://www.unglobalcompact.org/what-is-gc/mission/principles, the OECD Guidelines for Multinational Enterprises, or the International Labour Organisation's (the "ILO") standards

• The Sub-fund's weighted average ESG score compared to the MSCI World Total Return Index (M1WO)

The Sub-fund met all of these criteria, and finished the period with an MSCI ESG rating of AA.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

## How did this financial product perform compared to the reference benchmark?

The Subfund does not use a reference benchmark for the purpose of attaining the environmental and/or social characteristics.

How does the reference benchmark differ from a broad market index?

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

### What was the share of investments made in transitional and enabling activities?

The Subfund did not make investments in transitional and enabling economic activities (0%)

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy remained the same, 0%.

# What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective not aligned with the EU Taxonomy (0%).

## What was the share of socially sustainable investments?

The Subfund did not make any socially sustainable investment (0%).

(EU) 2020/852.

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.23, 4.3% of investments were classfied as "other". Investments classified as "other", are neither aligned with the environmental or social characterisitics nor qualified as sustainable investment, and will only consitute a small fraction of the Sub-fund's total portfolio. Such #2 Other investments include cash and cash equivalents or corporates that do not have an MSCI ESG rating. In the case of cash and cash equivelents, these are held to manage risk and achieve the Sub-fund's investment objectives. Environmental and social safeguards are not relevant to these assets.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental and social characteristics promoted by The Sub-fund, The Sub-fund incorporated ESG criteria into the selection and monitoring of its holdings. The Sub-fund screened for companies that are taking positive steps to meet and exceed ESG and sustainability goals, and excluded industries and companies that do not, including companies involved in the weapons, coal or tobacco industry. For this purpose, external ESG metrics were used to rate the relevant ESG risk of each security, as well as to decide the weightings or exclusions of the relevant securities.

The Sub-fund applied the following considerations to integrate ESG considerations into the investment process:

• The % of investments in companies that are involved in the controversial weapons (Any Tie), thermal coal (mining; <10% of revenues), gambling (operator; <10% of revenues) or tobacco (producer; <10% of revenues) industry

• Exclude companies that are in violation of the United Nations ("UN") Global Compact Violation and Weapons, the ten principles of the UN Global Compact ("UNGC") https://www.unglobalcompact.org/what-is-gc/mission/principles, the OECD Guidelines for Multinational Enterprises, or the International Labour Organisation's (the "ILO") standards

• The Sub-fund's weighted average ESG score compared to the MSCI World Total Return Index (M1WO)

The Sub-fund met all of these criteria, and finished the period with an MSCI ESG rating of A.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

## How did this financial product perform compared to the reference benchmark?

The Subfund does not use a reference benchmark for the purpose of attaining the environmental and/or social characteristics.

How does the reference benchmark differ from a broad market index?

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

- How did this financial product perform compared with the reference benchmark? N/A
- How did this financial product perform compared with the broad market index?`

### ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

#### Sustainable **Diversified Growth Fund** 5493000PANHFUUI7XX20 Environmental and/or social characteristics Did this financial product have a sustainable investment objective? Yes × No It made **sustainable** It promoted Environmental/Social (E/S) investments with an characteristics and while it did not have as its objective a environmental objective: \_\_\_% sustainable investment, it had a proportion of in economic activities that % of sustainable investments qualify as environmentally with an environmental objective in economic sustainable under the EU The EU Taxonomy is activities that qualify as environmentally Taxonomy a classification sustainable under the EU Taxonomy system laid down in in economic activities that do Regulation (EU) with an environmental objective in not qualify as environmentally 2020/852, economic activities that do not qualify as sustainable under the EU establishing a list of environmentally sustainable under the EU Taxonomy environmentally Taxonomy sustainable economic activities. with a social objective That Regulation does not include a It made sustainable investments It promoted E/S characteristics, but **did not** list of socially × sustainable make any sustainable investments with a social objective: % economic activities.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This Subfund integrated environmental, social and governance information (the ESG factors) into the investment decision process in order to select a portfolio with strong or improving characterisitcs in ESG factors such as climate change, natural capital, pollution & waste, environmental opportunities, human capital, product liability, stakeholder opposition, social opportunities, ownership & control, compensation, board composition, business ethics and

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Product name: Green Ash SICAV – Green Ash Legal entity identifier:

transparency. The investment process is ESG aware by incorporating sustainability considerations to enhance risk-adjusted returns.

### How did the sustainability indicators perform?

In accordance with the Subfund's sustainability indicators, as at 31/12/23 the Subfund:

1) Had 0% of investments in companies that are involved in the controversial weapons (any tie), 0% in thermal coal (mining; <10% of revenues), 0% in gambling (operator; <10% of revenues) and 0% in tobacco (producer; <10% of revenues).

2) Had 0% of investments in companies that are in violation of the United Nations ("UN") Global Compact Violation and Weapons, the ten principles of the UN Global Compact ("UNGC") https://www.unglobalcompact.org/what-is-gc/mission/principles, the OECD Guidelines for Multinational Enterprises, or the International Labour Organisation's (the "ILO") standards.

3) Finished 2023 with an ESG rating of AA, based on MSCI ESG ratings methodology, versus A for the MSCI World (M1W0)

### ...and compared to previous periods?

The portfolio's sustainability indicator performance was one notch lower than the previous year. This was due to a change in MSCI ESG rating calculation methodology, which no longer factors in positve/negative ratings momentum into ESG ratings at fund level.

# What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Subfund did not commit to make any sustainable investments.

# How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Subfund did not commit to make any sustainable investments.

— How were the indicators for adverse impacts on sustainability factors taken into account?

The Subfund did not commit to make any sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Subfund did not commit to make any sustainable investments.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

### Principal adverse

impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters. The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

# How did this financial product consider principal adverse impacts on sustainability factors?

The Subfund did not consider principal adverse impacts on sustainability factors.

### What were the top investments of this financial product?

	Largest investments	Sector	% Assets	Country
	WI TREAS. NT/BD 3.625%/23-310528	Public Administration And Defence;	5.89%	US

Portfolio exposure as of 31/12/23. Does not represent an average for the reporting period and is not representative of the portfolio exposure at any other day of the financial year. Excludes FX hedges and cash balances.

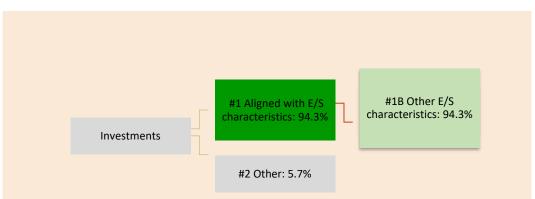

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31.12.2023

### What was the proportion of sustainability-related investments?

As at 31/12/23, the proportion of investments aligned with the E/S characteristics promoted by the Subfund (category #1 above) comprised 94.3% of its net assets. Does not represent an average for the reporting period and is not representative of the portfolio exposure at any other day of the financial year.

### What was the asset allocation?

**#1** Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#20ther** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

### The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

### In which economic sectors were the investments made?

Fund Sector Exposure

NACE Sector Code	NACE Name	% Assets	
С	Manufacturing	28.91%	
0	Public administration and defence; compulsory social security	21.67%	
J	Information and communication	14.52%	
К	Financial and insurance activities	14.49%	
G	Wholesale and retail trade; repair of motor vehicles and	6.33%	
	motorcycles		
Other	Other	5.73%	
В	Mining and quarrying	2.13%	
D	Electricity, gas, steam and air conditioning supply	2.10%	
Н	Transporting and storage	1.95%	
L	Real estate activities	1.72%	
F	Construction	0.46%	

\* Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only.

\*\* Portfolio exposure as of 31/12/23. Does not represent an average for the reporting period and is not representative of the portfolio exposure on any other day of the financial year. The "Other" category includes cash, and derivative positions.

Asset allocation describes the share of investments in specific assets.

#### Fund Sector Exposure to Fossil Fuels Sub-sectors

NACE Sector Code	NACE Name	% assets
B5.1.0	Mining of hard coal	0.00%
B5.2.0	Mining of lignite	0.00%
B6.1.0	Extraction of crude petroleum	0.00%
B6.2.0	Extraction of natural gas	0.00%
B9.1.0	Support activities for petroleum and natural gas extraction	0.00%
C19.2	Manufacture of refined petroleum products	0.72%
D35.2.1	Manufacture of gas	0.00%
D35.2.2	Trade of gas through mains	0.00%
G46.71	Wholesale of solid, liquid and gaseous fuels and related products	0.45%
G46.7.1	Wholesale of solid, liquid and gaseous fuels and related products	0.0%

\* Please note that the NACE sector allocation is not used in the Subfund's investment strategy. It is provided for disclosure purposes only.

\*\* Portfolio exposure as of 31/12/23. Does not represent an average for the reporting periodand is not representative of the portfolio exposure on any other day of the financial year. The "Other" category includes cash and/or derivative positions

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy (0%).

# Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

	Yes:			
		In fossil gas	In nuclear energy	
×	No			

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

## Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

### Transitional

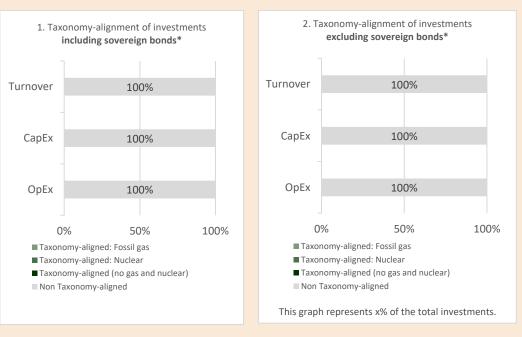

activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover
   reflecting the
   share of revenue
   from green
   activities of
   investee
   companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

### What was the share of investments made in transitional and enabling activities?

The Subfund did not make investments in transitional and enabling economic activities (0%)

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy remained the same, 0%.

# What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Subfund did not make sustainable investments with an environmental objective not aligned with the EU Taxonomy (0%).

## What was the share of socially sustainable investments?

The Subfund did not make any socially sustainable investment (0%).

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As of 31.12.23, 5.7% of investments were classfied as "other". Investments classified as "other", are neither aligned with the environmental or social characterisitics nor qualified as sustainable investment, and will only consitute a small fraction of the Sub-fund's total portfolio. Such #2 Other investments include cash and cash equivalents or corporates that do not have an MSCI ESG rating. In the case of cash and cash equivelents, these are held to manage risk and achieve the Sub-fund's investment objectives. Environmental and social safeguards are not relevant to these assets.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain the environmental and social characteristics promoted by The Sub-fund, The Sub-fund incorporated ESG criteria into the selection and monitoring of its holdings. The Sub-fund screened for companies that are taking positive steps to meet and exceed ESG and sustainability goals, and excluded industries and companies that do not, including companies involved in the weapons, coal or tobacco industry. For this purpose, external ESG metrics were used to rate the relevant ESG risk of each security, as well as to decide the weightings or exclusions of the relevant securities.

The Sub-fund applied the following considerations to integrate ESG considerations into the investment process:

• The % of investments in companies that are involved in the controversial weapons (Any Tie), thermal coal (mining; <10% of revenues), gambling (operator; <10% of revenues) or tobacco (producer; <10% of revenues) industry

• Exclude companies that are in violation of the United Nations ("UN") Global Compact Violation and Weapons, the ten principles of the UN Global Compact ("UNGC") https://www.unglobalcompact.org/what-is-gc/mission/principles, the OECD Guidelines for Multinational Enterprises, or the International Labour Organisation's (the "ILO") standards

• The Sub-fund's weighted average ESG score compared to the MSCI World Total Return Index (M1WO)

The Sub-fund met all of these criteria, and finished the period with an MSCI ESG rating of AA.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

## How did this financial product perform compared to the reference benchmark?

The Subfund does not use a reference benchmark for the purpose of attaining the environmental and/or social characteristics.

How does the reference benchmark differ from a broad market index?

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

- How did this financial product perform compared with the reference benchmark? N/A
- How did this financial product perform compared with the broad market index?`
