Goldman Sachs Funds II Investment Adviser's Report For the Period Ended 31 May 2024

Dear Shareholders:

Enclosed is the report for the six months ended 31 May 2024.

A. Market Review¹

Despite several potential obstacles, the global economy continued to expand during the reporting period. In its April 2024 *World Economic Outlook Update*, the International Monetary Fund (the "IMF") slightly increased its global growth projection, saying "Economic activity was surprisingly resilient through the global disinflation of 2022–23. As global inflation descended from its mid-2022 peak, economic activity grew steadily, defying warnings of stagflation and global recession. Growth in employment and incomes held steady, reflecting supportive demand developments—including greater-than-expected government spending and household consumption—and a supply-side expansion amid, notably, an unanticipated boost to labor force participation. The unexpected economic resilience, despite significant central bank interest rate hikes aimed at restoring price stability, also reflects the ability of households in major advanced economies to draw on substantial savings accumulated during the pandemic. Risks to the global outlook are now broadly balanced." From a regional perspective, the IMF projects 2024 GDP growth in the U.S. will be 2.7% (versus 2.5% in 2023), 0.8% in the eurozone (versus 0.4% in 2023), 0.5% in the UK (versus 0.1% in 2023), and 0.9% in Japan (versus 1.9% in 2023).

Against this backdrop, global equities produced strong results. In the U.S., the market rallied given signs that the Federal Reserve ("Fed") may orchestrate a "soft economic landing" and corporate profits were largely positive. This offset persistent inflation that may cause the Fed to hold rates "higher for longer." Several geopolitical events also impacted investor sentiment. For the six-months ended 31 May 2024, the S&P 500 Index returned 16.11%. Equities outside the U.S. also moved higher, as inflation moderated and there were hopes that a number of central banks would lower interest rates to stimulate their economies. All told, international developed equities, as measured by the MSCI EAFE Index (net), gained 12.76%, while emerging markets equities, as measured by the MSCI Emerging Markets Index (net), returned 7.45%.*

The overall global fixed income market posted a modest gain over the reporting period. After aggressively raising interest rates to combat high inflation, the Fed, the European Central Bank, the Bank of England, and several other central banks held rates steady during the reporting period and indicated they may lower rates as the year progresses. In the U.S., both short-and long-term U.S. Treasury yields moved higher. Longer-term government yields in other developed countries also increased. For the six-months ended 31 May 2024, the Bloomberg Global Aggregate Bond Index and the Bloomberg U.S. Aggregate Bond Index returned 0.72% and 2.12%, respectively. Riskier fixed income securities posted stronger results. The U.S. high-yield bond market, as measured by the Bloomberg U.S. Corporate High Yield—2% Issuer Cap Index, gained 5.41%, whereas the emerging market debt asset class, as measured by the JPMorgan EMBI Global Index, returned 6.03% during the six-months ended 31 May 2024.*

Goldman Sachs Funds II

Notes to the Financial Statements

For the Period Ended 31 May 2024

1 Organisation

Goldman Sachs Funds II (“the Fund”) was incorporated on 20 November 2007 under the laws of the Grand Duchy of Luxembourg as a “Société d’Investissement à Capital Variable” (“SICAV”), for an unlimited period of time. The Fund is registered in accordance with Part I of the Law of 17 December 2010, as amended and has appointed Goldman Sachs Asset Management B.V. (“GSAMBV”) on 1 November 2023 to be its Management Company. GSAMBV is authorised and regulated by the Dutch Authority for the Financial Markets (AFM), and is a wholly owned subsidiary of The Goldman Sachs Group, Inc.

Refer to Note 6 for details of functions the Management Company has delegated.

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch, (the “Depositary”) to act as the Depositary of the Fund’s assets.

As at 31 May 2024, the Fund is comprised of ten different portfolios (“the Portfolios”).

As at 31 May 2024, the Fund offered shares in the Portfolios as detailed in Report of the Management Company I.

2 Investment Objective Policies

The primary investment objectives of the Portfolios are detailed in the Prospectus and in the relevant Supplements of the Prospectus.

3 Significant Accounting Policies

(a) Basis of Preparation of Financial Statements

The financial statements of the individual Portfolios are presented in their base currency. The Board of Directors considers that the Portfolios’ base currency most accurately represents the economic effects of the underlying transactions, events and conditions of the Portfolios.

The financial statements have been prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds. The financial statements have been prepared on a going concern basis (except for the Portfolios where an intention to liquidate or to cease operations has been taken by the Board of Directors) as the Directors are of the view that the Fund can continue in operational existence for the foreseeable future.

The preparation of financial statements requires the Board of Directors to make estimates and assumptions that may affect the amounts reported in the financial statements and accompanying notes. Refer to the Statement of Assets and Liabilities and Note 4 where the Board of Directors was required to make certain estimates and assumptions to determine value. Actual results may differ from those estimates.

3 Significant Accounting Policies (Continued)

(b) Investment Transactions, Related Investment Income and Operating Expenses

Investment transactions are recorded on a trade date basis plus one in accounting. Realised gains and losses are based on the Weighted Average Cost Method. Dividend income and dividend expense are recorded on the ex-dividend date and interest income and interest expense are accrued over the life of the investment. Interest income includes accretion of market discount, original issue discounts and amortisation of premiums and is recorded into income over the life of the underlying investment. Interest income and dividend income are recognised on a gross basis before withholding tax, if any.

Operating expenses are recognised on an accrual basis.

(c) Transaction Costs

Transaction costs are recognised in the Statement of Operations as part of net change in unrealised gain/(loss) on investment securities and net realised gain/(loss) on investment securities. Depository based transaction costs are included in 'Depository fees' in the Statement of Operations.

Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. For these investments, transaction costs are included in the purchase and sales price and are part of the gross investment performance of each Portfolio.

(d) Financial Investment in Securities and Valuation

i. Recognition and Derecognition

The Portfolios recognise financial assets and financial liabilities on the date they become a party to the contractual provisions of the investment. Purchases and sales of financial assets and financial liabilities are recognised using trade date plus one accounting. From trade date plus one, any gains and losses arising from changes in value of the financial assets or financial liabilities are recorded in the Statement of Operations.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Portfolio has transferred substantially all risks and rewards of ownership.

ii. Value Measurement Principles

The value of all securities and derivatives is determined according to the following policies:

(ii.1) Exchange Listed Assets and Liabilities

The value of exchange traded financial investments, including transferable securities admitted to an official exchange listing or dealt in on any other regulated market that operates regularly, which comprise Common Stocks, Bonds, Real Estate Investment Trusts, Warrants, Mutual Funds, Preferred Stocks, Options, Contracts for Difference and Futures Contracts, are valued based upon quoted market prices at the period end date without any deduction for estimated future transaction costs.

(ii.2) Debt Securities

Debt securities, comprising Bonds are valued at mid or bid depending on fund methodology, by third party pricing service providers without any deduction for estimated future transaction costs.

When a debt security has been identified as being in default, the interest accrual on the defaulted security may be stopped, and upon confirmation from relevant parties, the amount receivable may be written off.

(ii.3) Certificates of Deposit and Money Market Investments

Certificates of Deposit, Commercial Papers and Money Market Investments are valued at mid by third party service providers, or where such pricing service is unavailable, at amortised cost which approximates market value.

3 Significant Accounting Policies (Continued)

(d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

(ii.4) Shares in Collective Investment Schemes

The value of investments in open-ended investment funds, comprising Mutual Funds, are valued based upon the official net asset values per share as at the last available date as supplied by the funds, in accordance with the valuation policy of the applicable fund as outlined in its prospectus.

(ii.5) Derivatives

A derivative is an instrument whose value is derived from an underlying instrument, index reference rate or a combination of these factors. Derivative instruments may be privately negotiated contracts which are often referred to as over the counter ("OTC") derivatives or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments or commodities at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount.

Derivative contracts are stated at market value and recognised as assets and liabilities in the Statement of Assets and Liabilities. Gains and losses resulting from the change in the market value are reflected in the Statement of Operations as a component of net change in unrealised gain/(loss). Realised gains or losses are recorded on termination or from periodic cash flow payments.

(ii.5) (a) Option Contracts

The Portfolios may enter into exchange traded and OTC option contracts with various counterparties. When the Portfolio purchases an option, an amount equal to market value which is based on the premium paid is recorded as an asset, the value of which is marked-to-market daily. When the Portfolio writes an option, an amount equal to market value which is based on the premium received by the Portfolio is recorded as a liability and is adjusted to the market value of the option written on each valuation date.

When options are closed, the difference between the premium and the amount paid or received, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is treated as realised gain or loss. The exercise of an option written by the Portfolio could result in the Portfolio buying or selling a financial instrument at a price different from the current market value.

The fair value of an OTC contract is determined by using counterparty supplied valuations, an independent pricing service or valuation models which use market data inputs supplied by a third party pricing service, and is typically valued at mid. Exchange traded options are valued based on the exchange settlement/last sale prices, or, if the last settlement price is not available for any reason, at the midpoint of the bid and ask prices (or, in the absence of two-way trading, at the last bid price for long positions and the last ask price for short positions), or independent market quotes provided by a pricing service or counterparty.

(ii.5) (b) Futures Contracts

Futures contracts are contracts to buy or sell a standardised quantity of a specified commodity, security or index and are valued based on exchange settlement/last sale prices, last bid or ask prices on the exchange, or independent market quotes. Initial margin deposits, in either cash or securities, are required to trade in the futures market. Unrealised gains or losses on futures contracts are recognised to reflect the market value of the contracts and are included as a component of the unrealised gains or losses on the Portfolio's Statement of Operations. Variation margin is received or paid, depending on whether unrealised gains or losses are incurred. When the contract is terminated, the Portfolio will recognise a realised gain or loss equal to the difference between the value of the contract at the time it was entered into and the time it is closed.

(ii.5) (c) Swap Contracts

Swaps, comprising Interest Rate Swaps and Total Return Swaps, can be linked to any number of underlying investments and indices, and swap terms can vary greatly. Cash flows are exchanged based on the underlying. Upfront payments, which represent a risk premium, are amortised or accreted over the contract term. Swap

(ii.5) Derivatives (Continued)

(ii.5) (c) Swap Contracts (Continued)

agreements are carried at market value, typically valued at mid, and the value of the swap agreement is based on a counterparty provided price, third party pricing service or valuation model. The model considers various inputs including the market value of the underlying, the risks associated with the underlying and the specific terms of the contract. In connection with these agreements, securities or cash may be identified as collateral or margin in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency. This collateral or margin is primarily denominated in base currency, and is paid from the custody account to the broker.

For the period ended 31 May 2024, collateral related to total return swaps was pledged in the form of cash and non-cash. Please refer to Note 13 and to Report of the Management Company III for more information.

Total return swaps and more specifically OTC derivative transactions are entered into by the Portfolio under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Portfolio and a counterparty that governs OTC derivative transactions (including total return swaps) entered into by the parties.

All returns from OTC derivative transactions will accrue to the Portfolio and are not subject to any returns sharing agreement with the Portfolio's manager or any other third parties.

(ii.5) (d) Contracts for Difference

Contracts for difference are contracts entered into between a broker and the Portfolio under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place. In contracts for difference the unrealised appreciation/(depreciation) is disclosed in the Statement of Assets and Liabilities under "unrealised gain on contracts for difference" and "unrealised loss on contracts for difference". Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations respectively under "Net realised gain/(loss) on contracts for difference" and "Net change in unrealised gain/(loss) on contracts for difference". The value of contracts for difference will be based on the value of the underlying assets and vary similarly to the value of such underlying assets. Contracts for difference will be valued at market value.

(ii.5) (e) Forward Foreign Currency Contracts

In a forward foreign currency contract, the Portfolio agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. Purchases and sales of forward foreign currency contracts having the same notional value, settlement date and counterparty and right to settle net are generally offset (which result in a net foreign currency position of zero with the counterparty) and any realised gains or losses are recognised on trade date plus one.

Forward foreign currency contracts are valued at mid by third party pricing service providers.

(ii.6) All Securities and Derivatives

If a quoted market price is not available from a third party pricing service or a dealer, or a quotation is believed to be materially inaccurate, the market value of the investment is determined by using valuation techniques. Valuation techniques include the use of recent market transactions, reference to the current market value of another investment that is substantially the same, discounted cash flow analyses or any other techniques that provides a reliable estimate of prices obtained in actual market transactions. Such securities and derivatives shall be valued at their fair value as determined by the Valuer. Please refer to Note 4 for further details.

3 Significant Accounting Policies (Continued)

(d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

(ii.6) All Securities and Derivatives (Continued)

The investments have been valued in accordance with Luxembourg generally accepted accounting principles that may require the use of certain estimates and assumptions to determine value. Although these estimates and assumptions are based on the best available information, actual results could be materially different from these estimates.

Refer to Note 4 for securities where the Valuer was used to determine fair value.

(e) Cash

Cash is valued at cost, which approximates market value.

(f) Due from/to Brokers

Due from brokers consists primarily of cash receivable for collateral from the Portfolios' clearing brokers and various counterparties. Due to brokers consists primarily of cash payable for collateral to the Portfolios' clearing brokers and various counterparties.

Due from/to broker balances are valued at cost, which approximates market value. Refer to Note 13 for further details.

(g) Foreign Currency Translation

The books and records of all Portfolios are maintained in their base currency. Please refer to Report of the Management Company I for the base currency of each Portfolio. Transactions in foreign currencies are translated at the foreign currency exchange rate in effect at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into the base currency at the foreign currency closing exchange rate in effect at the period end date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of assets and liabilities are recognised in the Statement of Operations. Foreign currency exchange gains or losses relating to investments, derivative financial investments, and all other foreign currency exchange gains or losses relating to monetary items, including cash and cash equivalents, are reflected in the net realised gain/(loss) or net change in unrealised gain/(loss) in the Statement of Operations.

(h) Expenses

Expenses incurred by the Fund that do not specifically relate to an individual Portfolio or Share Class of a Portfolio are allocated to the Portfolios based on an allocation basis that depends upon the nature of the charges. Expenses directly attributable to a Portfolio or Share Class are generally charged to that Portfolio or Share Class.

(i) Income Equalisation Arrangements

Income equalisation arrangements may be applied in some or all of the Portfolios of the Fund. Where they are applied, these arrangements are intended to ensure that the income per share which is distributed or deemed distributed in respect of a distribution period is not affected by changes in the number of shares in issue during that period, and the amount of the first distribution received by a Shareholder in an impacted Portfolio following the purchase of shares in that Portfolio will represent partly participation in income received by the Portfolio and partly a return of capital (the "equalisation amount"). The equalisation amounts are included within the proceeds from shares issued and the payment for shares redeemed in the Statement of Changes in Shareholders' Equity.

(j) Swing Pricing

On any Business Day the Management Company in consultation with its appointed delegate, Goldman Sachs Asset Management International ("GSAMI") as Investment Adviser, in conformity with guidelines established by the Board of Directors, may determine to apply swing pricing (to include such reasonable factors as they see fit) to the net asset value per share. This method of net asset value calculation is intended to pass the estimated

Goldman Sachs Funds II Notes to the Financial Statements For the Period Ended 31 May 2024

3 Significant Accounting Policies (Continued)

(j) Swing Pricing (Continued)

costs of underlying investment activity of the Portfolio to the active Shareholders by adjusting the net asset value of the relevant share and thus to protect the Portfolio's long-term Shareholders from costs associated with ongoing redemption and subscription activity. This is processed as a capital adjustment.

Swing pricing may take account of trading spreads on the Portfolio's investments, the value of any duties and charges incurred as a result of trading and may include an estimate of market impact. Where GSAMI, based on the prevailing market conditions and the level of subscriptions or redemptions requested by Shareholders or potential Shareholders in relation to the size of the relevant Portfolio, have determined for a particular Portfolio to apply swing pricing, the Portfolio's net asset value may be valued either on a bid or offer basis.

Because the determination of whether to value the Portfolio's net asset value on a bid or offer basis is based on the net transaction activity of the relevant day, Shareholders transacting in the opposite direction of the Portfolio's net transaction activity may benefit at the expense of the other Shareholders in the Portfolio. In addition, the Portfolio's net asset value and short-term performance may experience greater volatility as a result of this swing pricing.

Investors should be aware that, the factor used to apply swing pricing ("swing factor") will under normal conditions not exceed 2% of the net asset value per share of the relevant Share Class of the Portfolio, unless otherwise stated in the relevant Supplement. Notwithstanding the above, where exceptional circumstances (including, but not limited to, widening bid offer spreads often as a result of high market volatility and/or illiquidity, exceptional market conditions market disruptions) the Management Company, in consultation with the Board of Directors, may decide, in the best interest of Shareholders and in respect of any particular Portfolio and on any Business Day, to apply a swing factor which is above 2%. Shareholders will be informed on such decision via a notice and/or a publication posted on www.gsam.com. The swing factor applied to individual Portfolios will be reviewed by the Investment Adviser on a periodic basis in order to verify their appropriateness in light of prevailing market conditions.

The following Portfolios are able to apply swing pricing:

Global Multi-Manager Alternatives Portfolio	Multi-Manager US Small Cap Equity Portfolio
Multi-Manager Emerging Markets Equity Portfolio	Balanced Allocation Portfolio
Multi-Manager Europe Equity Portfolio	Strategic Factor Allocation Portfolio
Multi-Manager Global Equity Portfolio	Tactical Tilt Overlay Portfolio
Multi-Manager US Equity Portfolio	Strategic Volatility Premium Portfolio

The reversal of the swing net asset calculation method presented in the Statement of Changes in Shareholders' Equity represents the reversal of the amount applied as at 30 November 2023.

Refer to the Statement of Assets and Liabilities and the Statement of Changes in Shareholders' Equity for the Portfolios that applied swing pricing as at 31 May 2024.

4 Valuation Determined by the Valuer

The Valuer is appointed by the Management Company. The Valuer also has direct responsibilities to the Board of Directors for certain valuation functions, which are ultimately reflected in the financial statements. The Valuer during the period ended 31 May 2024 was Goldman Sachs & Co. LLC and the valuation function was performed by Goldman Sachs Controllers Division ("Controllers").

The following table sets forth the assets where the Valuer was used to determine the fair value as at 31 May 2024:

As at 31 May 2024				
Portfolios	Currency	Number of Assets valued	Value	% of Shareholders' Equity
Global Multi-Manager Alternatives Portfolio	USD	4	485,750	0.37%
Multi-Manager Emerging Markets Equity Portfolio	USD	9	660,770	0.19%

Goldman Sachs Funds II Notes to the Financial Statements For the Period Ended 31 May 2024

4 Valuation Determined by the Valuer (Continued)

As at 31 May 2024				
Portfolios	Currency	Number of Assets valued	Value	% of Shareholders' Equity
Multi-Manager Global Equity Portfolio	USD	3	6,071	0.00%
Multi-Manager US Small Cap Equity Portfolio	USD	1	2,373	0.00%

Securities traded on certain Asia Pacific/Middle Eastern exchanges may utilise international equity adjusted prices provided by an independent third party pricing service in order to more accurately reflect the value of securities traded on markets which are closed at the valuation point.

The independent valuation service takes into account multiple factors including, but not limited to, movements in the securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of the foreign securities exchange. These investments are not included in the above table.

5 Taxation

Taxation – Luxembourg

The Fund is not liable for any Luxembourg tax on profits or income. However, the Fund is liable in Luxembourg to an annual subscription tax (taxe d'abonnement) of 0.05% per annum. The taxable basis of the subscription tax is the aggregate net assets of the Fund as valued on the last day of each quarter. This rate is however 0.01% per annum for each of the following:

- undertakings whose exclusive object is the collective investment in Money Market Instruments and the placing of deposits with credit institutions;
- undertakings whose exclusive object is the collective investment in deposits with credit institutions; and
- individual compartments of undertakings for collective investment ("UCI") with multiple compartments referred to in the law dated 17 December 2010, as amended, as well as for individual classes of securities issued within a UCI or within a compartment of a UCI with multiple compartments, provided that the securities of such compartments or classes are reserved to one or more institutional investors.

Taxation – Belgium

The Fund may incur a liability to subscription tax at the rate of 0.0925% in respect of subscriptions made through intermediaries situated in Belgium to the extent that net shares are outstanding as of 31 December of the previous year.

Taxation – General

Each Portfolio may be subject to taxation on capital gains, interest and dividends in certain jurisdictions in which each Portfolio invests. It is the policy of each Portfolio to accrue for any such taxes on dividends and interest when the dividend is declared or interest is earned. At each valuation date, taxation on realised and unrealised appreciation of securities may be accrued for at statutory rates.

Prospective investors should consult their own taxation advisers regarding the tax implications of investing in the Fund in relation to their own individual circumstances as they may differ from the general statements that appear above.

6 Significant Agreements and Related Parties

Management Company

As outlined in Note 1, the Fund appointed GSAMBV, a wholly-owned subsidiary of The Goldman Sachs Group, Inc., as its Management Company.

The Portfolios pay the Management Company an annual fee which shall be accrued daily and generally paid monthly in arrears.

6 Significant Agreements and Related Parties (Continued)

Investment Adviser and Investment Sub-Advisers

The Management Company has appointed GSAMI (the “Investment Adviser”), a related party to the Fund, as its delegate to provide portfolio management services.

GSAMI has entered into sub-delegation agreements with each of the following affiliated Investment Sub-Advisers:

- Goldman Sachs Asset Management, L.P.
- Goldman Sachs Asset Management (Hong Kong) Ltd.
- Goldman Sachs Asset Management (Singapore) Pte. Ltd.
- Goldman Sachs Asset Management Co., Ltd.
- Goldman Sachs Hedge Fund Strategies, LLC
- Goldman Sachs International

GSAMI has entered into sub-advisory agreements with each of the following external Investment Sub-Advisers (“the External Managers”):

Portfolios	External Managers*
Global Multi-Manager Alternatives Portfolio	Artisan Partners Bardin Hill Arbitrage UCITS Management LP Crabel Capital Management LLC GQG Partners Mesirow TCW Investment Management Company LLC Wellington Management Company LLP
Multi-Manager Emerging Markets Equity Portfolio	Axiom International Investors LLC J O Hambro Capital Management Ltd. Wellington Management Company LLP
Multi-Manager Europe Equity Portfolio	ELEVA Capital LLP Mandarine Gestion Wellington Management International Ltd.
Multi-Manager Global Equity Portfolio	Baillie Gifford & Co. Intermede Investment Partners Sanders Capital LLC Strategic Global Advisors LLC
Multi-Manager US Equity Portfolio	Diamond Hill Investments Fiera Capital Corporation Westfield Capital Management Co. LLC
Multi-Manager US Small Cap Equity Portfolio	Boston Partners Brown Advisory Victory Capital Management, Inc. Westfield Capital Management Co. LLC

* None of these investment advisers are an affiliate of GSAMI. As compensation for the services rendered under the Investment Advisory Agreement, GSAMI receives a fee, payable monthly, at an annual rate. A portion of the Investment Adviser’s fees may be remitted to the Investment Sub-Adviser.

Expense Cap

GSAMI has voluntarily agreed to limit total expenses in respect of certain Portfolios and certain Share Classes. Therefore, to the extent that total ordinary expenses would exceed the expense cap, GSAMI has voluntarily agreed to bear any actual operating expenses that exceed any expense cap, either directly by waiving a portion of its fees or by reimbursement to the account of the relevant Share Class. The Investment Adviser may, in its sole discretion, designate which expenses of the Fund will be subject to any such expense cap imposed by the Investment Adviser. The expense cap does not include the GSAMI fee portion paid to external Investment Sub-Advisers. There is no guarantee that the existence or level of these expense caps will continue in the future and no obligation on the part of GSAMI to agree to limit total expenses in this way. In addition, the Portfolios are not obliged to reimburse GSAMI for prior financial year expense reimbursement, if any.

6 Significant Agreements and Related Parties (Continued)

Expense Cap (Continued)

Details of advisory fee rates and the expense caps as at 31 May 2024 are detailed in Report of the Management Company I.

Directors' Remuneration

Ms. Grainne Alexander and Ms. Sophie Mosnier are independent Directors and have no executive function with the Investment Adviser or its affiliated companies. The Fund pays each independent Director an annual fee for their services as a Director of the Fund. For the period ended 31 May 2024, the total Directors' fees amounted to USD 31,015.

Mr. Jonathan Beinner, Mr. Dirk Buggenhout, Mr. Jan Jaap Hazenberg and Ms. Hilary Lopez are affiliated with the Investment Adviser and receive no compensation from the Fund.

Performance Fees

GSAMI is entitled to a performance fee on certain Share Classes of the Portfolios. For the Global Multi-Manager Alternatives Portfolio the performance fee accrues daily and is paid annually out of the assets attributable to each applicable Share Class. The performance fee is equal to 10% of the amount by which the Class NAV per share exceeds such Class' Benchmark Value per share, as defined within the Prospectus.

There were no performance fees charged to any Share Classes of the mentioned Portfolio for the period ended 31 May 2024.

Fees earned on other Goldman Sachs Funds

To the extent permitted by applicable law and the terms of the Prospectus, any Portfolio may invest all or some of its short term cash investments in any money market fund advised or managed by Goldman Sachs and may invest in other investment funds advised or managed by Goldman Sachs (together "Goldman Sachs Funds"). Subject to applicable law and the terms of the Prospectus, the Fund may be required to bear its proportionate share of any fees (including investment advisory and management fees) applicable to its investment in such investment funds.

For further details on investments into other Goldman Sachs Funds please refer to the Schedule of Investments.

All Portfolios invested in the Goldman Sachs Funds were invested in non-investment advisory fee bearing share classes. As a result, for the period ended 31 May 2024, there were no investment advisory fees earned on each Portfolio's investment in the Goldman Sachs Funds.

Commissions

In the normal course of its operations, each Portfolio may enter into transactions on securities or futures contracts with the Goldman Sachs Funds or other Goldman Sachs affiliates (together "Goldman Sachs Affiliates"). For the period ended 31 May 2024, the following transactions were entered into with Goldman Sachs Affiliates with total brokerage commissions paid to Goldman Sachs Affiliates being split between commissions related to security transactions and futures contracts:

** All portfolio futures transactions disclosed in this table were effected through Goldman Sachs.

For all the remaining Portfolios there were no transactions with Goldman Sachs Affiliates, for the period ended 31 May 2024.

All such transactions with Goldman Sachs Affiliates were entered into in the ordinary course of business and on normal commercial terms.

Securities Lending

The securities lending agent is Goldman Sachs Agency Lending (“GSAL”), an affiliate of Goldman Sachs. Approved borrowers of GSAL may include Goldman Sachs International (“GSI”), an affiliate of the Investment Adviser, as well as other third parties. The Portfolios may lend portions of investments to third parties. In return, the Portfolios receive a fee that is negotiated for each transaction. The Portfolios receive G-10 (excluding Italy, Japan and the United States) government securities as collateral against the securities loaned. G-10 is made of eleven industrial countries (Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden, Switzerland, the United Kingdom and the United States) which consult and co-operate on economic, monetary and financial matters. This collateral is maintained over the life of the loan for an amount not less than 105% of the value of lent securities, with any subsequent margin posted in the form of the aforementioned government securities or cash. In general, loans may be effected through the intermediary of prime financial institutions that specialise in such activities and in the way specified by them.

Collateral received by the Portfolios in the form of G-10 (excluding Italy, Japan and the United States) government securities or cash, denominated in their respective currencies, is held by the appointed tri-party collateral manager in segregated accounts.

8 Distributions

The Fund intends that substantially all the net investment income, if any, of each Portfolio will be declared as a dividend and paid at least annually to the Shareholders of the Distribution Share Classes of the Portfolios. Net capital and currency gains realised on each Portfolio's investments and/or capital attributable to certain Share Classes may also be distributed to Shareholders of certain Distribution Share Classes of the Portfolios.

Generally no distributions will be paid in respect of the Accumulation Share Classes.

Please refer to the Prospectus for further details about distribution policies.

9 Financial Investments and Associated Risks

The Fund's investing activities expose it to various types of risks that are associated with the financial investments and markets in which it and its underlying Portfolios invest (the "Investment Risks"). The Board of Directors has appointed the Management Company to be responsible for, among other things, investment management and risk management. The Management Company has delegated certain investment management functions to the Investment Adviser.

The main types of financial risks which the Fund is exposed to are market risk, liquidity risk and credit risk. The Prospectus provides details of these and other types of risk some of which are additional to that information provided in these financial statements.

The risk management policies employed in relation to the Fund are outlined below:

(a) Market Risk

The potential for changes in the market value of the Fund's underlying Portfolios' investments is referred to as market risk. Commonly used categories of market risk include currency risk, interest rate risk and other price risk.

- (i) Currency risks may result from exposures to changes in spot prices, forward prices and volatilities of currency rates.
- (ii) Interest rate risks may result from exposures to changes in the level, slope and curvature of the various yield curves, the volatility of interest rates, mortgage prepayment speeds and credit spreads.

9 Financial Investments and Associated Risks (Continued)

(a) Market Risk (Continued)

- (iii) Other price risks are the risk that the value of an investment will fluctuate as a result of changes in market prices other than those arising from currency risk or interest rate risk and may result from exposures to changes in the prices and volatilities of individual equities, equity baskets, equity indices, and commodities.

The Fund's market risk strategy is driven by the Fund's underlying Portfolios' investment risk and return objectives.

Market risk is managed through the application of risk budgeting principles. The Investment Adviser determines an appropriate risk target, commonly referred to as Tracking Error, employing a risk budgeting framework.

(i) Currency Risk

The Fund may invest in financial investments and enter into transactions denominated in currencies other than its Portfolios' base currency. Consequently, the Fund may be exposed to risk that the exchange rate of its base currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than the base currency.

When an investor invests into a Share Class which is in a different currency to the base currency of the Portfolio in which it invests, the currency risk of the investor will be different to the currency risk of the Portfolio.

(ii) Interest Rate Risk

The Fund may invest in fixed income securities and interest rate swaps contracts. Any change to relevant interest rates for particular securities may result in the Investment Adviser being unable to secure similar returns upon the expiry of contracts or the sale of securities. In addition, changes to prevailing interest rates or changes in expectations of future rates may result in an increase or decrease in the value of the securities held. In general, if interest rates rise, the value of fixed income securities will decline. A decline in interest rates will in general, have the opposite effect. All fixed income securities and floating rate securities, together with their interest rate and maturity date are disclosed in the Schedule of Investments. The Fund may invest in instruments in desired currencies at fixed, floating and zero rates of interest.

(iii) Other Price Risk

Other price risk is the risk that the value of a financial investment will fluctuate as a result of changes in market prices, other than those arising from currency risk or interest rate risk whether caused by factors specific to an individual investment, its issuer or any factor affecting financial investments traded in the market.

The Fund's financial investments are carried at market value with market value changes recognised in the Statement of Operations, all changes in market conditions will directly affect Shareholders' Equity.

(b) Liquidity Risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Among other things liquidity could be impaired by an inability to access secured and/or unsecured sources of financing, an inability to sell assets or unforeseen outflows of cash or collateral or violations of counterparty or prime broker terms or covenants. This situation may arise due to circumstances outside of the Fund's control, such as a general market disruption or an operational problem affecting the Fund or third parties. Also, the ability to sell assets may be impaired if other market participants are seeking to sell similar assets at the same time.

The redemption of Shares of a Portfolio may be temporarily suspended, or deferred, by the Board of Directors or the Management Company on behalf of the Fund upon certain circumstances, and where it is deemed in the best interests of Shareholders.

Goldman Sachs Funds II Notes to the Financial Statements For the Period Ended 31 May 2024

9 Financial Investments and Associated Risks (Continued)

(b) Liquidity Risk (Continued)

As of 31 May 2024, the Fund participated in a USD 300,000,000 committed, unsecured revolving line of credit facility (the “facility”) together with other sub-funds of Goldman Sachs Funds SICAV and Goldman Sachs Lux Investment Funds. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on a reference rate related to the drawn currency (e.g. Federal Funds Rate). The facility also requires a fee to be paid by the Fund based on the amount of the commitment that has not been utilised. For the period ended 31 May 2024, the Fund did not have any borrowings under the facility.

(c) Credit Risk

Credit and counterparty risk is the risk that one party to a financial investment will cause a financial loss for the other party by failing to discharge an obligation.

Procedures have been adopted to reduce credit risk related to the Fund’s dealings with counterparties. Before transacting with any counterparty, the Investment Adviser or its affiliates evaluate both credit-worthiness and reputation by conducting a credit analysis of the party, their business and reputation. The credit risk of approved counterparties is then monitored on an ongoing basis, including periodic reviews of financial statements and interim financial reports as needed.

(d) Additional Risks

(i) Sustainability Risk

Sustainability risk is defined in Article 3 of Regulation (EU) 2019/2088 (the “Sustainable Finance Disclosure Regulation”) as an environmental, social or governance event or condition, that if it occurs, could cause an actual or a potential material negative impact on the value of the investment.

Additional details of risks not disclosed in these Financial Statements can be found in the Prospectus.

10 Exchange Rates

The following exchange rates were used to convert amounts from local share class currencies to base Portfolios’ currencies, for the period ended 31 May 2024:

15 Prospectus

As at 31 May 2024, the latest Prospectus of the Fund was issued in November 2023.

16 Cross Liabilities

In accordance with Luxembourg law, each Portfolio is “ring-fenced” and considered to constitute a single pool of assets and liabilities, so that the rights of Shareholders and creditors in relation to each Portfolio should be limited to the assets of that Portfolio.

17 Contingent Liabilities

There were no contingent liabilities as at 31 May 2024.

18 Subsequent Events

There were no subsequent events to note.

**Goldman Sachs Funds II

^(a) Refer to Note 6.

^(b) The Total Expense Ratio ("TER") expresses the sum of all costs, commissions and performance fees (excluding dealing commissions and market costs) charged on an ongoing basis to the Portfolios' assets (operating net expenses) taken retrospectively as a percentage of the Portfolios' assets, and is calculated using the following formula:

$$\frac{\text{Total operating net expenses in CU}^*}{\text{Average portfolios' assets in CU}^*} \times 100 = \text{TER} \%$$

The TER is calculated for the Period from 1 December 2023 to 31 May 2024. TER's are annualised for Portfolios operating less than one year.
* CU = Currency units in the Portfolio's base currency.

^(c) The expense cap does not include the GSAMI fee portion paid to external Sub-Investment Advisors.

The above expense ratios are an average throughout the period to 31 May 2024. The above Expense Caps represent the expense cap levels at period end 31 May 2024.

Goldman Sachs Funds II Report of the Management Company III—Securities Financing Transactions Regulation (“SFTR”) Disclosures For the Period Ended 31 May 2024

The Management Company is required to make available a Semi-Annual Report for the financial period for each of its Funds, containing certain disclosures as set out in Article 13 of the European Commission Regulation 2015/2365 on transparency of securities financing transactions and of reuse (the “Regulation”). The disclosures set out below are included to meet the requirements of the Regulation.

I. Global Data

Please refer to Note 6 Securities lending for details on the amount of securities lent expressed as an absolute amount, as a proportion of total lendable assets and as a proportion of the Shareholders’ Equity.

Please refer to the different Schedule of Investments for details on the amount of Total Return Swap (“TRS”) an absolute amount and as a proportion of the Shareholders’ Equity.

II. Concentration Data

The table below shows the 10 largest issuers of total non-cash collateral received by Portfolio that is outstanding as at 31 May 2024. Please refer to Note 13 for cash collateral information.

Portfolio	Portfolio currency	Non-cash collateral Issuer	Market value of collateral received	% of Shareholders’ Equity
Multi-Manager Emerging Markets Equity Portfolio	USD	Government of Netherlands	212,100	0.06%
Multi-Manager Europe Equity Portfolio	EUR	Government of Netherlands	10,166,677	1.72%

^(a) The Total Expense Ratio ("TER") expresses the sum of all costs, commissions and performance fees (excluding dealing commissions and market costs) charged on an ongoing basis to the Portfolios' assets (operating net expenses) taken retrospectively as a percentage of the Portfolios' assets, and is calculated using the following formula:
Total operating net expenses in CU / Average portfolios' assets in CU * 100 = TER %.
The TER is calculated for the Period from December 31, 2023 to 31 May 2024. TERs are annualised for Portfolios operating less than one year.
* CU = Currency units in the Portfolio's base currency.

^(b) Refer to Appendix I.

The above expense ratios are an average throughout the year to 31 May 2024.

Goldman Sachs Funds II Additional Information

Offering Documents

This material is provided at your request for informational purposes only and does not constitute a solicitation in any jurisdiction in which such a solicitation is unlawful or to any person to whom it is unlawful. It only contains selected information with regards to the Fund and does not constitute an offer to buy shares in the Fund. Prior to an investment, prospective investors should carefully read the latest Key Information Document (KID) as well as the offering documentation, including but not limited to the Fund's prospectus which contains inter alia a comprehensive disclosure of applicable risks. The relevant articles of association, prospectus, supplement, KID and latest annual/semi-annual report are available free of charge from the Fund's paying and information agent and/or from your financial adviser.

Distribution of Shares

Shares of the Fund may not be registered for public distribution in a number of jurisdictions (including but not limited to any Latin American, African or Asian countries). Therefore, the shares of the Fund must not be marketed or offered in or to residents of any such jurisdictions unless such marketing or offering is made in compliance with applicable exemptions for the private placement of collective investment schemes and other applicable jurisdictional rules and regulations.

Investment Advice and Potential Loss

Financial advisers generally suggest a diversified portfolio of investments. The Fund described herein does not represent a diversified investment by itself. This material must not be construed as investment or tax advice. Prospective investors should consult their financial and tax adviser before investing in order to determine whether an investment would be suitable for them. **An investor should only invest if he/she has the necessary financial resources to bear a complete loss of this investment.**

Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur.

Index Benchmarks

References to indices, benchmarks or other measures of relative market performance over a specified period of time are provided for your information only and do not imply that the portfolio will achieve similar results. The index composition may not reflect the manner in which a portfolio is constructed. While an adviser seeks to design a portfolio which reflects appropriate risk and return features, portfolio characteristics may deviate from those of the benchmark.

Confidentiality

No part of this material may, without Goldman Sachs' prior written consent, be (i) copied, photocopied or duplicated in any form, by any means, or (ii) distributed to any person that is not an employee, officer, director, or authorised agent of the recipient.
