#### Goldman Sachs Funds II Investment Adviser's Report For the Year Ended 30 November 2023

#### **Dear Shareholders:**

Enclosed is the report for the year ended 30 November 2023.

#### A. Market Review<sup>1</sup>

Despite several headwinds, the global economy continued to expand during the reporting period. In its October 2023 World Economic Outlook Update, the International Monetary Fund (the "IMF") said, "The global economy continues to recover slowly from the blows of the pandemic, Russia's invasion of Ukraine, and the cost-of-living crisis. In retrospect, the resilience has been remarkable. Despite the disruption in energy and food markets caused by the war, and the unprecedented tightening of global monetary conditions to combat decades-high inflation, the global economy has slowed, but not stalled. Yet growth remains slow and uneven, with growing global divergences." The IMF forecasts 2023 gross domestic product (GDP) to grow 2.1% in the United States (the same as in 2022) and 0.7% in the eurozone (from 3.3% in 2022), 0.5% in the United Kingdom (from 4.1% in 2022), and 2.0% in Japan (from 1.0% in 2022).

Against this backdrop, global equities largely produced solid results. In the U.S., the market was supported by hopes for a "soft economic landing" and corporate profits were generally encouraging. This offset persistent inflation, aggressive Federal Reserve (Fed) interest rate hikes, and numerous geopolitical events. For the 12 months ended 30 November 2023, the S&P 500 Index returned 13.27%. Equities outside the U.S. were also impacted by high inflation, central bank interest rate hikes, and the impact from the war in Ukraine. All told, international developed equities, as measured by the MSCI EAFE Index (net), gained 12.98%, while emerging markets equities, as measured by the MSCI Emerging Markets Index (net), returned 4.21%.\*

The overall global fixed income market posted a small gain over the reporting period. Most developed and emerging market central banks aggressively raised interest rates higher to rein in inflation. That said, toward the end of the period the Fed and several other central banks indicated they may be done raising rates. In the U.S., both short-and long-term U.S. Treasury yields moved higher. Longer-term government yields in other developed countries also increased. For the 12 months ended 30 November 2023, the Bloomberg Global Aggregate Bond Index and the Bloomberg U.S. Aggregate Bond Index returned 2.05% and 1.18%, respectively. Riskier fixed income securities posted stronger results. The U.S. high-yield bond market, as measured by the Bloomberg U.S. Corporate High Yield—2% Issuer Cap Index, gained 8.69%, whereas the emerging market debt asset class, as measured by the JPMorgan EMBI Global Index, returned 5.79% during the 12 months ended 30 November 2023.\*

Goldman Sachs Asset Management International

#### December 2023

All index returns are shown with income re-invested and, in contrast to the Share Classes, without the deduction of any fees or expenses. Returns of the Share Classes are shown net of fees and expenses and after the reinvestment of dividends where applicable using month end NAVs. For Share Classes where performance is shown relative to the index, it is for comparative purposes only. Reference to these benchmarks does not imply that the Share Classes will achieve returns, volatility or other results similar to the benchmark.

#### **Audit report**

To the Shareholders of Goldman Sachs Funds II

#### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Goldman Sachs Funds II (the "Fund") and of each of its sub-funds as at 30 November 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the schedule of investments as at 30 November 2023;
- the statement of operations for the year then ended;
- the statement of assets and liabilities as at 30 November 2023;
- the statement of changes in shareholders' equity for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

#### **Basis for opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
  control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
  disclosures, and whether the financial statements represent the underlying transactions and events
  in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Other matter

In addition to our responsibility to audit and express an opinion on the financial statements in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we have been requested by the Board of Directors of the Fund to express an opinion on the financial statements in accordance with generally accepted auditing standards in the United States of America as issued by the AICPA, in order to meet the requirements of Rule 206(4)-2 of the US Investment Advisors Act of 1940. We have reported separately in this respect on Page 8.

PricewaterhouseCoopers, Société coopérative Represented by

John Parkhouse

#### **Report of Independent Auditors**

To the Shareholders of Goldman Sachs Funds II,

#### Opinion

We have audited the accompanying financial statements of Goldman Sachs Funds II and of each of its sub-funds (the "Fund"), which comprise the statement of assets and liabilities, the schedule of investments as of 30 November 2023 and the related statement of operations and statement of changes in shareholders' equity for the year then ended, including the related notes (collectively referred to as the "Financial Statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as of 30 November 2023, and the results of its operations and changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of the Board of Directors of the Fund for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern for at least, but not limited to, twelve months from the end of the reporting period, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

#### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit;
- identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Fund's internal control. Accordingly, no such opinion is expressed;
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by the Board of Directors of the Fund, as well as evaluate the overall presentation of the financial statements;
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable
  period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Other Information

The Board of Directors of the Fund is responsible for the other information included in the annual report. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

<sup>(</sup>a) Refer to Report of the Management Company II.

#### 1 Organisation

Goldman Sachs Funds II ("the Fund") was incorporated on 20 November 2007 under the laws of the Grand Duchy of Luxembourg as a "Société d'Investissement à Capital Variable" ("SICAV"), for an unlimited period of time. The Fund is registered in accordance with Part I of the Law of 17 December 2010, as amended and has appointed Goldman Sachs Asset Management B.V. ("GSAMBV") in place of Goldman Sachs Asset Management Fund Services Limited ("GSAMFSL") on 1 November 2023 to be its Management Company. GSAMBV is authorised and regulated by the Dutch Authority for the Financial Markets (AFM), and is a wholly owned subsidiary of The Goldman Sachs Group, Inc.

Refer to Note 6 for details of functions the Management Company has delegated.

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch, (the "Depositary") to act as the Depositary of the Fund's assets.

As at 30 November 2023, the Fund is comprised of eleven different portfolios ("the Portfolios").

As at 30 November 2023, the Fund offered shares in the Portfolios as detailed in Report of the Management Company I.

Please refer to Report of the Management Company II for Portfolios that were launched, merged, closed or changed name during the year.

#### 2 Investment Objective Policies

The primary investment objectives of the Portfolios are detailed in the Prospectus and in the relevant Supplements of the Prospectus.

| Fund Name                                       | Strategy Name                        |  |

#### 3 Significant Accounting Policies

#### (a) Basis of Preparation of Financial Statements

The financial statements of the individual Portfolios are presented in their base currency while the Combined Total of all the Portfolios is presented in United States Dollars. The Board of Directors considers that the Portfolios' base currency most accurately represents the economic effects of the underlying transactions, events and conditions of the Portfolios.

The financial statements have been prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds. The financial statements have been prepared on a going concern basis (except for the Portfolios where an intention to liquidate or to cease operations has been taken by the Board of Directors) as the Directors are of the view that the Fund can continue in operational existence for the foreseeable future.

The preparation of financial statements requires the Board of Directors to make estimates and assumptions that may affect the amounts reported in the financial statements and accompanying notes. Refer to the Statement of Assets and Liabilities and Note 4 where the Board of Directors was required to make certain estimates and assumptions to determine value. Actual results may differ from those estimates.

#### 3 Significant Accounting Policies (Continued)

#### (b) Investment Transactions, Related Investment Income and Operating Expenses

Investment transactions are recorded on a trade date basis plus one in accounting. Realised gains and losses are based on the Weighted Average Cost Method. Dividend income and dividend expense are recorded on the ex-dividend date and interest income and interest expense are accrued over the life of the investment. Interest income includes accretion of market discount, original issue discounts and amortisation of premiums and is recorded into income over the life of the underlying investment. Interest income and dividend income are recognised on a gross basis before withholding tax, if any.

Operating expenses are recognised on an accrual basis.

#### (c) Transaction Costs

Transaction costs are recognised in the Statement of Operations as part of net change in unrealised gain/(loss) on investment securities and net realised gain/(loss) on investment securities. Depositary based transaction costs are included in 'Depositary fees' in the Statement of Operations.

Please refer to Note 14 for details of the Portfolios that incurred separately identifiable transaction costs.

Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. For these investments, transaction costs are included in the purchase and sales price and are part of the gross investment performance of each Portfolio.

#### (d) Financial Investment in Securities and Valuation

#### i. Recognition and Derecognition

The Portfolios recognise financial assets and financial liabilities on the date they become a party to the contractual provisions of the investment. Purchases and sales of financial assets and financial liabilities are recognised using trade date plus one accounting. From trade date plus one, any gains and losses arising from changes in value of the financial assets or financial liabilities are recorded in the Statement of Operations.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Portfolio has transferred substantially all risks and rewards of ownership.

#### ii. Value Measurement Principles

The value of all securities and derivatives is determined according to the following policies:

#### (ii.1) Exchange Listed Assets and Liabilities

The value of exchange traded financial investments, including transferable securities admitted to an official exchange listing or dealt in on any other regulated market that operates regularly, which comprise Common Stocks, Bonds, Real Estate Investment Trusts, Warrants, Mutual Funds, Preferred Stocks, Options, Contracts for Difference and Futures Contracts, are valued based upon quoted market prices at the year end date without any deduction for estimated future transaction costs.

#### (ii.2) Debt Securities

Debt securities, comprising Bonds are valued at mid or bid depending on fund methodology, by third party pricing service providers without any deduction for estimated future transaction costs.

When a debt security has been identified as being in default, the interest accrual on the defaulted security may be stopped, and upon confirmation from relevant parties, the amount receivable may be written off.

#### (ii.3) Certificates of Deposit and Money Market Investments

Certificates of Deposit, Commercial Papers and Money Market Investments are valued at mid by third party service providers, or where such pricing service is unavailable, at amortised cost which approximates market value.

#### 3 Significant Accounting Policies (Continued)

#### (d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

#### (ii.4) Shares in Collective Investment Schemes

The value of investments in open-ended investment funds, comprising Mutual Funds, are valued based upon the official net asset values per share as at the last available date as supplied by the funds, in accordance with the valuation policy of the applicable fund as outlined in its prospectus.

#### (ii.5) Derivatives

A derivative is an instrument whose value is derived from an underlying instrument, index reference rate or a combination of these factors. Derivative instruments may be privately negotiated contracts which are often referred to as over the counter ("OTC") derivatives or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments or commodities at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount.

Derivative contracts are stated at market value and recognised as assets and liabilities in the Statement of Assets and Liabilities. Gains and losses resulting from the change in the market value are reflected in the Statement of Operations as a component of net change in unrealised gain/(loss). Realised gains or losses are recorded on termination or from periodic cash flow payments.

#### (ii.5) (a) Option Contracts

The Portfolios may enter into exchange traded and OTC option contracts with various counterparties. When the Portfolio purchases an option, an amount equal to market value which is based on the premium paid is recorded as an asset, the value of which is marked-to-market daily. When the Portfolio writes an option, an amount equal to market value which is based on the premium received by the Portfolio is recorded as a liability and is adjusted to the market value of the option written on each valuation date.

When options are closed, the difference between the premium and the amount paid or received, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is treated as realised gain or loss. The exercise of an option written by the Portfolio could result in the Portfolio buying or selling a financial instrument at a price different from the current market value.

The fair value of an OTC contract is determined by using counterparty supplied valuations, an independent pricing service or valuation models which use market data inputs supplied by a third party pricing service, and is typically valued at mid. Exchange traded options are valued based on the exchange settlement/last sale prices, or, if the last settlement price is not available for any reason, at the midpoint of the bid and ask prices (or, in the absence of two-way trading, at the last bid price for long positions and the last ask price for short positions), or independent market quotes provided by a pricing service or counterparty.

#### (ii.5) (b) Futures Contracts

Futures contracts are contracts to buy or sell a standardised quantity of a specified commodity, security or index and are valued based on exchange settlement/last sale prices, last bid or ask prices on the exchange, or independent market quotes. Initial margin deposits, in either cash or securities, are required to trade in the futures market. Unrealised gains or losses on futures contracts are recognised to reflect the market value of the contracts and are included as a component of the unrealised gains or losses on the Portfolio's Statement of Operations. Variation margin is received or paid, depending on whether unrealised gains or losses are incurred. When the contract is terminated, the Portfolio will recognise a realised gain or loss equal to the difference between the value of the contract at the time it was entered into and the time it is closed.

#### (ii.5) (c) Swap Contracts

Swaps, comprising Interest Rate Swaps and Total Return Swaps, can be linked to any number of underlying investments and indices, and swap terms can vary greatly. Cash flows are exchanged based on the underlying. Upfront payments, which represent a risk premium, are amortised or accreted over the contract term. Swap

#### 3 Significant Accounting Policies (Continued)

#### (d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

(ii.5) Derivatives (Continued)

(ii.5) (c) Swap Contracts (Continued)

agreements are carried at market value, typically valued at mid, and the value of the swap agreement is based on a counterparty provided price, third party pricing service or valuation model. The model considers various inputs including the market value of the underlying, the risks associated with the underlying and the specific terms of the contract. In connection with these agreements, securities or cash may be identified as collateral or margin in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency. This collateral or margin is primarily denominated in base currency, and is paid from the custody account to the broker.

For the year ended 30 November 2023, collateral related to total return swaps was pledged in the form of cash and non-cash. Please refer to Note 13 and to Report of the Management Company V for more information.

Total return swaps and more specifically OTC derivative transactions are entered into by the Portfolio under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Portfolio and a counterparty that governs OTC derivative transactions (including total return swaps) entered into by the parties.

All returns from OTC derivative transactions will accrue to the Portfolio and are not subject to any returns sharing agreement with the Portfolio's manager or any other third parties.

#### (ii.5) (d) Contracts for Difference

Contracts for difference are contracts entered into between a broker and the Portfolio under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place. In contracts for difference the unrealised appreciation/(depreciation) is disclosed in the Statement of Assets and Liabilities under "unrealised gain on contracts for difference" and "unrealised loss on contracts for difference". Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations respectively under "Net realised gain/(loss) on contracts for difference" and "Net change in unrealised gain/(loss) on contracts for difference. The value of contracts for difference will be based on the value of the underlying assets and vary similarly to the value of such underlying assets. Contracts for difference will be valued at market value.

#### (ii.5) (e) Forward Foreign Currency Contracts

In a forward foreign currency contract, the Portfolio agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. Purchases and sales of forward foreign currency contracts having the same notional value, settlement date and counterparty and right to settle net are generally offset (which result in a net foreign currency position of zero with the counterparty) and any realised gains or losses are recognised on trade date plus one.

Forward foreign currency contracts are valued at mid by third party pricing service providers.

#### (ii.6) All Securities and Derivatives

If a quoted market price is not available from a third party pricing service or a dealer, or a quotation is believed to be materially inaccurate, the market value of the investment is determined by using valuation techniques. Valuation techniques include the use of recent market transactions, reference to the current market value of another investment that is substantially the same, discounted cash flow analyses or any other techniques that provides a reliable estimate of prices obtained in actual market transactions. Such securities and derivatives shall be valued at their fair value as determined by the Valuer. Please refer to Note 4 for further details.

#### 3 Significant Accounting Policies (Continued)

#### (d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

(ii.6) All Securities and Derivatives (Continued)

The investments have been valued in accordance with Luxembourg generally accepted accounting principles that may require the use of certain estimates and assumptions to determine value. Although these estimates and assumptions are based on the best available information, actual results could be materially different from these estimates.

Refer to Note 4 for securities where the Valuer was used to determine fair value.

#### (e) Cash

Cash is valued at cost, which approximates market value.

#### (f) Due from/to Brokers

Due from brokers consists primarily of cash receivable for collateral from the Portfolios' clearing brokers and various counterparties. Due to brokers consists primarily of cash payable for collateral to the Portfolios' clearing brokers and various counterparties.

Due from/to broker balances are valued at cost, which approximates market value. Refer to Note 13 for further details.

#### (g) Foreign Currency Translation

The books and records of all Portfolios are maintained in their base currency. Please refer to Report of the Management Company I for the base currency of each Portfolio. Transactions in foreign currencies are translated at the foreign currency exchange rate in effect at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into the base currency at the foreign currency closing exchange rate in effect at the year end date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of assets and liabilities are recognised in the Statement of Operations. Foreign currency exchange gains or losses relating to investments, derivative financial investments, and all other foreign currency exchange gains or losses relating to monetary items, including cash and cash equivalents, are reflected in the net realised gain/(loss) or net change in unrealised gain/(loss) in the Statement of Operations.

#### (h) Expenses

Expenses incurred by the Fund that do not specifically relate to an individual Portfolio or Share Class of a Portfolio are allocated to the Portfolios based on an allocation basis that depends upon the nature of the charges. Expenses directly attributable to a Portfolio or Share Class are generally charged to that Portfolio or Share Class.

#### (i) Income Equalisation Arrangements

Income equalisation arrangements may be applied in some or all of the Portfolios of the Fund. Where they are applied, these arrangements are intended to ensure that the income per share which is distributed or deemed distributed in respect of a distribution period is not affected by changes in the number of shares in issue during that period, and the amount of the first distribution received by a Shareholder in an impacted Portfolio following the purchase of shares in that Portfolio will represent partly participation in income received by the Portfolio and partly a return of capital (the "equalisation amount"). The equalisation amounts are included within the proceeds from shares issued and the payment for shares redeemed in the Statement of Changes in Shareholders' Equity.

#### (j) Swing Pricing

On any Business Day the Management Company in consultation with its appointed delegate, Goldman Sachs Asset Management International ("GSAMI") as Investment Adviser, in conformity with guidelines established by the Board of Directors, may determine to apply swing pricing (to include such reasonable factors as they see fit) to the net asset value per share. This method of net asset value calculation is intended to pass the estimated

#### 3 Significant Accounting Policies (Continued)

#### (j) Swing Pricing (Continued)

costs of underlying investment activity of the Portfolio to the active Shareholders by adjusting the net asset value of the relevant share and thus to protect the Portfolio's long-term Shareholders from costs associated with ongoing redemption and subscription activity. This is processed as a capital adjustment.

Swing pricing may take account of trading spreads on the Portfolio's investments, the value of any duties and charges incurred as a result of trading and may include an estimate of market impact. Where GSAMI, based on the prevailing market conditions and the level of subscriptions or redemptions requested by Shareholders or potential Shareholders in relation to the size of the relevant Portfolio, have determined for a particular Portfolio to apply swing pricing, the Portfolio's net asset value may be valued either on a bid or offer basis.

Because the determination of whether to value the Portfolio's net asset value on a bid or offer basis is based on the net transaction activity of the relevant day, Shareholders transacting in the opposite direction of the Portfolio's net transaction activity may benefit at the expense of the other Shareholders in the Portfolio. In addition, the Portfolio's net asset value and short-term performance may experience greater volatility as a result of this swing pricing.

Investors should be aware that, the factor used to apply swing pricing ("swing factor") will under normal conditions not exceed 2% of the net asset value per share of the relevant Share Class of the Portfolio, unless otherwise stated in the relevant Supplement. Notwithstanding the above, where exceptional circumstances (including, but not limited to, widening bid offer spreads often as a result of high market volatility and/or illiquidity, exceptional market conditions market disruptions) the Management Company, in consultation with the Board of Directors, may decide, in the best interest of Shareholders and in respect of any particular Portfolio and on any Business Day, to apply a swing factor which is above 2%. Shareholders will be informed on such decision via a notice and/or a publication posted on www.gsam.com. The swing factor applied to individual Portfolios will be reviewed by the Investment Adviser on a periodic basis in order to verify their appropriateness in light of prevailing market conditions.

The following Portfolios are able to apply swing pricing:

| Global Multi-Manager Alternatives Portfolio     | Multi-Manager US Small Cap Equity Portfolio |
|---|---|
| Multi-Manager Emerging Markets Equity Portfolio | Balanced Allocation Portfolio               |
| Multi-Manager Europe Equity Portfolio           | Strategic Factor Allocation Portfolio       |
| Multi-Manager Global Equity Portfolio           | Tactical Tilt Overlay Portfolio             |
| Multi-Manager US Equity Portfolio               | Strategic Volatility Premium Portfolio      |

No reversal of the swing net asset calculation method was presented in the Statement of Changes in Shareholders' Equity since no swing net asset value calculation was applied to any of the Portfolios as at 30 November 2022.

Refer to the Statement of Assets and Liabilities and the Statement of Changes in Shareholders' Equity for the Portfolios that applied swing pricing as at 30 November 2023.

#### 4 Valuation Determined by the Valuer

The Valuer is appointed by the Management Company. The Valuer also has direct responsibilities to the Board of Directors for certain valuation functions, which are ultimately reflected in the financial statements. The Valuer during the year ended 30 November 2023 was Goldman Sachs & Co. LLC and the valuation function was performed by Goldman Sachs Controllers Division ("Controllers").

The following table sets forth the assets where the Valuer was used to determine the fair value as at 30 November 2023:

| As at 30 November 2023  |     |   |   |       |  |  |
|---|-----|---|---|-------|--|--|
| Portfolios Currency Number of Assets valued Value % of Shareholders Equit |     |   |   |       |  |  |
| Global Multi-Manager Alternatives Portfolio                               | USD | 3 | 0 | 0.00% |  |  |

#### 4 Valuation Determined by the Valuer (Continued)

| As at 30 November 2023                          |          |                            |           |                              |  |  |  |
|---|----------|----------------------------|-----------|------------------------------|--|--|--|
| Portfolios                                      | Currency | Number of<br>Assets valued | Value     | % of Shareholders'<br>Equity |  |  |  |
| Multi-Manager Emerging Markets Equity Portfolio | USD      | 10                         | 3,152,832 | 0.77%                        |  |  |  |
| Multi-Manager Global Equity Portfolio           | USD      | 3                          | 6,071     | 0.00%                        |  |  |  |
| Multi-Manager US Small Cap Equity Portfolio     | USD      | 1                          | 2,373     | 0.00%                        |  |  |  |

Securities traded on certain Asia Pacific/Middle Eastern exchanges may utilise international equity adjusted prices provided by an independent third party pricing service in order to more accurately reflect the value of securities traded on markets which are closed at the valuation point.

The independent valuation service takes into account multiple factors including, but not limited to, movements in the securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of the foreign securities exchange. These investments are not included in the above table.

#### 5 Taxation

#### Taxation - Luxembourg

The Fund is not liable for any Luxembourg tax on profits or income. However, the Fund is liable in Luxembourg to an annual subscription tax (taxe d'abonnement) of 0.05% per annum. The taxable basis of the subscription tax is the aggregate net assets of the Fund as valued on the last day of each quarter. This rate is however 0.01% per annum for each of the following:

- undertakings whose exclusive object is the collective investment in Money Market Instruments and the placing of deposits with credit institutions;
- undertakings whose exclusive object is the collective investment in deposits with credit institutions; and
- individual compartments of undertakings for collective investment ("UCI") with multiple compartments
  referred to in the law dated 17 December 2010, as amended, as well as for individual classes of securities
  issued within a UCI or within a compartment of a UCI with multiple compartments, provided that the securities
  of such compartments or classes are reserved to one or more institutional investors.

#### Taxation - Belgium

The Fund may incur a liability to subscription tax at the rate of 0.0925% in respect of subscriptions made through intermediaries situated in Belgium to the extent that net shares are outstanding as of 31 December of the previous year.

#### Taxation - General

Each Portfolio may be subject to taxation on capital gains, interest and dividends in certain jurisdictions in which each Portfolio invests. It is the policy of each Portfolio to accrue for any such taxes on dividends and interest when the dividend is declared or interest is earned. At each valuation date, taxation on realised and unrealised appreciation of securities may be accrued for at statutory rates.

Prospective investors should consult their own taxation advisers regarding the tax implications of investing in the Fund in relation to their own individual circumstances as they may differ from the general statements that appear above.

#### 6 Significant Agreements and Related Parties

#### **Management Company**

As outlined in Note 1, the Fund appointed GSAMBV, a wholly-owned subsidiary of The Goldman Sachs Group, Inc., as its Management Company.

#### 6 Significant Agreements and Related Parties (Continued)

#### **Management Company (Continued)**

The Portfolios pay the Management Company an annual fee which shall be accrued daily and generally paid monthly in arrears.

#### **Investment Adviser and Investment Sub-Advisers**

The Management Company has appointed GSAMI (the "Investment Adviser"), a related party to the Fund, as its delegate to provide portfolio management services.

GSAMI has entered into sub-delegation agreements with each of the following affiliated Investment Sub-Advisers:

- · Goldman Sachs Asset Management, L.P.
- Goldman Sachs Asset Management (Hong Kong) Ltd.
- Goldman Sachs Asset Management (Singapore) Pte. Ltd.
- Goldman Sachs Asset Management Co., Ltd.
- · Goldman Sachs Hedge Fund Strategies, LLC
- · Goldman Sachs International
- GS Investment Strategies, LLC

GSAMI has entered into sub-advisory agreements with each of the following external Investment Sub-Advisers ("the External Managers"):

| Portfolios                                      | External Managers*  |

<sup>\*</sup> None of these investment advisers are an affiliate of GSAMI. As compensation for the services rendered under the Investment Advisory Agreement, GSAMI receives a fee, payable monthly, at an annual rate. A portion of the Investment Adviser's fees may be remitted to the Investment Sub-Adviser.

#### 6 Significant Agreements and Related Parties (Continued)

#### **Expense Cap**

GSAMI has voluntarily agreed to limit total expenses in respect of certain Portfolios and certain Share Classes. Therefore, to the extent that total ordinary expenses would exceed the expense cap, GSAMI has voluntarily agreed to bear any actual operating expenses that exceed any expense cap, either directly by waiving a portion of its fees or by reimbursement to the account of the relevant Share Class. The Investment Adviser may, in its sole discretion, designate which expenses of the Fund will be subject to any such expense cap imposed by the Investment Adviser. The expense cap does not include the GSAMI fee portion paid to external Investment Sub-Advisers. There is no guarantee that the existence or level of these expense caps will continue in the future and no obligation on the part of GSAMI to agree to limit total expenses in this way. In addition, the Portfolios are not obliged to reimburse GSAMI for prior financial year expense reimbursement, if any.

Details of advisory fee rates and the expense caps as at 30 November 2023 are detailed in Report of the Management Company I.

#### **Directors' Remuneration**

Ms. Grainne Alexander, Mr. Frank Ennis and Ms. Sophie Mosnier are independent Directors and have no executive function with the Investment Adviser or its affiliated companies. The Fund pays each independent Director an annual fee for their services as a Director of the Fund. For the year ended 30 November 2023, the total Directors' fees amounted to USD 79,009.

Mr. Jonathan Beinner, Mr. Dirk Buggenhout, Mr. Jan Jaap Hazenberg, Ms. Hilary Lopez, Mr. Glenn Thorpe and Ms. Katherine Uniacke are affiliated with the Investment Adviser and receive no compensation from the Fund.

Mr. Dirk Buggenhout was appointed as a member of the Board of Directors as of 27 April 2023.

Mr. Frank Ennis resigned from the Board of Directors as of 12 April 2023.

Mr. Jan Jaap Hazenberg was appointed as a member of the Board of Directors as of 27 April 2023.

Ms. Hilary Lopez was appointed as a member of the Board of Directors as of 14 March 2023.

Ms. Sophie Mosnier was appointed as a member of the Board of Directors as of 27 April 2023.

Mr. Glenn Thorpe resigned from the Board of Directors as of 13 December 2022.

Ms. Katherine Uniacke resigned from the Board of Directors as of 27 April 2023.

#### Performance Fees

GSAMI is entitled to a performance fee on certain Share Classes of the Portfolios. For the Global Multi-Manager Alternatives Portfolio the performance fee accrues daily and is paid annually out of the assets attributable to each applicable Share Class. The performance fee is equal to 10% of the amount by which the Class NAV per share exceeds such Class' Benchmark Value per share, as defined within the Prospectus.

There were no performance fees charged to any Share Classes of the mentioned Portfolio for the year ended 30 November 2023.

#### Fees earned on other Goldman Sachs Funds

To the extent permitted by applicable law and the terms of the Prospectus, any Portfolio may invest all or some of its short term cash investments in any money market fund advised or managed by Goldman Sachs and may invest in other investment funds advised or managed by Goldman Sachs (together "Goldman Sachs Funds"). Subject to applicable law and the terms of the Prospectus, the Fund may be required to bear its proportionate share of any fees (including investment advisory and management fees) applicable to its investment in such investment funds.

For further details on investments into other Goldman Sachs Funds please refer to the Schedule of Investments.

#### 6 Significant Agreements and Related Parties (Continued)

#### Fees earned on other Goldman Sachs Funds (Continued)

All Portfolios invested in the Goldman Sachs Funds were invested in non-investment advisory fee bearing share classes. As a result, for the year ended 30 November 2023, there were no investment advisory fees earned on each Portfolio's investment in the Goldman Sachs Funds.

#### Commissions

In the normal course of its operations, each Portfolio may enter into transactions on securities or futures contracts with the Goldman Sachs Funds or other Goldman Sachs affiliates (together "Goldman Sachs Affiliates"). For the year ended 30 November 2023, the following transactions were entered into with Goldman Sachs Affiliates with total brokerage commissions paid to Goldman Sachs Affiliates being split between commissions related to security transactions and futures contracts:

|   |          |                  |  | Brokerage Co    |  |                          |

Represents the cost of securities (excluding futures transactions and investments in the Goldman Sachs Liquid Reserves Funds) for transactions entered into with Goldman Sachs Affiliates.

For all the remaining Portfolios there were no transactions with Goldman Sachs Affiliates, for the year ended 30 November 2023.

All such transactions with Goldman Sachs Affiliates were entered into in the ordinary course of business and on normal commercial terms.

#### Securities Lending

The securities lending agent is Goldman Sachs Agency Lending ("GSAL"), an affiliate of Goldman Sachs. Approved borrowers of GSAL may include Goldman Sachs International ("GSI"), an affiliate of the Investment Adviser, as well as other third parties. The Portfolios may lend portions of investments to third parties. In return, the Portfolios receive a fee that is negotiated for each transaction. The Portfolios receive G-10 (excluding Italy, Japan and the United States) government securities as collateral against the securities loaned. G-10 is made of eleven industrial countries (Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden, Switzerland, the United Kingdom and the United States) which consult and co-operate on economic, monetary and financial matters. This collateral is maintained over the life of the loan for an amount not less than 105% of the value of lent securities, with any subsequent margin posted in the form of the aforementioned government securities or cash. In general, loans may be effected through the intermediary of prime financial institutions that specialise in such activities and in the way specified by them.

Collateral received by the Portfolios in the form of G-10 (excluding Italy, Japan and the United States) government securities or cash, denominated in their respective currencies, is held by the appointed tri-party collateral manager in segregated accounts.

<sup>\*\*</sup> All portfolio futures transactions disclosed in this table were affected through Goldman Sachs.

<sup>\*\*\*</sup> The amount used is calculated using the average exchange rate disclosed in Note 10.

<sup>\*</sup> Lendable assets are defined as the aggregate market value of equities and bonds held in the portfolio.

#### Administrator, Domiciliary Agent and Listing Agent

The Management Company has appointed State Street Bank International GmbH, Luxembourg Branch as the central administration agent of the Fund. The Fund has appointed State Street Bank International GmbH, Luxembourg Branch as its domiciliary and corporate agent, paying agent and as its listing agent in Luxembourg.

For its services as Administrator, Domiciliary Agent and Listing Agent, State Street Bank International GmbH, Luxembourg Branch receives a fee payable monthly in arrears and calculated on the Monthly Average Net Assets of each Portfolio.

For its Financial Reporting Services, State Street Bank International GmbH, Luxembourg Branch receives a fixed fee per annum per Portfolio payable monthly in arrears.

#### Depositary

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch as Depositary. For its services as Depositary, State Street Bank International GmbH, Luxembourg Branch charges a fee which is a combination of a basis point charge on assets and transaction-based charge which is dependent on the country of transaction.

#### Distributor

The Fund has appointed the Management Company as principal distributor and the Management Company appoints sub-distributors and oversees them. GSAMBV may receive a portion of the sales charge imposed on the sale of Portfolio shares.

For the year ended 30 November 2023, there were no retained sales charges for the Portfolios and there were no retained sales charges received by GSAMFSL and GSAMBV.

Please refer to the Prospectus for further details about distribution fees.

Out of its fees, the Distributor is responsible for remunerating third party sub-distributors.

#### **Transfer Agent**

The Management Company has appointed CACEIS Investor Services Bank S.A. (the "Transfer Agent") to perform registrar and transfer agency functions in respect of the Fund pursuant to the Registrar and Transfer Agent Agreement between the Fund, the Management Company and the Transfer Agent.

<sup>\*\*</sup> The amount used is calculated using the average exchange rate disclosed in Note 10.

#### 6 Significant Agreements and Related Parties (Continued)

#### **Transfer Agent (Continued)**

The day-to-day services provided to the Fund by the Transfer Agent include receiving and processing subscription and redemption orders, allotting and issuing shares and maintaining the shareholder register for the shares. The Transfer Agent is paid a fee, quarterly in arrears, out of the net assets of the Portfolios. The Transfer Agent's fee consists of both a fixed and variable fee.

The fixed portion consists of an annual charge for maintenance and shareholder account charges. Variable costs are determined by the level of transactions in each Portfolio.

#### Valuer

The Management Company has appointed Goldman Sachs & Co. LLC to act as the Valuer and the valuation function was performed by Controllers during the year ended 30 November 2023. Please also refer to Note 4.

#### 7 Share Capital

The following summarises the activity in the Portfolio's shares for the year ended 30 November 2023:

|   | Currency | Balance at<br>30-Nov-2022 | Subscriptions | Redemptions | Balance at<br>30-Nov-2023 |
|---|----------|---------------------------|---------------|-------------|---------------------------|
| Global Multi-Manager Alternatives Portfolio                       |          |                           |               |             |                           |

<sup>\*</sup> Refer to Report of the Management Company II.

#### 8 Distributions

The Fund intends that substantially all the net investment income, if any, of each Portfolio will be declared as a dividend and paid at least annually to the Shareholders of the Distribution Share Classes of the Portfolios. Net capital and currency gains realised on each Portfolio's investments and/or capital attributable to certain Share Classes may also be distributed to Shareholders of certain Distribution Share Classes of the Portfolios.

Generally no distributions will be paid in respect of the Accumulation Share Classes.

Please refer to the Prospectus for further details about distribution policies.

#### 9 Financial Investments and Associated Risks

The Fund's investing activities expose it to various types of risks that are associated with the financial investments and markets in which it and its underlying Portfolios invest (the "Investment Risks"). The Board of Directors has appointed the Management Company to be responsible for, among other things, investment management and risk management. The Management Company has delegated certain investment management functions to the Investment Adviser.

The main types of financial risks which the Fund is exposed to are market risk, liquidity risk and credit risk. The Prospectus provides details of these and other types of risk some of which are additional to that information provided in these financial statements.

The risk management policies employed in relation to the Fund are outlined below:

#### (a) Market Risk

The potential for changes in the market value of the Fund's underlying Portfolios' investments is referred to as market risk. Commonly used categories of market risk include currency risk, interest rate risk and other price risk.

#### 9 Financial Investments and Associated Risks (Continued)

#### (a) Market Risk (Continued)

- (i) <u>Currency risks</u> may result from exposures to changes in spot prices, forward prices and volatilities of currency rates.
- (ii) Interest rate risks may result from exposures to changes in the level, slope and curvature of the various yield curves, the volatility of interest rates, mortgage prepayment speeds and credit spreads.
- (iii) Other price risks are the risk that the value of an investment will fluctuate as a result of changes in market prices other than those arising from currency risk or interest rate risk and may result from exposures to changes in the prices and volatilities of individual equities, equity baskets, equity indices, and commodities.

The Fund's market risk strategy is driven by the Fund's underlying Portfolios' investment risk and return objectives.

Market risk is managed through the application of risk budgeting principles. The Investment Adviser determines an appropriate risk target, commonly referred to as Tracking Error, employing a risk budgeting framework.

#### (i) Currency Risk

The Fund may invest in financial investments and enter into transactions denominated in currencies other than its Portfolios' base currency. Consequently, the Fund may be exposed to risk that the exchange rate of its base currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than the base currency.

When an investor invests into a Share Class which is in a different currency to the base currency of the Portfolio in which it invests, the currency risk of the investor will be different to the currency risk of the Portfolio.

#### (ii) Interest Rate Risk

The Fund may invest in fixed income securities and interest rate swaps contracts. Any change to relevant interest rates for particular securities may result in the Investment Adviser being unable to secure similar returns upon the expiry of contracts or the sale of securities. In addition, changes to prevailing interest rates or changes in expectations of future rates may result in an increase or decrease in the value of the securities held. In general, if interest rates rise, the value of fixed income securities will decline. A decline in interest rates will in general, have the opposite effect. All fixed income securities and floating rate securities, together with their interest rate and maturity date are disclosed in the Schedule of Investments. The Fund may invest in instruments in desired currencies at fixed, floating and zero rates of interest.

#### (iii) Other Price Risk

Other price risk is the risk that the value of a financial investment will fluctuate as a result of changes in market prices, other than those arising from currency risk or interest rate risk whether caused by factors specific to an individual investment, its issuer or any factor affecting financial investments traded in the market.

The Fund's financial investments are carried at market value with market value changes recognised in the Statement of Operations, all changes in market conditions will directly affect Shareholders' Equity.

#### (b) Liquidity Risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Among other things liquidity could be impaired by an inability to access secured and/or unsecured sources of financing, an inability to sell assets or unforeseen outflows of cash or collateral or violations of counterparty or prime broker terms or covenants. This situation may arise due to circumstances outside of the Fund's control, such as a general market disruption or an operational problem affecting the Fund or third parties. Also, the ability to sell assets may be impaired if other market participants are seeking to sell similar assets at the same time.

#### 9 Financial Investments and Associated Risks (Continued)

#### (b) Liquidity Risk (Continued)

The redemption of Shares of a Portfolio may be temporarily suspended, or deferred, by the Board of Directors or the Management Company on behalf of the Fund upon certain circumstances, and where it is deemed in the best interests of Shareholders.

As of 30 November 2023, the Fund participated in a USD 300,000,000 committed, unsecured revolving line of credit facility (the "facility") together with other sub-funds of Goldman Sachs Funds SICAV and Goldman Sachs Lux Investment Funds. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on a reference rate related to the drawn currency (e.g. Federal Funds Rate). The facility also requires a fee to be paid by the Fund based on the amount of the commitment that has not been utilised. For the year ended 30 November 2023 the Fund did not have any borrowings under the facility.

#### (c) Credit Risk

Credit and counterparty risk is the risk that one party to a financial investment will cause a financial loss for the other party by failing to discharge an obligation.

Procedures have been adopted to reduce credit risk related to the Fund's dealings with counterparties. Before transacting with any counterparty, the Investment Adviser or its affiliates evaluate both credit-worthiness and reputation by conducting a credit analysis of the party, their business and reputation. The credit risk of approved counterparties is then monitored on an ongoing basis, including periodic reviews of financial statements and interim financial reports as needed.

#### (d) Additional Risks

#### (i) Sustainability Risk

Sustainability risk is defined in Article 3 of Regulation (EU) 2019/2088 (the "Sustainable Finance Disclosure Regulation") as an environmental, social or governance event or condition, that if it occurs, could cause an actual or a potential material negative impact on the value of the investment.

Additional details of risks not disclosed in these Financial Statements can be found in the Prospectus.

#### 10 Exchange Rates

The following exchange rate (against USD) was used to calculate the Combined Total, in the Statement of Assets and Liabilities, for the year ended 30 November 2023:

| Currency     | 30-Nov-2023  |
|--------------|--------------|
| 1 Euro (EUR) | 1.090900 USD |

The following average exchange rate (against USD) was used to calculate the Combined Total, in the Statement of Operations and in the Statement of Changes in Shareholders' Equity (except for Shareholders' Equity at the start and end of the year) for the year ended 30 November 2023:

| Currency     |              |
|--------------|--------------|
| 1 Euro (EUR) | 1.078647 USD |

The following exchange rates were used to convert amounts from local share class currencies to base Portfolios' currencies, for the year ended 30 November 2023:

| Share Class Currency  | Base Currency              |
|-----------------------|----------------------------|
|                       | United States Dollar (USD) |
| 1 Euro (EUR)          | 1.090900                   |
| 1 Swedish Krona (SEK) | 0.095246                   |

| Share Class Currency         | Base Currency              |
|------------------------------|----------------------------|
| Share Class Currency         | United States Dollar (USD) |
| 1 Swiss Franc (CHF)          | 1.142270                   |
| 1 United Kingdom Pound (GBP) | 1.262650                   |

#### 11 Commission Recapture

All Portfolios may direct trades, subject to obtaining best price and execution, to various brokers who have agreed to rebate a portion of the commissions generated. Such rebates are made directly to the applicable Portfolio as cash payments and are included in net realised gain and loss on investments in the Statement of Operations.

| Portfolios                                  | Commissions paid on securities in the program (USD) | Commissions<br>reimbursed to<br>the portfolio<br>(USD) | Percentage<br>reimbursed<br>in the program |
|---|---|--|--|
| Multi-Manager US Equity Portfolio           | 61,652  | 37,590   | 60.97%                                     |

#### 14 Transaction Costs

Transaction costs have been defined as broker commission fees, commission on futures contracts, market fees and taxes relating to purchase or sale of equity and investments in other funds. Depositary based transaction costs are included in 'Depositary fees' in the Statement of Operations.

Details of broker commissions with Goldman Sachs Affiliates can be found under Note 6 Significant Agreements and Related Parties – Commissions.

For the year ended 30 November 2023, the following Portfolios incurred separately identifiable transaction costs:

| Portfolios                                      | Currency | Transaction<br>Costs* | % of average<br>Shareholders'<br>Equity |
|---|----------|-----------------------|---|
| Global Multi-Manager Alternatives Portfolio     | USD      | 400,170               | 0.15%                                   |
| Multi-Manager Emerging Markets Equity Portfolio | USD      | 885,135               | 0.21%                                   |
| Multi-Manager Europe Equity Portfolio           | EUR      | 1,387,680             | 0.29%                                   |
| Multi-Manager Global Equity Portfolio           | USD      | 670,244               | 0.07%                                   |
| Multi-Manager US Equity Portfolio               | USD      | 186,292               | 0.02%                                   |
| Multi-Manager US Small Cap Equity Portfolio     | USD      | 453,656               | 0.09%                                   |
| Balanced Allocation Portfolio                   | USD      | 4,502                 | 0.00%                                   |
| Tactical Tilt Overlay Portfolio                 | USD      | 63,765                | 0.00%                                   |
| Total (in USD)**                                |          | 4,160,581             |   |

<sup>\*</sup> Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. Portfolios that invest solely in those investments are not disclosed in the table above.

Note: benchmark returns, with the exception of taxes at times, do not incorporate transaction costs.

#### 15 Commissions for Research and/or Execution

Certain Portfolios pay commission for execution only and/or execution and investment research. The commissions for execution are recognised in the settlement amount. The Fund did not otherwise enter into any third party commission arrangements for the year ended 30 November 2023.

#### 16 Prospectus

As at 30 November 2023, the latest Prospectus of the Fund was issued in November 2023.

#### 17 Currency Adjustment

In the Statement of Changes in Shareholders' Equity, the opening value of the Fund has been restated at the exchange rates ruling at 30 November 2022, and the combined figures have been calculated using the average exchange rates throughout the year. The resulting gain of USD 51,408,688 represents the movement in exchange rates between 1 December 2022 and 30 November 2023. This is a notional gain, which has no impact on the Net Asset Value of the individual Portfolios.

<sup>\*\*</sup> The amount used is calculated using the average exchange rate disclosed in Note 10.

#### Goldman Sachs Funds II Notes to the Financial Statements For the Year Ended 30 November 2023

#### 18 Cross Liabilities

In accordance with Luxembourg law, each Portfolio is "ring-fenced" and considered to constitute a single pool of assets and liabilities, so that the rights of Shareholders and creditors in relation to each Portfolio should be limited to the assets of that Portfolio.

#### 19 Contingent Liabilities

There were no contingent liabilities as at 30 November 2023.

#### 20 Subsequent Events

From 1 December 2023 to 19 March 2024, the following Portfolio had movements greater than 25% in Shareholders' Equity:

| Portfolio                         | Currency | % Movement in AUM | % Movement in<br>Performance |
|-----------------------------------|----------|-------------------|------------------------------|
| Multi-Manager US Equity Portfolio | USD      | 25.03%            | 13.75%                       |

There were no other subsequent events to note.

#### 21 Indemnifications

The Fund may enter into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts.

#### 22 Approval of Financial Statements

The Board of Directors approved the audited Annual Financial Statements on 13 March 2024.

#### 23 Cross Sub-Fund investments

As at 30 November 2023, there was no cross sub-fund investment within the Fund.

#### 24 Sustainable Finance Disclosure Regulation ("SFDR")

The EU Sustainable Finance Disclosure Regulation ("SFDR") (Regulation (EU) 2019/2088) has applied since 10 March 2021. Pursuant to Article 11 of SFDR (Transparency of the promotion of environmental or social characteristics and of sustainable investments in periodic reports), Goldman Sachs Asset Management B.V. is required to provide a description of the extent to which environmental or social characteristics have been met with reference to Portfolios providing disclosures pursuant to Article 8(1) of SFDR, and to the extent applicable, Article 9 of SFDR.

In addition, the EU Taxonomy Regulation ("Taxonomy Regulation") (Regulation (EU) 2020/852) establishes a framework for identifying economic activities as environmentally sustainable within the European Economic Area and requires the Portfolios to additionally disclose whether the EU criteria for environmentally sustainable economic activities has been taken into account.

Please see this information disclosed for each of the Portfolios in the Report of the Management Company VI.

The above expense ratios are an average throughout the year to 30 November 2023. The above Expense Caps represent the expense cap levels at year end 30 November 2023.

<sup>(</sup>b) The Total Expense Ratio ("TER") expresses the sum of all costs, commissions and performance fees (excluding dealing commissions and market costs) charged on an ongoing basis to the Portfolios' assets (operating net expenses) taken retrospectively as a percentage of the Portfolios' assets, and is calculated using the following formula:
Total operating net expenses in CU\* /Average portfolios' assets in CU\* x 100 = TER %.
The TER is calculated for the Perfol from 1 December 2022 to 30 November 2023. TER's are annualised for Portfolios operating less than one year.

\* CU = Currency units in the Portfolio's base currency.

<sup>(</sup>c) The expense cap does not include the GSAMI fee portion paid to external Sub-Investment Advisers. <sup>(d)</sup> The expense cap does not include performance fees.

<sup>(</sup>e) An Expense Cap was not applicable for this Share Class as at 30 November 2023.

# Goldman Sachs Funds II Report of the Management Company II—Portfolio Launches, Closures and Mergers (Unaudited) As at 30 November 2023

During the year, the following Portfolio was closed:

| Portfolios                              | Currency | Close Date    |
|---|----------|---------------|
| G Emerging Markets Debt Broad Portfolio | EUR      | 11 April 2023 |

## Goldman Sachs Funds II Report of the Management Company III—Calculation Method Used for Global Exposure (Unaudited) For the Year Ended 30 November 2023

The Undertakings for Collective Investment in Transferable Securities ("UCITS") IV directive, as amended, requires disclosure of how global exposure on financial derivatives investments are managed. There are three management approaches used:

- 1. The Commitment Approach. This approach is generally for those Portfolios that hold less complex positions on financial derivatives investments and for the purposes of hedging or efficient portfolio management.
- Relative Value at Risk ("Relative VaR") approach. This approach is generally for those Portfolios where it is possible to
  identify an appropriate reference benchmark. This method compares the global exposure of the Portfolio relative to that of
  a reference benchmark.
- 3. Absolute Value at Risk ("Absolute VaR") approach. This approach is generally for those Portfolios for which it is not appropriate or possible to determine a reference benchmark (for example, an absolute return portfolio).

The following sections indicate which approach is used for the Portfolios.

For Portfolios managed under a VaR approach, additional information is provided on the VaR model, being the VaR reference Portfolio / Benchmark, the regulatory VaR limit usage and the level of leverage reached.

#### I. Commitment Approach

The following Portfolios use the commitment approach for calculating global exposure:

| Multi-Manager Emerging Markets Equity Portfolio | Multi-Manager Global Equity Portfolio |
|---|---------------------------------------|
| Multi-Manager Europe Equity Portfolio           | Multi-Manager US Equity Portfolio     |
| Multi-Manager US Small Cap Equity Portfolio     |                                       |

#### II. VaR Approach

The following Portfolios use a VaR approach for calculating global exposure:

|   | VaR Regulatory |            | VaR Limit Ut | ilisation as % o<br>VaR Limit <sup>1</sup> | of Regulatory | Reference<br>Portfolio /  |                | Confidence           | Holding | Observation |                       |
|---|----------------|------------|--------------|--|---------------|---|----------------|----------------------|---------|-------------|-----------------------|
| Portfolios  | approach       | Limit      | Lowest       | Highest                                    | Average       | Benchmark   | Model          | Interval             | period  | period      | Leverage <sup>2</sup> |
| Global Multi-Manager<br>Alternatives Artisan Partners                         | Absolute VaR   | 20% of NAV | 5%           | 12%  | 9%            |   | Historical VaR | 95% scaled<br>to 99% | 21 days | 1 year      | 16%                   |
| Global Multi-Manager<br>Alternatives Bardin Hill<br>Arbitrage UCITS           |                |            |              |  |               |   |                | 95% scaled           |         |             |                       |
| Management LP   | Absolute VaR   | 20% of NAV | 3%           | 8%   | 6%            |   | Historical VaR | to 99%               | 21 days | 1 year      | 45%                   |
| Global Multi-Manager<br>Alternatives Crabel Capital<br>Management, LLC        | Absolute VaR   | 20% of NAV | 1%           | 15%  | 5%            |   | Historical VaR | 95% scaled to 99%    | 21 days | 1 year      | 160%                  |
| Global Multi-Manager<br>Alternatives GQG Partners                             | Absolute VaR   | 20% of NAV | 5%           | 10%  | 7%            |   | Historical VaR | 95% scaled<br>to 99% | 21 days | 1 year      | 0%                    |
| Global Multi-Manager<br>Alternatives Longfellow<br>Investment Management Co., |                |            |              |  |               |   |                | 95% scaled           |         |             |                       |

| Income Multi-Sector Bond                  | Absolute Var | 20 /0 OI INAV | 1170   | 45%     | 15%     | G1088)                    | riistoricai var | 3370       | 20 days | i year      | 3370                  |
| Portfolio I                               | Absolute VaR | 20% of NAV    | 8%   | 17%     | 11%     |                           | Historical VaR  | 99%        | 20 days | 1 year      | 635%                  |

The utilisation percentage represents the lowest, highest and average proportion of the maximum limit used in the reporting period. For example a Portfolio with an average utilisation of 25% and a maximum limit of 200% (Relative VaR), represents an average VaR ratio (Portfolio VaR divided by benchmark VaR) of 50%. A Portfolio with an average utilisation of 25% and a maximum limit of 20% (Absolute VaR), represents an average Portfolio VaR of 5%.

<sup>&</sup>lt;sup>2</sup> The sum of notionals approach for financial derivative instruments is used to determine the maximum expected Portfolio leverage. This calculation incorporates the Portfolio's financial derivative instruments, the reinvestment of collateral received (in cash) in relation to operations of efficient portfolio management and any use of collateral in the context of any other operation of efficient portfolio management, e.g. securities lending.

## Goldman Sachs Funds II Report of the Management Company IV—Management Company Annual Report Disclosures (Unaudited) For the Year Ended 30 November 2023

The UCITS management company (the "Company") is required to make available an Annual Report for the financial year for each of its UCITS, containing certain disclosures as set out in Article 69 of the European Commission Directive 2009/65/EU, as amended by Article 1 (13)(b) of the European Commission Directive 2014/91/EU (the "Directive"). The disclosures set out below fulfill the requirements of the Directive.

#### I. Remuneration

The Company has 34<sup>1</sup> staff who are assigned to one or more of the following broad functions and teams: Risk Management, Compliance, Investor Services, Vendor Oversight and Controllers. The Company has outsourced the portfolio management function to GSAMI. The Company has identified staff members whose professional activities have a material impact on the Company's risk profile ("UCITS Identified Staff"), including senior management, risk takers and control function heads.

The following disclosures are made in accordance with the Directive in respect of the Company, which is part of The Goldman Sachs Group, Inc. ("GS Group"). GS Group's global remuneration philosophy, structure and process for setting remuneration generally applies to employees of the Company in the same manner as to other employees globally. References to the "firm" and "we" throughout this disclosure include GS Group and the Company and any subsidiaries and affiliates.

#### a. Remuneration Program Philosophy

The remuneration philosophy and the objectives of the remuneration program for the Company are reflected in the Compensation Policy Statement as adopted by the Board of Directors of the Company, which includes the following:

- 1. We pay for performance this is an absolute requirement under our compensation program and inherent in our culture.
- 2. We structure compensation, especially at senior levels, to align with GS Group's shareholders' long-term interests and the interests of the funds that the firm manages.
- 3. We use compensation as an important tool to attract, retain and motivate talent.
- 4. We align total compensation with corporate performance over the period.

The Company's remuneration program is intended to be flexible enough to allow responses to changes in market conditions, but grounded in a framework that maintains effective remuneration practices.

#### b. Remuneration Governance

The Board of Directors of the Company is responsible for supervising the planning, implementation and revision of the compensation policy of the Company, subject to the oversight of the Compensation Committee of the Board of Directors of GS Group (the "GS Group Compensation Committee"), the ultimate parent of the Company.

The members of the GS Group Compensation Committee at the end of 2022 were Mark O. Winkelman (Chair), M. Michele Burns, Drew G. Faust, Kimberley D. Harris, Kevin R. Johnson, Ellen J. Kullman, Lakshmi N. Mittal, and Adebayo O. Ogunlesi (ex-officio). None of the members of the GS Group Compensation Committee was an employee of the firm. All members of the GS Group Compensation Committee were "independent" within the meaning of the New York Stock Exchange Rules and the firm's Director Independence Policy.

The GS Group Compensation Committee has for several years recognised the importance of using an independent remuneration consultant that is appropriately qualified and that provides services solely to the GS Group Compensation Committee and not to the firm. The Compensation Committee continued to retain an independent remuneration consultant in 2022.

GS Group's global process for setting variable remuneration (including the requirement to consider risk and compliance issues) applies to employees of the Company in the same way as to employees of other entities and in other regions and is subject to oversight by the senior management of the firm in the region.

#### c. Link Between Pay and Performance

Annual remuneration for employees is generally comprised of fixed and variable remuneration. The Company's remuneration practices provide for variable remuneration determinations to be made on a discretionary basis. Variable remuneration is based on multiple factors and is not set as a fixed percentage of revenue or by reference to any other formula. Firmwide performance is a key factor in determining variable remuneration.

## Goldman Sachs Funds II Report of the Management Company IV—Management Company Annual Report Disclosures (Unaudited) For the Year Ended 30 November 2023

#### I. Remuneration (Continued)

#### d. Performance Measurement

Year-end variable remuneration is determined through a discretionary process that relies on certain qualitative and quantitative metrics (amongst other factors) against which we assess performance at year-end. We do not set specific goals, targets or other objectives for purposes of determining year-end variable remuneration nor do we set an initial remuneration pool that is adjusted for any such goals, targets or other objectives. Such metrics are not formulaic nor given any specific weight. In addition, employees are evaluated annually as part of the annual performance review process.

#### e. Risk Adjustment

Prudent risk management is a hallmark of both the firm and the Company's culture and sensitivity to risk and risk management are key elements in assessing employee performance, including as part of the annual performance review process noted above.

We take risk into account in setting the amount and form of variable remuneration for employees. We provide guidelines to assist compensation managers when applying discretion during the remuneration process to promote consistent consideration of the different metrics / factors considered during the remuneration process. Further, to ensure the independence of control function employees, remuneration for those employees is not determined by individuals in revenue-producing positions but rather by the management of the relevant control function.

#### f. Structure of Remuneration

- 1. Fixed Remuneration: Comprised of base salary and, where applicable, role-based allowances.
- 2. Variable Remuneration: For employees with total and variable remuneration above a specific threshold, variable remuneration is generally paid in a combination of cash and equity-based remuneration. In general, the portion paid in the form of an equity-based award increases as variable remuneration increases and, for UCITS Identified Staff, is set to ensure compliance with the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

#### g. Remuneration

Staff remuneration for the financial year ending 31 December 20222:

| Total remuneration for the financial year ending 31 December 2022 paid to staff <sup>3</sup> of the Company and to staff of appointed portfolio management delegate of the Company, in respect of the management of the UCITS | US\$ 2,501,160, made up of:  • US\$ 1,901,578 fixed remuneration  • US\$ 599,582 variable remuneration |
|---|--|
| Which includes:   |  |
| (a) Remuneration paid to senior management  | US\$ 821,868   |
| (b) Remuneration paid to other staff members whose actions have a material impact on the risk profile of the UCITS  | US\$ 1,061,679   |

#### The remuneration figures above:

- 1. represent the proportion of the total remuneration of staff related to the time spent in relation to UCITS work; and
- 2. have not been broken down in relation to each individual UCITS in respect of the Company because staff of the Company provide their services to all UCITS collectively rather than on a UCITS by UCITS basis and therefore such breakdown is not readily available, whereas for delegated portfolio management services provided by GSAMI, the services provided by portfolio managers have been considered on a UCITS by UCITS basis and an estimated split for each UCITS has been incorporated into the calculations above.

<sup>&</sup>lt;sup>1</sup>As of 30 November 2023 in respect of the Company only (excludes staff from the appointed portfolio management delegate)

<sup>&</sup>lt;sup>2</sup> The Goldman Sachs Group, Inc. financial year for remuneration purposes does not align with the UCITS financial year. As such, 2022 remuneration figures are disclosed.

<sup>&</sup>lt;sup>3</sup> Excludes 8 staff of the Company that joined during the course of 2023 and therefore did not receive remuneration for the financial year ending 31 December 2022 as staff of the Company.

The Management Company is required to make available a Annual Report for the financial year for each of its Funds, containing certain disclosures as set out in Article 13 of the European Commission Regulation 2015/2365 on transparency of securities financing transactions and of reuse (the "Regulation"). The disclosures set out below are included to meet the requirements of the Regulation.

#### I. Global Data

Please refer to Note 6 Securities lending for details on the amount of securities lent expressed as an absolute amount, as a proportion of total lendable assets and as a proportion of the Shareholders' Equity.

Please refer to the different Schedule of Investments for details on the amount of Total Return Swap ("TRS") an absolute amount and as a proportion of the Shareholders' Equity.

#### II. Concentration Data

The table below shows the 10 largest issuers of total non-cash collateral received by Portfolio that is outstanding as at 30 November 2023. Please refer to Note 13 for cash collateral information.

| Portfolio                                       | Portfolio currency | Non-cash collateral Issuer  | Market value of collateral received | % of Shareholders'<br>Equity |
|---|--------------------|-----------------------------|-------------------------------------|------------------------------|
| Multi-Manager Emerging Markets Equity Portfolio | USD                | Federal Republic of Germany | 684,601                             | 0.17%                        |
| Multi-Manager Europe Equity Portfolio           | EUR                | Federal Republic of Germany | 2,866,349                           | 0.58%                        |
| Income Multi-Sector Bond Portfolio I            | EUR                | Federal Republic of Germany | 2,348,520                           | 0.91%                        |

The table below shows the top 10 counterparties by Portfolio, across each type of Securities Financing transaction ("SFT") and TRS with respect to outstanding transactions as at 30 November 2023:

| Securities Lending                                 |                    |   |  |                              |  |  |  |  |  |  |

| Income Multi-Sector Bond Portfolio I               | EUR                   | EUR                        | 2,348,520  |   | 2,348,520    |

<sup>1</sup> Total return swaps are typically traded under ISDA master agreements ("ISDAs") which govern various types of swap and FX transactions executed between the Portfolio and each swap counterparty. Under the ISDAs, collateral is calculated daily on an aggregate, net basis across all transactions and therefore, a portion of such collateral is related to derivative transactions which are not in scope for SFTR.

Please refer to Note 6 Securities lending for details on the quality of the non-cash collateral received.

The below table summarises the maturity tenor of the collateral received and pledged by Portfolio across each type of SFT and TRS as at 30 November 2023:

|   |                       |                          | Non Cash<br>collateral<br>Securities<br>Lending  | Cash collateral OTC derivatives <sup>1</sup>                    |              |

For details on settlement and clearing on SFT and TRS please refer to Note 3(d)(ii.5)(c) Swap Contracts and Note 6 Securities lending.

#### III. Transaction Data (Continued)

Collateral is permitted for re-use in certain asset classes as disclosed in the Prospectus. An appropriate cash benchmark is a reliable proxy to estimate returns on the re-use of this collateral.

As detailed in Note 3(c) transaction costs for TRS are not separately identifiable.

As detailed in Note 14 transaction costs for TRS are not separately identifiable.

#### IV. Safekeeping of Collateral

The below table summarises the amount of collateral received by Portfolio, as at 30 November 2023:

| Portfolio                                       | Portfolio<br>currency | Custodian   | Collateral Received<br>Balance |
|---|-----------------------|---|--------------------------------|
| Global Multi-Manager Alternatives Portfolio     | USD                   | State Street Bank International GmbH, Luxembourg Branch | 900,055                        |
| Multi-Manager Emerging Markets Equity Portfolio | USD                   | Bank of New York Mellon Corp.                           | 684,601                        |
| Multi-Manager Europe Equity Portfolio           | EUR                   | Bank of New York Mellon Corp.                           | 2,866,349                      |
| Tactical Tilt Overlay Portfolio                 | USD                   | State Street Bank International GmbH, Luxembourg Branch | 2,050,000                      |
| Income Multi-Sector Bond Portfolio I            | EUR                   | Bank of New York Mellon Corp.                           | 2,348,520                      |

The below table summarises the proportion of collateral pledged by Portfolio, held in segregated accounts or in pooled accounts as at 30 November 2023:

| Portfolio                                   | Counterparty                | % of collateral held in: |                 |       |  |

The following information has been provided in accordance with Article 11 of Regulation (EU) 2019/2088 (the "Sustainable Finance Disclosure Regulation" or "SFDR".) For Portfolios of Goldman Sachs Asset Management ("GSAM") that promoted environmental and/or social characteristics during the reference period, information has been made available via the SFDR regulatory technical standards (RTS) (2022/1288) template.

The disclosures provided below refer to a reference period of 1st December 2022 to 30th November 2023 in alignment to the annual reporting period, unless otherwise stated within the periodic disclosure.

Supplementary information as it pertains to the periodic disclosures provided has been made available below.

#### I Economic Sector and sub-sector classification

The periodic disclosures refer to a combination of sector and sub-sector classification using information from both proprietary sources and third-party data providers.

The investment strategies use the statistical classification of economic activities in the European community, commonly referred to as NACE in which to classify sectors and subsectors.

Information pertaining to sector and sub-sector classifications has been taken as of 30 November 2023. Where Portfolios have closed mid-reference period, the sector and sub-sector classifications have been taken as of the last quarter end before closure date.

#### II Top investments of the financial products

For this reference period, the calculations are based on the average figure using periodic snapshots, such that the figures are representative of the reference period for which they relate to. Where Portfolios have closed mid-reference period, the calculations have been taken as of the last quarter end before closure date. Percentage of assets disclosed in the periodic disclosures may not agree to the schedule of investments in the annual report, primarily due to accrued interests and differences in aggregation methodology of investments.

#### III Asset allocation figures

For this reference period, the calculations are based on the average figure using periodic snapshots, such that the figures are representative of the reference period for which they relate to, unless specifically stated in the periodic disclosure.

#### IV Sustainability indicators

For this reference period, the calculations are based on the average figure using periodic snapshots, such that the figures are representative of the reference period for which they relate to, unless specifically stated in the periodic disclosure. This approach differs to that of the prior reporting period. The performance of indicators contained within the comparative table for 2022 have not been restated to reflect the revised methodology applied for this reference period.

Periodic disclosure for Portfolios that are not subject to Article 8 or Article 9 of SFDR:

| Portfolios                                  | SFDR Category | Taxonomy Regulation  |
|---|---------------|--|
| Global Multi-Manager Alternatives Portfolio | 6 (positive)  | The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities. |

# Goldman Sachs Funds II Report of the Management Company VI—Sustainable Finance Disclosure Regulation ("SFDR") Disclosures (Unaudited) As at 30 November 2023

| Portfolios                             | SFDR Category | Taxonomy Regulation  |
|--|---------------|--|
| Balanced Allocation Portfolio          | 6 (positive)  | The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities. |
| Strategic Factor Allocation Portfolio  | 6 (positive)  | The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities. |
| Tactical Tilt Overlay Portfolio        | 6 (positive)  | The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities. |
| Strategic Volatility Premium Portfolio | 6 (positive)  | The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities. |
| Income Multi-Sector Bond Portfolio I   | 6 (positive)  | The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities. |

Sustainable
investment means an
investment in an
economic activity that
contributes to an
environmental or social
objective, provided that
the investment does not
significantly harm any
environmental or social
objective and that the
investee companies
follow good governance

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability
Indicators measure
how the environmental
or social characteristics
promoted by the
financial product are

The Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consisted of exclusionary screens as set forth below (the "ESG Criteria").

As part of the ESG investment process, the Portfolio has adhered to the ESG Criteria by making no investments in companies that were, in the opinion of the Investment Adviser, directly engaged in, and/or deriving significant revenue from the following activities:

- · controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- · alcohol;
- · adult entertainment;
- for-profit prisons;
- · civilian firearms;
- gambling.

The Portfolio has also excluded from its investment universe companies the Investment Adviser believed to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

Principal adverse impacts are the most significant negative

sustainability factors

environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

#### How did the sustainability indicators perform?

The Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Portfolio were directly engaged in, and/or derived significant revenues from:
- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- · tobacco;
- alcohol;
- · adult entertainment;
- for-profit prisons;
- · civilian firearms;
- gambling
- 0% of the companies in the Portfolio were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

#### ... and compared to previous periods?

| Sustainability Indicator   | November 30, 2022 | November 30, 2023 | Unit |
|--|-------------------|-------------------|------|
| Companies invested in by the Portfolio that were directly engaged in, and/or derived significant revenue from excluded activities  (as outlined above) | 0                 | 0                 | %    |
| Companies violating the United Nations Global Compact's ten principles   | 0                 | 0                 | %    |

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not Applicable

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

104

| PAI CATEGORY   | PAI   |
|----------------|---|
| Mandatory PAIs | <ul> <li>Exposure to companies active in the fossil fuel sector</li> <li>Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</li> <li>Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)</li> </ul> |

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

# Enabling activities directly enable other activities to make a substantial contribution to an environmenal objective. Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- -turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy
- operational expenditure (OpEx) reflecting green operational activities of

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852

# (M)

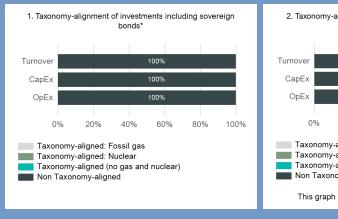

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

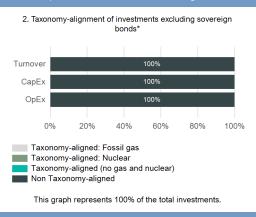

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

□ Yes
□ In fossil gas □ In nuclear energy
☑ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

# What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include derviatives and cash, allocated at the discretion of the underlying managers. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments. These financial instruments were not subject to any minimum environmental or social safeguards.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis. GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy. Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences. Additionally, assessing and promoting effective stewardship among the investee companies represented in the multi-managed Portfolio was a key part of the investment process. Given the multi-manager Portfolio nature, the Investment Adviser assessed the level of active engagement the external managers had with underlying portfolio companies on ESG issues as reflected in each manager's stewardship resources, activities, and reports. On an annual basis a due diligence questionnaire was sent to underlying managers which included questions focused on engagement activities and their results.

#### How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

# Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability
Indicators measure
how the environmental
or social characteristics
promoted by the
financial product are

The Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consisted of exclusionary screens as set forth below (the "ESG Criteria").

As part of the ESG investment process, the Portfolio has adhered to the ESG Criteria by making no investments in companies that were, in the opinion of the Investment Adviser, directly engaged in, and/or deriving significant revenue from the following activities:

- · controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- alcohol;
- · adult entertainment;
- for-profit prisons;
- · civilian firearms;
- · gambling.

The Portfolio has also excluded from its investment universe companies the Investment Adviser believed to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

**Principal adverse** 

**impacts** are the most significant negative

sustainability factors

environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

#### How did the sustainability indicators perform?

The Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Portfolio were directly engaged in, and/or derived significant revenues from:
- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- · tobacco;
- alcohol;
- · adult entertainment;
- for-profit prisons;
- · civilian firearms;
- gambling
- 0% of the companies in the Portfolio were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

#### ... and compared to previous periods?

| Sustainability Indicator   | November 30, 2022 | November 30, 2023 | Unit |
|--|-------------------|-------------------|------|
| Companies invested in by the Portfolio that were directly engaged in, and/or derived significant revenue from excluded activities  (as outlined above) | 0                 | 0                 | %    |
| Companies violating the United Nations Global Compact's ten principles   | 0                 | 0                 | %    |

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not Applicable

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

| PAI CATEGORY   | PAI   |
|----------------|---|
| Mandatory PAIs | <ul> <li>Exposure to companies active in the fossil fuel sector</li> <li>Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</li> <li>Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)</li> </ul> |

#### What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific

Over the reference period, 98.08% of investments were aligned to the environmental and/or social characteristics promoted by this Portfolio.

#### What was the asset allocation?

Over the reference period, 98.08% of investments were aligned to the environmental and/or social characteristics promoted by this Portfolio. 1.92% were held in cash and derivatives. Over the reference period, a minimum of 90% of the Portfolio's investments were consistently aligned to the environmental and/or social characteristics described above.

#### In which economic sectors were the investments made?

| Sector  | Sub Sector   | % of NAV as at<br>November 30, 2023 |
|---|--|-------------------------------------|
| Accommodation and food service activities         | Food and beverage service activities   | 1.05%                               |
| Administrative and support service activities     | Security and investigation activities  | 0.27%                               |
| Construction                                      | Civil engineering  | 2.03%                               |
|   | Construction of buildings  | 0.98%                               |
| Electricity gas steam and air conditioning supply | Electricity gas steam and air conditioning supply                            | 2.68%                               |
| Financial and insurance activities                | Activities auxiliary to financial services and insurance activities          | 0.25%                               |
|   | Financial service activities except insurance and pension funding            | 14.29%                              |
|   | Insurance reinsurance and pension funding except compulsory social security  | 3.67%                               |
| Human health and social work activities           | Human health activities  | 0.47%                               |
| Information and communication                     | Computer programming consultancy and related activities                      | 2.60%                               |
|   | Publishing activities  | 1.16%                               |
|   | Telecommunications   | 1.37%                               |
| Manufacturing                                     | Manufacture of basic metals  | 0.70%                               |
|   | Manufacture of basic pharmaceutical products and pharmaceutical preparations | 11.34%                              |
|   | Manufacture of beverages   | 1.48%                               |
|   | Manufacture of chemicals and chemical products                               | 5.84%                               |
|   | Manufacture of coke and refined petroleum products                           | 2.98%                               |
|   | Manufacture of computer electronic and optical products                      | 5.64%                               |
|   | Manufacture of electrical equipment  | 3.32%                               |

|  | Wholesale trade except of motor vehicles and motorcycles                 | 3.74% |

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other

activities to make a substantial contribution to an environmenal objective. **Transitional activities are** activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- -turnover reflecting the share of revenue from green activities of
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green
- operational
  expenditure (OpEx)
  reflecting green
  operational activities of
  investee companies.

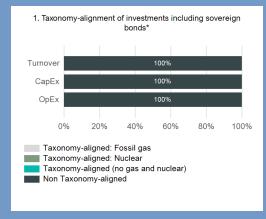

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

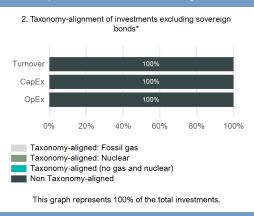

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

|   | Yes           |                   |
|---|---------------|-------------------|
|   | In fossil gas | In nuclear energy |
| × | No            |                   |

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

## What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include derviatives and cash, allocated at the discretion of the underlying managers. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments. These financial instruments were not subject to any minimum environmental or social safeguards.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis. GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy. Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences. Additionally, assessing and promoting effective stewardship among the investee companies represented in the multi-managed Portfolio was a key part of the investment process. Given the multi-manager Portfolio nature, the Investment Adviser assessed the level of active engagement the external managers had with underlying portfolio companies on ESG issues as reflected in each manager's stewardship resources, activities, and reports. On an annual basis a due diligence questionnaire was sent to underlying managers which included questions focused on engagement activities and their results.

#### How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Sustainable
investment means an
investment in an
economic activity that
contributes to an
environmental or social
objective, provided that
the investment does not
significantly harm any
environmental or social
objective and that the
investee companies
follow good governance

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

# Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability
Indicators measure
how the environmental
or social characteristics
promoted by the
financial product are

The Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consisted of exclusionary screens as set forth below (the "ESG Criteria").

As part of the ESG investment process, the Portfolio has adhered to the ESG Criteria by making no investments in companies that were, in the opinion of the Investment Adviser, directly engaged in, and/or deriving significant revenue from the following activities:

- · controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- · alcohol;
- · adult entertainment;
- for-profit prisons;
- · civilian firearms;
- gambling.

The Portfolio has also excluded from its investment universe companies the Investment Adviser believed to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

**Principal adverse** 

**impacts** are the most significant negative

sustainability factors

environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

#### How did the sustainability indicators perform?

The Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Portfolio were directly engaged in, and/or derived significant revenues from:
- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- · tobacco;
- alcohol;
- · adult entertainment;
- for-profit prisons;
- · civilian firearms;
- gambling
- 0% of the companies in the Portfolio were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

#### ... and compared to previous periods?

| Sustainability Indicator   | November 30, 2022 | November 30, 2023 | Unit |
|--|-------------------|-------------------|------|
| Companies invested in by the Portfolio that were directly engaged in, and/or derived significant revenue from excluded activities  (as outlined above) | 0                 | 0                 | %    |
| Companies violating the United Nations Global Compact's ten principles   | 0                 | 0                 | %    |

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not Applicable

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

| PAI CATEGORY   | PAI   |
|----------------|---|
| Mandatory PAIs | <ul> <li>Exposure to companies active in the fossil fuel sector</li> <li>Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</li> <li>Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)</li> </ul> |

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

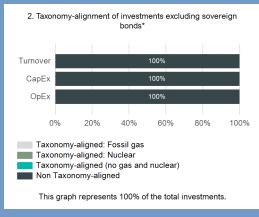

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

|   | Yes           |                   |
|---|---------------|-------------------|
|   | In fossil gas | In nuclear energy |
| × | No            |                   |

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

## What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmenal objective. Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies.

- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include derviatives and cash, allocated at the discretion of the underlying managers. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis. GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy. Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences. Additionally, assessing and promoting effective stewardship among the investee companies represented in the multi-managed Portfolio was a key part of the investment process. Given the multi-manager Portfolio nature, the Investment Adviser assessed the level of active engagement the external managers had with underlying portfolio companies on ESG issues as reflected in each manager's stewardship resources, activities, and reports. On an annual basis a due diligence questionnaire was sent to underlying managers which included questions focused on engagement activities and their results.

How did this financial product perform compared with the reference benchmark?

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

Sustainable
investment means an
investment in an
economic activity that
contributes to an
environmental or social
objective, provided that
the investment does not
significantly harm any
environmental or social
objective and that the
investee companies
follow good governance

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

# Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability
Indicators measure
how the environmental
or social characteristics
promoted by the
financial product are

The Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consisted of exclusionary screens as set forth below (the "ESG Criteria").

As part of the ESG investment process, the Portfolio has adhered to the ESG Criteria by making no investments in companies that were, in the opinion of the Investment Adviser, directly engaged in, and/or deriving significant revenue from the following activities:

- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- · alcohol;
- · adult entertainment;
- for-profit prisons;
- · civilian firearms;
- gambling.

The Portfolio has also excluded from its investment universe companies the Investment Adviser believed to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

Principal adverse impacts are the most significant negative

sustainability factors

environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

#### How did the sustainability indicators perform?

The Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Portfolio were directly engaged in, and/or derived significant revenues from:
- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- · tobacco;
- · alcohol;
- · adult entertainment;
- for-profit prisons;
- · civilian firearms;
- gambling
- 0% of the companies in the Portfolio were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

#### ... and compared to previous periods?

| Sustainability Indicator   | November 30, 2022 | November 30, 2023 | Unit |
|--|-------------------|-------------------|------|
| Companies invested in by the Portfolio that were directly engaged in, and/or derived significant revenue from excluded activities  (as outlined above) | 0                 | 0                 | %    |
| Companies violating the United Nations Global Compact's ten principles   | 0                 | 0                 | %    |

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not Applicable

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

| PAI CATEGORY   | PAI   |
|----------------|---|
| Mandatory PAIs | Exposure to companies active in the fossil fuel sector     Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises     Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) |

| LOWE'S COMPANIES INC.             | Wholesale and retail trade; repair of motor vehicles and motorcycles | 1.39%    | US      |

#### What was the proportion of sustainability-related investments?

Asset allocation

describes the share of investments in specific assets.

Over the reference period, 97.77% of investments were aligned to the environmental and/or social characteristics promoted by this Portfolio.

#### What was the asset allocation?

Over the reference period, 97.77% of investments were aligned to the environmental and/or social characteristics promoted by this Portfolio. 2.23% were held in cash and derivatives. Over the reference period, a minimum of 90% of the Portfolio's investments were consistently aligned to the environmental and/or social characteristics described above.

#### In which economic sectors were the investments made?

| Sector  | Sub Sector   | % of NAV as at<br>November 30, 2023 |
|---|--|-------------------------------------|
| Accommodation and food service activities     | Food and beverage service activities   | 0.52%                               |
| Administrative and support service activities | Office administrative office support and other business support activities   | 2.10%                               |
| Construction                                  | Construction of buildings  | 1.05%                               |
| Financial and insurance activities            | Activities auxiliary to financial services and insurance activities          | 8.12%                               |
|   | Financial service activities except insurance and pension funding            | 2.75%                               |
|   | Insurance reinsurance and pension funding except compulsory social security  | 7.83%                               |

|   | Manufacture of leather and related products                                  | 0.80%                               |
|   | Manufacture of machinery and equipment n.e.c.                                | 4.35%                               |

| Manufacturing  | Manufacture of motor vehicles trailers and semi-trailers                | 2.38% |
|--|---|-------|
|  | Manufacture of other transport equipment                                | 0.97% |
|  | Other manufacturing   | 2.71% |
| Mining and quarrying   | Extraction of crude petroleum and natural gas                           | 0.39% |
|  | Mining of metal ores  | 0.71% |
|  | Other mining and quarrying  | 0.48% |
| Not classified   | Not classified  | 3.17% |
| Professional scientific and technical activities                     | Scientific research and development                                     | 0.48% |
| Real estate activities   | Real estate activities  | 1.15% |
| Transporting and storage   | Land transport and transport via pipelines                              | 1.41% |
| Water supply; sewerage waste management and remediation activities   | Waste collection treatment and disposal activities; materials recovery  | 0.55% |
| Wholesale and retail trade; repair of motor vehicles and motorcycles | Retail trade except of motor vehicles and motorcycles                   | 8.34% |
|  | Wholesale and retail trade and repair of motor vehicles and motorcycles | 2.93% |
|  | Wholesale trade except of motor vehicles and motorcycles                | 0.57% |

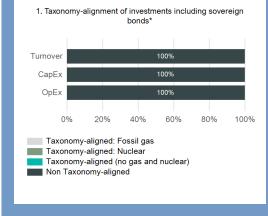

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

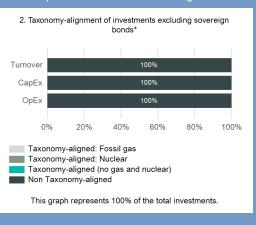

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

|   | Yes           |                   |
|---|---------------|-------------------|
|   | In fossil gas | In nuclear energy |
| × | No            |                   |

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

# Enabling activities directly enable other

activities to make a substantial contribution to an environmenal objective. **Transitional activities are** activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies.

- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green

- operational expenditure (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include derviatives and cash, allocated at the discretion of the underlying managers. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments. These financial instruments were not subject to any minimum environmental or social safeguards.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis. GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy. Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences. Additionally, assessing and promoting effective stewardship among the investee companies represented in the multi-managed Portfolio was a key part of the investment process. Given the multi-manager Portfolio nature, the Investment Adviser assessed the level of active engagement the external managers had with underlying portfolio companies on ESG issues as reflected in each manager's stewardship resources, activities, and reports. On an annual basis a due diligence questionnaire was sent to underlying managers which included questions focused on engagement activities and their results.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability
Indicators measure
how the environmental
or social characteristics
promoted by the
financial product are

The Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consisted of exclusionary screens as set forth below (the "ESG Criteria").

As part of the ESG investment process, the Portfolio has adhered to the ESG Criteria by making no investments in companies that were, in the opinion of the Investment Adviser, directly engaged in, and/or deriving significant revenue from the following activities:

- · controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- · tobacco;
- · alcohol;
- · adult entertainment;
- for-profit prisons;
- · civilian firearms;
- gambling

The Portfolio has also excluded from its investment universe companies the Investment Adviser believed to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

**Principal adverse** 

**impacts** are the most significant negative

sustainability factors

environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

#### How did the sustainability indicators perform?

The Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Portfolio were directly engaged in, and/or derived significant revenues from:
- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- · tobacco;
- alcohol;
- · adult entertainment;
- for-profit prisons;
- · civilian firearms;
- gambling
- 0% of the companies in the Portfolio were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

#### ... and compared to previous periods?

| Sustainability Indicator   | November 30, 2022 | November 30, 2023 | Unit |
|--|-------------------|-------------------|------|
| Companies invested in by the Portfolio that were directly engaged in, and/or derived significant revenue from excluded activities  (as outlined above) | 0                 | 0                 | %    |
| Companies violating the United Nations Global Compact's ten principles   | 0                 | 0                 | %    |

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not Applicable

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

| PAI CATEGORY   | PAI   |
|----------------|---|
| Mandatory PAIs | Exposure to companies active in the fossil fuel sector     Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises     Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) |

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

|   | Yes           |                   |
|---|---------------|-------------------|
|   | In fossil gas | In nuclear energy |
| × | No            |                   |

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management

#### **Enabling activities**

directly enable other activities to make a substantial contribution to an environmenal objective. Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies.

capital expenditure
 (CapEx) showing the

<sup>1</sup>Fossil gas and/or nuclear related activities will only comply 35th the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

green investments
made by investee
companies, e.g. for a
transition to a green

- operational expenditure (OpEx) reflecting green operational activities of investee companies

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU)

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include derviatives and cash, allocated at the discretion of the underlying managers. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments. These financial instruments were not subject to any minimum environmental or social safeguards.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis. GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy. Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences. Additionally, assessing and promoting effective stewardship among the investee companies represented in the multi-managed Portfolio was a key part of the investment process. Given the multi-manager Portfolio nature, the Investment Adviser assessed the level of active engagement the external managers had with underlying portfolio companies on ESG issues as reflected in each manager's stewardship resources, activities, and reports. On an annual basis a due diligence questionnaire was sent to underlying managers which included questions focused on engagement activities and their results.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Sustainable
investment means an
investment in an
economic activity that
contributes to an
environmental or social
objective, provided that
the investment does not
significantly harm any
environmental or social
objective and that the
investee companies
follow good governance

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

As the Portfolio closed on 11th April 2023, the reference period for the purpose of this periodic disclosure is 1st December 2022-11th April 2023.

The Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process as set forth below (the "ESG Criteria") over the reference period. This consisted of: (i) exclusions based on proprietary ESG ratings; (ii) portfolio level targets as set forth below.

The screening process for the Portfolio has excluded government and corporate issuers that have the lowest category of ESG ratings according to the Investment Adviser's proprietary internal scoring system. The Portfolio has achieved a higher environmental score (E-score) relative to the Reference Portfolio/Benchmark.

#### How did the sustainability indicators perform?

The Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

• Over the reference period, the E-score of the Portfolio according to the Investment Adviser's proprietary ESG scoring system for each sovereign issuer was 2.20. The E-score of the Reference Portfolio/Benchmark was 2.26. However, as the reference period includes dates for which the Portfolio was in liquidation, and therefore deviating away from its ESG commitments, these figures are not representative of the way in which the sustainability indicator performed up until the point at which the Portfolio commenced liquidation. Until this time, the Portfolio's E-score was consistently higher than the Reference Portfolio/Benchmark.

#### ... and compared to previous periods?

| Sustainability Indicator          | November 30, 2022 | April 11, 2023 | Unit |
|-----------------------------------|-------------------|----------------|------|
| Corporate issuers with an ESG     | 0                 | Not Applicable | %    |
| rating of less than or equal to 1 |                   |                |      |

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

| ,  | Portfolio: 2.20<br>Benchmark: 2.26* | E-score |
|--|-------------------------------------|---------|
| (in relation to the Reference Portfolio/Benchmark) | *Please see above                   |         |

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not Applicable

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

| PAI CATEGORY               | PAI   |
|----------------------------|---|
| Mandatory PAIs             | <ul> <li>Green house gas emissions</li> <li>Carbon footprint</li> <li>Green house gas intensity of investee companies</li> <li>Unadjusted gender pay gap</li> </ul>   |
| Non-mandatory Climate PAIs | <ul> <li>Emissions to inorganic pollutants</li> <li>Emissions of air pollutants</li> <li>Emissions of ozone depletion substances</li> <li>Investing in companies without carbon emission reduction initiatives</li> <li>Water usage and recycling</li> <li>Deforestation</li> </ul> |

#### What were the top investments of this financial product?

| Largest investments | Sector  | % Assets | Country |
|---------------------|---|----------|---------|
|                     | Public administration and defence; compulsory social security | 0.09%    | RU      |

Whilst the Portfolio closed on 11th April, the Portfolio commenced liquidation as of the 12th December 2022. Therefore the top investments, as shown above, are not representative of how the Portfolio was managed in accordance with its ESG commitments prior to commencing liquidation.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2022-12-01 / 2023-04-11

#### Asset allocation

describes the share of investments in specific assets

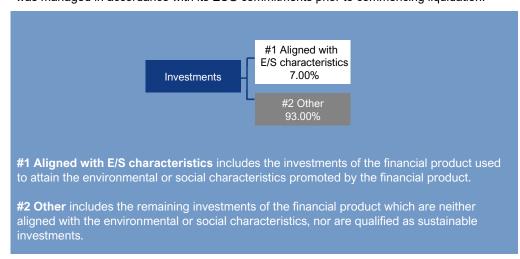

#### What was the proportion of sustainability-related investments?

Over the reference period, 7% of investments were aligned to the environmental and/or social characteristics promoted by this Portfolio.

#### What was the asset allocation?

Over the reference period, 7% of investments were aligned to the environmental and/or social characteristics promoted by this Portfolio. 93% were held in cash and/or derivatives, mutual funds, collateralised securities, fixed income securities issued by companies and issuers for which data was lacking.

Whilst the Portfolio closed on 11th April, the Portfolio commenced liquidation as of the 12th December 2022. Therefore the asset allocation figures, as shown above, are not representative of how the Portfolio was managed in accordance with its ESG commitments prior to commencing liquidation.

#### In which economic sectors were the investments made?

| Sector  |   | % of NAV as at<br>April 11, 2023 |
|---|---|----------------------------------|
| Cash  | Cash  | 2.02%                            |
| Derivatives   | Forward   | 0.41%                            |
| No NACE data available  | No NACE data available  | 97.53%                           |
| Public administration and defence; compulsory social security | Public administration and defence; compulsory social security | 0.04%                            |

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management

Enabling activities directly enable other activities to make a substantial contribution to an environmenal objective. Transitional

activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- -turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

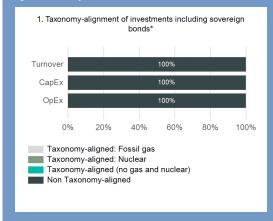

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

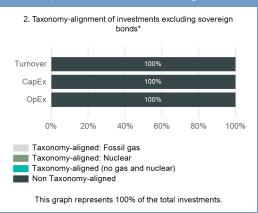

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

|   | Yes           |                   |
|---|---------------|-------------------|
|   | In fossil gas | In nuclear energy |
| × | No            |                   |

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

## What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include cash for liquidity purposes, derivatives, cash, mutual funds, collateralised securities and fixed income securities issued by companies for efficient portfolio management purposes and issuers for which data is lacking. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments. These financial instruments were not subject to any minimum environmental or social safeguards.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis. GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy. Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences. Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Portfolio was a key part of the investment process. The Investment Adviser has engaged with corporate issuers in this Portfolio that the Investment Adviser believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Investment Adviser is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. The Investment Adviser has engaged with sovereign issuers in this Portfolio that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Investment Adviser is permitted to invest in a sovereign issuer prior to or without engaging with such sovereign issuer. The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Investment Adviser believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects. The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagements, the Global Stewardship Team creates an annual Focus List, which reflects thematic priorities and guided voting and engagement efforts and included environmental, social and governance matters that were considered to be principal in terms of potential adverse impacts.

#### How did this financial product perform compared with the reference benchmark?

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

# Goldman Sachs Funds II Additional Information (Unaudited)

#### **Offering Documents**

This material is provided at your request for informational purposes only and does not constitute a solicitation in any jurisdiction in which such a solicitation is unlawful or to any person to whom it is unlawful. It only contains selected information with regards to the Fund and does not constitute an offer to buy shares in the Fund. Prior to an investment, prospective investors should carefully read the latest Key Investor Information Document (KIID) as well as the offering documentation, including but not limited to the Fund's prospectus which contains inter alia a comprehensive disclosure of applicable risks. The relevant articles of association, prospectus, supplement, KIID and latest annual/semi-annual report are available free of charge from the Fund's paying and information agent and/or from your financial adviser.

#### **Distribution of Shares**

Shares of the Fund may not be registered for public distribution in a number of jurisdictions (including but not limited to any Latin American, African or Asian countries). Therefore, the shares of the Fund must not be marketed or offered in or to residents of any such jurisdictions unless such marketing or offering is made in compliance with applicable exemptions for the private placement of collective investment schemes and other applicable jurisdictional rules and regulations.

#### **Investment Advice and Potential Loss**

Financial advisers generally suggest a diversified portfolio of investments. The Fund described herein does not represent a diversified investment by itself. This material must not be construed as investment or tax advice. Prospective investors should consult their financial and tax adviser before investing in order to determine whether an investment would be suitable for them. An investor should only invest if he/she has the necessary financial resources to bear a complete loss of this investment.

Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur.

#### **Index Benchmarks**

References to indices, benchmarks or other measures of relative market performance over a specified period of time are provided for your information only and do not imply that the portfolio will achieve similar results. The index composition may not reflect the manner in which a portfolio is constructed. While an adviser seeks to design a portfolio which reflects appropriate risk and return features, portfolio characteristics may deviate from those of the benchmark.

#### **Confidentiality**

No part of this material may, without Goldman Sachs' prior written consent, be (i) copied, photocopied or duplicated in any form, by any means, or (ii) distributed to any person that is not an employee, officer, director, or authorised agent of the recipient.
